

**5. Importation of boar semen from other parts of the Commonwealth**

A person shall not import boar semen into this State unless it is accompanied by —

- (a) a certificate of identification provided by the consignor, setting out —
  - (i) the name and address of the property or licensed premises of origin;
  - (ii) the identification and breed of each donor boar; and
  - (iii) the number of doses from each donor boar;
- (b) a certificate from the District Veterinary Officer for the district of the State or Territory from which the semen will be imported certifying whether the property or premises from which the semen is being directly introduced is licensed under legislation controlling the artificial breeding of stock in that State or Territory.
