Inland water requirements²

(6) The Joint Venturers shall from time to time give to the State not less than six months notice in the form required by the Minister in respect of their requirements of water other than for construction purposes both at the

(9) The Joint Venturers shall make application to the State for a licence to draw water up to the amount and at a rate not greater than that set forth in the last notice given pursuant to subclause (6) of this Clause from suitable subterranean water sources identified pursuant to the search and investigation mentioned in subclause (7) of this Clause and as are agreed to be adequate and the State shall grant to the Joint Venturers such licence PROVIDED HOWEVER that should such sources should prove hydrologically inadequate to meet the Joint Venturers' inland water requirements, the State may limit the amount of water which may be taken from such sources at any one time or from time to time to the maximum which such sources are hydrologically capable of meeting.

Revocation of licence²

(10) If during the currency of a licence granted under the provisions of this Clause the Minister is of the opinion that it is desirable that the sources of water licensed to the Joint Venturers and the water works established by the Joint Venturers pursuant to subclause (8) of this Clause be made available to the State for such purposes, *inter alia* as water conservation, water management, utilisation of unused hydrological capacity, supply of water to third parties (where such supply will not materially prejudice the Joint Venturers' operations hereunder) and establishment of a regional water supply system incorporating the area of operations of the Joint Venturers, the Minister shall, (after first affording the Joint Venturers an opportunity to consult with him), so notify the Joint Venturers and the Joint Venturers shall after the expiration of six months from the date of such notice relinquish to the State the ownership control and operation of the water works. The State shall thereupon assume the ownership control and operation of the water works and shall revoke all relevant licenses previously issued to the Joint Venturers for the purpose of enabling them to draw subterranean water. Surface water²

(15) Without prejudice to the provisions of subclause (9) of this Clause the Joint Venturers shall collaborate with the State in an investigation of surface water catchments storage dams and reticulation facilities should water supplies from available underground sources prove insufficient to meet the Joint Venturers' coastal water requirements and the Joint Venturers' inland water requirements and the Joint Venturers shall if they propose to utilise such water catchments and/or storage dams pay to the State a sum or sums to be agreed towards the cost of such investigation and towards the cost of constructing any water storage dam or dams and reticulation facilities required PROVIDED THAT the State may in its sole discretion elect to construct a water storage dam or dams and reticulation facilities having a capacity in excess of that required to supply the Joint Venturers' needs and in that event the Joint Venturers' contribution shall be limited to a fair and reasonable proportion of the total cost of constructing such water storage dam or dams and reticulation facilities.

The State undertakes that in such event the Joint Venturers shall for their purposes hereunder have first call on the power generated and transmitted by such electricity facilities so acquired and the State undertakes subject only to its inability to supply power for any of the reasons set forth in Clause 39 to supply the Joint Venturers with power for their purposes hereunder up to the normal continuous full load capacity of the electricity facilities so acquired and that in the event of such inability to supply power occurring the State shall take all possible steps to restore such supply regardless of the time or day when such inability arises and may call upon the Joint Venturers to provide employees for that purpose at the State's expense.

Schedule 1

Charges for electricity²

(4) In the event of the State acquiring the Joint Venturers' electricity facilities the Joint Venturers shall pay to the Commission the cost of all electricity supplied to the Joint Venturers by the Commission at a rate equal to the standard tariff from time to time applying to the Commission's system less the difference (if any) between the Commission's standard tariff in force at the time of the State's acquisition of the electricity facilities and the Joint Venturers' costs of operating the electricity facilities (including *inter alia* appropriate capital charges) at the time of the said acquisition. The Commission's rate for electricity supplied calculated as aforesaid shall apply only in respect of an amount of electricity equal to the continuous full load capacity of the electricity facilities so acquired and the Joint Venturers shall pay for all electricity supplied to them by the Commission in excess of such amount at the Commission's standard tariff applicable from time to time.

Bulk supply to State²

(5) Should the Joint Venturers' relevant approved proposal provide for the Commission to reticulate electricity to houses occupied by the Joint Venturers' work-force and by any other persons connected directly with the Joint Venturers' operations whether employees or not and to commercial establishments directly connected with such operations, the Joint Venturers shall sell to the Commission in bulk electricity in sufficient quantities to meet the needs of such workforce persons and establishments at a price equal to the Joint Venturers' actual cost of generating and transmitting such electricity including, *inter alia*, appropriate capital charges.

- (a) the plant to be of such design and dimensions that it will progressively have the capacity to process annually —
 - (i) by the end of Year 12 — not less than five hundred thousand tonnes of iron ore;
 - (ii) by the end of Year 13 — not less than one million tonnes of iron ore;
 - (iii) by the end of Year 16 — not less than two million tonnes of iron ore;
- (b) the capital cost involved to be not less than forty million dollars unless the Joint Venturers utilise a less expensive but at least equally satisfactory method of secondary processing of iron ore than any at present known to either party.

Consideration of proposals²

(2) If such detailed proposals are submitted by the Joint Venturers to the Minister within the time mentioned in subclause (1) of this Clause the Minister shall within two months of the receipt thereof give to the Joint Venturers notice either of his approval of the said proposals or of any objections he has or alterations he desires thereto. In the latter case the Minister shall afford the Joint Venturers an opportunity to consult with and to submit new or further proposals to him and if within thirty days after receipt of such notice agreement is not reached as to the said proposals the Joint Venturers may within a further period of thirty days by notice to the State elect to refer to arbitration as hereinafter provided any question as to the reasonableness of the Minister's decision. If by the award on the arbitration the question is decided in favour of the Joint Venturers the Minister shall be deemed to have approved of the said proposals as submitted by the Joint Venturers.

- (b) if by the end of Year 13 the State gives to the Joint Venturers notice that some other company or party (hereinafter referred to as “the Third Party”) has agreed to establish within the said State a plant for secondary processing of iron ore from the mineral lease on terms not more favourable on the whole to the Third Party than those proposed by or available to the Joint Venturers hereunder then this Agreement shall (subject as hereinafter provided) cease and determine at the end of Year 21 or at the date on which the Third Party shall substantially establish the said plant in accordance with terms agreed between the State and the Third Party whichever date is the later;
- (c) if by the end of Year 13 the State has not given to the Joint Venturers a notice pursuant to the provisions of paragraph (b) of this subclause then the provisions of paragraph (a) of this subclause shall as from the end of Year 13 cease to operate and have effect;

Submission of proposals after Year 10²

(4) Notwithstanding the provisions of subclause (3) of this Clause the Joint Venturers may nevertheless at any time after the end of Year 10 submit proposals for the establishment of the said plant if at the time they have not received a notice pursuant to the provisions of paragraph (b) of the subclause (3) of this Clause and the provisions of subclause (2) of this Clause shall apply to such proposals but the Joint Venturers may not submit such proposals between the end of Year 10 and the end of Year 21 if during that time they receive notice from the Minister that he is negotiating with the Third Party and such notice is not subsequently withdrawn. In the event of negotiations between the Minister and the Third Party being terminated the Minister shall withdraw such notice.

Schedule 1

Failure not a default²

(5) Notwithstanding anything contained herein the failure by the Joint Venturers to submit proposals to the Minister pursuant to subclause (1) of this Clause or the non-approval by the Minister of any proposals so submitted shall not constitute a breach of this Agreement by the Joint Venturers but subject as herein otherwise provided the only consequence arising from such failure or non-approval will be that set out in subclause (3) of this Clause.

Provisions applying to proposals²

(6) Subject as in this Clause otherwise provided the provisions of Clauses 7, 8 and 9 shall apply *mutatis mutandis* to detailed proposals made pursuant to this Clause.

34. (1) The Joint Venturers shall in due course during the continuance of this Agreement investigate the feasibility of establishing an integrated iron and steel industry within the said State and shall by the end of Year 20 (or within such extended time as the Minister may allow) submit to the Minister detailed proposals —

EITHER for the establishment of such an industry, to be capable ultimately of producing one million tonnes of steel per annum on the following basis —

- (a) the extent dimension design and construction thereof to be such that will permit the same having the capacity to produce progressively annually —
 - (i) by the end of Year 25 — not less than five hundred thousand tonnes of processed products consisting of pig iron, foundry iron and steel of which not less than two hundred and fifty thousand tonnes shall be steel;
 - (ii) by the end of Year 29 — not less than one million tonnes of processed products of which not less than five hundred thousand tonnes shall be steel;
 - (iii) by the end of Year 31 — not less than one million tonnes of processed product which shall be comprised entirely of steel;
- (b) the capital cost involved to be not less than one hundred million dollars unless the Joint Venturers utilise a less

expensive but at least equally satisfactory method of production than any at present known to either of the parties.

OR for joining with an existing or proposed iron and steel making venture within the said State to produce steel pursuant to an agreement with the State on a basis that the Joint Venturers' obligations in that venture are not less than the Joint Venturers' obligations referred to in the first alternative in this subclause.

(2) If before the end of Year 20 such proposals are submitted by the Joint Venturers to the Minister the State shall within two months of the receipt thereof give to the Joint Venturers notice either of its approval of the proposals (which approval shall not be unreasonably withheld) or of any objections raised or alterations desired thereto and in the latter case shall afford to the Joint Venturers an opportunity to consult with and to submit new proposals to the Minister. If within thirty days of receipt of such notice agreement is not reached as to the proposals the Joint Venturers may within a further period of thirty days elect by notice to the State to refer to arbitration as hereinafter provided any dispute as to the reasonableness of the Minister's decision. If by the award on arbitration the question is decided in favour of the Joint Venturers the Minister shall be deemed to have then approved the proposals of the Joint Venturers.

(3) If such proposals are not submitted by the Joint Venturers to the Minister before the end of Year 20 or if such proposals are so submitted but are not approved by the Minister within two months after receipt thereof then if by the end of Year 23 (or extended date if any) the State gives to the Joint Venturers notice that some other company or party (hereinafter referred to as "the Fourth Party") has agreed to establish either —

- (a) a plant for secondary processing within the said State of iron ore from the mineral lease (if proposals by the Joint Venturers for the establishment of such a plant have not previously been submitted to and approved by the Minister) on terms not more favourable on the whole to the Fourth Party than those proposed by or available to the Joint Venturers hereunder; or
- (b) an integrated iron and steel industry within the said State (using iron ore from the mineral lease) on terms not more favourable on the whole to the Fourth Party than those proposed by or available to the Joint Venturers hereunder;

Schedule 1

then and in either case this Agreement shall cease and determine —

- (i) in the case of the Fourth Party proceeding with secondary processing then when the Fourth Party has substantially established the plant referred to in paragraph (a) of this subclause;
- (ii) in the case of the Fourth Party proceeding with an integrated iron and steel industry then (if proposals by the Joint Venturers for a plant for secondary processing have previously been submitted to and approved by the Minister) at the end of Year 30 or at the date by which the Fourth Party has substantially established that industry whichever is the later; and
- (iii) in the case of the Fourth Party proceeding with an integrated iron and steel industry then (if proposals by the Joint Venturers for a plant for secondary processing have not previously been submitted to and approved by the Minister) at the date by which the Fourth Party has substantially established that industry.

(4) If by the end of Year 23 (or extended date if any) the State has not given to the Joint Venturers any such notice as is referred to in subclause (3) of this Clause that subclause shall thereupon cease to have effect except that (to the extent they can from time to time operate) the provisions of subclause (3) of this Clause shall revive (for a period of three years) at the end of Year 33 and at the end of each successive period of thirteen years thereafter in such a way that each year referred to in that subclause shall be read as the year thirteen years or (as the case may require) a multiple of thirteen years thereafter (subject to extensions of dates if any as aforesaid).

(5) The Joint Venturers may at any time after the end of Year 20 submit proposals for an integrated iron and steel industry if at that time it has not received any notice under subclause (3) of this Clause and the provisions of subclauses (1) and (2) of this Clause shall apply to such proposals.

(6) Except as provided in subclause (3) of this Clause this Agreement shall continue in operation subject to compliance by the Joint Venturers with their obligations hereunder and with such proposals by the Joint Venturers as are approved by the Minister.

(7) Notwithstanding anything contained herein no failure by the Joint Venturers to submit to the Minister proposals as aforesaid nor any non-approval

by the Minister of such proposals shall constitute a breach of this Agreement by the Joint Venturers and the only consequences arising from such failure or non-approval (as the case may be) will be those set out in subclause (3) of this clause.

Substantial establishment²

35. For the purposes of this Agreement the Third Party or the Fourth Party shall be deemed to have substantially established a plant for secondary processing or an integrated iron and steel industry when and not before that party's secondary processing plant has the capacity to treat not less than two million tonnes of iron ore per annum or (as the case may be) that party's integrated iron and steel industry has the capacity to produce one million tonnes of steel per annum and in either case the Minister has notified the Joint Venturers that he is satisfied that that party will proceed *bona fide* to operate its plant or industry.

Terms "not more favourable"²

36. In deciding whether for the purposes of Clause 33 or Clause 34 the terms granted by the State to some Company or party are not more favourable on the whole than those proposed by or available to the Joint Venturers regard shall be had *inter alia* to all the obligations which would have continued to devolve on the Joint Venturers had they proceeded with secondary processing or (as the case may be) iron and steel manufacture or steel manufacture including their obligations to mine transport by rail and ship iron ore and restrictions relating thereto to pay rent additional rental and royalty and (in the case of secondary processing by a third party pursuant to Clause 33) to termination of rights as provided in Clause 34 if proposals for iron and steel manufacture or steel manufacture are not brought to fruition and also to the need for the other company or party to pay on a fair and reasonable basis for or for the use of property accruing to the State and made available by the State to that company or party but also to any additional or equivalent obligations to the State assumed by that company or party PROVIDED HOWEVER that if after the end of Year 33 the Minister gives notice to the Joint Venturers under Clause 34 that another company or party has agreed to establish either secondary processing or an integrated iron and steel industry but not both then the latter company or party need not have any obligation to establish both.

Supply of iron ore to others²

37. The Joint Venturers covenant and agree with the State that should the Joint Venturers remain in possession of the mineral lease for any period during which the Third Party or the Fourth Party is operating or is ready to operate a plant for secondary processing of iron ore or an integrated iron and steel industry then

Schedule 1

during such period (whenever commencing) the Joint Venturers shall supply the Third Party or the Fourth Party or both (as the case may be) with iron ore (not exceeding in all five million tonnes per annum unless otherwise agreed) —

strikes lockouts stoppages restraint of labour or other similar acts (whether partial or general) shortages of labour or essential materials reasonable failure to secure contractors delays of contractors and inability profitably to sell iron ore products or factors due to overall world economic conditions or factors that could not reasonably have been foreseen PROVIDED ALWAYS that the party whose performance of obligations is affected by any of the said causes shall promptly give notice to the other party of the event or events and shall minimise the effect of such causes as soon as possible after their occurrence.
