

**33. Safety net**

- (1) The Master of every vessel occupying any Berth must cause a proper safety net to be suspended beneath the gangway.
- (2) While a vessel is loading or unloading cargo at any wharf the Master must cause a safety net or save-all of such a size and character to be suspended at such place or places as will prevent cargo from falling into the water.
- (3) A Master who contravenes this by-law commits an offence.
