Radiation Safety Act 1975

Radiation Safety (Qualifications) Regulations 1980

Reprint 2: The regulations as at 6 February 2015

As at 06 Feb 2015

Version 02-a0-00

Extract from www.slp.wa.gov.au, see that website for further information

Guide for using this reprint

What the reprint includes

Endnotes, Compilation table, and Table of provisions that have not come into operation

1. Details about the original regulations and legislation that has amended its text are shown in the Compilation table in endnote 1, at the back of the reprint. The table also shows any previous reprint.
2. Transitional, savings, modifying or other provisions identified in the Compilation table may be important. The table may refer to another endnote setting out the text of these provisions in full.
3. A table of provisions that have not come into operation, to be found in endnote 1a if it is needed, lists any provisions of the regulations being reprinted that have not come into operation and any amendments that have not come into operation. The full text is set out in another endnote that is referred to in the table.

Notes amongst text (italicised and within square brackets)

1. If the reprint includes a regulation that was inserted, or has been amended, since the regulations being reprinted were made, editorial notes at the foot of the regulation give some history of how the regulation came to be as it is. If the regulation replaced an earlier regulation, no history of the earlier regulation is given (the full history of the regulations is in the Compilation table).

Notes of this kind may also be at the foot of Schedules or headings.

2. The other kind of editorial note shows something has been —
 - removed (because it was repealed or deleted from the law); or
 - omitted under the *Reprints Act 1984* s. 7(4) (because, although still technically part of the text, it no longer has any effect).

The text of anything removed or omitted can be found in an earlier reprint (if there is one) or one of the written laws identified in the Compilation table.

Reprint numbering and date

1. The reprint number (in the footer of each page of the document) shows how many times the regulations have been reprinted. For example, numbering a reprint as “Reprint 3” would mean that the reprint was the 3rd reprint since the regulations were published. Reprint numbering was implemented as from 1 January 2003.
2. The information in the reprint is current on the date shown as the date as at which the regulations are reprinted. That date is not the date when the reprint

was published by the State Law Publisher and it is probably not the date when the most recent amendment had effect.

Radiation Safety Act 1975

Radiation Safety (Qualifications) Regulations 1980

1. Citation

These regulations may be cited as the *Radiation Safety (Qualifications) Regulations 1980*¹.

2. Term used: approved

In these regulations, unless the context otherwise requires —
approved means approved by the Council.

*[Regulation 2 amended in Gazette 20 Jul 1990 p. 3466;
14 Sep 1999 p. 4530.]*

3. Qualifications required of persons engaged in certain activities

(1) A person shall not engage in —

(a) the use of —

(i) irradiating apparatus for chiropractic radiography
or industrial radiography; or

(ii) radioactive substances for industrial radiography
or veterinary therapy;

[(b) deleted]

r. 4

- (c) the installation or repair of —
 - (i) X-ray apparatus; or
 - (ii) equipment incorporating radioactive substances,

unless he has passed an examination in radiation safety conducted by or on behalf of the Council, possesses an approved qualification in radiation safety or has been exempted from compliance with this subregulation under subregulation (2).

- (2) The Council may, on the application of a person who wishes to engage in one or more of the activities referred to in paragraphs (a) and (c) of subregulation (1), exempt that person from compliance with that subregulation subject to such conditions, restrictions or limitations as the Council may under section 36 of the Act impose.

[Regulation 3 amended in Gazette 14 Sep 1999 p. 4530.]

4. Council may require qualifications of certain persons

The Council may, for the purpose of ensuring that a person who wishes to operate or use a particular type of radioactive substance, irradiating apparatus or electronic product, other than a radioactive substance, irradiating apparatus or electronic product referred to in regulation 3(1), for a purpose referred to in section 26(1)(a) of the Act is capable of doing so safely, require that person to pass an examination in radiation safety conducted by or on behalf of the Council or to possess an approved qualification in radiation safety within such period as is specified in that requirement.

5. Syllabus for examination in radiation safety

- (1) The syllabus for the examination in radiation safety referred to in regulations 3 and 4 shall consist of such of the subjects specified in Schedule 1 as the Council considers appropriate in each case.

- (2) A list of standards, rules, codes and specifications referred to in item 9 of Schedule 1 is to be made available free of charge at the office of the Council.

*[Regulation 5 amended in Gazette 19 Apr 1984 p. 1108;
21 Feb 1997 p. 1172.]*

5A. Fees

The fees specified in Schedule 2 are payable by persons desiring to sit for the examination in radiation safety referred to in regulations 3 and 4.

[Regulation 5A inserted in Gazette 19 Apr 1984 p. 1108.]

6. Penalty

A person who commits the offence of contravening regulation 3 or a requirement made under regulation 4 is liable on conviction to a fine not exceeding \$1 000.

Schedule 1

[Regulation 5]

Subjects comprising syllabus of radiation safety examination

1. Properties and uses of radiation.
2. Production, detection and measurement of radiation.
3. Biological effects of radiation.
4. Circumstances which may give rise to radiation hazards and means of protecting persons from those hazards.
5. Theory and practice of production of radiographic or other images of persons, animals or things for diagnostic purposes.
6. Recognition of technical artefacts, and normal anatomy and pathology of persons shown in images.
7. Measures to be taken to eliminate unnecessary exposure, and to reduce dose from necessary exposure, of persons submitted to radiation for diagnostic purposes.
8. The *Radiation Safety Act 1975*, and regulations made thereunder, together with all amendments to that Act and those regulations.
9. Standards, rules, codes or specifications recognized by the Council for the purposes of regulation 5(1).

[Schedule 1 amended in Gazette 19 Apr 1984 p. 1108; 15 Mar 1991 p. 1127; 24 Jan 1992 p. 367; 25 Jun 1993 p. 3078; 21 Feb 1997 p. 1172.]

Schedule 2 — Fees for examinations

[Regulation 5A]

	Fee (\$)
1. Where the examination is in those parts of the syllabus set by the Council for persons desiring to engage in the use of irradiating apparatus for chiropractic radiography —	
(a) fee for restricted spinal examination (5 parts)	650.00
(b) fee for extended (skull, chest, extremity) examination	330.00
(c) fee for examination in both (a) and (b)	650.00
(d) fee for examination in part or parts of (a) or (b) or both (a) and (b)	330.00
2. Where the examination is conducted for the Council and is in a subject or subjects in a syllabus other than the syllabus referred to in item 1 —	
fee for each subject	33.00

[Schedule 2 inserted in Gazette 28 Jun 1996 p. 3020-1; amended in Gazette 14 Sep 1999 p. 4529-30; 30 Jun 2000 p. 3414; 30 Dec 2014 p. 5504.]

Notes

¹ This reprint is a compilation as at 6 February 2015 of the *Radiation Safety (Qualifications) Regulations 1980* and includes the amendments made by the other written laws referred to in the following table. The table also contains information about any reprint.
