The purchaser shall, immediately after the sale, pay to the Minister for Lands or his agent a deposit in cash at the rate of 10 per cent. upon the total amount of the purchase money, unless he has already paid a sufficient deposit on application, and any such deposit shall be considered as payment of the purchase money so far as the same will extend.

6. The balance of purchase money shall be paid to the Minister for Lands or his agent within twelve months from the day of sale, by four equal quarterly instalments, on the first days of January, April, July, and October, the first instalment being payable on the first day of the quarter next following the date of sale; the Crown Grant fees being payable with the last instalment of purchase money; provided that nothing shall prevent the balance of the purchase money and fees being paid at an earlier date should the purchaser so desire, but no Crown Grant of any suburban lot shall issue until the Minister is satisfied that the prescribed fencing and improvements have been effected.

7. In any case where the value of improvements on a lot is added to the upset price, and the lot is knocked down to any other person than the owner of such improvements, the value of the same shall be paid to the Minister for Lands or his agent immediately after the sale.

8. Each Suburban Lot shall be fenced on the surveyed boundaries, within two years from the date of sale, with a fence of the description prescribed by the said Act; provided that the Minister for Lands may, if he think fit, dispense with the division fences between two or more adjoining lots purchased by one person, or may, if he think fit, accept other substantial improvements in lieu of fencing.

9. In default of payment of any one of the several instalments of purchase money within thirty days after the dates mentioned, or if, in the case of Suburban Lots, the required fencing is not completed within two years from the date of sale, the land shall be absolutely forfeited, together with all purchase money and fees that may have been paid.

10. Immediately after the sale the purchaser shall declare to whom or in whose name he requires the Crown Grant to issue, and the name, address, and occupation of such person shall thereupon be inserted in the form of application to purchase.

11. On payment of the final instalment of the purchase money, provided that in the case of Suburban Lots the condition of fencing has been complied with and maintained, a Crown Grant shall be issued on application and payment of the prescribed fee of thirty shillings.

12. The Regulation published in the *Government Gazette* of 6th January, 1899, is hereby repealed.

2. The lots will be offered separately, and in such order as the auctioneer shall at the time determine.

3. The highest bidder shall be the purchaser, and if any dispute arise the lot in dispute shall be put up again and resold.

The purchaser shall, immediately after the sale, pay to the Minister for Lands or his agent a deposit in cash at the rate of 10 per cent. upon the total amount of the purchase money, unless he has already paid a sufficient deposit on application; and any such deposit shall be considered as payment of the purchase money so far as the same will extend.

6. The balance of purchase money shall be paid to the Minister for Lands or his agent within five years from the date of sale, by equal half-yearly instalments on the first day of March and the first day of September in each year, the Crown Grant fees being payable with the last instalment of purchase money: Provided that nothing shall prevent the balance of the purchase money being paid at an earlier date should the purchaser so desire, but no Crown Grant shall issue until the Minister for Lands is satisfied that the prescribed conditions have been fulfilled.

7. In any case where the value of improvements on a lot is added to the upset price, and the lot is knocked down to any other person than the owner of such improvements, the value of the same shall be paid to the Minister for Lands or his agent immediately after the sale.

8. The purchaser shall, within two years from the date of sale, substantially fence in the whole of his land with a fence of the description prescribed by the said Act, and within three years shall plant at least one-tenth of the area with vines or fruit trees, or cultivate it *bona fide* as a vegetable garden, or otherwise clear and cultivate one-quarter of the said area: Provided that the Minister for Lands may, if he think fit, dispense with the division fences between two or more adjoining lots purchased by one person, or may, if he think fit, accept other substantial improvements in lieu of fencing.

9. In default of payment of any one of the several instalments of purchase money within 30 days after the dates mentioned, or if the conditions as to fencing and cultivation have not been complied with within the times prescribed, the land shall be absolutely forfeited, together with all purchase money and fees that may have been paid.

10. Immediately after the sale the purchaser shall declare the full name, address, and calling of the person in whose name he requires the Crown Grant to issue, and the same shall be inserted in the form of application to purchase.

NOTICE.

*General Post Office,
Perth, 11th April, 1899.*

HIS Excellency the Governor in Executive Council has been pleased to approve of the following Regulations for the erection of Private Telephone Lines in Country Districts, framed under the provisions of the Post and Telegraph Act (57 Vict., No. 5, Section 68, Sub-section 31).

R. A. SHOLL,
Postmaster General and
General Superintendent of Telegraphs.

Regulations for the Erection of Private Telephone Lines in Country Districts.

1. Any person wishing to erect a private telephone line must submit a plan and specification showing the route to be followed, especially marking where roads are to be crossed or entered upon, and describing the nature and dimensions of the materials to be used in the construction of the line, and any other particulars which may be required; upon receipt of which the Postmaster General may direct an officer of the Post and Telegraph Department to examine such plan and specification, and, if necessary, make an inspection of the route, the cost of such examination and inspection to be borne by the person wishing to erect the line; and should the report of such officer disclose that the line will not in any way interfere with or endanger any other line of telegraph, whether belonging to the Postmaster General, the Commissioner of Railways, or any private person, and that the material and method of erection described in the specification are satisfactory, the Postmaster General may, upon payment of the necessary fees, grant permission to erect: Provided, however, that such permission shall in no case be granted where a line is to run from a point in the vicinity of a telegraph office to another point in a like vicinity, or in the event of the route of such proposed line being along any public road, railway, or track, or over or across any private land other than land belonging to the person desirous of erecting such private line, unless and until the necessary authority of the local authority or the owners of such private land (as the case may be) shall have been obtained, and satisfactory evidence to that effect shall have been forwarded to the Postmaster General.

2. If the line crosses a road, track, or other public place, the height of the wire above the highest portion of the road, track, etc., shall not be less than eighteen (18) feet, and the poles carrying the wire at such places shall be of a substantial character, and be struted or stayed, if necessary, to stand the strain of the wire.

3. All fittings upon such poles, such as brackets, pins, insulators, wire, etc., shall be of approved material and make.

4. The person to whom such permission has been granted shall, upon the completion of the line, report the fact to the Postmaster General, when an officer of the Post and Telegraph Department may be sent to inspect the line and report whether the work has been satisfactorily carried out; the cost of such inspection shall be borne by the person who erected the line. If the work be not to the satisfaction of the inspecting officer he shall issue instructions as to what is required, and on the defects being made good a license to use the line may be issued.

5. Should the person to whom permission has been granted to erect the line fail to make good the defects pointed out, the Postmaster General may take such steps as he may deem necessary to remove the portions objected to, and license to use the line shall not be issued until the requirements of the Postmaster General have been satisfactorily complied with.

6. On completion of the line to the satisfaction of the Postmaster General, a license to use it will be issued. No fee shall be charged in respect of a line which does not extend beyond the boundary of the licensee's own land. Where the line is not exclusively within the boundary of the licensee's own land, but crosses such boundary, or runs along or across a railway, public road, or track, a license fee of One pound per annum, payable in advance, shall be charged, irrespective of the length of the line. This fee covers the use of two instruments only. If any further instruments are added to the same line, or if the line be

extended so as to connect further stations under the one proprietorship, a further fee of One pound per annum for each additional instrument or station connected will be charged.

7. Where a line is erected partly on existing Government poles, a sum of Two pounds per annum per mile, payable in advance, shall be charged for the portion erected on Government poles, in addition to the license fee mentioned (Two pounds per annum). The wire on such poles will be erected and maintained by the Department, and the licensee will be required to enter into an agreement to pay the prescribed fees for a period of at least five years from the completion of that portion.

8. If a line connect with a telegraph office, the following shall be the charges payable in respect thereof:—

For every telephone communicating with any telegraph office a fee of One pound per annum shall be payable in advance. A further charge of Two pounds per annum shall be payable in advance for the maintenance of the telephone in use at the telegraph office, which will be supplied by the Department. The telephone for the use of the licensee may be either provided by him or be purchased from the Department, but must be maintained by the licensee.

9. Every message passing in either direction over any private line connected with any telegraph office, except as provided for in Regulation 10, will be considered as a telegram, and charged for at the following rates:—

- (a.) For every message intended for transmission over the Department's wires in the usual way, the ordinary telegraphic charges will be made;
- (b.) For every message intended for delivery from the telegraph office in which the telephone is fixed, sixpence for the first ten words, not including address and signature, and one penny for every additional word;
- (c.) For every message handed in at the office in which the telephone is fixed for transmission over the telephone wire to the licensee's office, sixpence for the first ten words, not including address and signature, and one penny for every additional word;
- (d.) The licensee shall deposit with the officer in charge of the telegraph office with which the line is connected a sum sufficient to meet the cost of all business passing over the line, and must accept the statement of the officer as to the charges.

10. If the licensee of a line connected with any telegraph office desires to call any person to speak to him on such line, the following charges will be made:—

For a messenger sent to call any person residing within the usual radius for free delivery of telegrams, to the telegraph office, threepence;

To call persons from beyond the radius of free delivery of telegrams, the usual portorage charges will be made;

If any person desires to speak from any telegraph office to the licensee of a line connected with such office, permission will be given conditionally on such conversation being solely on the business of the licensee;

Any attempt to use licensed lines for other than the business of the licensee will be met by a withdrawal of the license to use such line, and the forfeiture of any payments made.

11. The Postmaster General may direct an official inspection of such lines to be made periodically, and the officer making such inspection may direct the licensee to make such alterations or repairs as may to him appear necessary, and the licensee shall immediately carry out the same. In the event of his failing to do so within a reasonable time, the officer shall report to that effect, and the license to use such line may be cancelled.

12. Except in the case of a telephone line erected partly on Government poles, and which portion is therefore maintained by the Department as provided above, the licensee shall be wholly responsible for the repair and maintenance of the line, and he shall undertake to maintain the same in a thoroughly efficient manner at his own cost, and any alterations, repairs, or other works which the Postmaster General may, in the interest of the public safety or convenience, order to be done, shall be charged to the licensee, and may be recovered by the ordinary process of the law.

13. The licensee shall be solely responsible for any damage which may arise to life, limb, or property which may be caused by the poles, wire, or other portions of the line erected by the licensee.

14. Where the line does not connect with a telegraph office the licensee shall undertake that it shall be used for his own private purpose only, or by those authorised by him, with the approval of the Postmaster General, to connect by telephone *en route*, and in no case shall he charge or accept a fee for the use of the line or for the transmission of any communication over the same; and in the event of it being proved that he has done so at any time, the license issued in respect of such line may be cancelled.

15. In the event of a licensee's line being found to interfere in any way with the future erection of any lines by the Postmaster General or the Commissioner of Railways, the Postmaster General may direct the licensee's line to be altered, removed, re-erected in another position, or otherwise dealt with as may be deemed necessary.

16. Where it is possible for the existing wires of the Department to be used, special arrangements will be made to meet each case.
