By-Law No. 26.—SANITARY.

1. The owner of any house or premises, business or otherwise, shall cause to be constructed, for the proper convenience of such house or premises, a suitable closet, constructed of stone, wood, brick, or iron, provided with the pans adopted by the Council, to be kept free from leaks and holes, and in good condition, and such closet shall be constructed and built in such a place and position as to be easily accessible to the nightman, and so that the nightman shall in no case be required or obliged to carry the pan through any building; and shall be maintained and ventilated to the satisfaction of the officers of the Council, with a proper outlet for the removal of the cesspan, and shall in no case, except with the express written authority of the Council, be situated at a less distance than 30 feet from any dwelling-house or place of business. The floor upon which the cesspan stands shall be made level, and otherwise, to the satisfaction of the Council; and no dwelling-house, shop, or place of business shall be allowed to be occupied or used unless these conditions are complied with.

4. In the case of hotels, boarding-houses, and other places of business, manufacture, or otherwise, where a large number of persons are employed, the Council shall from time to time, and when they shall think necessary, have power to direct and order the owner or owners, occupier or occupiers thereof, to provide such additional closets, with pan accommodation, as they shall deem necessary. Separate closets to be provided for males and females.

5. The Council shall arrange for the emptying of all cesspans within the Municipality, and for that purpose shall have power to enter into any contract with any persons or person, and to decide in each case as the circumstances may require as to the frequency and times of the emptying of such cesspans, and shall have power to fix the rate or sum to be paid for each pan so emptied, which sum shall be paid by the owner or occupier of such premises when demanded by the authorised collector of same, and shall be recoverable in a summary manner before one or more Justices of the Peace, together with all costs incurred.

JOHN S. D'ALTON,
Town Clerk.

Town Council Office, Northam,
Dated this 18th day of February, 1898.

BY-LAW NO. 31.—FOR REGULATING AND PROVIDING FOR THE DISPOSAL OF REFUSE.

1. The Council may, at their discretion, provide, in proper and convenient situations, boxes or other conveniences for the temporary deposit and collection of dust, ashes, and rubbish. The occupier or occupiers of any premises within the limits as may from time to time be fixed by the Council, shall provide a proper box or other convenience for the temporary deposit and collection of dust, ashes, and rubbish produced upon such premises, and the Council may themselves undertake or contract with any person for the proper cleansing of such receptacles and the removal of house refuse from any premises, either for the whole or any part of the Municipality, and a charge for such removal shall be made at the rate of sixpence for each six cubic feet or portion thereof, such charge to be paid to the contractor or officer of the Council at the time of performing the service, by the owner or occupier of such premises.

2. And whosoever deposits or causes to be deposited any filth, dust, ashes, or rubbish in any place except such boxes or other conveniences shall for every such offence, upon conviction, be liable to a penalty not exceeding five pounds (£5), and to repay to the Council the cost which such Council shall have incurred in the remedying of such wilful or negligent damage.

BY-LAW NO. 32.—FOR REGULATING AND LICENSING CHIMNEY SWEEPS WITHIN THE TOWN OF NORTHAM.

1. No person shall follow the occupation of a chimney sweep, or sweep any chimney or flue for hire or reward, in the town of Northam, unless and until he shall have first received from the Town Clerk of the said town a license authorising him to follow and exercise the occupation of a chimney sweep within the said town.

2. The Town Clerk shall, on or before the 31st day of January in each and every year, issue and grant licenses to sweep the chimneys and flues thereof throughout the said town.

3. Every person applying for a license to follow the occupation of a chimney sweep shall, at the time of making application, lodge with the Town Clerk a certificate signed by six resident householders within the Town of Northam, testifying from personal knowledge to the honesty of character and steadiness of habits of such applicant, and the Council before whom such application may be laid, may, on being satisfied on the truth of the matters stated in such application, direct the Town Clerk to issue a license accordingly.

4. The Council may, at their pleasure, suspend, or revoke, and withdraw the license whensoever and as often as occasion may require, or the dishonesty of character, or impropriety of conduct of the person or persons to whom the same may have been granted shall justify the same being done.

The principal features of the month were a week of sultry weather between the 7th and the 13th, and a general rain on the 21st. The sultry weather was due to the persistence of a "high" South or South-East of Albany, and the presence of the normal tropical "low" off the N.W. coast. The general rains were very unevenly distributed as to quantity, and were of the nature of electrical disturbances, although very few thunder-storms were reported. They were followed by pleasant weather till the end of the month.

The temperature of Perth was decidedly above the normal; the mean maximum was 1·6, and the mean minimum 3·0 above the average for previous years. Cue, as usual, was very hot, the mean maximum 100·0 being the highest throughout the Colony; the minimum was 72·6, or 6·6 higher than at Perth. This is quite contrary to the popular belief which assigns beautiful cool nights to these inland plains, as a set-off against the roasting days. Coolgardie, on the other hand, compares most favourably with the Metropolis, the mean maximum being the same, and the mean minimum 2·6 lower than in the Perth Gardens. The same cause that made the temperature at Perth and Northwards above the normal brought comparatively cool weather to Coolgardie, viz., the persistence of the "highs" near Albany, giving cool Southerly winds to the Eastern Fields. York has the unenviable distinction of recording the highest temperature for the whole Colony, viz., 115·6, on the 6th.

It is interesting to note the change in the mean of the maximum day temperatures from Rottneſt Eastwards—thus Rottneſt, 82·4; Fremantle, 85·0; Perth Observatory, 87·2; Perth Gardens, 89·3. The night temperatures are almost the same at all these places. The Southern stations, as usual, show their climatological advantages to those who appreciate cool weather in summer time. At Breaksea Island the temperature did not rise above 81° throughout the month, and the mean of the maximum readings was only 69·9.

The rainfall was very irregular, varying from *nil* at Katanning to 262 points at Albany and 556 at Hamelin Pool, whilst in the tropics it reached a maximum of 1086 at Broome.
