 - (a) was registered in a health profession under a corresponding prior Act; and
 - (b) is not, and has not been, registered in the health profession under this Law.
- (2) A notification may be made, and proceedings may be taken, under this Part in relation to the person's behaviour while registered under the corresponding prior Act as if the person were registered under this Law by the National Board established for the health profession.
- (3) However, subsection (2) applies only to the extent —
 - (a) a notification about the person's behaviour could have been made under the corresponding prior Act; and
 - (b) proceedings of that type could have been taken under the corresponding prior Act.
- (4) For the purposes of subsection (2), this Part (other than Divisions 2 and 7) applies, with any necessary changes, to the person as if a reference to a registered health practitioner included that person.

Division 2 — Mandatory notifications

140. Term used: notifiable conduct

In this Division —

notifiable conduct, in relation to a registered health practitioner, means the practitioner has —

- (a) practised the practitioner's profession while intoxicated by alcohol or drugs; or
- (b) engaged in sexual misconduct in connection with the practice of the practitioner's profession; or
- (c) placed the public at risk of substantial harm in the practitioner's practice of the profession because the practitioner has an impairment; or
- (d) placed the public at risk of harm because the practitioner has practised the profession in a way that constitutes a significant departure from accepted professional standards.

141. Mandatory notifications by health practitioners

- (1) This section applies to a registered health practitioner (the **first health practitioner**) who, in the course of practising the first health practitioner's profession, forms a reasonable belief that —
 - (a) another registered health practitioner (the **second health practitioner**) has behaved in a way that constitutes notifiable conduct; or
 - (b) a student has an impairment that, in the course of the student undertaking clinical training, may place the public at substantial risk of harm.
- (2) The first health practitioner must, as soon as practicable after forming the reasonable belief, notify the National Agency of the second health practitioner's notifiable conduct or the student's impairment.

Note: See section 237 which provides protection from civil, criminal and administrative liability for persons who, in good faith, make a notification under this Law. Section 237(3) provides that the making of a notification does not constitute a breach of professional etiquette or

ethics or a departure from accepted standards of professional conduct and nor is any liability for defamation incurred.

(3) A contravention of subsection (2) by a registered health practitioner does not constitute an offence but may constitute behaviour for which action may be taken under this Part.

(4) For the purposes of subsection (1), the first health practitioner does not form the reasonable belief in the course of practising the profession if —

(a) the first health practitioner —

(i) is employed or otherwise engaged by an insurer that provides professional indemnity insurance that relates to the second health practitioner or student; and

(ii) forms the reasonable belief the second health practitioner has behaved in a way that constitutes notifiable conduct, or the student has an impairment, as a result of a disclosure made by a person to the first health practitioner in the course of a legal proceeding or the provision of legal advice arising from the insurance policy;

or

(b) the first health practitioner forms the reasonable belief in the course of providing advice in relation to the notifiable conduct or impairment for the purposes of a legal proceeding or the preparation of legal advice; or

(c) the first health practitioner is a legal practitioner and forms the reasonable belief in the course of providing legal services to the second health practitioner or student in relation to a legal proceeding or the preparation of legal advice in which the notifiable conduct or impairment is an issue; or

(ca) the first health practitioner forms the reasonable belief in the course of providing health services to the second health practitioner or student; or

(d) the first health practitioner —

(i) forms the reasonable belief in the course of exercising functions as a member of a quality assurance committee, council or other body approved

or authorised under an Act of a participating jurisdiction; and

- (ii) is unable to disclose the information that forms the basis of the reasonable belief because a provision of that Act prohibits the disclosure of the information;

or

- (e) the first health practitioner knows, or reasonably believes, the National Agency has been notified of the notifiable conduct or impairment that forms the basis of the reasonable belief.

[Section 141 amended by No. 4 of 2018 s. 50.]

142. Mandatory notifications by employers

- (1) If an employer of a registered health practitioner reasonably believes the health practitioner has behaved in a way that constitutes notifiable conduct, the employer must notify the National Agency of the notifiable conduct.

Note: See section 237 which provides protection from civil, criminal and administrative liability for persons who, in good faith, make a notification under this Law. Section 237(3) provides that the making of a notification does not constitute a breach of professional etiquette or ethics or a departure from accepted standards of professional conduct and nor is any liability for defamation incurred.

- (2) If the National Agency becomes aware that an employer of a registered health practitioner has failed to notify the Agency of notifiable conduct as required by subsection (1), the Agency must give a written report about the failure to the responsible Minister for the participating jurisdiction in which the notifiable conduct occurred.
- (3) As soon as practicable after receiving a report under subsection (2), the responsible Minister must report the employer's failure to notify the Agency of the notifiable conduct to a health complaints entity, the employer's licensing authority or another appropriate entity in that participating jurisdiction.

(4) In this section —

employer, of a registered health practitioner, means an entity that employs the health practitioner under a contract of employment or a contract for services;

licensing authority, of an employer, means an entity that under a law of a participating jurisdiction is responsible for licensing, registering or authorising the employer to conduct the employer's business.

143. Mandatory notifications by education providers

(1) An education provider must notify the National Agency if the provider reasonably believes —

- (a) a student enrolled in a programme of study provided by the provider has an impairment that, in the course of the student undertaking clinical training as part of the programme of study, may place the public at substantial risk of harm; or
- (b) a student for whom the education provider has arranged clinical training has an impairment that, in the course of the student undertaking the clinical training, may place the public at substantial risk of harm.

Note: See section 237 which provides protection from civil, criminal and administrative liability for persons who make a notification under this Law. Section 237(3) provides that the making of a notification does not constitute a breach of professional etiquette or ethics or a departure from accepted standards of professional conduct and nor is any liability for defamation incurred.

(2) A contravention of subsection (1) does not constitute an offence.

(3) However, if an education provider does not comply with subsection (1) —

- (a) the National Board established for the student's health profession must publish details of the failure on the Board's website; and
- (b) the National Agency may, on the recommendation of the National Board, include a statement about the failure in the Agency's annual report.

[Section 143 amended by No. 4 of 2018 s. 51.]

145. Who may make voluntary notification

Any entity that believes that a ground on which a voluntary notification may be made exists in relation to a registered health practitioner or a student may notify the National Agency.

Note: See section 237 which provides protection from civil, criminal and administrative liability for persons who, in good faith, make a notification under this Law.

Division 4 — Making a notification

146. How notification is made

- (1) A notification may be made to the National Agency —
 - (a) verbally, including by telephone; or
 - (b) in writing, including by email or other electronic means.
- (2) A notification must include particulars of the basis on which it is made.
- (3) If a notification is made verbally, the National Agency must make a record of the notification.

147. National Agency to provide reasonable assistance to notifier

- (1) The National Agency must, if asked by an entity, give the entity reasonable assistance to make a notification about a registered health practitioner or student.
- (2) Without limiting subsection (1), the National Agency may assist an entity to make a notification if —
 - (a) the entity is not able to put the entity's notification in writing without assistance; or
 - (b) the entity needs assistance to clarify the nature of the individual's notification.

Division 5 — Preliminary assessment

148. Referral of notification to National Board or co-regulatory authority

- (1) Subject to subsections (2) and (3), the National Agency must, as soon as practicable after receiving a notification about a registered health practitioner or a student, refer the notification to the National Board established for the practitioner's or student's health profession.
- (2) If the behaviour that is the basis for the ground for the notification occurred, or is reasonably believed to have occurred, in a co-regulatory jurisdiction, the National Agency —
 - (a) must not deal with the notification; and
 - (b) must, as soon as practicable after receiving the notification, refer the notification to the co-regulatory authority for the co-regulatory jurisdiction.
- (3) If the behaviour that is the basis for the ground for the notification occurred, or is reasonably believed to have occurred, in more than one jurisdiction and one of the jurisdictions is a co-regulatory jurisdiction, the National Agency must —
 - (a) if the registered health practitioner's principal place of practice is in the co-regulatory jurisdiction, refer the notification under subsection (2); or
 - (b) otherwise, refer the notification under subsection (1).

[Section 148 amended by No. 4 of 2018 s. 52.]

149. Preliminary assessment

- (1) A National Board must, within 60 days after receipt of a notification, conduct a preliminary assessment of the notification and decide —
 - (a) whether or not the notification relates to a person who is a health practitioner or a student registered in a health profession for which the Board is established; and
 - (b) whether or not the notification relates to a matter that is a ground for notification; and

- (c) if the notification is a notification referred to in paragraphs (a) and (b), whether or not it is a notification that could also be made to a health complaints entity.
- (2) Without limiting subsection (1)(b), the National Board may decide the notification relates to a matter that is a ground for notification under section 144 on the basis of —
 - (a) a single notification about a person; or
 - (b) a number of notifications about a person including —
 - (i) a number of notifications that suggest a pattern of conduct; and
 - (ii) notifications made to a health complaints entity.
- (3) If the National Board decides the notification relates to a person who is not registered in a health profession for which the Board is established but the Board reasonably suspects the person is registered in a health profession for which another National Board is established, the Board must refer the notification to that other Board.

[Section 149 amended by No. 4 of 2018 s. 53.]

150. Relationship with health complaints entity

- (1) If the subject matter of a notification would also provide a ground for a complaint to a health complaints entity under a law of a participating jurisdiction, the National Board that received the notification must, as soon as practicable after its receipt —
 - (a) notify the health complaints entity that the Board has received the notification; and
 - (b) give to the health complaints entity —
 - (i) a copy of the notification or, if the notification was not made in writing, a copy of the National Agency's record of the details of the notification; and
 - (ii) any other information the Board has that is relevant to the notification.

- (2) If a health complaints entity receives a complaint about a health practitioner, the health complaints entity must, as soon as practicable after its receipt —
 - (a) notify the National Board established for the practitioner's health profession that the health complaints entity has received the complaint; and
 - (b) give to the National Board —
 - (i) a copy of the complaint or, if the complaint was not made in writing, a copy of the health complaints entity's record of the details of the complaint; and
 - (ii) any other information the health complaints entity has that is relevant to the complaint.
- (3) The National Board and the health complaints entity must attempt to reach agreement about how the notification or complaint is to be dealt with, including —
 - (a) whether the Board is to deal with the notification or complaint, or part of the notification or complaint, or to decide to take no further action in relation to it; and
 - (b) if the Board is to deal with the notification or complaint or part of the notification or complaint, the action the Board is to take.
- (4) If the National Board and the health complaints entity are not able to reach agreement on how the notification or complaint, or part of the notification or complaint, is to be dealt with, the most serious action proposed by either must be taken.
- (5) If an investigation or other action, other than conciliation, taken by a health complaints entity raises issues about the health, conduct or performance of a registered health practitioner, the health complaints entity must give the National Board established for the practitioner's health profession written notice of the issues.
- (6) If a notification, or part of a notification, received by a National Board is referred to a health complaints entity, the Board may decide to take no further action in relation to the notification or the part of the notification until the entity gives the Board written notice that the entity has finished dealing with it.

- (7) If a National Board or an adjudication body takes health, conduct or performance action in relation to a registered health practitioner, the Board established for the practitioner's health profession must give written notice of the action to the health complaints entity for the participating jurisdiction in which the behaviour that provided the basis for the action occurred.
- (8) A written notice under subsection (5) or (7) must include —
- (a) sufficient particulars to identify the registered health practitioner; and
 - (b) details of —
 - (i) the issues raised about the health, conduct or performance of the registered health practitioner; or
 - (ii) the health, conduct or performance action taken in relation to the registered health practitioner.

[Section 150 amended by No. 4 of 2018 s. 54.]

151. When National Board may decide to take no further action

- (1) A National Board may decide to take no further action in relation to a notification if —
- (a) the Board reasonably believes the notification is frivolous, vexatious, misconceived or lacking in substance; or
 - (b) given the amount of time that has elapsed since the matter the subject of the notification occurred, it is not practicable for the Board to investigate or otherwise deal with the notification; or
 - (c) the person to whom the notification relates has not been, or is no longer, registered in a health profession for which the Board is established and it is not in the public interest for the Board to investigate or otherwise deal with the notification; or
 - (d) the subject matter of the notification has already been dealt with adequately by the Board; or
 - (e) the subject matter of the notification —
 - (i) is being dealt with, or has already been dealt with, by another entity; or

- (ii) has been referred by the Board to another entity to be dealt with by that entity;
 - or
 - (f) the health practitioner to whom the notification relates has taken appropriate steps to remedy the matter the subject of the notification and the Board reasonably believes no further action is required in relation to the notification.
- (2) A decision by a National Board to decide to take no further action in relation to a notification does not prevent a National Board or adjudication body taking the notification into consideration at a later time as part of a pattern of conduct or practice by the health practitioner.
 - (3) If a National Board decides to take no further action in relation to a notification it must give written notice of the decision to the notifier.
 - (4) A notice under subsection (3) must state —
 - (a) that the National Board has decided to take no further action in relation to the notification; and
 - (b) the reason the Board has decided to take no further action.

[Section 151 amended by No. 4 of 2018 s. 55.]

152. National Board to give notice of receipt of notification

- (1) A National Board must, as soon as practicable after receiving a notification about a registered health practitioner or student, give written notice of the notification to the practitioner or student.
- (2) The notice must advise the registered health practitioner or student of the nature of the notification.
- (3) Despite subsection (1), the National Board is not required to give the registered health practitioner or student notice of the notification if the Board reasonably believes doing so would —
 - (a) prejudice an investigation of the notification; or
 - (b) place at risk a person's health or safety or place a person at risk of intimidation or harassment.

Division 6 — Other matters

153. National Board may deal with notifications about same person together

If the National Agency receives more than one notification about a registered health practitioner or student, the National Board established for the health profession in which the practitioner or student is registered may deal with the notifications together.

154. National Boards may deal with notifications collaboratively

- (1) This section applies if a notification received by a National Board relates to —
 - (a) a registered health practitioner who is registered in more than one health profession; or
 - (b) more than one registered health practitioner and the practitioners are registered in 2 or more different health professions; or
 - (c) a person who is registered as a student in more than one health profession; or
 - (d) more than one student and the students are registered in 2 or more different health professions.
- (2) The National Board may deal with the notification in conjunction with one or more other National Boards with whom the registered health practitioner or practitioners, or student or students, are registered.

Division 7 — Immediate action

155. Term used: immediate action

In this Division —

immediate action, in relation to a registered health practitioner or student, means —

- (a) the suspension, or imposition of a condition on, the health practitioner's or student's registration; or
- (b) accepting an undertaking from the health practitioner or student; or

- (c) accepting the surrender of the health practitioner's or student's registration; or
- (d) if immediate action has previously been taken suspending a health practitioner's or student's registration — the revocation of the suspension and the imposition of a condition on the registration; or
- (e) if immediate action has previously been taken imposing a condition on a health practitioner's or student's registration — the suspension of the registration instead of the condition.

[Section 155 amended by No. 4 of 2018 s. 56.]

156. Power to take immediate action

- (1) A National Board may take immediate action in relation to a registered health practitioner or student registered in a health profession for which the Board is established if —

 - (i) because of the registered health practitioner's conduct, performance or health, the practitioner poses a serious risk to persons; and
 - (ii) it is necessary to take immediate action to protect public health or safety;
 - or
 - (b) the National Board reasonably believes that —
 - (i) the student poses a serious risk to persons because the student —
 - (I) has been charged with an offence, or has been convicted or found guilty of an offence, that is punishable by 12 months imprisonment or more; or
 - (II) has, or may have, an impairment; or
 - (III) has, or may have, contravened a condition of the student's registration or an undertaking given by the student to a National Board;

and

- (ii) it is necessary to take immediate action to protect public health or safety;

or

- (c) the registered health practitioner's registration was improperly obtained because the practitioner or someone else gave the National Board information or a document that was false or misleading in a material particular; or
- (d) the registered health practitioner's or student's registration has been cancelled or suspended under the law of a jurisdiction, whether in Australia or elsewhere, that is not a participating jurisdiction; or
- (e) the National Board reasonably believes the action is otherwise in the public interest.

Example of when action may be taken in the public interest:

A registered health practitioner is charged with a serious criminal offence, unrelated to the practitioner's practice, for which immediate action is required to be taken to maintain public confidence in the provision of services by health practitioners.

- (2) However, the National Board may take immediate action that consists of suspending, or imposing a condition on, the health practitioner's or student's registration only if the Board has complied with section 157.

[Section 156 amended by No. 4 of 2018 s. 57.]

157. Show cause process

- (1) If a National Board is proposing to take immediate action that consists of suspending, or imposing a condition on, a registered health practitioner's or student's registration under section 156, the Board must —
- (a) give the practitioner or student notice of the proposed immediate action; and
- (b) invite the practitioner or student to make a submission to the Board, within the time stated in the notice about the proposed immediate action.

 - (a) the immediate action the National Board has decided to take; and
 - (b) the reasons for the decision to take the immediate action; and
 - (c) the further action the National Board proposes to take under this Part in relation to the health practitioner or student; and
 - (d) that the registered health practitioner or student may appeal against the decision to take the immediate action if the action is to suspend, or impose a condition on, the practitioner's or student's registration; and
 - (e) how an application for appeal may be made and the period within which the application must be made.

159. Period of immediate action

- (1) The decision by the National Board to take immediate action in relation to the registered health practitioner or student takes effect on —

[Section 159A inserted by No. 4 of 2018 s. 58.]

- (a) first produces the investigator's identity card for the other person's inspection; or
 - (b) has the identity card displayed so it is clearly visible to the other person.
- (2) However, if for any reason it is not practicable to comply with subsection (1) before exercising the power, the investigator must produce the identity card for the other person's inspection at the first reasonable opportunity.

Subdivision 3 — Procedure after investigation
