2. The trustee to be appointed by the miners shall be appointed in manner following:—

An Inspector of Mines, or some other person to be nominated by the Minister, shall, by seven days' notice, in writing, exhibited on each mine in the district, convene a meeting of miners, who, at such meeting, by a majority of miners present, shall appoint a trustee, and the name of the person appointed shall be transmitted by the Inspector or such other person as aforesaid to the Minister.

3. The persons appointed as aforesaid, with the trustee appointed by the Minister, shall constitute the trustees of the fund, and their appointment shall be notified in the *Government Gazette*. Any three members of the Committee shall constitute a quorum.

5. Every trustee and every member of the Accident Committee shall hold office for one year from the notification of his appointment in the *Government Gazette*, but shall be eligible for re-appointment.

6. In the case of any vacancy in the office of any trustee or member of an Accident Committee by death, resignation, or otherwise, another trustee or member shall be appointed in manner aforesaid.

7. All contributions to the fund shall be paid to the trustees, and shall be paid by them to the credit of a trust account, to be called the Accident Relief Fund Account, to be kept in the names of the trustees at a bank approved by the Minister.

8. All moneys withdrawn from the trust account shall be paid by the trustees to any person injured, or to the relatives of any person injured, in accordance with the recommendation and with the approval of the Accident Committee.

9. In making any recommendation the Accident Committee shall be guided by the following rules:—

(A.) Any employee who meets with an accident in or about a mine shall immediately give notice of the nature and cause of the accident to the workman nearest him, and to one or other of the overmen, and shall within five days of the occurrence of such accident send or cause to be sent a notice, in writing, to the Secretary of the Accident Committee giving full particulars as to the time, date of the accident, and the circumstances attending such accident, together with the certificate of a qualified medical practitioner, or the claim shall not be entertained, and the Secretary of the Accident Committee shall forthwith notify the Inspector of Mines for the district of such accident and of the nature thereof as reported to him

(B.) The allowance that may be paid from the funds shall be as follows:—

An employee misconducting himself by fighting, being under the influence of intoxicating liquors, behaving in a riotous or indecent manner, or behaving in any way that constitutes a breach of the public peace, or an offence to morality or common decency, while in receipt of relief on account of any accident, shall cease to receive further relief in respect of such accident from the time that he so misconducts himself.

16. In the event of any member of the Accident Committee obtaining, or being placed in the possession of, information that an employee in receipt of relief has misconducted himself as aforesaid, it shall be incumbent upon him to make a report to the members of the district Accident Committee of the said misconduct.

17. In the event of the employee concerned requiring an inquiry to be held into the nature of, or circumstances attending, the misconduct with which he is charged, the Accident Committee shall hold such inquiry and receive evidence bearing upon the nature and circumstances attending the alleged misconduct, or evidence rebutting the same.

18. In the event of the Accident Committee being satisfied that the employee so charged has exonerated himself, or that a reasonable doubt exists as to his participation in the misconduct with which he is charged, the Committee shall have power to pay any arrears of relief money which have accrued since the charge was made to the employee so charged, or any portion thereof.

19. It shall not be competent for any employee so charged to be represented by any counsel or solicitor at such inquiry.

20. If the trustees are of opinion at any time that the scale of relief provided by these Regulations is inadequate, or, having regard to the state of the funds at their disposal, that the scale should be reduced, they shall make a recommendation to the Minister accordingly, with the view to an amendment of Regulation 9: Provided that no recommendation shall be made to increase the rate of relief beyond Thirty shillings per week.

21. In the event of the demands for relief being in excess of the funds at the disposal of the trustees, relief shall abate proportionately.

22. The trustees shall keep proper books of accounts showing the various items of receipt and expenditure in relation to the said account, and such books shall at all reasonable times be open to the inspection of the Inspector of Mines or other person appointed by the Minister, who may take such extracts therefrom as he may require.

23. Any actual and necessary disbursements attending the appointment of any trustee or members of the Committee, or incurred by the trustees in the performance of their duties, and approved by the Minister, may be paid out of the Trust Funds.

24. The Committee may appoint a Secretary at a salary to be fixed annually by the Minister. Such salary shall be paid from the trust funds.

* The figures for previous years have been given whenever there are at least three years' complete records. This number is a very low one upon which to base averages, but otherwise the goldfields would be excluded.

"Good day; most remarkable weather," is the usual greeting just now. It usually is here at the close of the year; but it happens to be founded upon a correct appreciation for once. Last December was the coolest ever recorded in Perth since observations commenced, in 1875. The average of the daily maximum readings was only 79-2 at the Botanical Gardens and 75-4 at the Observatory, as against means of 83-4 and 80-2, respectively, for previous years. December is seldom oppressively hot, but there are very few years in which the temperature does not reach 100° at least once and 90° several times. On this occasion, however, it only reached 90° once in the Gardens, and not at all at the Observatory, the highest readings for the month being only 92-0 and 89-2, respectively. It was not only in Perth that the temperature was below the average for previous years, but almost throughout the State. It was, however, specially noticeable on the West coast.

The effect of the sea breeze in modifying the climate is, as usual, very marked. Thus the mean maximum and minimum temperatures along a line running approximately East and West are—

	Mean Max.	Mean Min.		Mean Max.	Mean Min.
Rottneat ...	70-9	59-3	Guildford
Fremantle ...	73-7	59-6	Northam ...	85-6	55-9
Perth Observatory	75-4	57-6	Southern Cross ...	91-0	58-0
" Gardens ...	79-2	58-4	Kalgoorlie ...	89-3	61-1

The temperature has been delightfully cool at the favourite seaside resorts. Thus, the mean maximum at—

Geraldton was	77-0	Busselton was	75-2
Rottneat "	70-9	Cape Leeuwin "	70-0
Fremantle "	73-7	Albany "	70-5
Mandurah "	76-6	Breaksea "	68-0
Bunbury "	72-9	Esperance "	75-5

At Bridgetown, as might be expected, it was warmer in the day than on the coast; but this town has the record for the coolest nights, the mean minimum temperature being only 47-6.

Turning to the other side of the picture, we find that almost unbearable heat was experienced in the North-West and Kimberley divisions, the worst place being Marble Bar, where the mean daily maximum was 107° and the highest individual reading 117°.

The atmospheric pressure throughout was normal, the means being in remarkably close agreement with the average for previous years at nearly every station.

The rainfall was very light, and below the average for previous years at all stations except in the extreme North and extreme South-East.

WHEREAS the Mayor, Councillors, and Ratepayers of the Leonora Municipality, a local authority as defined by "The Tramways Act, 1885," section three, sub-section one, have made application to me for a Tramway in the Leonora Municipality, along the route specified in the Schedule hereunder written: AND WHEREAS the promoters have published notice of their intention to make such application in the form prescribed in the Schedule B annexed to "The Tramways Act, 1885," by advertisement in the *Government Gazette* and in the *Leonora Miner* newspaper, and have deposited the documents described in Schedule C annexed to the said Act at the Department of Public Works, Perth, and with the Town Clerk of Leonora: AND WHEREAS I have considered the said application, and it appears to me expedient and proper that the said application should be granted: NOW THEREFORE I, the undersigned, Commissioner of Railways for Western Australia, do hereby, by virtue of the provisions of "The Tramways Act, 1885," make a Provisional Order, and I do order as follows, that is to say:—

1. The promoters shall be and are hereby empowered to make, form, lay down, construct, maintain, and work a tramway in, upon, and along such street and road in the Leonora Municipality as are mentioned in the said Schedule hereunder written.
Provided nevertheless that, notwithstanding anything herein contained, it shall be lawful for the Commissioner of Railways, at any time within six (6) months from the date hereof, by notice in writing to the promoters delivered at the office of the Leonora Municipal Council, Tower Street, Leonora, to prohibit the construction of any part or parts of the said tramway which, in the opinion of the Commissioner of Railways, may interfere with the railway system.
2. The promoters shall, within nine (9) months after the confirmation of this Provisional Order, or within such extended time as the Commissioner of Railways may approve, substantially commence the works in connection with the said tramway, and shall complete the whole of the works within six months of such commencement.
3. The said tramway shall be constructed on the 2ft. gauge.
4. The roadway of the tram-line shall be properly gravel-ballasted by the local authority for a width of 3ft. 6in., and shall be kept in thorough repair to the level of the rails.
5. The said tramway shall be laid with steel rails.
6. The said tramway shall be used for the conveyance or carriage of passengers only.
7. The promoters may demand and take, for every passenger conveyed upon the said tramway, any tolls and charges not exceeding the sum of sixpence for any single fare on a single journey from or to either extremity of the said tramway: Provided always, that the promoters shall provide special cars for workmen and school children at such reduced tolls and charges as shall be approved by the Commissioner of Railways.
8. The restrictions herein contained as to tolls and charges which the promoters may demand and take for the conveyance or carriage of passengers shall not extend to any special cars other than workmen's or school children's cars, but shall apply only to workmen's or school children's cars and to the ordinary cars appointed by the promoters from time to time for the conveyance of passengers.
9. The tolls and charges authorised to be taken, and which shall be demanded by the promoters, shall be paid to such persons and at such places upon or near the tramway, and in such manner and under such regulations as the promoters shall appoint by notice to be exhibited in some conspicuous place on the inside of each of the passenger cars used by the promoters upon the said tramway.
10. Every passenger travelling upon the said tramway may take with him ordinary personal luggage or goods belonging to him not exceeding in weight 20lb. without any charge being made for the carriage thereof.
11. All cars used on the said tramway shall be moved by steam power.
12. All cars using the said tramways may travel at a speed not exceeding the rate of ten miles an hour,

and may follow after each other at distances of not less than 100 yards, and may stop at any point on the said tramway (except on crossings of streets) for the purpose of taking up and setting down passengers, and may stand at either terminus.

13. Cars shall run to a time table, which shall be exhibited in some conspicuous place near either terminus of the said tramway.
14. The said tramway shall be constructed in accordance with the drawings herewith (subject to provisos herein contained).
15. All additional plans and specifications required in connection with the carrying out of the works shall be submitted to the Commissioner of Railways, and all work shall be carried out and finished to his entire satisfaction.
16. The promoters may, from time to time, make and enter into and carry into effect contracts, agreements, and arrangements with any person or company for or with reference to the use by such other person or company of the said tramways, or portion thereof, and for prescribing and regulating the tolls and charges to be paid for such use, and all matters incidental thereto.
17. During the first three years after the opening of the said tramway for traffic, the time table and fares to be observed for running cars shall be adjusted from time to time by the promoters, to meet the local conditions and requirements of the public, not being less than 12 trams per diem.
18. It shall be lawful for the promoters, with the approval of the Commissioner of Railways, to transfer their rights and privileges under this Provisional Order to a person, corporation, or company, provided that the agreement shall include the right of the promoters to purchase the whole of the property and working plant in connection with the tramway from such person, corporation, or company after a stipulated number of years has elapsed.
