

PETROLEUM (SUBMERGED LANDS).

No. 41 of 1967.

AN ACT relating to the Exploration for, and the Exploitation of, the Petroleum Resources, and certain other Resources, of certain Submerged Land adjacent to the Western Australian Coast and for incidental and other purposes.

[Assented to 21st November, 1967.]

WHEREAS in accordance with international law Preamble.
Australia as a coastal state has sovereign rights over the continental shelf beyond the limits of Australian territorial waters for the purpose of exploring it and exploiting its natural resources:

And whereas Australia is a party to the Convention on the Continental Shelf signed at Geneva on the twenty-ninth day of April, One thousand nine hundred and fifty-eight, in which those rights are defined:

And whereas the exploration for and the exploitation of the petroleum resources of submerged lands adjacent to the Australian coast

would be encouraged by the adoption of legislative measures applying uniformly to the continental shelf and to the sea-bed and subsoil beneath territorial waters:

And whereas the Governments of the Commonwealth and of the States have decided, in the national interest, that, without raising questions concerning and without derogating from, their respective constitutional powers, they should co-operate for the purpose of ensuring the legal effectiveness of authorities to explore for or to exploit the petroleum resources of those submerged lands:

And whereas the Governments of the Commonwealth and of the States have accordingly agreed to submit to their respective Parliaments legislation relating both to the continental shelf and to the sea-bed and subsoil beneath territorial waters and have also agreed to co-operate in the administration of that legislation:

Be it therefore enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and the Legislative Assembly of Western Australia, in this present Parliament assembled, and by the Authority of the same, as follows:—

(3) If a licensee has not complied with the conditions to which the licence is subject and with the provisions of this Part and of the regulations, and if the Designated Authority is not satisfied that special circumstances exist that justify the granting of the renewal of the licence, the Designated Authority shall, subject to subsection (4) of this section, by instrument in writing served on the licensee, refuse to grant the renewal of the licence.

Works to be
carried out.

(2) A licensee is required, during each subsequent year of the term of the licence, to carry out in the licence area, in connection with exploration for, or operations for the recovery of, petroleum in the licence area, approved works—

(3) Where, in respect of a year of the term of his licence, a licensee has not complied with subsection (1) or (2) of this section, the Crown is entitled to recover from the licensee, by action against the licensee in a court of competent jurisdiction, an amount equal to the value of the approved works that the licensee was required to carry out in the licence area during that year of the term of the licence less the value of any approved works carried out by the licensee in that area during that year.

(4) The Designated Authority may, if he is satisfied that special circumstances exist that justify his doing so, by instrument in writing served on a

licensee, exempt the licensee from compliance with the requirements of this section in respect of the year of the term of the licence specified in the instrument subject to such conditions, if any, as the Designated Authority thinks fit and specifies in the instrument.

(5) For the purposes of this section the value of any petroleum is the value at the well-head of that petroleum ascertained in accordance with section 156 of this Act.

(2) Where the Designated Authority is not satisfied with the steps taken or being taken by a licensee to whom a direction has been given under subsection (1) of this section, the Designated Authority may, by instrument in writing served on the licensee, give to the licensee such directions as the Designated Authority thinks necessary for or in relation to the recovery of petroleum in the licence area.

(3) Where petroleum is being recovered in a licence area, the Designated Authority may, for reasons that he thinks sufficient, by instrument in writing served on the licensee, direct the licensee to take all necessary and practicable steps to increase or reduce the rate at which the petroleum is being recovered to such rate as the Designated Authority specifies in the instrument.

- (b) a licensee enters into such an agreement but the agreement is not lodged with the Designated Authority in accordance with subsection (3) of this section or if so lodged is not approved under section 81 of this Act,

the Designated Authority may, by instrument in writing served on that licensee, direct the licensee to submit to him, within the period specified in the instrument, a scheme for or in relation to the unit development of the petroleum pool.

(5) At any time after the expiration of the period within which a scheme for or in relation to the unit development of a petroleum pool is to be submitted by a licensee under subsection (4) of this section, the Designated Authority may, by instrument in writing served on the licensee, give to that licensee such directions as the Designated Authority thinks necessary for the purpose of securing the more effective recovery of petroleum from the petroleum pool.

(6) Where a person is the licensee in respect of two or more licence areas in each of which there is part of a particular petroleum pool, the Designated Authority may, by instrument in writing served on the licensee, give to the licensee such directions as the Designated Authority thinks necessary for the purpose of securing the more effective recovery of petroleum from the petroleum pool.

(7) Where an agreement under this section is in force or the Designated Authority has given directions under subsection (5) or (6) of this section, the Designated Authority may, having regard to additional information that has become available, by

instrument in writing served on the licensee or licensees concerned, give to the licensee or licensees such directions, or further directions, as the case may be, as he thinks necessary for the purpose of securing the more effective recovery of petroleum from the petroleum pool.

(8) The Designated Authority shall not give a direction under either subsection (6) or (7) of this section unless he has given to the licensee or licensees concerned an opportunity to confer with him concerning the proposed direction.

(9) Directions under subsection (5), (6), or (7) of this section may include directions as to the rate at which petroleum is to be recovered.

Term of

(a) for a period of twenty-one years; or

(b) where the Designated Authority is of the opinion that, having regard to the dates of expiration of the licences that relate to the licence areas from which petroleum is, or is to be, conveyed by means of the pipeline, it is not necessary for the pipeline licence to remain in force for a period of twenty-one years—for such period less than twenty-one years as the Designated Authority determines and specifies in the pipeline licence.

(2) The period for which a pipeline licence remains in force commences—

- (a) in the case of a pipeline licence granted otherwise than by way of renewal of a pipeline licence—on the day from and including which the pipeline licence has effect; and

inform the pipeline licensee, by instrument in writing served on the pipeline licensee—

- (c) that he is prepared to grant to him the renewal of the pipeline licence; and
- (d) that he will be required to lodge a security for compliance with the conditions to which the pipeline licence, if the renewal is granted, will from time to time be subject and with the provisions of this Part and of the regulations.

152. A fee under section 147, 148 or 149 of this Act, or an amount payable under section 151 of this Act is a debt due, by the permittee, licensee or pipeline licensee, as the case may be, to the Crown and is recoverable in a court of competent jurisdiction.

Royalty.

153. (1) The conditions subject to which a permit or licence is granted shall include a condition that the permittee or licensee shall, subject to this section, pay to the Designated Authority a royalty at the prescribed rate in respect of all petroleum recovered by the permittee or licensee in the permit area or licence area.

(2) Subject to the succeeding provisions of this section and to the provisions of section 154 of this Act, the prescribed rate in respect of petroleum recovered under a permit or a licence is ten per centum of the value at the well-head of the petroleum.

(3) The prescribed rate in respect of petroleum recovered under a secondary licence is the percentage determined by the Designated Authority in pursuance of subsection (1) of section 42 of this Act in respect of petroleum so recovered.

(4) Where a secondary licence is granted to the holder of a primary licence, the prescribed rate in respect of petroleum recovered under the primary licence is, as from the commencement of the next royalty period after the day from which the secondary licence has effect, the same percentage as is applicable in respect of petroleum recovered under the secondary licence.

(5) Where—

- (a) a licence is granted on an application under section 47 of this Act; and
- (b) the instrument served on the applicant under section 49 of this Act contains a statement that the applicant will be required to pay, in respect of petroleum recovered under that licence, royalty at the rate specified in that statement,

the prescribed rate in respect of petroleum recovered under that licence is the percentage specified in that statement.

(6) Where a licence is granted on an application under subsection (1) of section 51 of this Act, the prescribed rate in respect of petroleum recovered under that licence is the same percentage as was applicable in respect of petroleum recovered under the original licence as defined by subsection (1) of that section.

(7) The prescribed rate in respect of petroleum recovered under a licence granted by way of renewal of a licence is the percentage applicable under the licence before renewal (or, if another percentage is fixed by Parliament in respect of petroleum so recovered, that percentage) of the value at the well-head of the petroleum.

154. (1) Where the Designated Authority is satisfied that the rate of recovery of petroleum from a well has become so reduced that, having regard to the rate of royalty fixed by section 153 of this Act, further recovery of petroleum from that well

would be uneconomic, the Designated Authority may, by instrument in writing, determine that the royalty in respect of petroleum recovered from that well shall be at such rate (being a rate lower than that fixed by that section) as the Designated Authority specifies in respect of such period as the Designated Authority specifies.

(2) The prescribed rate in respect of petroleum recovered, during the period specified in the determination, from the well to which such a determination relates, is the rate so specified.

Royalty
not payable
in certain
cases.

155. (1) Royalty under this Act—

- (a) is not payable in respect of petroleum that the Designated Authority is satisfied was unavoidably lost before the quantity of that petroleum was ascertained;
- (b) is not payable in respect of petroleum that is used by the permittee or licensee as approved by the Designated Authority for the purposes of petroleum exploration operations or operations for the recovery of petroleum; and
- (c) is not payable in respect of petroleum that, with the approval of the Designated Authority, is flared or vented in connection with operations for the recovery of petroleum.

(2) Where petroleum that has been recovered by a permittee or licensee is, with the approval of the Designated Authority, returned to a natural reservoir, royalty under this Act is not payable in respect of that petroleum by reason of that recovery but this subsection does not affect the liability of that or any other permittee or licensee to pay royalty in respect of petroleum that is recovered from that natural reservoir.

Ascertain-
ment of
value of
petroleum.

156. For the purposes of this Act the value at the well-head of any petroleum is such amount as is agreed between the permittee or licensee and the Designated Authority, or in default of agreement

within such period as the Designated Authority allows is such amount, as is determined by the Designated Authority as being that value.

157. For the purposes of this Act, the well-head, in relation to any petroleum, is such valve station as is agreed between the permittee or licensee and the Designated Authority, or, in default of agreement within such period as the Designated Authority allows, is such valve station as is determined by the Designated Authority as being that well-head.

Ascertainment of well-head.

158. For the purposes of this Act, the quantity of petroleum recovered by a permittee or licensee during a period shall be taken to be—

Ascertainment of quantity of petroleum recovered.

- (a) the quantity measured during that period by a measuring device approved by the Designated Authority and installed at the well-head or at such other place as the Designated Authority approves; or
- (b) where no such measuring device is so installed, or the Designated Authority is not satisfied that the quantity of petroleum recovered by the permittee or licensee has been properly or accurately measured by such a measuring device, the quantity determined by the Designated Authority as being the quantity recovered by the permittee or licensee during that period.

159. (1) Royalty under this Act in respect of petroleum recovered during a royalty period is payable not later than the last day of the next succeeding royalty period.

Payment of royalty and penalty for late payment.

(2) Where the amount of royalty under this Act is not paid as provided by subsection (1) of this section, there is payable to the Designated Authority by the permittee or the licensee an additional amount calculated at the rate of one-third of one per centum per day upon the amount of royalty from time to time remaining unpaid, to be computed from the time when the royalty became payable until it is paid.

(3) An additional amount is not payable under subsection (2) of this section in respect of any period before the expiration of seven days after the value of the petroleum was agreed or determined under section 156 of this Act.

Crown.

160. Royalty payable under section 153 of this Act or an amount payable under subsection (2) of section 159 of this Act is a debt due by the permittee or licensee to the Crown and is recoverable in a court of competent jurisdiction.

PART IV.—REGULATIONS.

Regulations.

161. (1) The Governor may make regulations, not inconsistent with this Act, prescribing all matters that by this Act are required or permitted to be prescribed or are necessary or convenient to be prescribed for carrying out or giving effect to this Act.

(2) In particular, but without limiting the generality of subsection (1) of this section, the regulations may make provision for securing, regulating, controlling or restricting all or any of the following matters—

- (a) the exploration for petroleum and the carrying on of operations, and the execution of works, for that purpose;
- (b) the recovery of petroleum and the carrying on of operations, and the execution of works, for that purpose;
- (c) conserving, and preventing the waste of, the natural resources, whether petroleum or otherwise, of the adjacent area;

- (a) a fine not exceeding Two thousand dollars;
or
- (b) a fine not exceeding that amount for each day on which the offence occurs.

THE SCHEDULES.

FIRST SCHEDULE.

Section 3.

CONVENTION ON THE CONTINENTAL SHELF.

*The States Parties to this Convention
Have agreed as follows:*

Article 1

For the purpose of these articles, the term "continental shelf" is used as referring (a) to the seabed and subsoil of the submarine areas adjacent to the coast but outside the area of the territorial sea, to a depth of 200 metres or, beyond that limit, to where the depth of the superjacent waters admits of the exploitation of the natural resources of the said areas; (b) to the seabed and subsoil of similar submarine areas adjacent to the coasts of islands.

Article 2

1. The coastal State exercises over the continental shelf sovereign rights for the purpose of exploring it and exploiting its natural resources.

2. The rights referred to in paragraph 1 of this article are exclusive in the sense that if the coastal State does not explore the continental shelf or exploit its natural resources, no one may undertake these activities, or make a claim to the continental shelf, without the express consent of the coastal State.

3. The rights of the coastal State over the continental shelf do not depend on occupation, effective or notional, or on any express proclamation.

4. The natural resources referred to in these articles consist of the mineral and other non-living resources of the seabed and subsoil together with living organisms belong-

ing to sedentary species, that is to say, organisms which, at the harvestable stage, either are immobile on or under the seabed or are unable to move except in constant physical contact with the seabed or the subsoil.

Article 3

The rights of the coastal State over the continental shelf do not affect the legal status of the superjacent waters as high seas, or that of the airspace above those waters.

Article 4

Subject to its right to take reasonable measures for the exploration of the continental shelf and the exploitation of its natural resources, the coastal State may not impede the laying or maintenance of submarine cables or pipelines on the continental shelf.

Article 5

1. The exploration of the continental shelf and the exploitation of its natural resources must not result in any unjustifiable interference with navigation, fishing or the conservation of the living resources of the sea, nor result in any interference with fundamental oceanographic or other scientific research carried out with the intention of open publication.

2. Subject to the provisions of paragraphs 1 and 6 of this article, the coastal State is entitled to construct and maintain or operate on the continental shelf installations and other devices necessary for its exploration and the exploitation of its natural resources, and to establish safety zones around such installations and devices and to take in those zones measures necessary for their protection.

3. The safety zones referred to in paragraph 2 of this article may extend to a distance of 500 metres around the installations and other devices which have been erected, measured from each point of their outer edge. Ships of all nationalities must respect these safety zones.

4. Such installations and devices, though under the jurisdiction of the coastal State, do not possess the status of islands. They have no territorial sea of their own, and their presence does not affect the delimitation of the territorial sea of the coastal State.

5. Due notice must be given of the construction of any such installations, and permanent means for giving warning of their presence must be maintained. Any installations which are abandoned or disused must be entirely removed.

6. Neither the installations or devices, nor the safety zones around them, may be established where interference may be caused to the use of recognized sea lanes essential to international navigation.

7. The coastal State is obliged to undertake, in the safety zones, all appropriate measures for the protection of the living resources of the sea from harmful agents.

8. The consent of the coastal State shall be obtained in respect of any research concerning the continental shelf and undertaken there. Nevertheless the coastal State shall not normally withhold its consent if the request is submitted by a qualified institution with a view to purely scientific research into the physical or biological characteristics of the continental shelf, subject to the proviso that the coastal State shall have the right, if it so desires, to participate or to be represented in the research, and that in any event the results shall be published.

Article 6

1. Where the same continental shelf is adjacent to the territories of two or more States whose coasts are opposite each other, the boundary of the continental shelf appertaining to such States shall be determined by agreement between them. In the absence of agreement, and unless another boundary line is justified by special circumstances, the boundary is the median line, every point of which is equidistant from the nearest points of the baselines from which the breadth of the territorial sea of each State is measured.

2. Where the same continental shelf is adjacent to the territories of two adjacent States, the boundary of the continental shelf shall be determined by agreement between them. In the absence of agreement, and unless another boundary line is justified by special circumstances, the boundary shall be determined by application of the principle of equidistance from the nearest points of the baselines from which the breadth of the territorial sea of each State is measured.

3. In delimiting the boundaries of the continental shelf, any lines which are drawn in accordance with the principles set out in paragraphs 1 and 2 of this article should be defined with reference to charts and geographical features as they exist at a particular date, and reference should be made to fixed permanent identifiable points on the land.

Article 7

The provisions of these articles shall not prejudice the right of the coastal State to exploit the subsoil by means of tunnelling irrespective of the depth of water above the subsoil.

Article 8

This Convention shall, until 31 October, 1958, be open for signature by all States Members of the United Nations or of any of the specialized agencies, and by any other State invited by the General Assembly of the United Nations to become a party to the Convention.

Article 9

This Convention is subject to ratification. The instruments of ratification shall be deposited with the Secretary-General of the United Nations.

Article 10

This Convention shall be open for accession by any States belonging to any of the categories mentioned in Article 8. The instruments of accession shall be deposited with the Secretary-General of the United Nations.

Article 11

1. This Convention shall come into force on the thirtieth day following the date of deposit of the twenty-second instrument of ratification or accession with the Secretary-General of the United Nations.

2. For each State ratifying or acceding to the Convention after the deposit of the twenty-second instrument of ratification or accession, the Convention shall enter into force on the thirtieth day after deposit by such State of its instrument of ratification or accession.

Article 12

1. At the time of signature, ratification or accession, any State may make reservations to articles of the Convention other than to articles 1 to 3 inclusive.

2. Any Contracting State making a reservation in accordance with the preceding paragraph may at any time withdraw the reservation by a communication to that effect addressed to Secretary-General of the United Nations.

Article 13

1. After the expiration of a period of five years from the date on which this Convention shall enter into force, a request for the revision of this Convention may be made at any time by any Contracting Party by means of a notification in writing addressed to the Secretary-General of the United Nations.

2. The General Assembly of the United Nations shall decide upon the steps, if any, to be taken in respect of such request.

Article 14

The Secretary-General of the United Nations shall inform all States Members of the United Nations and the other States referred to in article 8:

- (a) Of signatures to this Convention and of the deposit of instruments of ratification or accession, in accordance with articles 8, 9 and 10;
- (b) Of the date on which this Convention will come into force, in accordance with article 11;

- (c) Of requests for revision in accordance with article 13;
- (d) Of reservations to this Convention, in accordance with article 12.

Article 15

The original of this Convention, of which the Chinese, English, French, Russian and Spanish texts are equally authentic, shall be deposited with the Secretary-General of the United Nations, who shall send certified copies thereof to all States referred to in article 8.

In witness whereof the undersigned Plenipotentiaries, being duly authorized thereto by their respective Governments, have signed this Convention.

Done at Geneva, this twenty-ninth day of April, one thousand nine hundred and fifty-eight.

(Here follow the signatures on behalf of the parties to the Agreement, including Australia.)
