CAPE OF GOOD HOPE—SOUTH COAST.

NOTICE TO MARINERS.

It is hereby notified that a Light Tower is being built about Two Hundred to Three Hundred yards within the pitch of a low point (Seal Point), situated one-and-three-quarter miles westward of Cape St. Francis, to be hereafter called "Cape St. Francis Lighthouse.

The Tower is a cylindrical stone structure, ninety-one feet high, with Keeper's Quarters attached at base, and is situated in latitude $34^{\circ} 22' 30''$ south, and longitude $24^{\circ} 50' 20''$ east of Greenwich. It is intended to display a second order Holophotal Revolving White Light, flashing at intervals of twenty seconds, with focal plane one hundred and one-and-a-half feet above the base of the Tower, and one hundred and eighteen feet above the level of high water.

The light will be visible in clear weather about sixteen and three-quarter sea miles from the deck of a vessel fifteen feet above the sea. It will command the coast uninterruptedly to the westward, but will be cut off to the eastward by Cape St. Francis on the line N. 53° E. true, or would not be visible from the eastward on a bearing more southerly than S. 53° W. true.

The nearest existing lights are Cape Recif, about forty-five miles to the eastward; and Mossel Bay (Cape St. Blaize), about one hundred and thirty-three miles to the westward.

The Tower will probably be ready for the reception of the Lenticular about January, 1878, and the light may probably be exhibited some time between 1st March and 30th April, 1878, of which due and precise notice will be given.

JAMES FFORDE,
Chief Inspector of Public Works.

*Office of the Commissioner of Crown Lands
and Public Works, 29th April, 1878.*

With reference to the above Notice, it is now hereby further notified that the tower is in all respects completed and ready for the reception of the apparatus; that a fracture having occurred to certain portions of the latter during transport, the expected exhibition of the light was unavoidably delayed.

Mariners and others are now informed that the light will almost certainly be exhibited about on and after the 15th June next, 1878: and that the tower already is a conspicuous available day mark.
