areas of the said State other than the mining areas and that it may be further agreed or determined that such export will be from the port. In this event and notwithstanding the approval or determination of all or any of the detailed proposals hereunder the parties hereto acknowledge that the State may require that only one channel approach to the port shall be dredged to serve the interests of the Joint Venturers and of the other party as well as of other users of the port but that it will depend upon circumstances (including the depth and width of the channel approach and the respective time programmes for the dredging as desired by the Joint Venturers and the other party under and for the purposes of their respective agreements with the State) whether that channel approach shall be dredged by the Joint Venturers or by the other party or partly by each or under some other arrangements with a view to the joint user of the whole or part of the channel approach;

- (b) the parties hereto acknowledge the principle that whichever of the Joint Venturers and the other party should incur the whole or the greater capital outlay (as the case may be) for the dredging or should be responsible for the operation and maintenance of the channel approach (insofar as it is or is intended to be used by the other of them) should in the event of such use occurring within a period of seven (7) years from the commencement date be reimbursed by the other of them such a fair and reasonable proportion of the capital outlay and operation and maintenance costs respectively for the use of the channel approach or otherwise a fair and reasonable charge for such use as may be determined by mutual agreement between the parties concerned or failing agreement by arbitration under the provisions of the *Arbitration Act 1895* if those parties agree within a time to be fixed by the Minister to submit to arbitration and failing such agreement then as determined by the Minister;
- (c) if in the circumstances referred to in paragraph (b) of this clause the other party is the party to be re-imbursed then the Joint Venturers hereby agree on demand made by the State to pay the amount of such reimbursement (determined as aforesaid) to the State for and on behalf of the other party;
- (d) if in the circumstances referred to in paragraph (b) of this clause the Joint Venturers are the party to be re-imbursed then during a period not exceeding seven (7) years from the commencement date the State agrees not to permit vessels of the other party of which notice is given

to the State by the Joint Venturers to enter the port through the channel approach and then to load iron ore in bulk unless and until the other party has made arrangements reasonably satisfactory to the Joint Venturers (to be determined by agreement arbitration or the Minister as aforesaid) for a fair and reasonable contribution to capital outlay and operation and maintenance costs incurred or to be incurred by the Joint Venturers as aforesaid or for the payment of a fair and reasonable charge;

- (e) the State acknowledges and agrees with the Joint Venturers that in the event of the Joint Venturers incurring the whole or the greater capital outlay or operation and maintenance costs as aforesaid then vessels (other than vessels employed for the Joint Venturers' or other party's purposes) using the channel approach for the export from the port of more than half a million tons a year of bulk commodities (or such lesser tonnages as the Minister may direct from time to time either generally or in any particular case) should during a period not exceeding seven (7) years from the commencement date be required to pay to the Joint Venturers (or the State should be required to pay to the Joint Venturers from the moneys received from such vessels) fair and reasonable charges to be agreed by the parties hereto having regard to the circumstances including the aggregate tonnage of the commodities exported or to be exported from the port the rate of export and the capital outlay and operation and maintenance costs incurred and/or to be incurred by the Joint Venturers;
- (f) the Joint Venturers acknowledge and hereby agree with the State that the Joint Venturers will not be entitled to the payment of any moneys in respect of the use of the channel approach by vessels other than those referred to in the foregoing provisions of this clause but that in respect of such other vessels the State shall be entitled to retain all charges and other revenue received in respect of such use;
- (g) the Joint Venturers also agree with the State that notwithstanding any lease granted to them by the State of the whole or part of the channel approach the State or the other party may at any time after notice to the Joint Venturers deepen or widen the channel approach for which purpose the Joint Venturers will on request by the State surrender without compensation so much of the lease of the channel approach as may be required for the purpose PROVIDED HOWEVER that the Joint Venturers will be entitled to a reasonable time within which to complete any firm contract for the dredging of the channel approach actually

made by them (pursuant to the consent of the State or the determination by arbitration) but unfulfilled at the time of the giving of such notice in respect of the widening or deepening of the dredging of the channel approach.

Roads⁴

13. (1) The Joint Venturers shall subject to the State having assured to the Joint Venturers all necessary rights in or over Crown lands or reserves available for the purpose at their own cost and expense and in accordance with their proposals as approved hereunder construct such new roads as the Joint Venturers may reasonably require for the purposes of this Agreement, such roads to be of such widths, of such materials, with such gates and warning devices, crossings (level or grade separated where warranted) and pass-overs for cattle and for sheep and along such routes as the parties hereto shall agree after consideration of the requirements of the respective shire councils through whose districts any such roads may pass and after prior consultation with the Minister. Except to the extent that the Joint Venturers' relevant proposal as finally approved or determined under clause 6 hereof otherwise provides, the Joint Venturers shall allow the public to use free of charge any roads constructed or up-graded under this sub-clause PROVIDED THAT such use shall not unduly prejudice or interfere with the Joint Venturers' operations hereunder.

(2) The Joint Venturers shall have the right to use any public roads that may from time to time exist in the area of their operations under this Agreement both prior to the commencement date and also in the course of the Joint Venturers' operations hereunder. If the exercise by the Joint Venturers of such right results in or is likely to result in intensive use of any public road whereby excessive damage or deterioration is caused thereto or whereby that road becomes inadequate for use by the Joint Venturers and the public, the Joint Venturers will upon demand (except where and to the extent that the Commissioner of Main Roads or the local or other authority agrees to bear the whole or part of such cost) pay to the State or the local authority concerned or other authority having control of such road the cost of preventing or making good such damage or deterioration or of up-grading the road to a standard commensurate with the increased traffic.

(3) If required by the Joint Venturers the State shall at the Joint Venturers' cost and expense (except where and to the extent that the Commissioner of Main Roads agrees to bear the whole or any part of the cost) widen up-grade or realign any public road existing from time to time which the Joint Venturers desire to use for their operations hereunder over which the State

has control subject to the prior approval of the Commissioner of Main Roads to the proposed work.

Water⁴

14. (1) The Joint Venturers shall give to the State not less than two (2) years notice of their estimated water consumption at the port and port townsite (which amounts or such other amounts as shall be agreed between the parties hereto are hereinafter called “the Joint Venturers’ coastal water requirements”).

(2) Upon receipt of such notice the State shall in collaboration with the Joint Venturers and in accordance with a mutually agreed programme and budget at the expense of the Joint Venturers search for suitable subterranean water sources in areas agreed to by the parties hereto.

(3) In the event that the search referred to in sub-clause (2) of this clause identifies and proves subterranean water sources which are mutually agreed to be adequate to supply the Joint Venturers’ coastal water requirements the State shall, in accordance with a mutually agreed programme and budget, construct or arrange to have constructed at the Joint Venturers’ expense all bores, valves, pipelines, meters, tanks, equipment and appurtenances necessary to supply the Joint Venturers’ coastal water requirements.

(4) If, within six months of the commencement of the respective negotiations between the parties pursuant to sub-clause (2) and sub-clause (3) of this clause towards agreeing a programme and budget, the parties have not reached agreement, then the latest proposal of the State with respect to such programme and budget shall be deemed to be mutually agreed for the purposes of this clause PROVIDED such agreement shall not prejudice the Joint Venturers’ right to require the State to undertake supplementary water studies in the areas agreed pursuant to sub-clause (2) of this clause, as the Joint Venturers may require and at the Joint Venturers’ expense.

(5) The State may in its discretion construct the water supply facilities or any related works or appurtenances mentioned in sub-clause (3) of this clause to achieve a capacity greater than that needed to meet the Joint Venturers’ coastal water requirements and in that event the Joint Venturers shall pay to the State a sum or sums to be agreed between the parties hereto as being the Joint Venturers’ fair share of the cost of providing the said facilities works or appurtenances.

(6) The State shall supply to the Joint Venturers from sources developed by the State pursuant to sub-clauses (3) and (5) of this clause water up to an

amount and at a rate not less than that set forth in the notice given pursuant to sub-clause (1) of this clause PROVIDED HOWEVER that should such sources prove hydrologically inadequate to meet the Joint Venturers' coastal water requirements the State may limit the amount of water which may be taken from such sources at any one time or from time to time to the maximum which such sources are hydrologically capable of meeting as aforesaid.

(7) The Joint Venturers shall give to the State not less than six (6) months notice in respect of their requirements of water both at the townsite and within the mineral lease to implement their obligations hereunder (which amounts or such other amounts as shall be agreed between the parties hereto are hereinafter called "the Joint Venturers' inland water requirements").

(8) The Joint Venturers shall in collaboration with the State search for and make investigations to establish the availability of suitable subterranean water sources within the mineral lease or at other locations approved by the State and will employ and retain experienced ground water consultants where appropriate and will furnish the Minister with copies of the consultants' reports or alternatively if so requested by the Joint Venturers the State shall carry out the said search and investigations at the Joint Venturers' expense.

(9) The Joint Venturers shall provide and construct at their expense to standards and in accordance with designs approved by the State in accordance with their relevant proposals all necessary bores valves pipelines meters tanks equipment and appurtenances necessary to draw transport use and dispose of water drawn from sources licensed to the Joint Venturers.

(10) The Joint Venturers shall make application to the State for a license to draw water up to an amount and at a rate not less than that set forth in the notice given pursuant to sub-clause (7) hereof from suitable subterranean water sources identified pursuant to the search and investigation referred to in sub-clause (8) of this clause and as are agreed to be adequate and the State shall grant to the Joint Venturers such license PROVIDED HOWEVER that should such sources prove hydrologically inadequate to meet the Joint Venturers' inland water requirements, the State may limit the amount of water which may be taken from such sources at any one time or from time to time to the maximum which such sources are hydrologically capable of meeting as aforesaid.

(11) If during the currency of a license granted under the provisions of this clause the Minister is of the opinion that it is desirable that the sources of water licensed to the Joint Venturers and the water supply facilities established by the Joint Venturers pursuant to sub-clause (9) of this clause be made available to

the State for such purposes, *inter alia*, as water conservation, water management, utilisation of unused hydrological capacity, supply of water to third parties where such supply will not unduly prejudice the Joint Venturers' operations hereunder and establishment of a regional water supply system incorporating the area of operations of the Joint Venturers, the Minister shall, after first affording the Joint Venturers an opportunity to consult with the Minister, so notify the Joint Venturers and the Joint Venturers shall after the expiration of six (6) months from the date of such notice relinquish to the State the ownership control and operation of the said water supply facilities. The State shall thereupon assume the ownership control and operation of the said water supply facilities and shall revoke all relevant licenses previously issued to the Joint Venturers for the purpose of enabling them to draw subterranean water. The State shall not be liable to pay the Joint Venturers compensation in respect of the water supply facilities relinquished or the licenses revoked. Immediately after the revocation of such licenses the State shall, subject only to the continued hydrological availability of water from such sources previously licensed to the Joint Venturers, commence and thereafter continue to supply water to an amount and at a rate required by the Joint Venturers being the amount and rate to which the Joint Venturers were entitled under such revoked license and the proviso to sub-clause (10) of this clause shall in like manner apply to this sub-clause.

(12) The State may in its discretion develop any district or regional water supply and for the purposes thereof construct any works of the kind mentioned in sub-clause (9) of this clause to a greater capacity than that required to supply the Joint Venturers' inland water requirements but in that event the cost of the works as so enlarged shall be shared by the parties hereto in such manner as may be agreed to be fair in all the circumstances.

(13) The Joint Venturers shall design and construct their plant and facilities for the mining handling processing and transportation of ore so that as far as practicable non potable water may be used therein.

(14) The Joint Venturers shall pay to the State for water supplied by it pursuant to this clause a fair price to be negotiated between the parties hereto which shall be equal to the actual costs incurred by the State in supplying water to the Joint Venturers including operating maintenance and overhead costs and a provision for replacement of the water supply facilities. Notwithstanding the foregoing in respect of water supplied by the State to the Joint Venturers for domestic purposes the Joint Venturers shall pay to the State therefor charges as levied from time to time pursuant to the provisions of the *Country Areas Water Supply Act 1947*.

(15) The State may grant to a third party rights to draw water from sources from which the Joint Venturers draw water always provided however that —

- (a) where the Joint Venturers have paid (in whole or in part) any moneys in respect of the investigation proving development and utilisation of such sources as provided pursuant to this clause, the State shall require as a condition of such grant that where such third party is or will be a substantial user of water that party shall re-imburse to the Joint Venturers a proportion of such moneys as the Minister determines is fair and reasonable having regard *inter alia* to the proportion which that party's actual or potential requirements for water bears to the total capacity of such sources; and
- (b) where the Joint Venturers draw from a source developed wholly at their expense pursuant to this clause, the State shall ensure that it is a condition of such grant to third parties that in the event that the capacity of the source is reduced, such reduction shall be first applied to such third parties and thereafter if further reduction is necessary the State's and the Joint Venturer's requirements shall be reduced in such proportion as may be agreed.

(16) Without prejudice to the provisions of sub-clause (10) of this clause the Joint Venturers shall collaborate with the State in an investigation of surface water, catchments and storage dams should water supplies from available underground sources prove insufficient to meet the Joint Venturers' coastal water requirements and the Joint Venturers' inland water requirements and the Joint Venturers shall if they propose to utilise such water catchments and/or storage dams pay to the State a sum or sums to be agreed towards the cost of such investigation and towards the cost of constructing any water storage dam or dams and reticulation facilities required PROVIDED THAT the State may in its sole discretion elect to construct a water storage dam or dams and reticulation facilities having a capacity in excess of that required to supply the Joint Venturers' needs and in that event the Joint Venturers' contribution shall be limited to a fair and reasonable proportion of the total cost of constructing such water storage dam or dams and reticulation facilities.

(17) Any reference in this clause to a license is a reference to a license under the *Rights in Water and Irrigation Act 1914* and the provisions of that Act relating to water rights and licenses shall except where inconsistent with the

provisions of this Agreement apply to any water sources developed for the Joint Venturers' purposes under this Agreement.

(1) The Joint Venturers shall in accordance with their proposals as approved construct without cost or expense to the State facilities for the generation and transmission of electricity needed to enable the Joint Venturers to carry out their obligations hereunder. The Joint Venturers shall design and construct their electrical generation plant equipment and transmission system so as to facilitate the ultimate connection of such plant equipment and transmission system with facilities owned by the State Electricity Commission or other third parties.

(2) The State may at any time give to the Joint Venturers twelve months' notice of its intention to acquire and may thereafter acquire the Joint Venturers' electrical generation plant equipment and transmission system or any of them up to the first point of voltage breakdown or such other appropriate point as may be agreed, at a price to be agreed between the parties and the Joint Venturers will take all such steps as may be necessary to give effect to the acquisition. The State undertakes that in such event the Joint Venturers shall have first priority for their purposes hereunder on the power generated by such plant and equipment or capable of being transmitted along such systems and the State guarantees subject only to its inability to supply power for any of the reasons set forth in clause 37 hereof to supply the Joint Venturers with power for all their purposes hereunder up to the normal continuous full load capacity of such plant and equipment and the State undertakes that in the event of such inability to supply power the State shall take all possible steps to restore such supply regardless of the time or day when such inability to supply power arises and may call upon the Joint Venturers to provide employees for that purpose.

(3) In the event of the State acquiring the Joint Venturers' facilities or any of them as provided by sub-clause (2) of this clause the Joint Venturers shall pay to the State Electricity Commission the cost of all electricity supplied to the Joint Venturers by the Commission at a rate equal to the standard tariff applying from time to time to the Commission's system less the difference (if any) between the Commission's standard tariff in force at the time of the State's acquisition of the facilities pursuant to subclause (2) of this clause and the Joint Venturers' costs of operating those facilities (including *inter alia* appropriate capital charges) at the time of the said acquisition. The Commission's rate for electricity calculated as aforesaid shall apply to an amount of electricity equal to the continuous full load capacity of the facilities so acquired and the Joint

Venturers shall pay for all electricity supplied to them by the Commission in excess of such amount at the Commissions standard tariff applicable from time to time.

16. (1) The Joint Venturers shall collaborate with the State in the planning, location and development of the deposits' townsite and shall employ an experienced town planner to prepare a town plan for initial and long-term town development which town plan shall be submitted by the Joint Venturers as part of proposals pursuant to clause 5(3)(c) hereof.

Subject to the provisions of clause 18 hereof the Joint Venturers shall pay to the State or the appropriate authority the capital cost of establishing and providing additional services and facilities and associated equipment including sewerage and water supply schemes, main drains, education, police and hospital services to the extent to which those additional works and services are made necessary in that town as a result of the operations of the Joint Venturers.
