Agricultural Produce (Chemical Residues) Regulations 1985

Reprint 2: The regulations as at 1 February 2007

Guide for using this reprint

What the reprint includes

Endnotes, Compilation table, and Table of provisions that have not come into operation

1. Details about the original regulations and legislation that has amended its text are shown in the Compilation table in endnote 1, at the back of the reprint. The table also shows any previous reprint.
2. Transitional, savings, or other provisions identified in the Compilation table may be important. The table may refer to another endnote setting out the text of these provisions in full.
3. A table of provisions that have not come into operation, to be found in endnote 1a if it is needed, lists any provisions of the regulations being reprinted that have not come into operation and any amendments that have not come into operation. The full text is set out in another endnote that is referred to in the table.

Notes amongst text (italicised and within square brackets)

1. If the reprint includes a regulation that was inserted, or has been amended, since the regulations being reprinted were made, editorial notes at the foot of the regulation give some history of how the regulation came to be as it is. If the regulation replaced an earlier regulation, no history of the earlier regulation is given (the full history of the regulations is in the Compilation table).

Notes of this kind may also be at the foot of Schedules or headings.

2. The other kind of editorial note shows something has been —
 - removed (because it was repealed or deleted from the law); or
 - omitted under the *Reprints Act 1984* s. 7(4) (because, although still technically part of the text, it no longer has any effect).

The text of anything removed or omitted can be found in an earlier reprint (if there is one) or one of the written laws identified in the Compilation table.

Reprint numbering and date

1. The reprint number (in the footer of each page of the document) shows how many times the regulations have been reprinted. For example, numbering a reprint as “Reprint 3” would mean that the reprint was the 3rd reprint since the regulations were published. Reprint numbering was implemented as from 1 January 2003.
2. The information in the reprint is current on the date shown as the date as at which the regulations are reprinted. That date is not the date when the reprint was published by the State Law Publisher and it is probably not the date when the most recent amendment had effect.

Agricultural Produce (Chemical Residues) Act 1983

Agricultural Produce (Chemical Residues) Regulations 1985

1. Citation

These regulations may be cited as the *Agricultural Produce (Chemical Residues) Regulations 1985*¹.

2. Commencement

These regulations shall come into operation on
1 September 1985.

2AA. Terms used in these regulations

- (1) In these regulations unless the contrary intention appears —
- “animal feeding stuff”** means any substance, including any mixture or compound, and whether in package form or in bulk, used or intended for consumption by any animal or offered for sale for that purpose, and includes basic feed, processed food and manufactured stock foods;
- “basic feed”** means any grain, seeds, hay, meat or fish used as, or in the preparation of, an animal feeding stuff;

r. 2AA

“by-product” means any substance produced from an animal or plant, in any process of treatment or manufacture, not being the primary object of such process;

“Food Standards Code” means the code published under the name “Food Standards Code” in the Commonwealth *Food Standards Gazette* on 27 August 1987 together with any amendments to the standards in that Code up to and including “Amendment 84”;

“manufactured stock food” means any feed made up of one or more of the following —

- (a) basic feed;
- (b) processed food;
- (c) by-products,

and includes stock licks but does not include basic feed only;

“MRL Standard” means the “Maximum Residue Limit Standard”, listing maximum residue limits set by the Australian Pesticides and Veterinary Medicines Authority (APVMA) as published in the *Agricultural and Veterinary Chemical Gazette* of the Commonwealth, together with any amendments, as at February 2006;

“processed food” means a basic feed which has been changed in form by chemical, physical, or mechanical treatment and includes by-products.

- (2) In these regulations a reference to agricultural produce by a group name specified in Column 1 of Schedule 1 is a reference to the agricultural produce specified opposite that group name in Column 2 of that Schedule.

[Regulation 2AA inserted in Gazette 22 May 1987 p. 2202; amended in Gazette 11 Jun 1996 p. 2431-2; 11 Aug 2006 p. 2977-8.]

2A. Agricultural chemicals

If a substance is —

- (a) defined as a “metal contaminant” in the Food Standards Code, Standard 1.4.1, clause 2; or
- (b) defined as a “chemical” in the Food Standards Code, Standard 1.4.2, clause 1(6) and listed in bold type in one of the shaded boxes in Schedule 1 of that Standard; or
- (c) listed as a “compound” in the MRL Standard Table 4; or
- (d) listed as in Schedule 3 to these regulations,

that substance is prescribed to be an “agricultural chemical” for the purposes of the Act.

[Regulation 2A inserted in Gazette 11 Aug 2006 p. 2978.]

3. Maximum residue limits

- (1) Subject to this regulation, the maximum residue limits prescribed for agricultural chemicals in agricultural produce are those set out in —
 - (a) the Table to clause 2 of the Food Standards Code, Standard 1.4.1; or
 - (b) Schedule 1 of the Food Standards Code, Standard 1.4.2; or
 - (c) Table 4 to the MRL Standard.
- (2) Where there is no maximum residue limit prescribed for an agricultural chemical in agricultural produce under subregulation (1), the maximum residual limit is zero.
- (3) Where mixed agricultural produce listed in a Schedule or Table referred to in subregulation (1) contains more than one kind of agricultural produce listed under or against an agricultural chemical, then the following formulae are to be used to

calculate a maximum residue limit (MRL) for the agricultural chemical in relation to that mixed agricultural produce —

For a mixture of 2:

$$MRL\ C = \frac{Weight\ A}{Total\ Weight} \times MRL\ A + \frac{Weight\ B}{Total\ Weight} \times MRL\ B$$

Where —

MRL C = the MRL that applies to the agricultural chemical in the mixed agricultural produce;

MRL A = the MRL for the agricultural chemical which applies to agricultural produce A;

MRL B = the MRL for the agricultural chemical which applies to agricultural produce B;

Total Weight = the total weight of the mixed agricultural produce;

Weight A = the total weight of agricultural produce A;

Weight B = the total weight of agricultural produce B.

For a mixture of more than 2:

$$MRL\ C = \sum_{i=1}^n \frac{Weight\ i}{Total\ Weight} \times MRL\ i$$

- (4) Where residues of 2 or more of the agricultural chemicals listed in any one group of those specified in Schedule 3 are present in any agricultural produce, then when the following formula is applied, the MRL levels are exceeded if the result (Z) is greater than 1.

Where 2 residues are present:

$$\frac{Concentration\ of\ chemical\ A\ present}{MRL\ for\ chemical\ A} + \frac{Concentration\ of\ chemical\ B\ present}{MRL\ for\ chemical\ B} = Z$$

Where more than 2 residues are present:

$$\sum_{i=1}^n \frac{[i]}{MRL_i} = Z$$

[Regulation 3 inserted in Gazette 11 Aug 2006 p. 2978-9.]

4. Method of determination

For the purpose of determining the agricultural chemicals present in agricultural produce, the agricultural produce examined shall consist of the whole agricultural produce and the results of the analysis shall be expressed in milligrams of the residue per kilogram (mg/kg) of the whole agricultural produce except in the case of the following agricultural produce, which shall be examined subject to the modifications specified below —

- (a) bananas — crown tissue and stalk shall be removed and discarded;
- (b) tree nuts — shells shall be removed and discarded;
- (c) strawberries — caps (hulls) shall be removed and discarded;
- (d) melons — stems shall be removed and discarded;
- (e) corn (*Zea mays*) — stems and outer sheaths (husks) shall be removed from the ears and discarded (only the corn kernels shall be examined);
- (f) pineapples — the crowns (leaves at the top of the fruit) shall be removed and discarded;
- (g) passionfruit — skin shall be removed and discarded;
- (h) eggs — shells shall be removed and discarded;
- (i) stone fruits — stones shall be removed and discarded;
- (j) root vegetables — where a maximum residue limit is specified in relation to a root vegetable including tops or with tops and the tops and the root are marketed together, they shall be analysed separately and neither

r. 4

the residue on the roots nor the residue on the tops shall exceed the maximum residue limit.

[Regulation 4 amended in Gazette 11 Jun 1996 p. 2432.]

[5. Repealed in Gazette 30 Dec 2004 p. 6894.]

Schedule 1

[Regulation 2AA]

Column 1 Group name	Column 2 Agricultural produce
Alliums	Chives, Garlic, Leeks, Onions, Shallots
Berry fruits	Blackberries, Boysenberries, Currants, Elderberries, Gooseberries, Loganberries, Mulberries, Raspberries, Rosehips, Strawberries, Vaccinium berries
Berry vegetables	Cape gooseberry, Capsicums, Eggplant, Okra, Tomatoes
Cereal grains	Barley, Maize, Millet, Oats, Rice, Rye, Sorghum, Triticale, Wheat
Citrus fruits	Citrons, Cumquats, Grapefruits, Lemons, Limes, Mandarins, Oranges, Pomeloes, Tangeloes, Tangors
Cucurbits	Chokos, Cucumbers, Marrows, Melons, Pumpkins, Squash
Fish	Crustaceans, Freshwater fish, Sea-fish, Shellfish
Fruit	Avocados, Bananas, Berry fruits, Citrus fruits, Custard apples, Figs, Grapes, Guavas, Mangoes, Monstera, Passionfruit, Pawpaws, Persimmons, Pineapples, Pome fruits, Stone fruits
Leafy vegetables	Chinese cabbage, Cole crops (Broccoli, Brussel sprouts, Cabbages, Cauliflowers, Kale, Kohlrabi), Cress, Endive, Lettuce, Spinach, Swiss chard, Turnip tops
Meat	Buffaloes, Cattle, Goats, Pigs, Sheep
Oil seeds	Cottonseed, Linseed, Rapeseed, Safflower seed, Sunflower seed
Pome fruits	Apples, Crabapples, Loquats, Medlars, Pears, Pomegranates, Quinces
Poultry	Domestic fowls, Ducks, Geese, Guinea fowls, Pheasants, Pigeons, Quail, Turkeys
