[No. 47.]

AUSTRALIA.

SOUTH COAST—PORT PHILLIP.

(1) GELLIBRAND POINT LIGHT-VESSEL—ALTERATION IN FOG SIGNAL.

The Government of Victoria has given Notice, that on 1st July, 1878, the following alteration was made in the fog signal at Gellibrand point light-vessel, Hobson bay:—

During thick or foggy weather, a horn will be sounded alternately with the gong every ten minutes.

EAST COAST—PORT CURTIS.

(2) HARBOR LIGHT ON GATCOMBE HEAD.

The Government of Queensland has given Notice, that on 19th November, 1878, a harbor light would be exhibited from the west side of the Pilot's dwelling on Gatcombe head, north side of entrance to port Curtis:—

The light is a fixed white light, elevated 80 feet above high water.

Position, lat. 23° 53' 5" S., long. 151° 23' 30" E.

NOTE.—This light is obscured when bearing eastward of E. by S. $\frac{1}{4}$ S. Vessels proceeding up the harbor should, on opening out the light, steer towards Auckland point; as, with the light in sight, West banks and the shoal ground extending off South Trees point will be avoided.

(The bearing is Magnetic. Variation 8 $\frac{1}{2}$ ° Easterly in 1879.)

By Command of their Lordships,
FREDK. J. EVANS,
Hydrographer.

ON and after this date, four fixed white and two fixed red lights will be exhibited from the south shore of the Fitzroy River, giving leading lines through four reaches of the channel, viz.:—The reach below, the two reaches above, and that known as Brown's Crossing. A red light is in every case the nearer of the two leading lights, while each red light answers for two contiguous reaches of the channel.

On going up the river the first pair of lights leading to No. 10 mark will be seen when nearing No. 9 crossing mark, above Central Island. Carrying these lights in line towards No. 10 mark, and passing on to No. 11, another white light will be brought into line with the same red light as that used in the previous reach,—leading clear of the black buoy at Brown's Crossing. When approaching Brown's Island, the next red and white lights will become visible, and will show the crossing to No. 14 mark; and when sufficiently far up the river, the second red light, in line with the fourth white light, will lead up to No. 16 crossing mark.
