REGULATIONS.

1. No vessel having more than twenty pounds of explosives on board, arriving in or off, or being or remaining in, any of the undermentioned Ports or

Harbours of Western Australia, shall be permitted to anchor within the limits hereinafter specified, viz.:—

Port of Fremantle	} Within a quarter of a mile of any ship, or within one mile of any public wharf or landing place.

Port of Wyndham	

2. The master or person in charge of every ship, boat, barge, lighter, or other craft, having explosives on board, shall keep conspicuously exhibited at the foremast, from sunrise to sunset, a red flag of an area of at least four superficial feet; and from sunset to sunrise, in addition to the lights ordinarily required, a red light in such a position as to be above such ordinary lights, and to show a clear, uniform, and unbroken light all round the horizon, visible on a clear night at a distance of half a mile from such light; and ships or boats shall not approach any such vessel having explosives on board nearer than 200 yards unless duly authorised, and every person in charge of a ship or boat shall observe due caution when approaching any vessel or craft having the gunpowder flag or lamp hoisted.

3. All explosives retained on board any ship as stores shall, during the time such ship is in port, be securely kept in a suitable magazine to be approved of by the Inspector of Explosives.

4. No explosive shall be shipped on board any vessel as cargo within any port in Western Australia (unless such vessel shall be lying within the anchorage provided for incoming vessels having more than twenty pounds of explosives on board), and no explosives shall be shipped on any vessel as stores within the limits of any port in Western Australia, except in the quantities and according to the manner approved of or prescribed by the Inspector of Explosives, and all explosives shipped as stores shall be placed in properly constructed magazines to be approved of by the Inspector of Explosives.

5. All boats conveying explosives, either to or from ships, wharves, or other places, shall be duly licensed as floating magazines, and shall be subject to all the regulations, as far as the same may be applicable, in force for the time being, for the management of magazines, as regards the wearing inflammable clothing by those on board, and the precautions to be observed to prevent accident by fire or explosion.

6. No boat having explosives on board shall be towed by a high pressure, open-decked steamboat whose furnaces are exposed, nor shall any such boat be towed by any other steamer with less tow-line between her and the steamer than 60ft.

7. All carriages and boats used in the conveyance of explosives in or upon any public highway, street, road, thoroughfare, river, harbour, or public place, and containing more than 100lbs. of gunpowder, or more than 100lbs. of fireworks, or more than 25lbs. of explosives, other than gunpowder and fireworks, shall be of good and substantial construction, roofed with wood or other material approved of by the Inspector of Explosives, and capable of being closed by means of doors and locks, and shall have the word "Explosives" painted in plain and conspicuous characters on both sides thereof; and no explosive shall be conveyed in or upon any public highway, street, road, thoroughfare, river, harbour, or any public place after sunset or before sunrise.

8. Explosives shall not be conveyed in a carriage, boat, or ship, whilst carrying or plying for passengers, unless the quantity be less than 5lbs., and

the same be securely covered, and all due precaution be taken for the prevention of accidents by fire or explosion; but in no case shall there be conveyed in any carriage or boat, whilst carrying or plying for passengers, any explosive of the 5th (Fulminate) Class, or any explosive of the 3rd division of the 6th (Ammunition) Class, or any explosive of the 1st division of the 7th (Firework) Class.

9. No explosive of the 5th (Fulminate) Class, and no explosive of the 6th (Ammunition) Class, which contains its own means of ignition, and no explosive of the 7th (Firework) Class, shall be conveyed in the same carriage or boat with any explosive not of the class and division to which it belongs, unless it be sufficiently separated therefrom, to prevent any fire or explosion which may take place in one such explosive being communicated to another.

10. If the explosive is not effectually protected from accident by fire from without, by being conveyed in the interior of a carriage which is enclosed on all sides with wood or metal, or by being conveyed in the hold of a boat having a close deck securely closed, then the explosive shall be completely covered with a painted cloth, tarpaulin, wadmills, or other suitable material, so as to effectually protect it against communication of fire.

11. There shall not be any iron or steel in the interior of the portion of the carriage or boat where the explosive is deposited, unless the same be covered, either permanently or temporarily, with leather, wool, cloth, or wadmills, or other suitable material.

12. In any carriage or boat containing explosives, no matches, other than safety matches, shall be carried for the use of such carriage or boat, and such safety matches shall be kept in a safe place apart from the explosive.

13. In the stowing of explosives in any carriage or boat, due precaution shall be taken, by means of a partition or otherwise, and by careful stowing, to secure such explosive from being brought into contact with, or endangered by, any other article or substance conveyed in such a carriage or boat which is liable to cause fire or explosion.

14. No person whilst on, in, or attending any carriage or boat containing any explosive shall smoke when within any city, town, township, or settlement.

15. No person in charge of any carriage or boat containing explosives shall drive or conduct the same in a dangerous or reckless manner; and no person who is intoxicated shall be permitted to have or continue in charge of any carriage or boat, nor shall any such person last mentioned be permitted to be in, on, or attending the same.

16. While the loading, unloading, or conveyance of explosives is going on, all persons engaged in such loading, unloading, or conveyance shall observe all due precautions for the prevention of accidents by fire or explosion, and from preventing unauthorised persons having access to the explosive so being loaded, unloaded, or conveyed, and shall abstain from any act whatever which tends to cause fire or explosion, and is not reasonably necessary for the purpose of the loading, unloading, or conveyance of such explosive, or of any other article carried therewith, and for preventing any other person from committing any such act.

17. After the loading or unloading of explosive on or out of any carriage or boat is begun, no longer time shall be suffered to pass than with the use of all due diligence is reasonably necessary for the purpose of such loading or unloading.

18. No explosive shall be loaded or unloaded from any carriage or boat in or upon any public highway, street, road, thoroughfare, or public place, or at any public wharf or landing place, except with the consent of and under conditions approved by the Inspector of Explosives.

19. Explosives shall not be conveyed in a carriage or boat which is carrying as merchandise any article liable to cause fire or explosion, or to communicate fire, such as charcoal, lucifer matches, articles for striking a light, or petroleum.

20. No person in charge of any carriage or boat conveying explosive shall delay for a longer time than may be reasonably necessary, nor stop unnecessarily, at any place where such stopping would be attended with special public danger.

21. In the case of a carriage or boat conveying explosive, due provision shall be made for preventing the introduction, into such carriage or boat, of fire, lucifer matches, or any substance or article likely to cause explosion or fire, or the introduction of any iron, steel, or grit, so as to come in contact with such explosive; and if the explosive carried in any such carriage or boat is liable to be dangerously affected by water, due precautions shall be taken to exclude water from coming into contact with such explosive.

This clause shall not be construed to prevent the introduction of an artificial light of such construction, position, or character, or of safety matches of such character as not to cause any danger of fire or explosion.

22. The owner of every carriage or boat on, from, or in which explosive exceeding 100lbs. is loaded, unloaded, or conveyed, who employs others in such loading, unloading, or conveyance shall, by furnishing copies of the regulations and orders relating to conveyance, or by affixing copies of the same in some place where they can be conveniently read, or otherwise take such measures as may be necessary in order that the persons so employed may be acquainted with the provisions of the regulations and orders relating to conveyance.

23. Each carriage or boat conveying explosives in any city, town, township, or settlement shall be in the exclusive charge of, and constantly attended by some competent person, and such person shall not have charge of more than one such carriage or boat. This clause shall not apply in the case of a carriage forming part of a continuous train on a railway or tramway, if such train is in the charge of and constantly attended by some competent person.

24. The quantity of explosives to be conveyed in any one carriage or boat shall not exceed 2,000 lbs. unless the carriage be so enclosed on all sides with wood or metal, or the boat have a close deck so closed as effectually to protect the explosives against accident by fire from without, in which case the amount of explosives conveyed shall not exceed the following:—

In any one carriage on a railway or tramway (whether worked by steam or otherwise)	12,000lbs.
In any other carriage	4,000lbs.
In any one boat	50,000lbs.

25. When two or more carriages or boats conveying explosives exceeding in the aggregate the amount allowed by the preceding clause to be conveyed in one such carriage or boat are travelling together, a space of at least 50 yards shall be kept between each carriage or boat and every other carriage or boat, unless circumstances render it impracticable, or unless, in the case of a train on a railway or tramway, three or more vans not con-

taining inflammable or explosive goods intervene between each such carriage and every other such carriage.

26. Nothing in Clauses 10 to 24, inclusive, shall apply to any explosive of the first division of the 6th (Ammunition) Class, provided all due precautions are taken for the prevention of accidents.

27. In the case of every ship and boat loading or discharging explosives within any port in Western Australia:—

- (a.) An officer of the vessel shall be constantly and exclusively in charge of the shipment, stowage, or discharge of such explosives.
- (b.) All fires and lights shall be completely put out (except engine-room fires, which must be carefully banked with damp ashes). No smoking shall be allowed on board. This rule will apply to every vessel alongside of or attached to any ship or boat loading or discharging any kind of explosive.
- (c.) Men selected to work in the magazine of the ship or boat must not have any matches, fusees, or knives about their persons, nor wear boots or shoes with any iron or steel on them.
- (d.) All exposed iron or steel in or near the place where any explosive is being passed or handled must be covered over with tarpaulins or other suitable covering.
- (e.) All explosives must be passed from man to man, or rolled, but on no account shall any explosives be pitched, thrown, slung, or slid.
- (f.) No person shall be allowed to work aloft, or in those parts of the rigging which may be near to the magazine.
- (g.) Special care must be exercised in selecting the men to work the explosives, to see that they are perfectly sober.
- (h.) In the event of any necessity arising for the stoppage of the loading or discharging of any kind of explosive for any purpose or from any cause whatever, it will devolve upon the officer in charge to take precautions that the hatches of the vessel, as well as those of the licensed boat delivering or receiving, are put on and covered with tarpaulins, and that no person is allowed to remain below in the magazines or hold during such stoppage.
- (i.) Paraffin, naphtha, petroleum, or other volatile oil must not be used for any purpose or upon any pretence whatever on board a vessel after such vessel has on board more than 1,000lbs. of any explosive, other than of ammunition, whilst the ship is within the limits of any port in Western Australia.

28. Every case containing explosives imported into Western Australia shall be marked in legible and indelible characters, showing the date of its manufacture, the name of the explosive, and the word "explosive."

29. No explosive shall be landed in any port in Western Australia, unless such explosive shall have been previously inspected by the Inspector of Explosives, or unless permission shall have been given by the Inspector.

30. Explosives in course of transit by a boat may, by permission of the Inspector of Explosives, be stored temporarily only upon a hulk approved by

him, and all such explosives shall be removed from any such hulk, with all due diligence, to some duly licensed magazine or other place where the same may be legally kept.

31. The provisions of these regulations shall be observed by persons in the employment of the Government in the same manner as by persons not so employed, and the officers of the Customs Department or harbour authority shall endeavour, as far as practicable, to see that these regulations are observed on board any ship or boat of which they may be in charge, and no explosives shall be discharged from any vessel unless such officer shall be present.

32. No explosives shall be put on board of or discharged from any carriage, boat, or ship, or placed in or removed from any magazine, except between the hours of sunrise and sunset.

33. In the case of stores licensed for keeping and selling gunpowder or other explosives, in lieu of the maximum amount of gunpowder limited by Section 18 of "The Explosives Act, 1895," there shall be substituted the following amounts of other explosives, viz. :—

If stored in mode (a)—In lieu of each pound of gunpowder, 1lb. of fireworks, or $\frac{1}{2}$ lb. of any explosive other than gunpowder or fireworks.

If stored in mode (b)—In lieu of each pound of gunpowder, 1lb. of fireworks or $\frac{1}{4}$ lb. of any explosive other than gunpowder or fireworks.

AUSTRALIAN STATION.

"ORLANDO," at Port Melbourne,
26th October, 1896.

Hydrographic Notice, No. 29.

SHOALS INSIDE BARRIER REEFS.

1. Information has been received from H.M.S. "Dart" that Tanadice Rock is situated in latitude $12^{\circ} 39' 52''$ S., longitude $143^{\circ} 31' 18''$ E., and from it the summit of Restoration Rock bears N. 59° W., 4.3 miles.

The rock is situated on the N.W. corner of a shoal about $6\frac{1}{2}$ cables long in a N.W. and S.E. direction, and is about 4 cables broad.

There is 5ft. of water on the rock at L.W.O.S., and 3 to 7 fathoms coral on the shoal.

It is steep too on its North side, and 10 to 16 fathoms close round the remainder.

2. Foul ground extends off the Western edge of Bih (b) reef for half a mile, and it is not safe to approach.

3. The North point of Lansdown Reef has 2 fathoms on it, and 9 to 10 fathoms close to the Northward. It is situated in latitude $12^{\circ} 49' 10''$ S., longitude $143^{\circ} 33' 30''$ E.

From the North point the reef trends S. 43° E. 6 cables, then S. 31° E. $1\frac{1}{2}$ miles.

Southward of this the reef is correctly charted.

Charts affected:—2920, 2921, 2764.

Sailing Directions:—Australia, Vol. II., pages 374 and 376.

"ORLANDO," at Port Melbourne,

Hydrographic Notice, No. 30.

1.—ROCK OFF OVALAU, FIJI.

Information has been received of a small coral head about 30 feet in diameter, with 5 feet of water over it at L.W.S., and 6 to 7 fathoms around it.

It lies in latitude $17^{\circ} 36' 32''$ S., longitude $178^{\circ} 43' 23''$ E., or W. by N. $\frac{1}{2}$ N. $4\frac{1}{2}$ miles from Tumana Peak, Ovalau Island.

Charts affected:—905, 1249.

Sailing Directions:—Pacific, Vol. II., page 124.

("Waterwitch," Note No. 3, 14th September, 1896: Office No. s_{37}^{37} .)

2.—GAVUTU HARBOUR, SOLOMON ISLANDS.

Information has been received of the following additions at Gavutu:—
South Beacon.—A beacon 5 feet high with a pole in the centre, the whole being about 18 feet above L.W., has been erected in the following position:—

Eastern extremity of Ghaomi Island 13° Pier, $32\frac{1}{2}^{\circ}$ South extremity of Gavutu Island.

North Beacon.—Another beacon about 6 feet high with a pole in the centre has been erected with Eastern extremity Ghaomi Island $34\frac{1}{2}^{\circ}$ Pier, 84° South extremity of Gavutu Island.

A small buoy lies in $1\frac{1}{2}$ fathoms N. 58° E., 80 yards from the North Beacon to mark the elbow of the reef.

The causeway joining Gavutu and Tanambogho Islands is now completed.

Charts affected:—2658.

Sailing Directions:—Pacific, Vol. I., page 378.

3.—ULAWA, SOLOMON ISLANDS.

Information has been received that the Mission Station is situated half way down the West coast of Ulawa Island, and not on the N.W. corner as shown in chart 214.

Deep water was found by H.M.S. "Pylades" half a mile from the shore off the Mission Station.

Chart affected:—214.

Sailing Directions:—Pacific, Vol. I., page 369.

("Pylades," Notes Nos. 7 and 8, 20 and 24 September, 1896: Office Nos. s_{37}^{37} .)

4.—SANTA CRUZ.

The following information has been received from H.M.S. "Pylades" and agrees entirely with the observations taken by H.M.S. "Orlando" during the visit to this island in July, 1895:—

A very strong tide-rip extends across the entrance to Graciosa Bay. The remark shown on plan of Graciosa Bay, "greatest depth about 27 fathoms," is quite incorrect:—70 to 40 fathoms were obtained by both the above-named ships when running into the anchorage.

Tinakula Island, N.W. of Santa Cruz, is certainly incorrectly charted, and appears to be 3 to 5 miles S.E. of the position shown on chart. A great many of the positions about this neighbourhood appear to be incorrectly charted.

Chart affected:—17.

Sailing Directions:—Pacific Islands, Vol. I., part I, page 349, part II, page 277.

("Pylades," Note No. 6, 15 September, 1896: Office No. s_{37}^{37} .)

5.—ROTUMAH ISLAND.

Information has been received from H.M.S. "Penguin" that the $1\frac{1}{2}$ fathom patch shown as P.D. on chart 987 is situated with summit of Emery Island N. 16° W. 3.15 miles, and has 3 fathoms on it with deep water all round. It breaks in heavy weather.

Chart affected:—987.

Sailing Directions:—Pacific Islands, Vol. II., page 219.

("Penguin," 6 October, 1896: Office No. s_{37}^{37} .)

6.—TONGATABU.

With reference to Hydrographic Notice No. 21, of 29th June, 1896, information has now been received that all the buoys therein mentioned have been placed in their proper positions, that on Campbell Rock being painted "white."

Two conical iron buoys painted "red" have (in addition) been placed in the Northern passage, one on Augusta Rock, the other on Juno Reef.

Charts affected:—1355, 2363.

PRINCESS ROYAL HARBOUR (ALBANY).

(1.) Information has been furnished by H.M.S. "Katoomba" that two red leading lights have been placed on the Town Pier, Princess Royal Harbour.

These lights are shown from posts about 110 yards apart, and when in line N. 4° W. (approximate) lead up to the pier in the deepest water.

(2.) The fairway is now marked by the following buoys:—

(a.) A red cask buoy lies N. 41° W., 1.9 cables from South end of Railway Pier.

(b.) A red cask buoy lies in 19 feet S. 47° E., 1.9 cables from end of Town Pier.

(c.) A black cask buoy lies in 15 feet S. 38° E., 3.1 cables from end of Town Pier.

(d.) A black cask buoy lies in 16 feet S. 31° E., 4.6 cables from end of Town Pier.

(e.) A black cask buoy lies S. 24° E., 9.3 cables from Town Pier.

Four coal hulks are moored in the anchorage, the Northernmost lies, approximately, W. 3.6 cables from end of Railway Pier.

Vessels are not allowed to anchor in the fairway, and the leading lights on the Town Pier should be well open to the Southward before letting go.

3. Should the Mayor not be present, the meeting shall elect a Chairman from the councillors present, who shall preside during the absence of the Mayor.

4. At all meetings of the Council when there is not a quorum present, or when the Council is counted out (which counting out shall take place whenever there shall be less than one-third of the members of the Council present, exclusive of the Mayor or Councillor chosen to preside in his absence) such circumstance, together with the names of the members present, shall be recorded in the minute book.

5. At all meetings of the Council the minutes of any preceding meeting, not previously confirmed, shall be read as the first business, in order to their confirmation, and no discussion shall be permitted thereupon except as to their accuracy as a record of the proceedings.
