REGULATIONS.

1. No vessel having more than twenty pounds of explosives on board, arriving in or off, or being or remaining in, any of the undermentioned Ports or

Harbours of Western Australia, shall be permitted to anchor within the limits hereinafter specified, viz.:—

Port of Fremantle	} Within a quarter of a mile of any ship, or within one mile of any public wharf or landing place.

2. The master or person in charge of every ship, boat, barge, lighter, or other craft, having explosives on board, shall keep conspicuously exhibited at the foremast, from sunrise to sunset, a red flag of an area of at least four superficial feet; and from sunset to sunrise, in addition to the lights ordinarily required, a red light in such a position as to be above such ordinary lights, and to show a clear, uniform, and unbroken light all round the horizon, visible on a clear night at a distance of half a mile from such light; and ships or boats shall not approach any such vessel having explosives on board nearer than 200 yards unless duly authorised, and every person in charge of a ship or boat shall observe due caution when approaching any vessel or craft having the gunpowder flag or lamp hoisted.

3. All explosives retained on board any ship as stores shall, during the time such ship is in port, be securely kept in a suitable magazine to be approved of by the Inspector of Explosives.

4. No explosive shall be shipped on board any vessel as cargo within any port in Western Australia (unless such vessel shall be lying within the anchorage provided for incoming vessels having more than twenty pounds of explosives on board), and no explosives shall be shipped on any vessel as stores within the limits of any port in Western Australia, except in the quantities and according to the manner approved of or prescribed by the Inspector of Explosives, and all explosives shipped as stores shall be placed in properly constructed magazines to be approved of by the Inspector of Explosives.

5. All boats conveying explosives, either to or from ships, wharves, or other places, shall be duly licensed as floating magazines, and shall be subject to all the regulations, as far as the same may be applicable, in force for the time being, for the management of magazines, as regards the wearing inflammable clothing by those on board, and the precautions to be observed to prevent accident by fire or explosion.

6. No boat having explosives on board shall be towed by a high pressure, open-decked steamboat whose furnaces are exposed, nor shall any such boat be towed by any other steamer with less tow-line between her and the steamer than 60ft.

7. All carriages and boats used in the conveyance of explosives in or upon any public highway, street, road, thoroughfare, river, harbour, or public place, and containing more than 100lbs. of gunpowder, or more than 100lbs. of fireworks, or more than 25lbs. of explosives, other than gunpowder and fireworks, shall be of good and substantial construction, roofed with wood or other material approved of by the Inspector of Explosives, and capable of being closed by means of doors and locks, and shall have the word "Explosives" painted in plain and conspicuous characters on both sides thereof; and no explosive shall be conveyed in or upon any public highway, street, road, thoroughfare, river, harbour, or any public place after sunset or before sunrise.

8. Explosives shall not be conveyed in a carriage, boat, or ship, whilst carrying or plying for passengers, unless the quantity be less than 5lbs., and

the same be securely covered, and all due precaution be taken for the prevention of accidents by fire or explosion; but in no case shall there be conveyed in any carriage or boat, whilst carrying or plying for passengers, any explosive of the 5th (Fulminate) Class, or any explosive of the 3rd division of the 6th (Ammunition) Class, or any explosive of the 1st division of the 7th (Firework) Class.

9. No explosive of the 5th (Fulminate) Class, and no explosive of the 6th (Ammunition) Class, which contains its own means of ignition, and no explosive of the 7th (Firework) Class, shall be conveyed in the same carriage or boat with any explosive not of the class and division to which it belongs, unless it be sufficiently separated therefrom, to prevent any fire or explosion which may take place in one such explosive being communicated to another.

10. If the explosive is not effectually protected from accident by fire from without, by being conveyed in the interior of a carriage which is enclosed on all sides with wood or metal, or by being conveyed in the hold of a boat having a close deck securely closed, then the explosive shall be completely covered with a painted cloth, tarpaulin, wadmill-tilts, or other suitable material, so as to effectually protect it against communication of fire.

11. There shall not be any iron or steel in the interior of the portion of the carriage or boat where the explosive is deposited, unless the same be covered, either permanently or temporarily, with leather, wool, cloth, or wadmill-tilts, or other suitable material.

12. In any carriage or boat containing explosives, no matches, other than safety matches, shall be carried for the use of such carriage or boat, and such safety matches shall be kept in a safe place apart from the explosive.

13. In the stowing of explosives in any carriage or boat, due precaution shall be taken, by means of a partition or otherwise, and by careful stowing, to secure such explosive from being brought into contact with, or endangered by, any other article or substance conveyed in such a carriage or boat which is liable to cause fire or explosion.

14. No person whilst on, in, or attending any carriage or boat containing any explosive shall smoke when within any city, town, township, or settlement.

15. No person in charge of any carriage or boat containing explosives shall drive or conduct the same in a dangerous or reckless manner; and no person who is intoxicated shall be permitted to have or continue in charge of any carriage or boat, nor shall any such person last mentioned be permitted to be in, on, or attending the same.

16. While the loading, unloading, or conveyance of explosives is going on, all persons engaged in such loading, unloading, or conveyance shall observe all due precautions for the prevention of accidents by fire or explosion, and from preventing unauthorised persons having access to the explosive so being loaded, unloaded, or conveyed, and shall abstain from any act whatever which tends to cause fire or explosion, and is not reasonably necessary for the purpose of the loading, unloading, or conveyance of such explosive, or of any other article carried therewith, and for preventing any other person from committing any such act.

17. After the loading or unloading of explosive on or out of any carriage or boat is begun, no longer time shall be suffered to pass than with the use of all due diligence is reasonably necessary for the purpose of such loading or unloading.

18. No explosive shall be loaded or unloaded from any carriage or boat in or upon any public highway, street, road, thoroughfare, or public place, or at any public wharf or landing place, except with the consent of and under conditions approved by the Inspector of Explosives.

19. Explosives shall not be conveyed in a carriage or boat which is carrying as merchandise any article liable to cause fire or explosion, or to communicate fire, such as charcoal, lucifer matches, articles for striking a light, or petroleum.

20. No person in charge of any carriage or boat conveying explosive shall delay for a longer time than may be reasonably necessary, nor stop unnecessarily, at any place where such stopping would be attended with special public danger.

21. In the case of a carriage or boat conveying explosive, due provision shall be made for preventing the introduction, into such carriage or boat, of fire, lucifer matches, or any substance or article likely to cause explosion or fire, or the introduction of any iron, steel, or grit, so as to come in contact with such explosive; and if the explosive carried in any such carriage or boat is liable to be dangerously affected by water, due precautions shall be taken to exclude water from coming into contact with such explosive.

This clause shall not be construed to prevent the introduction of an artificial light of such construction, position, or character, or of safety matches of such character as not to cause any danger of fire or explosion.

22. The owner of every carriage or boat on, from, or in which explosive exceeding 100lbs. is loaded, unloaded, or conveyed, who employs others in such loading, unloading, or conveyance shall, by furnishing copies of the regulations and orders relating to conveyance, or by affixing copies of the same in some place where they can be conveniently read, or otherwise take such measures as may be necessary in order that the persons so employed may be acquainted with the provisions of the regulations and orders relating to conveyance.

23. Each carriage or boat conveying explosives in any city, town, township, or settlement shall be in the exclusive charge of, and constantly attended by some competent person, and such person shall not have charge of more than one such carriage or boat. This clause shall not apply in the case of a carriage forming part of a continuous train on a railway or tramway, if such train is in the charge of and constantly attended by some competent person.

24. The quantity of explosives to be conveyed in any one carriage or boat shall not exceed 2,000 lbs. unless the carriage be so enclosed on all sides with wood or metal, or the boat have a close deck so closed as effectually to protect the explosives against accident by fire from without, in which case the amount of explosives conveyed shall not exceed the following:—

In any one carriage on a railway or tramway (whether worked by steam or otherwise)	12,000lbs.
In any other carriage	4,000lbs.
In any one boat	50,000lbs.

25. When two or more carriages or boats conveying explosives exceeding in the aggregate the amount allowed by the preceding clause to be conveyed in one such carriage or boat are travelling together, a space of at least 50 yards shall be kept between each carriage or boat and every other carriage or boat, unless circumstances render it impracticable, or unless, in the case of a train on a railway or tramway, three or more vans not con-

taining inflammable or explosive goods intervene between each such carriage and every other such carriage.

26. Nothing in Clauses 10 to 24, inclusive, shall apply to any explosive of the first division of the 6th (Ammunition) Class, provided all due precautions are taken for the prevention of accidents.

27. In the case of every ship and boat loading or discharging explosives within any port in Western Australia:—

- (a.) An officer of the vessel shall be constantly and exclusively in charge of the shipment, stowage, or discharge of such explosives.
- (b.) All fires and lights shall be completely put out (except engine-room fires, which must be carefully banked with damp ashes). No smoking shall be allowed on board. This rule will apply to every vessel alongside of or attached to any ship or boat loading or discharging any kind of explosive.
- (c.) Men selected to work in the magazine of the ship or boat must not have any matches, fusees, or knives about their persons, nor wear boots or shoes with any iron or steel on them.
- (d.) All exposed iron or steel in or near the place where any explosive is being passed or handled must be covered over with tarpaulins or other suitable covering.
- (e.) All explosives must be passed from man to man, or rolled, but on no account shall any explosives be pitched, thrown, slung, or slid.
- (f.) No person shall be allowed to work aloft, or in those parts of the rigging which may be near to the magazine.
- (g.) Special care must be exercised in selecting the men to work the explosives, to see that they are perfectly sober.
- (h.) In the event of any necessity arising for the stoppage of the loading or discharging of any kind of explosive for any purpose or from any cause whatever, it will devolve upon the officer in charge to take precautions that the hatches of the vessel, as well as those of the licensed boat delivering or receiving, are put on and covered with tarpaulins, and that no person is allowed to remain below in the magazines or hold during such stoppage.
- (i.) Paraffin, naphtha, petroleum, or other volatile oil must not be used for any purpose or upon any pretence whatever on board a vessel after such vessel has on board more than 1,000lbs. of any explosive, other than of ammunition, whilst the ship is within the limits of any port in Western Australia.

28. Every case containing explosives imported into Western Australia shall be marked in legible and indelible characters, showing the date of its manufacture, the name of the explosive, and the word "explosive."

29. No explosive shall be landed in any port in Western Australia, unless such explosive shall have been previously inspected by the Inspector of Explosives, or unless permission shall have been given by the Inspector.

30. Explosives in course of transit by a boat may, by permission of the Inspector of Explosives, be stored temporarily only upon a hulk approved by

him, and all such explosives shall be removed from any such hulk, with all due diligence, to some duly licensed magazine or other place where the same may be legally kept.

31. The provisions of these regulations shall be observed by persons in the employment of the Government in the same manner as by persons not so employed, and the officers of the Customs Department or harbour authority shall endeavour, as far as practicable, to see that these regulations are observed on board any ship or boat of which they may be in charge, and no explosives shall be discharged from any vessel unless such officer shall be present.

32. No explosives shall be put on board of or discharged from any carriage, boat, or ship, or placed in or removed from any magazine, except between the hours of sunrise and sunset.

33. In the case of stores licensed for keeping and selling gunpowder or other explosives, in lieu of the maximum amount of gunpowder limited by Section 18 of "The Explosives Act, 1895," there shall be substituted the following amounts of other explosives, viz.:—

If stored in mode (a)—In lieu of each pound of gunpowder, 1lb. of fireworks, or $\frac{1}{2}$ lb. of any explosive other than gunpowder or fireworks.

If stored in mode (b)—In lieu of each pound of gunpowder, 1lb. of fireworks or $\frac{1}{4}$ lb. of any explosive other than gunpowder or fireworks.

34. The following fees shall be payable for licenses granted by the Minister under the Explosives Act:—

For magazine license, quantity allowed not exceeding 500lbs.	£	s.	d.

BY-LAW No. 2.—STANDING ORDERS.—*Order of Proceedings.*

1. The Council shall meet at the Council Chambers on the first Thursday in every month, at the hour of eight p.m., for the transaction of their ordinary business, and the business of the Council shall be conducted with open doors, and shall close or adjourn at 10 p.m.; but it shall be competent for the Council to sit with closed doors and deal with any question if, in their opinion, they deem it necessary.
2. The Council shall commence business so soon after the above-mentioned hour as there is a sufficient number of members in attendance to constitute a quorum; but if at the expiration of thirty minutes from the above-mentioned hour there is not a quorum present, no business shall be transacted by the Council at that meeting.
3. Should the Mayor not be present, the meeting shall elect a Chairman from the councillors present, who shall preside during the absence of the Mayor.
4. At all meetings of the Council when there is not a quorum present, or when the Council is counted out (which counting out shall take place whenever there shall be less than one-third of the members of the Council present, exclusive of the Mayor or Councillor chosen to preside in his absence) such circumstance, together with the names of the members present, shall be recorded in the minute book.

5. At all meetings of the Council the minutes of any preceding meeting, not previously confirmed, shall be read as the first business, in order to their confirmation, and no discussion shall be permitted thereupon except as to their accuracy as a record of the proceedings.

6. Immediately after the confirmation of the minutes the Mayor may make any communication to the Council which he may deem advisable, or bring under consideration any business he may think necessary, and it shall be competent for any member of the Council to ask a question or questions, but he shall confine himself to the question simply, and no debate shall ensue thereon at that time.

7. The ordinary business shall then be proceeded with.

Orders of Debate.

8. Any member proposing a motion or an amendment shall, if the Mayor so desire it, put it in writing, and sign and deliver it to the Mayor or other presiding Chairman for the time being, after it has been duly seconded, and the Mayor or other presiding Chairman shall read the same before being discussed, and no motion or amendment so made shall be withdrawn without leave of the Council.

9. No member shall speak twice upon the same question, except by way of explanation or in reply upon any original motion of which he may have been the mover, or as the mover of the amendment last carried. Nevertheless, any member who may have been misrepresented or misunderstood shall be allowed to explain immediately before the mover rises to reply. The amendment of the original motion, as the case may be, shall be immediately put to the vote.

10. The Mayor or other presiding Chairman shall, without waiting for the interposition of the Council, call to order any member proceeding to speak a second time on the same question, unless entitled to reply, or in explanation where he has been misrepresented or misunderstood.

11. Any member moving a motion or amendment shall be held to have spoken on that question.

12. No member shall digress from the subject matter of the question under discussion, or impute improper motives to any other member.

13. The Mayor or other presiding Chairman, when called upon to decide a point of order or practice, shall state the rule or precedent applicable to the case, without argument or comment, and his decision shall be final in that particular case.

14. Whenever an amendment is moved upon an original proposition no second amendment shall be taken into consideration until the first amendment has been disposed of; it shall displace the original question and become itself the question. If the first amendment be negatived then a second amendment may be moved upon the original question under consideration, but only one amendment shall be submitted to the Council for discussion at one time.

15. No motion, the effect of which, if carried, would be to rescind any motion which has already passed the Council, shall be entertained during the same municipal year unless by consent of at least four members of the Council.

16. In case of an equality of votes the Mayor or other presiding Chairman shall give a casting vote, and any reasons stated by him shall be entered in the minutes and proceedings.

17. No By-law shall be finally passed or rescinded at the meeting at which it shall have been first proposed nor until the next or some subsequent meeting of the Council duly convened.

Interpretation Clause.

1. The several words mentioned in the second section of "The Building Act, 1884" shall, where used in these By-laws, have the same construction as is provided for by such section, except that the words "Council," "Mayor," "Town Clerk," and "Surveyor" shall mean the Council, Mayor, Town Clerk or Surveyor, respectively, of the Municipality of Geraldton.

Notice of intention to build.

2. Every person intending to commence to build, take down, alter, add to, or repair any building, or to do any act whereby any public street may be obstructed or rendered dangerous or inconvenient to persons passing over or near thereto, shall give three clear days' notice, in writing, to the Surveyor of his intention so to do, and shall deposit drawings and specifications of the proposed works. Such notice shall be delivered at the Surveyor's office, and shall contain particulars of the site and nature of such intended building, work, or other act. The Surveyor shall thereupon grant a license in the form "A" of the schedule hereto, and also give such directions as he shall think fit for the erection of hoardings or fences, and a platform and handrail for the protection of passengers, and such directions shall be complied with to the satisfaction of the Surveyor before the commencement of such building, work, or act. Every breach of this By-law shall subject the person guilty of such breach to a penalty of £5, and a further penalty of £1 for each day the same continues, recoverable in a summary manner before Justices.

Notice of intention to use area in public street, &c., for deposit of materials.

3. Every person wishing to deposit any stones, bricks, lime, rubbish, timber, iron, or other materials on any public street, or to make any excavation on any land abutting on or adjoining or contiguous to any public street, shall first make application for and obtain from the Surveyor a license so to do. Such license shall be given in the form "A" in the schedule hereto. Having paid the fees and the deposit stated in the said form, he may then occupy the site subject to the conditions stated in such license. Any infringement of this By-law shall subject the person guilty of such infringement to a fine of £5 for every day such infringement continues, to be recovered in a summary manner before Justices.

Hoardings to be kept in repair.

4. Every person who shall be required to erect any hoarding, fence, platform, or handrail under the two last preceding By-laws shall keep the same in good and sufficient repair to the satisfaction of the Surveyor so long as it shall, in his opinion, be necessary for the public safety; and every such person shall, immediately upon receipt of notice from the Surveyor that such hoarding, fence, platform, or handrail is out of repair, and requiring him to repair same, forthwith repair the same to the satisfaction of the Surveyor, and shall be liable to a penalty of £1 for every day the same shall continue in disrepair after the receipt by him of such notice.

Hoardings, &c., to be lighted.

5. Every person erecting such hoarding, fence, platform, or handrail, or obstruction of any kind in the public street, or any excavation as aforesaid, shall cause the same to be well and sufficiently lighted at night, and shall be liable to a penalty of £1 for every night on which the same is not so lighted.

Power to Surveyor to enforce preceding By-laws.

6. It shall be lawful for the Surveyor, without reference to the Council, to take immediate steps to enforce any of the preceding By-laws, and he may cause any such hoarding, or other obstruction that has been erected without his license, or which has been erected or continued in breach of the conditions of any such license, to be removed, or any such excavation to be filled in, or injuries to the public street repaired at the cost and expense of the person erecting or making the same, and such costs and expenses shall be recoverable from the person so making the same, as well as the penalties hereinbefore imposed.

7. *With regard to the component materials of external walls that front upon or face towards any public street.*—Every such wall must be built of brick or stone or artificial stone, or such brick or stone or artificial stone together laid in, and with mortar or cement in such manner as to produce solid work.

Materials to be used in repair.

8. If any external wall or enclosure be at any time hereafter taken down or otherwise demolished for the height of one story, or for a space equal to one fourth of the whole surface of such external wall, then every part thereof not built in the manner and of the several materials by these By-laws directed for external walls must be taken down, and the same must be rebuilt in such manner, and of such materials for, and in all respects as by these By-laws directed for external walls hereafter to be built, according to the class and rate of the building to which such external wall or enclosure shall belong.

Materials of party walls.

9. *Party walls in reference to the component materials thereof.*—Every part of such party wall must be built of sound bricks or stone or artificial stone, or of such bricks or stone or artificial stone together laid in, and with mortar or cement, and in such manner as to produce solid work: And as to the woodwork which it may be desired to connect with the party walls of any building, the bearing ends of wooden beams, brestsummers, girders, trimming joists, and the ends of partitions, heads and sills, and the bearing ends of the main timbers of any roof, and wood bricks may be laid into the substance of a party wall; but no such beam, brestsummer, girder, joist, partition, head, or sill, nor any part of a roof being wood, nor any wood bricks, must be laid or placed within 2in. of the centre of any party wall; and no other woodwork of any kind must be laid into, placed upon, or be run or driven into any part of the substance of any party wall. But if the ends of timber be carried in iron shoes or stone corbels, then such iron shoes or stone corbels must be built into the wall at least one-half the thickness of such wall; and the top of every such party wall must be finished with one course of sound, hard bricks, set on edge in good mortar or cement, or by a coping of any other properly secured and sufficiently waterproof and fireproof covering.

10. *With regard to the roof, flat, and gutter of any building, and of any projection therefrom, and also balconies, verandahs, and shop fronts.*—They must be so arranged and constructed, and so supplied with gutters and pipes as to prevent the water therefrom dripping on to or running over any public way, and all such rain pipes, eaves, and gutters are to be made of metal.

Drains to buildings.

11. *With regard to the drains of buildings of any class, and of every addition thereto.*—Before the several walls of any such buildings shall have been built to the height of 10ft. from their foundations, the drains thereof must have been properly built and made good; that is to say, if there be within 100ft. from any front of the building a common sewer into which it is lawful and practicable to drain, then into such common sewer, and if there be not in such situation and within such distance any such common sewer, then to the best outlet that can be obtained, so as to render in either case drains available for the drainage of the lowest floor of such building or addition thereto, and also of its areas, privies, and offices; and every such drain must be laid to a sufficient fall or current, so as that the whole of every such drain within the walls of such building shall be wholly covered over under the lowest floor independently thereof, and every such drain within the walls of such building must be built and covered over with bricks, stone, or slate, and so as to render the drain air tight, and generally all drains shall be laid and built to the approval of the Surveyor.

Covering footpaths, &c.

12. In the case of any building being erected abutting on the footpath of a public street, or of any plastering operations being intended to be performed above the first story of any building, the builder or other persons having charge of such building or the plasterer shall, before proceeding to build further than the first story of such building so being erected, or with any plastering as aforesaid, give notice thereof in writing to the Surveyor, who shall thereupon give directions to such builder, person, or plasterer, for the covering of such footpath as he shall think fit, and any builder, person, or plasterer who shall fail to give such notice or shall proceed with such building or plastering without having complied in all respects with the directions of the Surveyor, or without keeping such covering or other erection directed by him in an efficient state of repair to the satisfaction of such Surveyor, shall incur a penalty of £5 for each day in which such default shall occur or continue.

Back yards.

13. *With regard to back yards or open spaces attached to dwelling houses.*—Every house hereafter built or rebuilt must have an enclosed back yard or open space of at least two squares, exclusive of any building thereon, unless all the rooms of such house can be lighted and ventilated from the street.

Privies.

14. *Privies at present built or hereafter to be built.*—Every privy as to situation, size, and construction, is to be to the satisfaction of the Surveyor. It shall be sufficiently ventilated, and shall not be erected nearer than 3ft. to an adjoining boundary or to a public street. Under the seat the floor is to have a metal tray, or to be composed of concrete, stone, or some non-absorbent material, with a proper fall.

Rooms, in regard to height.

15. *With regard to rooms in other parts of the building in reference to the height thereof.*—Every room used, or intended to be used, for the purposes of habitation must be at the least the height of 9ft. from floor to ceiling.

Ventilation of rooms.

16. Every room used for the purposes of habitation, or for the assemblage of people for any purpose whatever, shall be well and properly ventilated to the satisfaction of the Surveyor by the insertion of air bricks below the floor, and by openings in the sleeper walls, also by ventilators in the ceilings or at the top of the walls thereof, according to the size of such rooms.

The minimum height to be 8ft.; the verandah to be painted and kept in repair, to the satisfaction of the Surveyor, who shall have power to order such repairs to the

verandahs generally as he may deem necessary. In the event of neglect or of the Surveyor observing the necessity for removal or repair, it must be commenced within seven days from the receipt of notice from the Surveyor, and must be completed within fourteen days from such notice, or otherwise the verandahs will be removed as nuisances, the cost of such removal to be borne by the owner or occupier, and to be recoverable from him in a summary manner before Justices.

Factory Chimneys.

19. As to the chimney shaft for the boiler furnace of any steam engine, or for any brewery, distillery, or manufactory, such shaft may be erected of any height, so that it be built in such manner and of such strength and dimensions as shall be satisfactory to the Surveyor upon special application in each case.

To regulate ashpits.

20. Every house hereafter built or rebuilt to have ash-pits of the following dimensions erected above ground, and built of brick, stone, cement, or concrete:—For cottages of three rooms and under, 3ft. by 2ft. by 4ft. deep; for villas of four to six rooms, 4ft. by 3ft. by 4ft. deep; for houses of six to ten rooms, 6ft. by 4ft. by 4ft. deep; for houses of 10 to 18 rooms, 8ft. by 5ft. by 4ft. deep. If such ash-pits are not constructed, the Council will construct them at the expense of the owner, as provided by the Act.

Notice to remove dangerous buildings.

21. Where any building shall, in the opinion of the Surveyor, be ruinous or dangerous, under the meaning of Clause 16 of "The Building Act, 1884," the Surveyor shall give notice to the owner thereof to remove or renovate the same, and every such owner shall forthwith comply with such order under a penalty of £10.
