- (1) When any of the minerals prescribed in this regulation are obtained from a mining tenement, or from land the subject of an application for a mining tenement, royalties shall be paid by the holder of, or applicant for, the mining tenement.
 - (2) The rate of royalty payable for a mineral referred to in the Table to this regulation is as set out opposite the mineral in column 1, 2 or 3 of that Table, unless otherwise provided in these regulations.
- (2a) In the Table to this regulation —
- Amount A** means —
- (a) for the year 1 July 2005 to 30 June 2006, 34 cents;
 - (b) for the year 1 July 2006 to 30 June 2007, 38 cents;
 - (c) for the year 1 July 2007 to 30 June 2008, 42 cents;
 - (d) for the year 1 July 2008 to 30 June 2009, 46 cents;
 - (e) for the year 1 July 2009 to 30 June 2010, 50 cents;
 - (f) for the 5 year period beginning on 1 July 2010 and ending on 30 June 2015 and for each succeeding 5 year period (the **relevant period**), the amount calculated under subregulation (2b) or provided for in subregulation (2d), as the case requires;

Amount B means —

- (a) for the year 1 July 2005 to 30 June 2006, 56 cents;
- (b) for the year 1 July 2006 to 30 June 2007, 62 cents;
- (c) for the year 1 July 2007 to 30 June 2008, 68 cents;
- (d) for the year 1 July 2008 to 30 June 2009, 74 cents;

- (f) for the 5 year period beginning on 1 July 2010 and ending on 30 June 2015 and for each succeeding 5 year period (the *relevant period*), the amount calculated under subregulation (2b) or provided for in subregulation (2d), as the case requires.
- (2b) Subject to subregulations (2c) and (2d), the amount for the relevant period is the amount calculated using the formula —

$$R = C \times \frac{PPI}{X}$$

where —

R is the amount;

C is —

(a) for the purposes of Amount A, 50 cents;

(b) for the purposes of Amount B, 80 cents;

PPI is the Non-Metallic Mineral Products Price Index number, for the quarter ending on the last 31 March before the beginning of the relevant period, published by the Australian Bureau of Statistics in Catalogue 6427.0 Producer Price Indexes, Australia;

X is the latest Non-Metallic Mineral Products Price Index number, for the quarter ending on 31 December 2003, published by the Australian Bureau of Statistics in Catalogue 6427.0 Producer Price Indexes, Australia.

- (2c) If the calculation provided for in subregulation (2b) does not result in an amount of whole cents the amount is to be rounded down to the nearest whole cent and the rounded amount is to be regarded as the amount calculated under that subregulation.
- (2d) If the amount calculated under subregulation (2b) is less than the amount that applied immediately before the beginning of the relevant period (the *existing amount*), the amount for the relevant period is the existing amount.

- (3) This regulation does not apply to diamond obtained from the Ellendale mining lease as defined in the *Mining (Ellendale Diamond Royalties) Regulations 2002*.

86AA. Rates of royalty in respect of gold

- (1) When gold metal is produced from gold bearing material that was produced or obtained from a mining tenement, royalties shall be paid by the holder of, or applicant, for the mining tenement.

- (2) No royalty is payable in respect of gold metal produced before the commencement of the period referred to in subregulation (3).
- (3) The rate of royalty payable for gold metal produced during the period commencing on 1 July 1998 and ending on 30 June 2000 is 1.25% of the royalty value of the gold metal produced.
- (4) Subject to subregulation (5), the rate of royalty payable for gold metal produced after 30 June 2000 is 2.5% of the royalty value of the gold metal produced.
- (5) If, during the period commencing on 1 July 2000 and ending on 30 June 2005, the average gold spot price for a quarter is less than \$450 per ounce in Australian currency, the rate of royalty payable for gold metal produced during that quarter is 1.25% of the royalty value of the gold metal produced.
- (6) Despite anything in this regulation, no royalty is payable in respect of the first 2 500 ounces of gold metal produced during a financial year from gold bearing material produced or obtained from the same gold royalty project.
- (7) The royalty value of gold metal produced shall be calculated for each month in the relevant quarter by multiplying the total gold metal produced during that month by the average of the gold spot prices for that month.
- (8) If gold bearing material is delivered to a refinery within 3 months after it, or gold bearing material from which it was produced, was taken from the ground —
 - (a) gold metal is to be regarded as being produced from the gold bearing material at the time of delivery to the refinery; and
 - (b) the amount of gold metal that is to be regarded as being produced from gold bearing material delivered within a particular period is to be —
 - (i) the amount actually produced as ascertained by the Director General of Mines from the deliverer

- after that amount has been verified by the refiner;
or
- (ii) the amount determined by the Director General of Mines, after consultation with the deliverer, to be a reasonable estimate of the gold metal content.
- (9) If gold bearing material is produced or obtained in a form that is acceptable for delivery to a refinery but subregulation (8) does not apply —
- (a) gold metal is to be regarded as being produced from the gold bearing material at the time that a determination is made under paragraph (b) as to the amount of gold metal that the gold bearing material contained; and
- (b) the amount of gold metal that is to be regarded as being produced from the gold bearing material is to be the amount determined by the Director General of Mines, after consultation with the person liable to pay the royalty, to be a reasonable estimate of the gold metal content.
- (10) If —
- (a) after an amount has been determined under subregulation (8)(b)(ii) to be a reasonable estimate of the gold metal content of gold bearing material delivered to a refinery, the Director General of Mines is satisfied by information given by the deliverer that the amount of gold metal actually produced from that gold bearing material differs from the estimated amount; or
- (b) after an amount has been determined under subregulation (9)(b) to be a reasonable estimate of the gold metal content of gold bearing material, the Director General of Mines is satisfied by information given by the deliverer that the gold bearing material was delivered to a refinery and the amount of gold metal

actually produced from that gold bearing material differs from the estimated amount,

any necessary adjustment is to be made and may be taken into account in the next royalty payment made after that information is given to the Director General of Mines.

refiner means the operator of a refinery;

refinery means a place where gold metal is produced;

treatment facility means any plant at which gold bearing material is treated or processed, but does not include a refinery.

- (12) The Director General of Mines may approve in writing of mining tenements being treated as separate gold royalty projects, as specified in the approval, if satisfied that they are not all held by the same person or by persons between whom the Director General of Mines considers there to be a connection such that the mining tenements can fairly be treated as forming part of the same gold royalty project.
- (13) The Minister may, by notice published in the *Gazette* —
- (a) designate an arrangement for producing, obtaining or treating gold bearing material for the purposes of paragraph (b) of the definition of ***gold royalty project*** in subregulation (11), or amend or revoke any such designation; or
 - (b) determine a price for the purposes of paragraph (b) of the definition of ***gold spot price*** in subregulation (11), or amend or revoke any such determination.

- (4) An election under subregulation (2) cannot be revoked.
- (5) Despite anything in regulation 86, if a person makes an election under subregulation (2), no royalty is payable in respect of the first 300 tonnes of cobalt sold as a nickel by-product by that person during —
- (a) the period beginning on the first day of the first quarter in respect of which the optional royalty rate applies and ending on the next 30 June; or
