Agricultural and Veterinary Chemicals (Western Australia) Act 1995

An Act to apply certain laws of the Commonwealth relating to agricultural and veterinary chemical products as laws of Western Australia and for related purposes.

Reasons for enacting this Act

1. The protection of the health and safety of human beings, animals and the environment is essential to the well-being of society and can be enhanced by putting in place a system to regulate agricultural chemical products and veterinary chemical products.
2. The principle of ecologically sustainable development requires a regulatory system that is designed to ensure that the use of such products today will not impair the prospects of future generations.
3. The furthering of trade and commerce between Australia and places outside Australia, and the present and future economic viability and competitiveness of primary industry and of a domestic industry for manufacturing and formulating such products, are essential for the well-being of the economy and require a system for regulating such products that is cost effective, efficient, predictable, adaptive and responsive.
4. It is desirable to establish a regulatory system that is open and accountable and gives opportunity for public input with respect to the regulation of such products.

5. The system should, so far as practicable, be uniform throughout Australia.
6. Uniformity could best be achieved by the enactment of legislation by the Parliament of the Commonwealth as a law for the government of the Australian Capital Territory and the adoption of that legislation by the Parliaments and legislatures of the States and the Northern Territory.

7. Interpretation of Agvet Code and Agvet Regulations of this jurisdiction

- (1) In the Agvet Code, and the Agvet Regulations, of this jurisdiction —

Minister for this jurisdiction means the Minister;

- (3) If a law of a jurisdiction other than this jurisdiction provides that the regulations in force for the time being under section 6 of the Agricultural and Veterinary Chemicals Code Act apply as regulations in force for the purposes of the Agvet Code of that jurisdiction, the Agvet Regulations of that jurisdiction are those regulations as so applying.

10. References to Agvet Codes and Agvet Regulations

- (3) Despite any other provision of this Act or the Agvet Code, regulations made under section 32 may provide —
 - (a) that a specified enactment has effect despite the Agvet Code, or a specified provision of the Agvet Code; or
 - (b) that the Agvet Code, or a specified provision of the Agvet Code, applies as a law of Western Australia with modifications prescribed by the regulations; or
 - (c) that a specified provision of the Agvet Code that would otherwise apply by virtue of Part 2 does not apply as a law of Western Australia.
- (4) Subject to subsection (5), regulations under subsection (3)(b) or (c) may, if the regulations so provide, have retrospective effect from the day on which the relevant provision of the Agvet Code applied (or would otherwise have applied) as a law of Western Australia.
- (5) To the extent that regulations take effect under subsection (4) from a date that is earlier than the date of their publication in the *Gazette*, the regulations do not operate so as —
 - (a) to affect, in a manner prejudicial to any person (other than the State or an authority of the State), the rights of that person existing before the date of publication; or
 - (b) to impose liabilities on any person (other than the State or an authority of the State) in respect of anything done or omitted to be done before the date of publication.
