IT is hereby notified, for public information, that the previous notice as to Government Assays is cancelled, and that the rates and conditions as set forth hereunder will be imposed.

H. B. LEFROY,  
Minister of Mines.

Assays, Analyses, and Determinations of any Western Australian Ore or Rock will be made by the Assayer to the Geological Survey, when not unduly interfering with official work, subject to the following conditions:—

1. Each sample must weigh not less than 6oz., nor more than 1½lbs., and the pieces of which it is composed must not be of larger gauge than 3 inches, nor smaller than ½in.
2. Each sample must be enclosed in a separate canvas bag or strong paper wrapper, with a piece of white paper on which are written the name and postal address of the sender, together with a private mark or number by which it may be readily identified.
3. Address the parcel to:—

The Mineralogist and Assayer,  
Geological Survey Branch,  
Department of Mines,  
Perth.

(N.B.—The rate of postage for mineral samples is 1d. for every 2oz. and under.)

4. Send a letter at the same time to the same address, enclosing the fees and stating for what metals the samples are to be assayed, or other instructions, as the case may be.
5. Always keep duplicate samples of those sent, and mark them in a similar way.
6. The scale of fees is as follows:—

	£	s.	d.
(a.) For the determination of a Rock or Mineral ... ..	0	10	6
(b.) For Assay for Lead, Iron, or Manganese, each ... ..	0	10	6
(c.) For Assay for Silver, Copper, or Tin, each ... ..	0	12	6
(d.) For Assay for Gold or Zinc, each ... ..	0	15	0

\* No Record. † As the publication of Statistics commenced towards the middle of the year 1897, a comparative Synopsis of the Gold Production cannot be made prior to that date.

## Explanatory.

---

1. The eighteen Goldfields of the Colony are herein arranged according to their geographical position, commencing with Kimberley in the North, and terminating with Dundas in the South. Six Goldfields are sub-divided into seventeen districts, and in the case of these Goldfields the district in which the Warden has fixed his headquarters is placed first in the return. The Mining centres have, in all cases, been shown in alphabetical order under the heading of their respective districts, and, finally, the groups of mines which make up the mining centres have been set down in similar fashion.

\* \* \* \* \*

2. These Returns represent all treatments reported to Mining Registrars as completed during the month; but, as Regulations 45 and 98 allow seven days in which to declare such results, the gold production of the Colony cannot be ascertained earlier than some ten days after the end of each month, when the totals of each district will be announced, followed at a few days' interval by full details.

\* \* \* \* \*

3. During the last week of each month the holders of leases and registered claims, as well as the managers of public crushing plants, will receive from the Mining Registrar of the district,—

(a.) Two copies of Schedule 11 or 22, according as they may be applicable to machinery areas, leases, or registered claims.

(b.) One addressed envelope, impressed with the Office and Frank Stamp of the local district in which the return is to be forwarded to the Mining Registrar.

From this, it will be gathered that all cost to the lessees and managers has been avoided, and the labour of completing the returns has been reduced to a minimum.

\* \* \* \* \*

4. As one of the principal intentions of Regulation 45 is to credit each district with the amount of gold won therefrom, managers of gold-extracting plants, when taking delivery of ore presented for treatment, are particularly requested to insist upon the exact locality being declared from which such ore was derived. As it is imperatively necessary that the results from ore so treated should be in the hands of the Mining Registrar of the district from which it was obtained on the seventh day of each month, it behoves all managers to post the return as many days before that date as it will occupy in transit.

\* \* \* \* \*

5. The difference between the statement headed "Return of Gold, as reported to the Mines Department," and the one compiled by H.M. Customs is to be accounted for by the fact that the exportation of gold started, practically, with the inception of the industry; whereas the mode of collecting returns adopted by the Mines Department is the elaboration of a system established some three years ago. Up to that date, therefore, no good basis for an exact comparison can be found. As to the discrepancy which exists at present, the assumption is that the whole of the gold won from the soil is not reported to the Department.

\* \* \* \* \*

6. Notification will be gladly received by the Statist, Perth, of any omissions that may occur or corrections that may be necessary, the aim of the Department being to arrive at as accurate an account as possible of the gold production of Western Australia.
