- (3) A condition imposed under subsection (1) may be cancelled or varied by the Minister at any time.
- (4) A condition imposed under subsection (1) —

(2) Where —

(a) the holder of a prospecting licence fails to show cause within the time specified in the notice referred to in subsection (1); or

(b) the Minister is of the opinion that the holder of a prospecting licence has shown insufficient cause,

the Minister may, by notice in writing, require that holder to apply in accordance with this Act for a mining lease in respect of the whole or any part of the land the subject of the prospecting licence within a period of 60 days from the giving of that notice.

56A. Special prospecting licences

- (1) Where any land is the subject of a prospecting licence (in this section called **“the primary tenement”**) then, notwithstanding section 117, a person may at any time after the expiry of 12 months from —
- (a) in the case of land which was the subject of a mineral claim or dredging claim granted under the repealed Act that by the operation of the transitional provisions set forth in the Second Schedule became subject to the primary tenement, the date of approval of the claim; and
 - (b) in any other case, unless subsection (1aa) applies, the date on which the primary tenement was granted,

mark out and, in accordance with section 41, apply for a prospecting licence for gold (in this section called a **“special prospecting licence”**) in respect of any part of the land the subject of the primary tenement.

- (1aa) If the primary tenement was granted as a result of an application under section 56B or a reversion licence application, a special prospecting licence may be marked out and applied for at any time after the date on which the primary tenement was granted.
- (1a) A special prospecting licence may only be applied for by, granted to or held by a natural person.

- (2) Unless subsection (5a) applies, an applicant for a special prospecting licence shall, within the prescribed period, serve notice of his application on the holder of the primary tenement as if that holder were the occupier of the land to which that application relates, and subsections (3) to (5) apply in respect of that application.
- (3) If, after being served with notice of an application for a special prospecting licence, the holder of the primary tenement does not lodge an objection against that application, the mining registrar may, subject to this Act, grant that application as provided in subsection (6).
- (4) If the holder of the primary tenement lodges an objection to an application for a special prospecting licence, the warden shall obtain a report from the Director, Geological Survey, in respect of the prospecting carried on by the holder of the primary tenement on the land to which the application relates.
- (4a) A report prepared by the Director, Geological Survey for the purposes of subsection (4) is to be based solely on information contained in reports filed by or on behalf of the holder of the primary tenement under section 51 or 115A.
- (5) After hearing an objection referred to in subsection (4), the warden may refuse the application for the special prospecting licence concerned on the ground that prospecting for gold on the land to which that application relates would result in undue detriment to the prospecting being carried on by the holder of the primary tenement or he may recommend that application to the Minister, who may —
- (a) refuse that application; or
 - (b) subject to this Act, grant that application as provided in subsection (6),

but, if the warden refuses an application under this subsection, the applicant may within the time and in the manner prescribed appeal to the Minister against that refusal and the Minister may

dismiss that appeal or uphold that appeal and grant that application as provided in subsection (6).

- (5a) If at the time when an applicant for a special prospecting licence marked out the land to which his application relates —
- (a) a special prospecting licence was in force in respect of land the subject of the primary tenement; or
 - (b) another application for a special prospecting licence in respect of land the subject of the primary tenement had been made, but had not been determined, under this section,

the applicant shall, within the prescribed period, lodge at the office of the mining registrar the written consent of the holder of the primary tenement to the grant of his application.

- (5b) If written consent to the grant of an application is lodged in accordance with subsection (5a), the mining registrar may, subject to this Act, grant the application as provided for in subsection (6).
- (6) Subject to this section, the mining registrar or the Minister may grant an application for a special prospecting licence on such terms and conditions as he thinks fit, but a special prospecting licence so granted —
- (a) shall not exceed 10 hectares in area;
 - (b) shall authorise the holder thereof to prospect only for gold;
 - (c) shall not, unless the Minister otherwise directs, prevent the holder of the primary tenement from prospecting for minerals other than gold in or on the land the subject of the special prospecting licence;
 - (d) does not authorise the holder thereof to excavate, extract or remove during the period for which the tenement remains in force a total amount of earth, soil, rock, stone, fluid or mineral bearing substances in excess of

500 tonnes, except in so far as the prior written approval of the Minister may otherwise permit; and

- (e) does not authorise mining to be carried out in any portion of the land that is —
 - (i) below a depth specified in the terms and conditions of the special prospecting licence, and any depth so specified shall be less than 50 metres below the lowest part of the natural surface of the land the subject of the special prospecting licence; or
 - (ii) if a depth is not so specified, 50 metres or more below the lowest part of the natural surface of the land the subject of the special prospecting licence, except in so far as both the prior written consent of the holder of the primary tenement and the prior written approval of the Minister may otherwise permit.
- (6aa) A special prospecting licence may be granted for a period of 3 months or for any period which is a multiple of 3 months but which does not exceed 4 years.
- (6a) A special prospecting licence —
 - (a) continues in force notwithstanding that the holder of the primary tenement may apply for and be granted a retention licence, mining lease or general purpose lease in respect to the land; but
 - (b) ceases (and the land in respect to which it was granted reverts to the primary tenement holder as an integral part of the tenement held by him) on the surrender, forfeiture or expiry of that special prospecting licence.
- (7) No legal or equitable interest in or affecting —
 - (a) a special prospecting licence; or
 - (b) a mining lease in respect of the land or any part thereof the subject of a special prospecting licence,

Mining Act 1978

Part IV Mining tenements
Division 1 Prospecting licence

s. 56A

is capable of being created, affected or dealt with, whether directly or indirectly, except with the prior written consent of the holder of the primary tenement, and no person shall hold or have any beneficial, legal or equitable interest in —

- (c) more than 10 such special prospecting licences; or
- (d) more than one such mining lease.

- (7a) A reference in subsection (7) to a person includes a reference to any other person who would, for the purposes of the Corporations Act, be taken to be an associate of the first-mentioned person.
- (7b) No more than one mining lease in respect of the land or any part thereof which is the subject of a special prospecting licence shall be granted in respect of the primary tenement.
- (8) The holder of a special prospecting licence granted for a period of 4 years may make an application for a mining lease for gold in respect of the land or any part thereof which is the subject of the special prospecting licence, and on an application being made the Minister may, subject to subsection (7b), grant the application for a lease in respect to that portion of the land to which the special prospecting licence relates that is less than a depth of 50 metres, or such greater depth as the Minister approves with the prior written consent of the holder of the primary tenement, below the lowest part of the natural surface of the land and on such terms and conditions as the Minister thinks fit, and thereupon the area of land in respect of which that mining lease is granted shall be excised from the primary tenement (whether or not the primary tenement has in the meantime been converted into a retention licence or a mining lease).
- (8aa) Sections 74, 74A and 75 apply to an application for a mining lease under subsection (8).
- (8a) A mining lease granted pursuant to subsection (8) —

- (a) has effect in relation to gold and any minerals occurring in conjunction with that gold;
 - (b) does not authorise the lessee thereof, his agents or employees to excavate, extract or remove a total amount of earth, soil, rock, stone, fluid or mineral bearing substances in excess of 750 tonnes in any year, except in so far as both the prior written consent of the holder of the primary tenement and the prior written approval of the Minister may otherwise permit;
 - [(c) deleted]*
 - (d) ceases to have effect (and the land in respect to which it was granted reverts to the primary tenement holder as an integral part of the tenement held by him) on the surrender, forfeiture or expiry of that lease.
- (9) Subject to this section, the provisions of this Act relating to —
- (a) prospecting licences apply to a special prospecting licence; and
 - (b) mining leases apply to a mining lease,
- granted under this section.
- (9a) Where, before the determination of an application for a special prospecting licence in respect of land, the primary tenement is surrendered or forfeited or expires, the application is, by virtue of this subsection, converted into an application for a prospecting licence in respect of that land and the provisions of this Act relating to such applications apply accordingly.
- (10) On the surrender, forfeiture or expiry of the primary tenement, a special prospecting licence in respect of any land the subject of the primary tenement immediately before the date of its surrender, forfeiture or expiry is, by virtue of this subsection, converted into a prospecting licence in respect of that land and, subject to subsection (11), the provisions of this Act relating to prospecting licences apply accordingly.

- (11) Where a special prospecting licence is converted into a prospecting licence, the prospecting licence remains in force, subject to this Act, for the remainder of the period for which the special prospecting licence was granted.
- (12) Subsections (9a) and (10) do not apply if —
- (a) the primary tenement is amalgamated with an exploration licence under section 67A(1);
 - (b) prior to the surrender, forfeiture or expiry of the primary tenement the holder of the primary tenement applies for a retention licence, a mining lease or a general purpose lease and the licence or lease is subsequently granted in respect of any land the subject of the application for a special prospecting licence or the special prospecting licence, as the case requires;
 - (c) prior to the surrender, forfeiture or expiry of the primary tenement the holder of the primary tenement makes an application under section 56B and a prospecting licence is granted as a result of that application in respect of any land the subject of the application for a special prospecting licence or the special prospecting licence, as the case requires; or
 - (d) prior to the surrender, forfeiture or expiry of the primary tenement the holder of the primary tenement makes a reversion licence application and a prospecting licence or an exploration licence is granted as a result of that application in respect of any land the subject of the application for a special prospecting licence or the special prospecting licence, as the case requires.

- (3) Where the holder of a relevant licence exercises the right conferred by subsection (2) and the term of the relevant licence would but for this subsection expire, the relevant licence shall continue in force in respect of the land the subject of the application for a prospecting licence until the application is determined.
- (4) If the holder of a relevant licence transfers the licence after making an application for a prospecting licence in the exercise of the right conferred by subsection (2), the application continues in the name of the transferee of the licence as if the transferee had made it.

- (3) A condition imposed under subsection (1) may be cancelled or varied by the Minister at any time.

[Section 69E inserted by No. 39 of 2004 s. 24.]

70. Special prospecting licence on an exploration licence

- (1) Where any land is the subject of an exploration licence (in this section called "~~the primary tenement~~") then, notwithstanding section 117, a person may at any time after the expiry of 12 months from —
- (a) in the case of land which was the subject of a mineral claim or dredging claim granted under the repealed Act that by the operation of the transitional provisions set forth in the Second Schedule became subject to the primary tenement, the date of approval of the claim; and
 - (b) in any other case, unless subsection (1aa) applies, the date on which the primary tenement was granted,

mark out and, in accordance with section 41, apply for a prospecting licence for gold (in this section called a "~~special prospecting licence~~") in respect of any part of the land the subject of the primary tenement.

- (1aa) If the primary tenement was granted as a result of a reversion licence application, a special prospecting licence may be marked out and applied for at any time after the date on which the primary tenement was granted.
- (1a) A special prospecting licence may only be applied for by, granted to or held by a natural person.
- (2) Unless subsection (5a) applies, an applicant for a special prospecting licence shall, within the prescribed period, give notice thereof to the holder of the primary tenement as if such holder were the occupier of the land to which the application

relates, and subsections (3) to (5) apply in respect of the application.

- (3) Where, after being served with notice of the application for the special prospecting licence, the holder of the primary tenement does not lodge an objection against the application the mining registrar may, subject to this Act, grant the application as provided in subsection (6).
- (4) Where such an objection is lodged by the holder of the primary tenement the warden shall obtain a report from the Director, Geological Survey in respect of the exploration carried on by the holder of the primary tenement on the land to which the application relates.
 - (4a) A report prepared by the Director, Geological Survey for the purposes of subsection (4) is to be based solely on information contained in reports filed by or on behalf of the holder of the primary tenement under section 68(3) or 115A.
- (5) After hearing the objection of the holder of the primary tenement the warden may refuse the application for the special prospecting licence on the ground that prospecting for gold on the land to which the application relates would result in undue detriment to the exploration being carried on by the holder of the primary tenement or he may recommend the application to the Minister who may refuse the application or subject to this Act, grant it as provided in subsection (6), but where the warden refuses an application under this subsection, the applicant may within the time and in the manner prescribed appeal to the Minister against such refusal and the Minister may dismiss the appeal or uphold the appeal and grant the application as provided in subsection (6).
 - (5a) If, at the time when an applicant for a special prospecting licence marked out the land to which his application relates, the grant of the application would have resulted in the number of special prospecting licences in respect of the primary tenement exceeding one for each 200 hectares of the primary tenement,

the applicant shall, within the prescribed period, lodge at the office of the mining registrar the written consent of the holder of the primary tenement to the grant of the application.

- (5b) If written consent to the grant of an application is lodged in accordance with subsection (5a), the mining registrar may, subject to this Act, grant the application as provided for in subsection (6).
- (6) Subject to this section the mining registrar or Minister may grant the application on such terms and conditions as he thinks fit but a special prospecting licence granted pursuant to this section —
- (a) shall not exceed 10 hectares in area;
 - (b) shall authorise the holder to prospect only for gold;
 - (c) shall not unless the Minister otherwise directs, prevent the holder of the primary tenement from exploring for minerals other than gold in or on the land the subject of the special prospecting licence and the primary tenement;
 - (d) does not authorise the holder thereof to excavate, extract or remove during the period for which the tenement remains in force a total amount of earth, soil, rock, stone, fluid or mineral bearing substances in excess of 500 tonnes, except in so far as the prior written approval of the Minister may otherwise permit; and
 - (e) does not authorise mining to be carried out in any portion of the land that is —
 - (i) below a depth specified in the terms and conditions of the special prospecting licence, and any depth so specified shall be less than 50 metres below the lowest part of the natural surface of the land the subject of the special prospecting licence; or
 - (ii) if a depth is not so specified, 50 metres or more below the lowest part of the natural surface of

the land the subject of the special prospecting licence, except in so far as both the prior written consent of the holder of the primary tenement and the prior written approval of the Minister may otherwise permit.

- (6aa) A special prospecting licence may be granted for a period of 3 months or for any period which is a multiple of 3 months but which does not exceed 4 years.
- (6a) A special prospecting licence —
- (a) continues in force notwithstanding that the holder of the primary tenement may apply for and be granted a retention licence, mining lease or general purpose lease in respect to the land; but
 - (b) ceases (and the land in respect to which it was granted reverts to the primary tenement holder as an integral part of the tenement held by him) on the surrender, forfeiture or expiry of that special prospecting licence.
- (7) No legal or equitable interest in or affecting —
- (a) a special prospecting licence; or
 - (b) a mining lease in respect of the land or any part thereof the subject of a special prospecting licence,
- is capable of being created, affected or dealt with, whether directly or indirectly, except with the prior written consent of the holder of the primary tenement, and no person shall hold or have any beneficial, legal or equitable interest in —
- (c) more than 10 such special prospecting licences; or
 - (d) more than one such mining lease.
- (7a) A reference in subsection (7) to a person includes a reference to any other person who would, for the purposes of the Corporations Act, be taken to be an associate of the first-mentioned person.

- (7b) A mining lease in respect of the land or any part thereof which is the subject of a special prospecting licence shall not be granted in respect of the primary tenement where the number of such leases granted in respect of that primary tenement exceeds one for each 200 hectares of the primary tenement.
- (8) The holder of a special prospecting licence granted for a period of 4 years may make an application for a mining lease for gold in respect of the land or any part thereof which is the subject of the special prospecting licence, and on an application being made the Minister may, subject to subsection (7b), grant the application for a lease in respect to that portion of the land to which the special prospecting licence relates that is less than a depth of 50 metres, or such greater depth as the Minister approves with the prior written consent of the holder of the primary tenement, below the lowest part of the natural surface of the land and on such terms and conditions as the Minister thinks fit, and thereupon the area of land in respect of which the mining lease is granted shall be excised from the primary tenement (whether or not the primary tenement has in the meantime been converted into a retention licence or a mining lease).
- (8aa) Sections 74, 74A and 75 apply to an application for a mining lease under subsection (8).
- (8a) A mining lease granted pursuant to subsection (8) —
- (a) has effect in relation to gold and any minerals occurring in conjunction with that gold;
 - (b) does not authorise the lessee thereof, his agents or employees to excavate, extract or remove a total amount of earth, soil, rock, stone, fluid or mineral bearing substances in excess of 750 tonnes in any year, except in so far as both the prior written consent of the holder of the primary tenement and the prior written approval of the Minister may otherwise permit; and
 - [(c) *deleted*]

- (d) ceases to have effect (and the land in respect to which it was granted reverts to the primary tenement holder as an integral part of the tenement held by him) on the surrender, forfeiture or expiry of that lease.
- (9) Subject to this section, the provisions of this Act relating to a prospecting licence, or mining lease apply to a special prospecting licence or mining lease granted pursuant to this section.
- (9a) Where, before the determination of an application for a special prospecting licence in respect of land, the primary tenement is surrendered or forfeited or expires, the application is, by virtue of this subsection, converted into an application for a prospecting licence in respect of that land and the provisions of this Act relating to such applications apply accordingly.
- (10) On the surrender, forfeiture or expiry of the primary tenement, a special prospecting licence in respect of any land the subject of the primary tenement immediately before the date of its surrender, forfeiture or expiry is, by virtue of this subsection, converted into a prospecting licence in respect of that land and, subject to subsection (11), the provisions of this Act relating to prospecting licences apply accordingly.
- (11) Where a special prospecting licence is converted into a prospecting licence, the prospecting licence remains in force, subject to this Act, for the remainder of the period for which the special prospecting licence was granted.
- (12) Subsections (9a) and (10) do not apply if —
 - (a) the primary tenement is amalgamated with an exploration licence under section 67A(1);
 - (b) prior to the surrender, forfeiture or expiry of the primary tenement the holder of the primary tenement applies for a retention licence, a mining lease or a general purpose lease and the licence or lease is subsequently granted in respect of any land the subject of the application for a

special prospecting licence or the special prospecting licence, as the case requires; or

- (c) prior to the surrender, forfeiture or expiry of the primary tenement the holder of the primary tenement makes a reversion licence application and a prospecting licence or an exploration licence is granted as a result of that application in respect of any land the subject of the application for a special prospecting licence or the special prospecting licence, as the case requires.

- (10) On the surrender, forfeiture or expiry of the primary tenement, a special prospecting licence in respect of any land the subject of the primary tenement immediately before the date of its surrender, forfeiture or expiry is, by virtue of this subsection, converted into a prospecting licence in respect of that land and, subject to subsection (11), the provisions of this Act relating to prospecting licences apply accordingly.
- (11) Where a special prospecting licence is converted into a prospecting licence, the prospecting licence remains in force, subject to this Act, for the remainder of the period for which the special prospecting licence was granted.

- (7) No prospecting licence shall be forfeited for non-compliance by the holder thereof with the expenditure conditions, if the holder satisfies the warden that the non-compliance therewith has been occasioned by a strike.
- (8) Subject to section 97A, the warden may, for any cause that he deems sufficient and subject to subsection (9), cancel —
- (a) an order for the forfeiture of any mining tenement made under subsection (1); or
 - (b) the forfeiture arising under subsection (6) of any mining tenement referred to in subsection (1),

- (2) Where the forfeiture was occasioned by non-compliance by the holder with an expenditure condition applicable to the tenement and results from an application made by a person, not being a person acting on behalf of the Department, subsection (1) does not apply.
- (3) An application under subsection (1) —
- (a) shall be in the prescribed form and made within the prescribed time;
 - (b) shall be lodged at the office of the mining registrar; and

- (c) shall be accompanied by the prescribed application fee, and the applicant shall at the request of the warden furnish such other information, or such evidence in support thereof, as the warden may require but the warden shall not require information or evidence relating to assays or other results of any testing, sampling or other mining operations that the applicant may have carried out on the land the subject of the application.
- (4) Within 14 days after the lodging of such an application under subsection (1), the applicant shall serve such notice of the application as may be prescribed on any person who has since the forfeiture made application for a mining tenement in respect of the land or any part of the land to which the application relates and on such other persons as may be prescribed.

 - (ii) grant the application and restore the mining tenement to the former holder subject to such further or other conditions as the warden may specify; or
 - (iii) refuse the application;

- (8) On receipt of notes of evidence and any maps or documents transmitted to him pursuant to subsection (7), the Minister may grant or refuse the application for restoration of the mining tenement, as he determines and whether the warden recommends the granting of the application or the refusal thereof, and may impose on a mining tenement so restored such further or other conditions as the Minister may specify.

impose a penalty not exceeding \$10 000 as an alternative to the forfeiture or dismiss the application.

- (b) Where a penalty is imposed under this section the warden may award the whole amount of the penalty or any part thereof to the applicant.
- (5) A recommendation shall not be made under subsection (4) unless the warden is satisfied that the non-compliance with such requirements is, in the circumstances of the case, of sufficient gravity to justify the forfeiture.
- (6) As soon as practicable after the hearing of the application the warden shall forward to the Minister the notes of evidence, with a report and the warden's recommendation, if any, on the application and the Minister may, before acting on the recommendation, require the warden to take such further evidence or rehear the application as the Minister directs.
- (7) No exploration licence or mining lease shall be forfeited for non-compliance by the holder or lessee thereof with the expenditure conditions, if the holder or lessee satisfies the Minister that the non-compliance therewith has been occasioned by a strike.
- (8) If the applicant fails to proceed with his forfeiture application, the warden may award the holder or lessee such sum for costs and expenses as he thinks fit.
- (9) Where any penalty imposed by a warden as an alternative to forfeiture under subsection (4) is not paid within the time specified by the warden, or within 30 days after the penalty is imposed where no other time is specified, the warden shall make a recommendation to the Minister as to whether or not the licence or lease should be forfeited.

- (2) Where the Minister declares an exploration licence or lease forfeited under subsection (1) he shall forthwith give written notice thereof to the applicant and shall publish notice of the declaration in the *Government Gazette* and on the publication of the notice the licence or lease shall become forfeited.
- (3) Where any penalty imposed as an alternative to forfeiture under subsection (1)(b) is not paid within the time specified by the Minister or within 30 days of the Minister imposing the penalty as an alternative to forfeiture if no time is specified by the Minister, the exploration licence or lease shall thereupon be forfeited and notice thereof shall be published in the *Government Gazette*, and the rights conferred on the applicant for forfeiture under section 100(2) shall apply as if the Minister had declared the licence or lease forfeited.

surrender under section 26A or 65) before the application is finally dealt with under section 98(4) or 99(1), the applicant for forfeiture has, from the date on which the surrender is registered until the expiry of a period of 14 days after the date of being served with written notice of the surrender by an officer of the Department, a right in priority to any other person to mark out or apply for, or both, a mining tenement upon the whole or any part of the land that was the subject of the surrendered licence or lease.

(1a) Where —

- (a) an exploration licence or a mining lease that is the subject of an application for forfeiture under section 98 has continued in force under section 67(2) or 70C(6) pending the determination of an application referred to in section 67(2) or 70C(6), as the case requires (the **“tenement application”**); and
- (b) the tenement application is withdrawn in accordance with the regulations before the application for forfeiture is dealt with by the warden,

the applicant for forfeiture has, from the date on which the tenement application is withdrawn until the expiry of a period of 14 days after the date of being served with written notice of the withdrawal by an officer of the Department, a right in priority to any other person to mark out or apply for, or both, a mining tenement upon the whole or any part of the land that was the subject of the licence or lease.

- (2) Where an exploration licence or a mining lease is forfeited pursuant to section 99, the applicant for forfeiture has, for a period of 14 days after the date of the publication of the notice of forfeiture of the licence or lease in the *Government Gazette*, a right in priority to any other person to mark out or apply for, or both, a mining tenement upon the whole or any part of the land that was the subject of the forfeited licence or lease.

Division 7 — Exemption from expenditure conditions

102. Exemption from expenditure conditions

- (1) Subject to this Act, on an application (an *“application for exemption”*) made, as prescribed, by the holder of a mining tenement (other than a retention licence) or his authorised agent prior to the end of the year to which the proposed exemption relates, or within the prescribed period after the end of that year, the holder may be granted a certificate of exemption in the prescribed form totally or partially exempting the mining tenement to which the application relates from the prescribed expenditure conditions relating thereto, in an amount not exceeding the amount required to be expended —
 - (a) in respect to any mining tenement other than a mining lease, in any one year; and
 - (b) in respect to a mining lease, subject to subsection (7), in a period of 5 years.
- (1a) An application for exemption may relate to more than one mining tenement.
- (2) A certificate of exemption may be granted for any of the following reasons —
 - (a) that the title to the mining tenement is in dispute;
 - (b) that time is required to evaluate work done on the mining tenement, to plan future exploration or mining or raise capital therefor;
 - (c) that time is required to purchase and erect plant and machinery;
 - (d) that the ground the subject of the mining tenement is for any sufficient reason unworkable;
 - (e) that the ground the subject of the mining tenement contains a mineral deposit which is uneconomic but which may reasonably be expected to become economic in the future or that at the relevant time economic or

marketing problems are such as not to make the mining operations viable;

- (f) that the ground the subject of the mining tenement contains mineral ore which is required to sustain the future operations of an existing or proposed mining operation;
- (g) that political, environmental or other difficulties in obtaining requisite approvals prevent mining or restrict it in a manner that is, or subject to conditions that are, for the time being impracticable; or
- (h) that —
 - (i) the mining tenement is one of 2 or more mining tenements ~~“(combined reporting tenements”)~~ the subject of arrangements approved under section 115A(4) for the filing of combined mineral exploration reports; and
 - (ii) the aggregate exploration expenditure for the combined reporting tenements would have been such as to satisfy the expenditure requirements for the mining tenement concerned had that aggregate exploration expenditure been apportioned between the combined reporting tenements.

(2a) In subsection (2)(h) —

~~“aggregate exploration expenditure”~~ means expenditure —

- (a) on, or in connection with, exploration for minerals on the combined reporting tenements; and
- (b) worked out in a manner specified in the regulations.

(3) Notwithstanding that the reasons given for the application for exemption are not amongst those set out in subsection (2), a certificate of exemption may also be granted for any other reason which may be prescribed or which in the opinion of the Minister is sufficient to justify such exemption.

- (4) When consideration is given to an application for exemption regard shall be had to the current grounds upon which exemptions have been granted and to the work done and the money spent on the mining tenement by the holder thereof.
- (5) An application for exemption —
 - (a) where an objection to the application is lodged, shall be heard by the warden; but
 - (b) otherwise, shall be forwarded to the Minister for determination by the Minister.
- (6) The warden shall as soon as practicable after the hearing of the application transmit to the Minister for his consideration the notes of evidence and any maps or other documents referred to therein and his report recommending the granting or refusal of the application and setting out his reasons for that recommendation.
- (7) Where the warden finds that the reasons given by the holder of the mining lease are sufficient to justify the granting of a certificate of exemption and so recommends, or if the Minister is satisfied whether or not a recommendation is made by the warden, the Minister may grant a certificate of exemption in an amount not exceeding the amount required to be expended in respect of the mining lease in the period of 5 years from the commencement of the year to which the application relates.

[Section 102 amended by No. 69 of 1981 s. 23; No. 100 of 1985 s. 76; No. 105 of 1986 s. 14; No. 22 of 1990 s. 32; No. 37 of 1993 s. 10(2); No. 15 of 2002 s. 24; No. 39 of 2004 s. 66 and 94.]

102A. Exemption from expenditure conditions in respect of certain holders of exploration licences

- (1) Notwithstanding anything in section 102, the Minister may, on payment of the prescribed fee and on the application in writing of the holder of an exploration licence who has been authorised by the Minister under section 111 to explore for iron on the land

the subject of the exploration licence, grant that holder a certificate in the prescribed form totally or partially exempting the holder of that licence from the prescribed expenditure conditions relating to the exploration licence in an amount not exceeding the amount required to be expended in any one year.

- (1a) An application referred to in subsection (1) may relate to more than one exploration licence.
- (2) The refusal by the Minister of an application referred to in subsection (1) does not prevent the holder of the exploration licence concerned from making an application referred to in section 102(1) in respect of that exploration licence.

[Section 102A inserted by No. 122 of 1982 s. 25; amended by No. 100 of 1985 s. 77; No. 15 of 2002 s. 25.]

103. Effect of exemption

Upon the granting of a certificate of exemption pursuant to section 102 or section 102A the holder of a mining tenement to whom it is granted shall be deemed to be relieved, to the extent, and subject to the conditions specified in the certificate, from his obligations under the prescribed expenditure conditions relating to the mining tenement.
