HIS Excellency the Governor in Executive Council has been pleased to approve the following Rules and Regulations for the Colonial Medical Service of this Colony, in lieu of those now existing.

OCT. BURT,
Under Secretary.

RULES AND REGULATIONS

FOR THE

MEDICAL DEPARTMENT,

WESTERN AUSTRALIA.

...~*~*~...

THE PRINCIPAL MEDICAL OFFICER.

1. This officer has the control and general superintendence of the Medical Department of Western Australia.
2. He will exercise a general supervision over all the Medical Establishments, and will bring to the notice of the Minister controlling the Department anything which he may consider requires attention or alteration in any of them.
3. For this purpose he will be at liberty to visit and inspect any of these establishments whenever he may think proper to do so.
4. He is the sole medium of communication between the Government and the officers of the Medical Department, and all returns and official documents connected therewith are to be addressed to him.

DISTRICT MEDICAL OFFICERS.

5. These officers are responsible for the proper performance of their medical duties within their districts, together with the general superintendence of the hospitals under their charge, and shall see that they are kept in proper order, that the Regulations for their management are strictly observed, and that the officers and persons connected with them do their duty in a satisfactory manner, and they will also consider themselves responsible for the charge of all Government Stores belonging to the department, and for their economical expenditure, and where no Secretary is appointed they will, with the assistance of the Matron, perform and carry out the duties of Secretary. (For books to be kept at each hospital, see Secretary's Rules and Appendix.)

6. The District Medical Officer shall be under bond as a guarantee for his accounting for all public moneys received by him; the amount of bond to be determined by the Principal Medical Officer. The bond shall be in a guarantee company, the premium of which will be paid by the Department.

ATTENDANCE ON GOVERNMENT OFFICERS AND THEIR FAMILIES.

7. Officers who entered the Civil Service of the Colony prior to 8th July, 1886, and their families are entitled to free medical attendance and medicine, and such attendance will be given to them by the District Medical Officer in whose district they may be stationed.

8. The word "family" is to be understood to mean those persons who constitute an officer's ordinary household, and live under his roof and at his expense, having no means of their own. Able-bodied sons of over 18 years of age, and grown up persons who may live in the house for sake of convenience, or reside there as servants, etc., are not included in the word "family."

9. The members of the police force throughout the Colony are entitled to free attendance and medicine from the District Medical Officer, but not their wives and families, unless such officers entered the service prior to the 8th July, 1886.

10. Officers in the permanent employ of the Government, and stationed on the goldfields or in the tropical part of the Colony, are entitled (subject to rule 13) to medical attendance and medicine; but if admitted to a Government Hospital they must pay three-fourths of the ordinary rate per diem for maintenance.

11. Government officers travelling beyond their districts on duty are entitled to the gratuitous services of District Medical Officers who, however, will be entitled to charge the Government with the actual cost of medicines *supplied*, unless in lieu of drug allowance they receive their medicines from the Department.

12. Except when travelling on duty, Government officers will not be entitled to medical attendance or medicines when out of their districts.

13. No Government officer is entitled to medical attendance at public cost in a district where no Medical Officer is stationed.

14. Government officers, whose salaries are under £400 per annum, when requiring medical attendance for themselves or their families, may be required (when able to do so) to attend personally at the residence or hospital of the District Medical Officer of their respective districts, at such hours as may be notified for the purpose.

15. Government officers residing at a distance of more than one mile from the boundary of any town in which a Medical Officer may be employed, must, when requiring medical aid for themselves or their families, communicate with the District Medical Officer at his residence, and, in cases of emergency, the District Medical Officer will proceed to the patient's house, and will repeat the visit, if necessary; but such attendance is not to be prolonged at the expense of the Government.

16. Officers, voluntarily and for their own convenience, residing out of the district to which they are officially attached, will not be entitled as a matter of right to free medical attendance and medicines from the Medical Officer of the district in which they are so residing.

17. If at any time the post of Medical Officer should be vacant in any district, or if, from any other cause, the services of such Medical Officer are not available, the Medical Officer of an adjacent district will be required to give his services to that district when called upon by the Principal Medical Officer, Government Resident, or Resident Magistrate to do so.

18. District Medical Officers giving their attendance under Sections 15, 16, and 17 will provide their own means of transport, and be entitled to mileage at the rate of one shilling per mile one way.

19. District Medical Officers on the goldfields will be entitled to five shillings per mile one way; and all District Medical Officers will, in addition, be entitled to receive subsistence allowance at the rate of fifteen shillings per diem; one day to mean three meals and one night away from their proper place of residence. If they are able to return to their proper place of residence within nine hours, only two shillings and sixpence will be allowed. Officers on the Coolgardie, Yilgarn, Murchison, and Dundas Goldfields will be entitled to charge twenty-five per cent. additional to the above subsistence rates when called out of their districts. When called out of their districts under the provisions of Section 17, all District Medical Officers will, in addition to the usual subsistence rates, be entitled to charge one guinea for each day of their absence.

20. Mileage and expenses due in respect of visits to Government officers shall be defrayed by such officer if residing beyond a townsite, except by order of Government, who will then recoup the District Medical Officer.

21. Expenses so incurred will be paid from public funds on receipt of certificates from the District Medical Officer to the effect that the visits paid under Section 15 were absolutely urgent, or the duties performed under Section 17 were undertaken on the requisition of the Principal Medical Officer, Government Resident, or Resident Magistrate.

22. District Medical Officers are exempted from attendance at the accouchement of the wives of public servants, and on cases of venereal disease, and cases resulting from the abuse of alcohol.

ABSENCE FROM DISTRICT.

23. District Medical Officers desirous of absenting themselves from the townships in which they are stationed, before doing so, must obtain leave from the Principal Medical Officer, and their wish to do so must be forwarded in writing.

24. The above does not apply when at any time their professional services may be required in their own or a neighbouring district, in which case it will only be necessary for them to notify the Resident Magistrate or Warden of their district.

HOSPITAL EXPENDITURE AND SUSPENSION OF OFFICERS.

25. District Medical Officers are not to incur any expenditure other than the purchasing of provisions, etc., for the up-keep of their hospital, except by permission of the Principal Medical Officer.

26. In cases of great emergency, they can telegraph for authority, but otherwise their application must be made in writing, and full particulars must be given.

27. The District Medical Officer must not grant leave to any member of his Hospital Staff for a longer period than 48 hours, without first obtaining the approval of the Principal Medical Officer.

No appointment shall be made without the authority of the Principal Medical Officer.

The District Medical Officer may suspend any officer whose conduct merits it, and report fully thereon in writing or by telegram to the Principal Medical Officer, who will take final action.

ADMISSION INTO HOSPITAL.

28. Admission into hospitals can only be obtained by the order of the Medical Officer in charge, or, in cases of emergency, by authority of the Government Resident or Resident Magistrate of the district in which the hospital is situated. The following cases are not to be admitted:—

- i. Any pregnant female for the purpose of confinement.
- ii. Any person suffering from an incurable disease.
- iii. Any person who can be treated as an out-patient.
- iv. Any person whose admission might endanger the other patients.

29. If it is desired to remove a patient from a district hospital to the General Hospital, Perth, the approval of the Secretary or the Resident Medical Officer, Perth hospital, must be first obtained.

30. Patients admitted into hospital are to be divided into two classes: (1) Those able to pay for their treatment; (2) Those unable to pay for it.

31. Patients are not to be admitted into hospital, except in cases of emergency, until it has been ascertained in which class they are to be placed. If in the first they will be required to sign an agreement (*see Appendix*) pledging themselves to pay the regular charge, viz.:—3s. per diem in country hospitals, and 6s. in goldfields hospitals, which will cover all expenses of living, attendance, and treatment; and the Medical Officer will, if he considers it necessary, require the patient to obtain, in addition, a guarantee for its payment from some responsible person known to him. In the case of children and servants, the guarantee should be signed by the parent or master, or some other responsible person.

32. Patients whose circumstances enable them to pay for medical attendance are not necessarily to be admitted into the hospital on the above terms; but in special cases, when it may appear to the Medical Officer that it would be advantageous to a patient, and he is desirous that his case should be treated in hospital, this officer will be at liberty to admit such patient, where he will be charged such sum per diem as may be determined beforehand for his living, attendance, and treatment, but exclusive of any operation, should such be required. Except for surgical operations, all fees received are to be paid to Revenue.

33. The Medical Officer of the hospital will, at the end of every month, forward to the Principal Medical Officer, and to the Government Resident, Resident or Police Magistrate (as the case may be) of the district a list of fees due to the Government; and he shall also forward to the Principal Medical Officer a list of fees received by him during the month.

34. Persons admitted as out-patients will receive advice and medicines gratuitously at the hospitals at 10 a.m. daily. As a rule, no persons other than paupers are to be treated as out-patients, and if the District Medical Officer is in doubt in regard to the financial position of any person so seeking treatment, he may, for the purpose, obtain the assistance of the police in procuring the information desired.

They must behave with great patience and kindness to the patients under their care, and pay attention to their state and symptoms, that they may be able to report to the Sister, and, in her absence, to the Medical Officers. If any threatening symptom should manifest itself in a patient, the nurse must give immediate notice to the Sister of the ward, that further aid may be obtained.

177. They shall attend under the Sister's directions, or at the request of the Medical Officers, to the application and administration of all remedies prescribed, and if they are doubtful as to their instructions, they must apply at once to the Sister for advice. *They are strictly forbidden to give medicines to patients on their own responsibility.*

178. In the surgical wards, the nurses must have their trays, dressing-pans, and other appliances in readiness at the hour of these visits, and give whatever assistance is required of them by the surgeons or the dressers, and any complaint as to the conduct of patients or assistants in the wards must be made at once to the Sister.

179. They shall have ready for collection all the empty medicine bottles, pots, boxes, powder, labels, etc., which require to be refilled or replaced by half-past eight in the morning, and shall also take care that there is sufficient of

After the visit of the Medical Officer, they shall take to the Dispensary the treatment charts, as well as all medicines, lotions, etc., which are discontinued. On no account shall unused preparations be allowed to accumulate in the wards. If a medicine bottle is broken, or anything lost which may be ordered for the patients, they must report to the Dispenser without delay, and at the same time show him the treatment chart on which the prescription is written, in order that it may be at once replaced. Between the hours of two and three o'clock in the afternoon, articles not specially ordered for any particular patient, such as lint, tow, linseed meal, etc., must be obtained from the dispensary.
