Secondary processing⁸

11. (1) The Company having commenced already to investigate the feasibility of establishing a plant for the secondary processing by the Company within the said State of iron ore from the mineral lease will from time to time

review this matter with a view to its being in a position before the end of year 10 to submit to the Minister detailed proposals for such plant (capable ultimately of treating not less than Two million (2,000,000) tons of iron ore per annum) containing provision that —

- (a) the plant will by the end of year 12 have the capacity to process at an annual rate of and will during year 13 process not less than Five hundred thousand (500,000) tons of iron ore;
- (b) production will progressively increase so that the plant will by the end of year 16 have the capacity to process at an annual rate of and will during year 17 process not less than Two million (2,000,000) tons of iron ore; and
- (c) the capital cost involved will be not less than Eight million pounds (£8,000,000) unless the Company utilises a less expensive but at least equally satisfactory method of secondary processing than any at present known to either party.

Provided that if the Company satisfies the Minister that the Company's mining operations are not producing quantities of iron ore suitable for treatment at a rate of two million (2,000,000) tons of iron ore per annum on an economic basis then the Minister may approve a modified proposal and reduce the figure of two million (2,000,000) tons to a figure the Minister considers appropriate having regard to prevailing circumstances but to not less than one million (1,000,000) tons per annum with provision for progressive increase to two million (2,000,000) tons per annum on a revised programme and in approving such modified proposal the Minister may approve corresponding variations of the provisions of paragraphs (a) (b) and (c) of this subclause.

(2) If before the end of year 10 such proposals are submitted by the Company to the Minister the State shall within two months of the receipt thereof give to the Company notice either of its approval of the proposals (which approval shall not be unreasonably withheld) or of any objections raised or alterations desired thereto and in the latter case shall afford the Company an opportunity to consult with and to submit new proposals to the Minister. If within thirty days of receipt of such notice agreement is not reached as to the proposals the Company may within a further period of thirty days elect by notice to the State to refer to arbitration as hereinafter provided any dispute as to the reasonableness of the Minister's decision. If by the award on arbitration the question is decided in favour of the Company the Minister shall be deemed to have then approved the proposals of the Company.

(3) If such proposals are not submitted by the Company to the Minister before the end of year 10 or if such proposals are so submitted but are not approved by the Minister within two months of receipt thereof then (subject to any extension of time granted under subclause (1) of clause 7 hereof)

- (a) the Company shall not after the end of year 12 export iron ore hereunder at an annual rate in excess of Five million (5,000,000) tons unless prior to year 10 the Minister shall have approved the Company entering into a contract or contracts for the export of iron ore at an annual rate in excess of Five million (5,000,000) tons; and
- (b) if by the end of year 13 (or extended date if any) the State gives to the Company notice that some other company or party (hereinafter referred to as “the Third Party”) has agreed to establish a plant for secondary processing within the said State of iron ore from the mineral lease on terms not more favourable on the whole to the Third Party than those proposed by or available to the Company hereunder this Agreement will (subject to the provisions of subclauses (d) and (e) of clause 10 and of clause 15 hereof) cease and determine at the end of year 21 or at the date by which the Third Party has substantially established the plant referred to in this subclause in accordance with the terms agreed upon by the State and the Third Party whichever is the later.

PROVIDED THAT if by the end of year 13 (or extended date if any) the State has not given to the Company the notice referred to in this subclause paragraph (a) of this subclause shall thereupon cease to have effect AND PROVIDED FURTHER that the Company may at any time after the end of year 10 submit proposals as aforesaid if at that time it has not received the notice aforesaid and the provisions of subclause (2) of this clause shall apply to such proposals but (subject to any extension of time as aforesaid) the Company may not submit proposals as aforesaid after the end of year 10 and before the end of year 13 if it has received a notice from the Minister that he is negotiating with a Third Party and such notice has not been withdrawn.

(4) Subject to the provisions of clause 12 hereof and except as provided in paragraph (b) of subclause (3) of this clause this Agreement will continue in operation subject to compliance by the Company with its obligations hereunder and with such proposals by the Company as are approved by the Minister.

(5) Notwithstanding anything contained herein no failure by the Company to submit to the Minister proposals as aforesaid nor any non-approval

by the Minister of such proposals shall constitute a breach of this Agreement by the Company and subject to the provisions of clause 12 hereof the only consequence arising from such failure or non-approval (as the case may be) will be those set out in subclause (3) of this clause.

Iron and steel industry⁸

12. (1) The Company will in due course investigate the feasibility of establishing an integrated iron and steel industry within the said State and will from time to time review this matter with a view to its being in a position before the end of year 20 to submit to the Minister detailed proposals for such industry (capable ultimately of producing one million (1,000,000) tons of steel per annum) containing provision that —

- (a) by the end of year 25 productive capacity will be at an annual rate of not less than and during year 26 production will be not less than Five hundred thousand (500,000) tons of pig iron foundry iron or steel (hereinafter together referred to as “product”) of which not less than Two hundred and fifty thousand (250,000) tons will be steel;
- (b) production will progressively increase so that by the end of year 29 productive capacity will be at an annual rate of not less than and during year 30 production will be not less than One million (1,000,000) tons of product (of which not less than Five hundred thousand (500,000) tons will be steel) and by the end of year 31 productive capacity will be at an annual rate of not less than and during year 32 production will be not less than One million (1,000,000) tons of steel; and
- (c) the capital cost involved will be not less than Forty million pounds (£40,000,000) unless the Company utilises a less expensive but at least equally satisfactory method of manufacture than any at present known to either party.

(2) If before the end of year 20 such proposals are submitted by the Company to the Minister the State shall within two months of the receipt thereof give to the Company notice either of its approval of the proposals (which approval shall not be unreasonably withheld) or of any objections raised or alterations desired thereto and in the latter case shall afford to the Company an opportunity to consult with and to submit new proposals to the Minister. If within thirty days of receipt of such notice agreement is not reached as to the proposals the Company may within a further period of thirty days elect by

notice to the State to refer to arbitration as hereinafter provided any dispute as to the reasonableness of the Minister's decision. If by the award on arbitration the question is decided in favour of the Company the Minister shall be deemed to have then approved the proposals of the Company.

(3) If such proposals are not submitted by the Company to the Minister before the end of year 20 or if such proposals are so submitted but are not approved by the Minister within two months after receipt thereof then (subject to any extension of time granted under subclause (1) of clause 7 hereof) if by the end of year 23 (or extended date if any) the State gives to the Company notice that some other company or party (hereinafter referred to as "the Fourth Party") has agreed to establish either —

- (a) a plant for secondary processing within the said State of iron ore from the mineral lease (if proposals by the Company for the establishment of such a plant have not previously been submitted to and approved by the Minister) on terms not more favourable on the whole to the Fourth Party than those proposed by or available to the Company hereunder; or
- (b) an integrated iron and steel industry within the said State (using iron ore from the mineral lease) on terms not more favourable on the whole to the Fourth Party than those proposed by or available to the Company hereunder.

then and in either case this Agreement will (subject to the provisions of subclauses (d) and (e) of clause 10 hereof and clause 15 hereof) cease and determine —

- (i) in the case of the Fourth Party proceeding with secondary processing then when the Fourth Party has substantially established the plant referred to in paragraph (a) of this subclause;
- (ii) in the case of the Fourth Party proceeding with an integrated iron and steel industry then (if proposals by the Company for a plant for secondary processing have previously been submitted to and approved by the Minister) at the end of the year 30 or at the date by which the Fourth Party has substantially established that industry whichever is the later; and
- (iii) in the case of the Fourth Party proceeding with an integrated iron and steel industry then (if proposals by the Company for a plant for secondary processing have not previously been submitted to and

approved by the Minister) at the date by which the Fourth Party has substantially established that industry.

(4) If by the end of year 23 (or extended date if any) the State has not given to the Company any such notice as is referred to in subclause (3) of this clause that subclause shall thereupon cease to have effect except that (to the extent they can from time to time operate) the provisions of subclause (3) of this clause shall revive (for a period of three years) at the end of year 33 and at the end of each successive period of 13 years thereafter in such a way that each year referred to in that subclause shall be read as the year thirteen years or (as the case may require) a multiple of thirteen years thereafter (subject to extensions of dates if any as aforesaid).

(5) The Company may at any time after the end of year 20 submit proposals for an integrated iron and steel industry if at that time it has not received any notice under subclause (3) of this clause and the provisions of subclauses (1) and (2) of this clause shall apply to such proposals.

(6) Except as provided in subclause (3) of this clause this Agreement will continue in operation subject to compliance by the Company with its obligations hereunder and with such proposals by the Company as are approved by the Minister.

(7) Notwithstanding anything contained herein no failure by the Company to submit to the Minister proposals as aforesaid nor any non-approval by the Minister of such proposals shall constitute a breach of this Agreement by the Company and the only consequences arising from such failure or non-approval (as the case may be) will be those set out in subclause (3) of this clause.

“Substantial establishment”⁸

13. The Third Party or the Fourth Party shall have substantially established a plant for secondary processing or an integrated iron and steel industry when and not before that party's secondary processing plant has the capacity to treat not less than two million (2,000,000) tons of iron ore per annum or (as the case may be) that party's integrated iron and steel industry has the capacity to produce one million (1,000,000) tons of steel per annum and in either case the Minister has notified the Company that he is satisfied that that party will proceed *bona fide* to operate its plant or industry.

Terms “not more favourable”⁸

14. In deciding whether for the purposes of clause 11 or clause 12 hereof the terms granted by the State to some company or party are not more favourable on the whole than those proposed by or available to the Company regard shall be had *inter alia* to all the obligations which would have continued to devolve on the Company had it proceeded with secondary processing or (as the case may be) iron and steel manufacture or steel manufacture including its obligations to mine transport by rail and ship iron ore and restrictions relating thereto to pay rent additional rental and royalty and (in the case of secondary processing by a third party pursuant to clause 11 hereof) to termination of rights as provided in clause 12 hereof if proposals for iron and steel manufacture or steel manufacture are not brought to fruition and also to the need for the other company or party to pay on a fair and reasonable basis for or for the use of property accruing to the State under paragraph (e) of clause 10 hereof and made available by the State to that company or party but also to any additional or equivalent obligations to the State assumed by that company or party PROVIDED HOWEVER that if after the end of year 33 the Minister gives notice to the Company under clause 12 hereof that another company or party has agreed to establish either secondary processing or an integrated iron and steel industry but not both then the latter company or party need not have any obligation to establish both.

Forthwith upon receipt of such notice the State will ensure that the Third Party (or the Fourth Party as the case may be) is obligated to discharge such obligations in accordance with such contract or contracts on a basis which is fair and reasonable as between the Company and the Third Party (or the Fourth Party as the case may be) or if desired to supply iron ore to the Company into ships on such fair and reasonable basis.

16. The Company covenants and agrees with the State that should the Company remain in possession of the mineral lease for any period during which

the Third Party or the Fourth Party is operating or is ready to operate a plant for secondary processing of iron ore or an integrated iron and steel industry then during such period (whenever commencing) the Company will supply the Third Party or the Fourth Party or both (as the case may be) with iron ore from the mineral lease (not exceeding in all Five million (5,000,000) tons per annum unless otherwise agreed) —

 - (i) the agreement dated the 16th day of November 1967 approved by the *Iron Ore (Mount Newman) Agreement Act Amendment Act*;
 - (ii) the agreement dated the 9th day of May 1979 approved by the *Iron Ore (Mount Newman) Agreement Act Amendment Act 1979*;
 - (iii) agreements dated respectively the 11th day of December 1985 and the 27th day of January 1987 entered into pursuant to clause 20(1) of the 1964 Agreement;
- (b) the 1964 Agreement as so varied is hereinafter referred to as “the Principal Agreement”;
- (c) the parties desire to amend the Principal Agreement pursuant to clause 20(1) thereof.

NOW THIS AGREEMENT WITNESSETH —

1. Subject to the context the words and expressions used in this Agreement have the same meanings respectively as they have in and for the purposes of the Principal Agreement.
2. The provisions of this Agreement shall not come into operation until a Bill to approve and ratify this Agreement is passed by the Legislature of the State of Western Australia and comes into operation as an Act.
3. The Principal Agreement is hereby varied as follows —

(1) Clause 1 —

- (a) by deleting the definitions of “direct shipping ore”, “fine ore”, “fines” and “f.o.b. revenue”;
- (b) by inserting, in the appropriate alphabetical positions, the following definitions —

“ “agreed or determined” means agreed between the Company and the Minister or, failing agreement within three months of the Minister giving notice to the Company that he requires the value of a quantity of iron ore to be agreed or determined, as determined by the Minister and in agreeing or determining a fair and reasonable market value of such iron ore assessed at an arm’s length basis the Company and/or the Minister as the case may be shall have regard to prevailing markets and prices for that type of iron ore both outside and within the Commonwealth and where prices beyond the deemed f.o.b. point are being considered the deductions mentioned in the definition of f.o.b. value;

“beneficiated ore” means iron ore which has been concentrated or upgraded otherwise than by washing drying crushing or screening or a combination thereof;

“deemed f.o.b. point” means on ship at the Company’s wharf;

“deemed f.o.b. value” means an agreed or determined value of the iron ore at the time the iron ore becomes liable to royalty established on the basis that the iron ore was sold f.o.b. at the deemed f.o.b. point;

“fine ore” means iron ore (not being beneficiated ore) which is sized minus six millimetres;

“f.o.b. value” means —

- (i) in the case of iron ore shipped and sold by the Company, the price which is payable for the iron ore by the purchaser thereof to the Company or an associated company or, where the Minister is not satisfied that the price payable in respect of the iron ore represents a fair and reasonable market value for that type of iron ore assessed at an arm’s length basis, such amount as is agreed or determined, less all export duties and export taxes payable to the Commonwealth on the export of the iron ore and all costs and charges properly incurred and payable by the Company from the time the iron ore shall be placed on ship at the Company’s wharf to the time the same is delivered and accepted by the purchaser including —

- (ii) in all other cases, the deemed f.o.b. value. For the purpose of subparagraph (i) of this definition, it is acknowledged that the consideration payable in an arm's length transaction for iron ore sold solely for testing purposes may be less than the fair and reasonable market value for that iron ore and in this circumstance where the Minister in his discretion is satisfied such consideration represents the entire consideration payable, the Minister shall be taken to be satisfied that such entire consideration represents the fair and reasonable market value;

- (3) If the decision of the Minister is as mentioned in either of paragraphs (a), (c) or (d) of subclause (1) the Minister shall afford the Company full opportunity to consult with him and should it so desire to submit new or revised proposals either generally or in respect to some particular matter.
- (4) If the decision of the Minister is as mentioned in either of paragraphs (c) or (d) of subclause (1) and the Company considers that the decision is unreasonable the Company within 2 months after receipt of the notice mentioned in subclause (2) may elect to refer to arbitration in the manner hereinafter provided the question of the reasonableness of the decision PROVIDED THAT any requirement of the Minister pursuant to the proviso to subclause (1) shall not be referable to arbitration hereunder. A decision of the Minister under paragraph (a) of subclause (1) shall not be referable to arbitration under this Agreement.
- (5) If by the award made on the arbitration pursuant to subclause (4) the dispute is decided in favour of the Company the decision shall take effect as a notice by the Minister that he is so satisfied with and approves the matter or matters the subject of the arbitration.

- (7) Notwithstanding clause 20, the Minister may during the implementation of approved proposals approve variations to those proposals

Notification of possible proposals

- 7C. (1) If the Company, upon completion of a pre-feasibility study in respect of any matter that would require the submission and approval of proposals pursuant to this Agreement (being proposals which will have as their purpose, or one of their purposes, the integrated use of works installations or facilities as contemplated by clause 9C) for the matter to be undertaken,

intends to further consider the matter with a view to possibly submitting such proposals it shall promptly notify the Minister in writing giving reasonable particulars of the relevant matter.
