Application of moneys in Fund.

24. (1) The moneys standing to the credit of the Fund shall in the first instance be charged with payment of—

- (a) the costs of the administration of this Act; and
- (b) the remuneration and travelling and other expenses payable to members of the Committee and their deputies pursuant to section twelve of this Act.

(2) After payment of the costs, remuneration and expenses referred to in subsection (1) of this section, and subject in every case to the approval of the Minister, the moneys in the Fund may be used for the payment to growers of compensation in accordance with the provisions of this Act.

25. (1) Subject to the provisions of this Act, compensation is payable under this Act to growers in respect of the whole or portion of losses suffered by them while engaged in producing bananas for sale as the result of cyclones, storms or floods, or of any natural cause, pest or disease which in the opinion of the Minister constitutes a serious threat to the existence of the banana growing industry.

When  
compensation  
payable.

(2) Compensation payable under this Act to a grower shall be in respect of either or both total loss and partial loss suffered by him, and shall be based on the acreage, calculated to the nearest one-tenth of an acre, of the land of that grower on which the destruction of bananas in the course of production by him occurs.

(3) The amount of compensation payable under this Act shall be assessed in relation to the number of cases of bananas ascertained and determined pursuant to the provisions of subsection (4) of this section to be the weighted average production of bananas per acre of the land of the grower whereon the destruction of bananas occurs, and shall be payable at the rate of twenty shillings per case—

- (a) where total loss occurs, on the number of cases so ascertained and determined; and
- (b) where partial loss occurs, *pro rata* according to the extent of destruction assessed pursuant to section twenty-six of this Act, but subject to subsection (3) of section twenty-seven of this Act.

(4) For the purposes of this section "weighted average production" means the quantity of bananas, expressed in cases, per acre of land of the grower ascertained by dividing the total number of cases of bananas produced on that land during the period of five years immediately preceding the date of the loss suffered by the aggregate of the number of acres of that land utilised to produce the total number of cases of bananas during that period.

Provided that the quantity so calculated shall not include the production of any year in respect of which compensation has been assessed and paid.

(5) In any case where a grower is entitled to compensation under this Act and there are no records or information available in respect to the production of bananas on the land of that grower, or if such records or information are available they are, in the opinion of the Committee, inadequate for the purpose of ascertaining and determining the weighted average production, the Committee may assess the amount of compensation payable to that grower in such manner and on such basis as may be prescribed by regulations, and until so prescribed, in such manner and on such basis, and whether in relation to available records and information or not, as the Committee in its absolute discretion thinks fit: Provided that such compensation shall not be assessed at rates greater than those specified in subsection (3) of this section.

Extent of  
loss to be  
assessed.

26. (1) Where a grower is entitled to compensation pursuant to section twenty-five of this Act, the extent of the destruction of the bananas being produced by him shall be assessed and determined by agreement between a person representing the growers nominated for the purpose by a majority of the growers, and an officer of the Department appointed for that purpose by the Director; and in default of agreement some competent and impartial person nominated and appointed for the purpose by the Minister shall assess and determine the extent of the destruction.

(2) The determination of the person nominated and appointed by the Minister is final and conclusive.

27. (1) For the purposes of payment of compensation under this Act—

Amounts of  
compensation  
payable.

- (a) a grower shall be deemed to have suffered total loss in respect of any portion of his land if the area of that portion is not less than one-quarter of an acre and the destruction is assessed and determined pursuant to the provisions of section twenty-six of this Act to be not less than seventy-five per centum of the bananas in course of production by him on that portion of land;
- (b) the extent of the destruction of bananas destroyed on the land of a grower who suffers partial loss shall be assessed and determined pursuant to the provisions of section twenty-six of this Act on an average basis in relation to the number of acres of the grower's land on which the destruction occurred, and if such area is less than one acre then the extent of the destruction shall be so assessed and determined proportionately in relation to one acre; but no compensation shall be payable under this Act to the grower if that area is less than one-quarter of an acre.

(2) A grower may suffer both total loss and partial loss and in such case may claim and be entitled to be paid compensation under this Act for both the total loss and the partial loss suffered by him.

(3) Where a grower is entitled to compensation under this Act in respect of any partial loss suffered by him, twenty per centum of that loss as assessed pursuant to section twenty-six of this Act shall be borne by the grower, and the grower shall not be entitled to claim or be paid any compensation in respect of that proportion of loss so borne by him.

(4) When in any case a grower is entitled to compensation under this Act and the bananas in respect of which he has suffered loss were not at the time of the loss fully bunched or ready for commercial production, the amount of compensation payable to the grower shall be in accordance with and on the scale set forth in the Schedule to this Act, but the amount of compensation so payable shall not in any event exceed the rate of two hundred pounds per acre of the land on which the bananas destroyed were in course of growth.

Application  
for com-  
pensation.

28. (1) Compensation under this Act is not payable unless the grower who suffers loss by destruction of bananas makes application for compensation to the Committee in the manner and containing the particulars prescribed and verified as prescribed.

(2) Compensation under this Act is not payable unless the grower makes application within thirty days after the destruction of the bananas in respect of which the application is made, but where the application is made after the expiration of that period, the Minister may authorise the payment of the whole or portion of the compensation if he is satisfied that reasonable grounds exist for the delay in making the application.

(3) Compensation under this Act is not payable unless the Committee is satisfied that the grower who is claiming compensation has complied with the provisions of this Act, and the regulations made under this Act, with respect to applications and claims for compensation.

Provisions for  
payment of

  - (ii) the money available pursuant to sub-paragraph (i) of this paragraph for payment of claims for partial loss shall be applied in payment of those claims to the extent to which that money is sufficient therefor, and if that money is not sufficient to pay all those claims in full, then they shall be paid *pro rata* according to the amount of the money so available and the total amount of the claims for partial loss;
  - (iii) the balance (if any) of the money available for payment of claims for partial loss remaining after payment of all those claims in full, shall be available for and applied towards payment of the claims for total loss;
  - (iv) the money available pursuant to sub-paragraphs (i) and (iii) of this paragraph for payment of claims for

total loss shall be applied in payment of those claims to the extent to which that money is sufficient therefor, and if that money is not sufficient to pay all those claims in full, then the amount of the deficiency shall be paid by the Treasurer out of the Public Account;

- (c) if all the claims for compensation are claims for total loss only, they shall be paid out of the Fund to the extent to which the money in the Fund is sufficient therefor, and if that money is not sufficient to pay all those claims in full, then the amount of the deficiency shall be paid by the Treasurer out of the Public Account.

(2) Any moneys paid by the Treasurer out of the Public Account under this section shall not be or be deemed to be advances to the Fund pursuant to section eighteen of this Act and shall not in any way be a charge on the Fund or be repayable to the Treasurer from the Fund.
