LAND OPEN FOR SELECTION.

Department of Lands and Surveys,
Perth, 17th September, 1915.

IT is hereby notified, for general information, that the areas scheduled hereunder will be made available for selection under "The Land Act, 1898," and its amendments, on and after the dates set out in said schedule. The selector of a Homestead Farm from any location available under Part VIII. must take the balance thereof under Conditional Purchase, and a selector of a portion of any location available under Part VI. must take the balance of same under Grazing Lease Conditions.

The lands marked with an asterisk are available under Part VI.

Applications must be lodged at the Local Land Office for the district in which the land is situated.

Any application may be lodged before the fixed date, but will be treated as having been received on that day; if there are more applicants than one for any lot the application to be granted will be determined by the Land Board, and should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, after the closing of the date for receiving applications, notice will be given in the *Government Gazette* and at least one newspaper advising the applicants for the blocks of the date, time, and place of the meeting of the Board, to deal with the matter; but it shall not be obligatory on the Department to give any other notice.

If an applicant wishes to appear before the Land Board in person, he may apply to the Head Office or to the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department, which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket, at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue.

Land specified as carrying an Agricultural Bank advance which is situated within 15 miles of a railway or authorised railway is available subject to the special conditions that an expenditure of not less than one-fourth of the amount set out shall be made on prescribed improvements in each of the first four years of the lease; but this shall not release the holder from any covenant in the Agricultural Bank Mortgage requiring the improvements to be made at an earlier date. Such advance is subject to the usual conditions governing a loan from the Agricultural Bank, particulars of which may be had on application to the Managing Trustee. HIS Excellency the Governor in Executive Council has been pleased to approve of the following By-laws under the provisions of "The Cemeteries Act, 1897" (61st Vict., No. 23), and of "The Cemeteries Act, 1899" (63rd Vict., No. 38), for the management of the Trayning Public Cemetery (Reserve 15718).

R. CECIL CLIFTON,
Under Secretary for Lands.

PUBLIC CEMETERY, TRAYNING.

By-laws.

BY virtue of all powers in that behalf vested in the Trustees of the Public Cemetery, Trayning, the said Trustees make the following By-laws:—

1. All fees and charges payable to the Trustees, as set forth in the Schedule A, shall be paid at the times and manner therein mentioned.

2. Any person desiring to inter any dead body in the cemetery shall make an application to the Trustees. Upon such application being approved by the Trustees, and upon payment of the prescribed fees, they shall cause to be issued to the person so applying an order for burial.

3. All applications for interment shall be made at lease eight working hours prior to the time fixed for burial. An extra charge shall be made for applications within such time. No free interment shall be allowed unless the application, together with the Justice's order therefor, be handed in in such time as to allow of at least eight working hours as above.

4. The Trustees shall cause all graves to be dug, and vaults, brick graves, or graves to be re-opened as and when required.

5. Before any interment is allowed the "Order for burial" shall be handed to and retained by the grave-digger.

6. Every grave shall be at least 6 feet deep, and no interment shall be allowed in any grave with a less depth than 4 feet 6 inches from the top of the coffin to the original surface of the surrounding ground.

7. In the case of an application for interment in any private grave or vault to which the deceased had no claim during life, the written and verified consent of the grantee shall be handed in with the application.

8. No burial shall be allowed to take place in the cemetery unless a certificate from a District Registrar of deaths that the death has been registered, or a Coroner's order for burial is handed to the Trustees.

9. The hours for burial shall be as follows:—

1st September to 30th April—Week days, from 8 a.m. to 6 p.m.; Sundays, from 2 p.m. to 6 p.m.

1st May to 31st August—Week days from 8 a.m. to 5 p.m.; Sundays, from 2 p.m. to 5 p.m.;

and no burial shall be allowed to take place, nor any coffin allowed to enter the cemetery at any other hour except by written permission of the Trustees.

10. The time fixed for any burial shall be the time at which the funeral is to arrive at the cemetery gates, and such time shall be rigidly and punctually observed.

11. No hearse, mourning coach, or other vehicle shall enter the cemetery, or proceed except at and by such roads as directed by the officer of the Trustees from time to time. Any driver or other person failing or neglecting to observe such directions commits an offence against these By-laws.

12. Children under the age of ten years entering the cemetery must be in charge of some responsible person.

13. It shall be unlawful for any person to smoke within the cemetery, or to discharge any fireworks therein.

14. No dogs shall be allowed within the cemetery, and any person taking a dog into the cemetery commits an offence against these By-laws.

16. No person shall promote, or advertise, or carry on within the cemetery any trade, business, or calling, either by solicitation, distribution of circulars, by cards,

or otherwise, or by any other system of advertisement whatsoever.

17. No person employed by or under the Trustees shall accept any gratuity whatever, nor shall he be pecuniarily interested in any work in the cemetery other than the remuneration he receives from the Trustees; and any such person proved guilty of accepting any gratuity or being pecuniarily interested in any such work shall be liable to summary dismissal.

18. Any person requiring an "Exclusive right of burial" in any part of the cemetery shall apply to the Trustees, in writing, specifying the location of the grave and whether it is proposed to erect a brick grave or vault, and in such case submitting plans and specifications of the proposed work. Such application shall also state the names of any already deceased persons whose remains it is proposed to inter therein.

19. Subject to the By-laws, the Superintendent shall exercise a general supervision and control over all matters pertaining to the cemetery, including the conduct of all funerals and interments within the cemetery.

20. Upon being satisfied of the matters aforesaid, and of the suitability of the said work, plans and specifications, the Trustees may authorise the construction and erection thereof; or, if no work is to be done, may issue a "Grant" in the Form "E" in the Schedule.

21. Upon the completion of the work aforesaid, the Trustees may, if and when such work is done to their complete satisfaction, issue a "Grant" in the Form "E" in the Schedule.

22. Every "Grant" shall be subject to the By-laws for the time being, and no interment in any such grave or vault shall be allowed unless upon production of the "Order for burial" aforesaid, nor shall any such grave or vault be opened, unless with the written consent of the Trustees.

23. Every coffin placed in any such bricked grave or vault shall be bricked in, cemented, and covered with a slab of stone, slate, or iron, unless special written exemption be obtained from the Trustees.

24. If application be made for an "Order for burial" in any grave or vault of the remains of any person other than the person to whom grant was issued, or his registered assign, the written and verified consent of such grantee or assignee shall be produced.

REGULATIONS UNDER THE COAL MINES REGULATION ACT, 1902.

Department of Mines,
3516/13. Perth, 15th September, 1915.

HIS Excellency the Governor, with the advice of the Executive Council, has been pleased to make the following additional Regulation by virtue of the powers conferred under Sections 65 and 76 of "The Coal Mines Regulation Act, 1902."

PHILIP COLLIER,
Minister for Mines.

PART V.—SURVEY AND PLANS OF MINES.

66. The "accurate plan" to be kept in accordance with Section 38 of the Act shall be made in accordance with the following conditions, viz.:—

(1.) The surveys shall be made and the plans drawn by a licensed surveyor of the State of Western Australia.

(2.) The surveys shall be made with instruments of precision, as prescribed in the Survey Regulations for land surveys, or with special mining instruments of equal accuracy to these. All surveys shall be made to the true meridian, using as a datum the bearings of the boundaries shown on the plan of the lease.

(3.) True bearings shall be carried from such boundaries into the underground workings by an accurate method, and shall be carried on throughout the survey of the underground workings.

(4.) When there are workings on two or more coal seams lying one over another, the surveys of the underground workings on each seam shall be connected, wherever practicable, by direct measurements and bearings taken through any connecting openings.

(5.) All distances measured in main lines of the survey traverses and in shafts shall be measured by means of accurately divided steel bands which have been compared with standard measured lines and found to be correct. Steel wires may be used for deep shaft measurements. Offset measurements from the main traverse lines not exceeding 100 feet in length may be measured by means of tapes of good quality.

(6.) Accurate levels shall be taken throughout the workings in sufficient quantity to enable the level of every point therein to be estimated accurately from the plans. The reduced levels shall be shown on the plans of all intersections of main travelling and working ways.

(7.) The traverses through adjoining groups of workings shall be connected with one another by direct bearings and measurements as often as is reasonably practicable, so that the whole survey may be made up of series of closed traverses linked together.

(8.) Every traverse shall be calculated to meridian and perpendicular, and shall show no closing error greater than 1 in 2,000. Copies of the traverse sheets shall be sent to the Minister together with the copies of plans and sections.

(9.) The drawings to be supplied to the Minister shall include:—

(a.) An accurate plan of all the underground workings on each seam of coal worked in the mine, to a scale of not less than one inch to two chains, and having the reduced levels shown upon it in legible figures, indicating the points at which they have been taken. The plan shall show also the position, direction, and extent of every known fault, and the amount of the vertical throw thereof, and of every known washout, intrusive dyke, or other break in the continuity of the seams, and the depths of all shafts, and of all connecting passages between higher and lower seams.

(b.) A tracing on tracing linen of good quality of a plan of the surface above the underground workings, drawn to the same scale as the plan of the underground workings, and showing all streets, roads, buildings, creeks, rivers, bays, swamps, navigable waters and depths of same, and limits of any tidal waters, also position and depth of any bore holes.

(c.) Vertical sections of all bore-holes and shafts, showing all strata passed through, drawn to a scale sufficient to show all details clearly, and vertical sections of all seams cut in shafts or bore-holes drawn to a scale of one inch to one foot.

(10.) The Minister, or the officer authorised by him, may require information on any matter connected with the instruments and methods used in making the surveys, and may, if he think fit, call for a copy of all the field-notes used, and such information and copies shall be supplied to him forthwith.

(11.) The plans shall show the true shape and dimensions of all underground excavations projected upon a horizontal plane.

(12.) The drawings required under (a) and (c) of clause (9) foregoing may be tracings on tracing linen or sun prints on good paper; those under (b) of clause (9) must be tracings on tracing linen. All drawings shall be sent to the Minister rolled on suitable rollers and shall not be folded.

(13.) All copies of plans, sections, traverse sheets, and field notes shall be certified to be correct by writing on the face thereof signed by the Surveyor making the surveys.
