

48. Description and Scope of Licenses

- (1) The Corporation may grant a water supply plumber's license operative in the areas to which these by-laws apply, excluding areas open for sewerage connections within a sewerage area or district constituted under the *Country Towns Sewerage Act 1948*, to a plumber who satisfies the Corporation that he is a competent water supply plumber and is a fit and proper person to hold the license.
- (2) A person who applies to the Corporation for a water supply plumber's license may be required by the Corporation to submit to examinations in the theory and practice of plumbing work.

[(3) repealed]
