CIRCULAR.

Downing Street,

SIR,

12th December, 1895.

With reference to the Earl of Derby's Circular Despatch of the 22nd May, 1883, I have the honour to transmit to you, for information and publication in the Colony under your Government, copies of an Order in Council dated the 21st November last respecting the tonnage admeasurement of ships of the Kingdom of Denmark.

I have, &c.,  
J. CHAMBERLAIN.

The Officer Administering  
the Government of Western Australia.

AT THE COURT AT WINDSOR,  
The 21st day of November, 1895.

Present:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by an Order in Council dated the 29th day of February, 1868, made by Her Majesty in exercise of the powers conferred upon Her by the Merchant Shipping Act Amendment Act, 1862, Her Majesty was pleased to direct that the Ships of Denmark, the certificates of Danish nationality and registry of which were dated on and after the 1st October, 1867, should be deemed to be of the tonnage denoted in the said certificates of Danish nationality and registry:

And whereas by another Order in Council dated the 30th day of December, 1878, Her Majesty was pleased to direct as regards Danish steamships that if the owner or master of any merchant ship belonging to the Kingdom of Denmark and measured after the 1st day of October, 1878, which is propelled by steam or any other power requiring engine-room, should desire the allowance for engine-room in his ship to be estimated under the rules for engine-room measurement and allowance applicable to British ships instead of under the Danish rule, the engine-room should be measured and the allowance calculated according to the British rules:

And whereas by another Order in Council dated the 20th day of April, 1883, Her Majesty was further pleased to direct that in the event of the net registered tonnage of merchant ships belonging to the said Kingdom of Denmark, which are propelled by steam or any other power requiring engine-room estimated under the British rules, being denoted in the said certificates of Danish nationality and registry issued on or after the 1st day of September, 1882, such ships should be deemed to be of the tonnage so denoted in the said certificates:

And whereas by Section 54 of the Merchant Shipping Act, 1894, it is enacted that whenever it appears to Her Majesty the Queen in Council that the tonnage regulations of that Act have been adopted by any foreign country and are in force there, Her Majesty in Council may order that the ships of that country shall, without being remeasured in

Her Majesty's dominions, be deemed to be of the tonnage denoted in their certificates of registry or other national papers in the same manner, to the same extent, and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship:

And whereas it has been made to appear to Her Majesty that the tonnage regulations of the Merchant Shipping Act, 1894, have been adopted by the Government of His Majesty the King of Denmark, and that such regulations are now in force in that country, having come into operation on the 1st day of April, 1895:

And whereas there still are or may be ships belonging to the Kingdom of Denmark to which the hereinbefore recited Orders of the 29th February, 1868, the 30th December, 1878, and the 20th April, 1883, may respectively apply, and it is expedient not to revoke the same, but to let the said recited Orders remain in force so long as there are any ships to which the same may so respectively apply:

And whereas the provisions of Section 1 of the Rules Publication Act, 1893, have been complied with:

NOW, THEREFORE, Her Majesty (in pursuance and exercise of the powers hereinbefore mentioned) is hereby pleased, by and with the advice of Her Privy Council, to decree that the merchant ships of the Kingdom of Denmark, the measurement whereof shall on or after the 1st day of April, 1895, have been ascertained and denoted in the certificates of registry or other national papers of such ships, shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers in the same manner, to the same extent, and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship.
