MUNICIPAL BY-LAWS.

1317
93*Colonial Secretary's Office,
Perth, 7th May, 1903.*

HIS Excellency the Governor in Council has been pleased to confirm the following By-laws made by the Council of the City of Perth, under "The Building Act, 1884," and amendments thereto, and "The Municipal Institutions Act, 1900."

F. D. NORTH,
Under Secretary.

CITY OF PERTH BUILDING BY-LAWS.

PREAMBLE.

In pursuance of the powers in that behalf contained in "The Building Act, 1884," and the Acts amending the same, and in "The Municipal Institutions Act, 1900," the Municipal Council of the City of Perth doth hereby make the following By-law:—

REPEAL.

1. All By-laws heretofore made by the Municipal Council of the City of Perth, with reference to the matters hereinafter contained, are hereby repealed.

INTERPRETATION CLAUSE.

2. In the construction of this By-law, unless the context otherwise requires:—

- (a.) The several words mentioned in the second section of "The Building Act, 1884," with the exception of the words "Public Building," shall have the same meaning as is attached to such words by the said section.

Building.

- (b.) The expression "building" shall mean any building or erection of whatsoever nature hereafter erected or wholly or substantially re-erected.

Level of ground.

- (c.) The expression "level of ground" shall mean the level of the ground as determined by the surveyor.

Foundation.

- (d.) The expression "foundation" applied to a wall having footings shall mean the solid ground or artificially-formed support on which the footings of the wall rest.

Footings.

- (e.) The expression "footings" shall mean the extra spread of wall between the base of the wall and the foundations.

Base.

- (f.) The expression "base" applied to a wall having footings shall mean the underside of the course immediately above the footings, or in the case of a wall carried by a bressummer, above such bressummer.

Bressummer.

- (g.) The expression "bressummer" shall mean a metallic or trussed or flitched wooden girder which carries a wall.

Ground Storey.

- (h.) The expression "ground storey" shall mean the storey of a building to which there is an entrance from the outside on or near the level of the ground, and where there are two such storeys then the lower of the two. Provided that no storey of which the upper surface of the floor is more than four (4) feet below the level of the adjoining pavement shall be deemed to be the ground storey.

Basement Storey.

- (i.) The expression "basement storey" shall mean any storey of a building which is under the ground storey.

First Storey, etc.

- (j.) The expression "first storey" shall mean that storey of a building which is next above the ground storey, the successive storeys above the first storey being the second storey, the third storey, and so on to the topmost storey.

Topmost Storey.

- (k.) The expression "topmost storey" shall mean the uppermost storey in a building, whether constructed wholly or partly in the roof or not, and whether used or constructed or adapted for human habitation or not.

External Walls.

- (l.) The expression "external wall" shall mean the outer wall when under a main roof, or the outside wall of a habitable room, or the outer wall of the main building.

Party Walls.

- (m.) The expression "party wall" shall apply to every wall used or built as a separation of any building from any other building, such buildings being occupied by different persons.

Cross Walls.

- (n.) The expression "cross wall" shall mean a wall used or constructed to be used in any part of its height as an inner wall of a building for separation of one part from another part of the building, that building being wholly in or being constructed or adapted to be wholly in one occupation.

Party Fence Wall.

- (o.) The expression "party fence wall" shall mean a wall used or constructed to be used as a separation of adjoining lands of different owners, and standing on lands of different owners, and not being part of a building, but does not include a wall constructed on the land of one owner, the footings of which project into the land of another owner.

Party Arch.

- (p.) The expression "party arch" shall mean an arch separating adjoining buildings, storeys, or rooms belonging to different owners, or occupied, or constructed, or adapted to be occupied by different persons, or separating a building from a public way, or a private way leading to premises in other occupation.

Party Structure.

- (q.) The expression "party structure" shall mean a party wall, or other structure separating two buildings, when occupied as separate tenements, and approached by different staircases, or separate entrances from without.

Height of Walls.

- (r.) The expression "height" in relation to any wall shall mean the measurement taken from the level of the base of such wall to the level of the top of the parapet, or where there is no parapet, to the level of the top of the external wall, or, in the case of gabled buildings, to a level half-way between the base and the apex of such gable. Provided that where pediments are constructed above the top of the parapet, or above the top of the wall, as the case may be, the height of the wall for the whole width of the pediment shall be measured from the base of the wall to a level half way between the base and the top of such pediment.

Floor Area.

- (s.) The expression "floor area" applied to a building shall mean the aggregate superficial areas of so many horizontal sections thereof as there are floors in the said building. The horizontal section of each floor shall be made at the point of its greatest surface dimensions, inclusive of external walls and of such portions of the party walls as belong to the building, and also of all verandah and balcony floors, covered ways and light courts.

Squares.

- (t.) The expression "square" applied to the measurement of the area of a building shall mean the space of one hundred (100) superficial feet.

Cubical Contents.

- (u.) The expression "cubical contents" applied to the measurement of a building, shall mean the space contained within the external surfaces of the walls and the ceilings of the topmost storey, or, where there is no such ceiling, the roof and the upper surface of the floor of its lower storey.

Dwelling Houses.

- (v.) The expression "dwelling house" shall mean a building used or constructed or adapted to be used wholly or principally for human habitation, not being a building the property of or occupied by or under the control or management of His Majesty's Government or any department thereof.

Domestic Buildings.

- (w.) The expression "domestic building" includes a dwelling house, suite of offices, and any other building not being a public building or building of the warehouse class, or a building the property of or occupied by or under the control or management of His Majesty's Government or any department thereof.

Public Buildings.

- (x.) The expression "public building" shall mean and include every building used as a church, chapel, or other place of public worship; also every building used for purposes of public instruction; also every building used as a college, public hall, hospital, theatre, public concert room, public exhibition room, or for any other public purposes, not being a building the property of, or occupied by, or under the control or management of His Majesty's Government or any department thereof.

Buildings of the Warehouse Class.

- (y.) The expression "building of the warehouse class" shall mean a warehouse, factory, manufactory, brewery or distillery, and any other building exceeding in cubical contents one hundred and fifty thousand (150,000) cubic feet, which is neither a public building, nor a domestic building, nor a building the property of or occupied by or under the control or management of His Majesty's Government or any department thereof.

Inhabited Rooms.

- (z.) The expression "inhabited" applied to a room shall mean a room in which some person passes the night, or which is used as a living room, including a room with respect to which there is a probable presumption (until the contrary is shown) that some person passes the night therein, or that it is used as a living room.

Habitable Rooms.

- (aa.) The expression "habitable" applied to a room shall mean a room constructed or adapted to be inhabited.

Building Owner.

- (bb.) The expression "building owner" shall mean such one of the owners of adjoining land as is desirous of building, or such one of the owners of buildings, storeys, or rooms separated from one another by a party wall or party structure as does or is desirous of doing a work affecting that party wall or party structure.

Adjoining Owner.

- (cc.) The expression "adjoining owner" shall mean the owner or one of the owners, and "adjoining occupier" shall mean the occupier or one of the occupiers of land, buildings, storeys, or rooms adjoining those of the building owner.

APPLICATION FOR BUILDING LICENSE.

Form of Application.

3. Every person intending to erect any building, or alter, or add to any building within the Municipality of the City of Perth, shall three days before commencing to erect, alter, or add to the same, make application in the form provided in Schedule I. to this By-law, and deposit for a period of three days with the Surveyor, for his approval, a copy of the drawings showing the plan, elevation, and sections of such proposed building, addition or alteration, together with full and complete specifications of the work proposed to be done. A locality plan showing the position of such building shall also be deposited with the Surveyor to remain permanently in his custody. No person shall commence to erect, alter, or add to such building until the Surveyor shall have signified his approval of such plans and specifications by the issue to such person of a certificate of such approval, to be called a "Building License."

Drawings.

- (a.) All drawings shall be in ink, on drawing or cartridge paper, or tracing cloth of at least 15 inches by 22 inches in size. The drawings shall consist of complete plans of every storey, elevations of external fronts, and one or more sections, transverse or longitudinal, showing heights of storeys, depth of foundations, level of ground, construction of walls, floors, roofs, etc., all clearly figured and dimensioned in feet and inches; also a locality plan showing location of proposed site, with cardinal or north point, position of proposed buildings, and any existing buildings on the site or on the allotment, the position of any existing drains, and the position, size, depth, and gradient of proposed drains, and the position of inlets, traps, and ventilators. The distance from the boundaries of the allotment of the proposed buildings shall be figured in feet and inches.

Plans to be Coloured.

- (b.) Distinctive colouring shall be used on the locality plan for new and old buildings.

Scales.

- (c.) The locality plan shall be drawn to a scale of 16 feet to one inch, and all other drawings to a scale of not less than eight feet to one inch.

Plans to be Signed.

- (d.) All plans, drawings and specifications must be signed by the building owner or his duly authorised agent.

Departure from Deposited Plans.

4. No person who shall have obtained a "building license" in respect of any building shall, in the construction of such building, depart from the plans and specifications which have been approved by the Surveyor, without his consent, in writing, first had and obtained, and such alterations or departures from approved plans and specifications shall be drawn, described, and endorsed on and in the plans and specifications.

SITES AND FOUNDATIONS OF BUILDINGS.

Sites.

5. No person who shall hereafter erect any house or building shall construct the foundation of any such house or building upon any site or portion of any site which shall have been filled in or covered with any material impregnated or mixed with faecal, animal or vegetable matter, or which shall have been filled up or covered with dust or slop or other refuse or upon which any such matter or refuse shall have been deposited, unless and until such matter or refuse shall have been properly removed by excavation or otherwise from such site. Any holes caused by such excavation shall, if not used for a basement or a cellar, be filled in with hard brick or dry rubbish or concrete, sand, or other material to be approved by the Surveyor.

Foundations.

6. Every person who shall hereafter erect a building shall cause the foundations of the walls of such building to be formed of a bed of good concrete, not less than nine inches thick, and

projecting at least four inches on each side of the lowest course of footings of such walls. If the site be upon a natural bed of gravel or sand, concrete may be omitted from the foundations of the walls.

The concrete shall be composed of clean gravel, broken hard brick, properly burnt ballast or other hard material, well mixed with freshly-burnt lime or cement, in the following proportions:—In the case of lime, not less than one part of lime to four parts of other material; in the case of cement, one part of cement to two parts of sand, and four parts of stone.

GENERAL.

Brick and Stone Walls.

7. Every person who shall hereafter erect any building, unless in pursuance of a license granted under Section 3 of the Building Act Amendment Act, 1887, shall cause the same to be enclosed with walls constructed of brick, stone, or other hard or incombustible substances with the footings resting on the solid ground, or upon concrete, or upon other solid sub-structure.

Walls to be properly Bonded.

8. Every person who shall hereafter erect, alter, or add to any building shall cause every wall erected in the course of such work, which shall be constructed of brick, stone, or other similar substances, to be properly bonded, and solidly put together with mortar or cement, and shall not suffer the external face of any pier, bay between piers, or any other main wall of a building to be carried up otherwise than truly vertical, without any overhang whatsoever, except as may be permitted under this By-law, clause 30, "Projections."

Return Walls.

9. Every person who shall hereafter erect, alter, or add to any building shall cause every wall of such building erected in the course of such work, and which may be built at an angle with another wall, to be properly bonded therewith.

Footings.

10. Every person who shall hereafter erect, alter, or add to any building shall construct every wall of such building erected in the course of such work (other than a wall carried on a bressummer) so as to rest upon proper footings. He shall cause the projection of the bottom of every wall on each side of the wall to be at least equal to one-half of the thickness of the wall at its base, unless an adjoining wall interferes, in which case the projection may be omitted where that wall adjoins. He shall also cause the diminution of the footing of every wall to be formed in regular offsets, and he shall cause the height from the bottom of such footing to the base of the wall to be at least equal to two-thirds (2/3) of the thickness of the wall at its base. Provided that in the case of domestic buildings of one storey, in the event of a wall being thickened four inches or more to carry a wall plate, the footings need not project in proportion to, or in respect of such thickening.

Heights of Storeys, etc.

11. For the purposes of this By-law the measurement of height of storeys, and of height and length of walls, shall be determined by the following rules:—

- (1.) The height of storeys shall be measured as follows:—

Topmost Storey.

- (a.) The height of a topmost storey shall be measured from the level of the underside of its floor joists up to the level of the top of the parapet, or, if there is no parapet, up to the level of the under surface of the tie of the roof or other covering, or, if there is no tie, or in the case of gables, then up to the level of half the vertical height of the rafters or other support of the roof.

Pediments.

- (b.) Pediments constructed on top of walls or on top of parapets shall be included in the topmost storey, and the measurements of same shall be made in accordance with the rule laid down in sub-section (r) of the Interpretation clause.

Lower Storeys.

- (c.) The height of every storey, other than a topmost storey, shall be measured from the level of the underside of the floor joists of the storey up to the level of the underside of the floor joists of the storey next above it.

Length of Walls.

- (2.) Walls shall be deemed to be divided into distinct lengths by return walls. The length of every wall shall be measured from the centre of one return wall to the centre of another, provided that such walls are external, party, or cross walls, of the thickness required under this By-law, and are bonded into the walls so deemed to be divided.

Underpinning.

12. Every person who shall cause the underpinning of walls and chimneys, shall cause such underpinning to be built with bricks or stone bedded in cement, to the full thickness of the old wall or work if underpinned in brick, and one-third thicker if underpinned in stone, with proper footings, or to an additional thickness if the increased height of the wall so requires, and shall cause such underpinning to rest on the solid ground, or on concrete, or on other solid sub-structure as a foundation, and shall cause the whole to be executed to the satisfaction of the Surveyor.

Thickening of Walls.

13. Every person who shall thicken a wall shall cause such thickening to be executed with brick or stone work in cement, properly bonded to the old work, to the satisfaction of the Surveyor, provided that in no case shall any person thicken any wall except after notice served on the Surveyor of his intention so to do.

DOMESTIC BUILDINGS.

Thicknesses of Walls.

14. Every person who shall hereafter erect, alter, or add to any domestic building shall construct every external wall and every party wall erected in the course of such work in accordance with the following rules, and in every case the thickness prescribed shall be the minimum thickness of which any such wall may be constructed, provided that the several rules shall apply only to walls built of bricks, or of suitable stone or other blocks of hard and incombustible substance, the beds or courses being horizontal :—

- (a.) Where the wall does not exceed twenty-five feet in height its thickness shall be as follows :

If the wall does not exceed thirty feet in length and does not comprise more than two storeys, it shall be eight and a half inches thick for its whole height.

If the wall exceeds thirty feet in length, or comprises more than two storeys, it shall be thirteen inches thick below the topmost storey and eight and a half inches thick for the rest of its height.

- (b.) Where the wall exceeds twenty-five feet but does not exceed forty feet in height, its thickness shall be as follows :

If the wall does not exceed thirty-five feet in length it shall be thirteen inches thick below the topmost storey, and eight and a half inches thick for the rest of its height.

If the wall exceeds thirty-five feet in length it shall be seventeen and a half inches thick for the height of one storey, then thirteen inches thick for the rest of its height below the topmost storey, and eight and a half inches thick for the rest of its height.

- (c.) Where the wall exceeds forty feet, but does not exceed fifty feet in height, its thickness shall be as follows :

If the wall does not exceed thirty-five feet in length it shall be seventeen and a half inches thick for the height of one storey, then thirteen inches for the rest of its height below the topmost storey, and eight and a half inches for the rest of its height.

If the wall exceeds thirty-five feet, but does not exceed forty-five feet in length, it shall be seventeen and a half inches thick for the height of two storeys, then thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length it shall be twenty-one and a half inches thick for the height of one storey, then seventeen and a half inches thick for the height of the next storey, and then thirteen inches thick for the rest of its height.

- (d.) Where the wall exceeds fifty feet, but does not exceed sixty feet in height, its thickness shall be as follows :

If the wall does not exceed forty-five feet in length it shall be seventeen and a half inches thick for the height of two storeys, and thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length it shall be twenty-one and a half inches thick for the height of one storey, then seventeen and a half inches thick for the height of the next two storeys, and then thirteen inches thick for the rest of its height.

- (e.) Where the wall exceeds sixty feet, but does not exceed seventy feet in height, its thickness shall be as follows :

If the wall does not exceed forty-five feet in length it shall be twenty-one and a half inches thick for the height of one storey, then seventeen and a half inches thick for the height of the next two storeys, and then thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length it shall be increased in thickness in each of the storeys below the uppermost two storeys by four and a half inches (subject to the provision hereinafter contained respecting distribution in piers.)

- (f.) Where the wall exceeds seventy feet, but does not exceed eighty feet in height, its thickness shall be as follows :

If the wall does not exceed forty-five feet in length it shall be twenty-one and a half inches thick for the height of one storey, then seventeen and a half inches thick for the height of the next three storeys, and then thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length it shall be increased in thickness in each of the storeys below the uppermost two storeys by four and a half inches (subject to the provision hereinafter contained respecting distribution in piers).

- (g.) Where the wall exceeds eighty feet, but does not exceed ninety feet in height, its thickness shall be as follows :

If the wall does not exceed forty-five feet in length it shall be twenty-six inches thick for the height of one storey, then twenty-one and a half inches thick for the height of the next storey, then seventeen and a half inches thick for the height of the next three storeys, and then thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length it shall be increased in thickness in each of the storeys below the uppermost two storeys by four and a half inches (subject to the provisions hereinafter contained respecting distribution in piers).

- (h.) Where the wall exceeds ninety feet, but does not exceed one hundred feet in height, its thickness shall be as follows :

If the wall does not exceed forty-five feet in length it shall be twenty-six inches thick for the height of one storey, then twenty-one and a half inches thick for the height of the next two storeys, and then seventeen and a half inches thick for the height of the next three storeys, and then thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length it shall be increased in thickness in each of the storeys below the uppermost two storeys by four and a half inches (subject to the provisions hereinafter contained respecting distribution in piers).

- (i.) Where the wall exceeds one hundred feet, but does not exceed one hundred and twenty feet in height, its thickness shall be as follows :

If the wall does not exceed forty-five feet in length it shall be thirty inches thick for the height of one storey, then twenty-six inches thick for the height of the next two storeys, then twenty-one and a half inches thick for the height of the next two storeys, then seventeen and a half inches thick for the height of the next three storeys, and then thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length it shall be increased in thickness in each of the storeys below the uppermost two storeys by four and a half inches (subject to the provision hereinafter contained respecting distribution in piers).

Increased thickness of Walls.

- (j.) If any storey exceeds in height sixteen times the thickness prescribed for its walls by the foregoing rules the thickness of each external and party wall throughout such storey shall be increased to one-sixteenth part of the height of the storey, and the thickness of each external and party wall below that storey shall be increased to a like extent (subject to the provision hereinafter contained respecting distribution in piers).

Piers.

- (k.) Where, by any of the foregoing rules relating to the thickness of external walls and party walls of domestic buildings, an increase of thickness is required in the case of a wall exceeding sixty feet in height and forty-five feet in length, or in the case of a storey exceeding in height sixteen times the thickness prescribed for its walls, or in the case of a wall below that storey the increased thickness may be confined to piers properly distributed, of which the collective widths amount to one-fourth part of the length of the wall.

Cross Walls.

- (l.) If buildings four storeys high, where the cross walls are supported from the ground, and where the cross wall in the highest storey is four and a half inches thick, the cross wall in the two lower storeys shall be at least eight and a half inches thick, and in the lowest storey thirteen inches thick. In three-storey buildings similar cross walls which are four and a half inches thick in the highest storey, shall be at least eight and a half inches in the two lower storeys. In buildings two storeys high, having cross walls running through both storeys, such walls in the lower storey shall be not less than eight and a half inches thick. Cross walls in upper storeys, not supported from the ground, shall be carried on bremsums.

Cavity Walls.

15. The external walls of domestic buildings not exceeding two storeys, and the external walls of the two topmost storeys of domestic buildings, exceeding two storeys, may be built with a cavity not exceeding two inches wide, provided—

- (a.) That the collective thickness of the walling on the two sides of the cavity shall not be less than if the wall were built without a cavity.

- (b.) That the walling on each side of such cavity shall have a minimum thickness of four and a half inches.
- (c.) That the walls on each side of such cavity be tied with galvanised iron or other non-corrosive metal, or by earthenware tie blocks, in the proportion of at least four ties to every square yard of wall surface.
- (d.) That the walls of all storeys below the cavity walls shall be thickened beyond the thickness specified for similar walls in the preceding clause, if required, in order to seat such cavity walls so that the same shall not overhang.

PUBLIC BUILDINGS.

16. If a public building corresponds in form or structure or disposition with a domestic building, then the rules which obtain for domestic buildings shall apply to such public buildings, provided that the thickness of all external and party walls and the width of their footings be at least four inches more than is required for similar walls of the domestic buildings; but should such public building correspond in form or structure or disposition with a building of the warehouse class, then the rules which obtain for buildings of the warehouse class shall apply to such public buildings, provided that the thickness of all external and party walls and the width of their footings be at least four inches more than is required for similar walls of a building of the warehouse class.

Should, however, such public building not correspond in form and structure to either a domestic building or to a building of the warehouse class, then such building shall be subject as to its walls and other construction to the special approval of the Building Surveyor.

BUILDINGS OF THE WAREHOUSE CLASS.

Thickness of Walls.

17. Every person who shall hereafter erect, alter, or add to any building of, the warehouse class shall construct every external wall, party wall, and cross wall, erected in the course of such work in accordance with the following rules, and in every case the thickness prescribed shall be the minimum thickness of which any such wall may be constructed, provided that the several rules shall apply only to walls built of bricks, or of suitable stone, or other hard and incombustible substance, the beds or corsets being horizontal:—

- (a.) Where the wall does not exceed twenty-five feet in height (whatever is its length) it shall be thirteen inches thick at its base.
- (b.) Where the wall exceeds twenty-five feet, but does not exceed thirty feet in height, it shall be at its base of the thickness following:
 - If the wall does not exceed forty-five feet in length, it shall be thirteen inches thick at its base.
 - If the wall exceeds forty-five feet in length, it shall be seventeen and a half inches thick at its base.
- (c.) Where the wall exceeds thirty feet, but does not exceed forty feet in height, it shall be at its base of the thickness following:
 - If the wall does not exceed thirty-five feet in length, it shall be thirteen inches thick at its base.
 - If the wall exceeds thirty-five feet, but does not exceed forty-five feet in length, it shall be seventeen and a half inches thick at its base.
 - If the wall exceeds forty-five feet in length, it shall be twenty-one and a half inches thick at its base.
- (d.) Where the wall exceeds forty feet, but does not exceed fifty feet in height, it shall be at its base of the thickness following:
 - If the wall does not exceed thirty feet in length, it shall be seventeen and a half inches thick at its base.
 - If the wall exceeds thirty feet, but does not exceed forty-five feet in length, it shall be twenty-one and a half inches thick at its base.
 - If the wall exceeds forty-five feet in length, it shall be twenty-six inches thick at its base.
- (e.) Where the wall exceeds fifty feet, but does not exceed sixty feet in height, it shall be at its base of the thickness following:
 - If the wall does not exceed forty-five feet in length, it shall be twenty-one and a half inches thick at its base.
 - If the wall exceeds forty-five feet in length, it shall be twenty-six inches thick at its base.
- (f.) Where the wall exceeds sixty feet, but does not exceed seventy feet in height, it shall be at its base of the thickness following:
 - If the wall does not exceed forty-five feet in length, it shall be twenty-one and a half inches thick at its base.
 - If the wall exceeds forty-five feet in length, it shall be increased in thickness from the base up to within sixteen feet from the top of the wall by four and a half inches (subject to the provisions hereinafter contained respecting distribution in piers).

- (g.) Where the wall exceeds seventy feet, but does not exceed eighty feet in height, it shall be at its base of the thickness following:

If the wall does not exceed forty-five feet in length, it shall be twenty-one and a half inches thick at the base.

If the wall exceeds forty-five feet in length, it shall be increased in thickness from the base up to within sixteen feet from the top of the wall by four and a half inches (subject to the provisions hereinafter contained respecting distribution in piers).

- (h.) Where the wall exceeds eighty feet, but does not exceed ninety feet in height, it shall be at its base of the thickness following:

If the wall does not exceed forty-five feet in length, it shall be twenty six inches thick at its base.

If the wall exceeds forty-five feet in length, it shall be increased in thickness from the base up to within sixteen feet from the top of the wall by four and a half inches (subject to the provision hereinafter contained respecting distribution in piers).

- (i.) Where the wall exceeds ninety feet, but does not exceed one hundred feet in height, it shall be at its base of the thickness following:

If the wall does not exceed forty-five feet in length, it shall be twenty-six inches thick at its base.

If the wall exceeds forty-five feet in length, it shall be increased in thickness from the base up to within sixteen feet from the top of the wall by four and a half inches (subject to the provision hereinafter contained respecting distribution in piers).

- (j.) Where the walls exceed one hundred feet, and does not exceed one hundred and twenty feet in height, it shall be at its base of the thickness following:

If the wall does not exceed forty-five feet in length, it shall be thirty-one inches thick at its base.

If the wall exceeds forty-five feet in length, it shall be increased in thickness from the base up to within sixteen feet from the top of the wall by four and a half inches (subject to the provision hereinafter contained respecting distribution in piers).

- (k.) The thickness of the wall at the top, and for sixteen feet below the top, shall be thirteen and a half inches, and the intermediate parts of the wall between the base and sixteen feet below the top shall be built solid throughout the space between straight lines drawn on each side of the wall and joining the thickness at the base to the thickness at sixteen feet below the top.

Nevertheless, in walls not exceeding thirty feet in height, the walls of the topmost storey may be nine inches thick, provided the height of that storey does not exceed ten feet.

Increased thickness of Walls.

- (l.) If any storey exceeds in height fourteen times the thickness prescribed for its walls by the foregoing rules, the thickness of each external and party wall throughout such storey shall be increased to one-fourteenth part of the height of the storey, and the thickness of each external and party wall below that storey shall be increased to a like extent.

Piers.

- (m.) Where, by any of the foregoing rules relating to the thickness of external walls and party walls of buildings of the warehouse class, an increase of thickness is required, in the case of a wall exceeding sixty feet in height and forty-five feet in length, or in the case of a storey exceeding in height fourteen times the thickness prescribed for its walls, or in the case of a wall below that storey, the increased thickness may be confined to piers, properly distributed, of which the collective widths amount to one-fourth part of the length of the wall.

Cross Walls.

- (n.) The thickness of every cross wall shall be at least two-thirds of the thickness hereinbefore prescribed for an external or party wall of the same height and length, but shall in no case be less than eight and a half inches, and no wall subdividing any building shall be deemed to be a cross wall unless it is carried up to the floor of the topmost storey, and unless in each storey the aggregate extent of the vertical faces or elevations of all the recesses, and that of all the openings therein taken together, does not exceed one-half of the whole extent of the vertical face or elevation of the wall.

Wherever a cross wall becomes in any part an external wall, such cross wall shall be of the thickness required for an external wall of the same height and length.

RUBBLE STONE WALLS.

18. Every person who shall hereafter use stone in coursed or random coursed rubble for the construction of any walls in the erection of any building shall cause the thickness of such stone walls to be at least one-third greater than is prescribed for brick, and such walls shall not in any case exceed twenty-five (25) feet in height, nor be less than fourteen (14) inches in thickness.

PARTY WALLS.

Height of Party Walls.

19. Every person who shall hereafter construct a party wall shall cause such wall, if in a public building or a building of the warehouse class, to be carried up of a thickness equal to a thickness of such wall in the topmost storey, and if in any other building, to be carried up of a thickness of at least eight and a half inches.

- (a.) Above the roof, flat, or gutter of the highest building adjoining thereto to such a height as will give a distance in a public building or a building of the warehouse class exceeding thirty feet in height of at least three feet, and in any other building of fifteen inches measured at right angles to the slope of the the roof, or fifteen inches above the highest part of any flat or gutter, as the case may be; provided that in dwellings built semi-detached in pairs, the party wall may be made to finish on the underside of the roof-covering, which shall be bedded in mortar to the top of such party wall.

Party Walls at Turrets, etc.

- (b.) Above any turret, dormer, lantern light, or other erection of combustible material fixed upon the roof or flat of any building within four feet from such party wall, so as to extend at least twelve inches higher and wider on each side than such erection.
- (c.) Above any part of any roof opposite thereto and within four feet therefrom.

Chases in Party Walls.

20. No person who shall hereafter erect a building shall make in any party wall any chase which shall be wider than fourteen inches, nor more than four and a half inches deep from the face of such wall, nor shall leave less than eight and a half inches in thickness at the back or opposite side thereof, or which shall be within a distance of seven feet from any other chase on the same side of the wall, or within thirteen inches from an external wall. No person shall make any chase in a wall of less thickness than thirteen inches.

OPEN AND CLOSED AREAS.

Projection of Gratings.

21. In the construction of gratings and frames over areas, no person shall cause or allow the maximum projection of any such gratings or frames, whether they be open frames or filled with slabs of glass or lenses, to exceed eighteen inches, measuring from the general line of the front of the walls at one foot above the ground level, or the maximum length thereof to exceed six feet; provided that—

Division between Gratings.

- (a.) Where more than one area grating or such other covering is permitted in the front of one house or building, the division between each shall be not less than nine inches, and shall be formed by a solid piece of hard stone not less than nine inches wide and nine inches deep, such stone to be securely pinned into or to rest upon the brickwork not less than six inches at each end; such stone curbs shall be fixed to the level of the footways; the gratings and frames shall be securely let into the kerbs and be run with lead, and not be permitted to open.

Description of Gratings.

- (b.) Where covered with open iron gratings, the gratings shall be made with frames or borders, the bars of the gratings shall be fixed at right angles with the house, and the space or width between each bar shall not exceed one inch and a half; each bar shall be not more than three-quarters of an inch on the surface, and not less than one square inch in transverse sectional area.

Description of Light Gratings.

- (c.) The coverings over areas, where intended to be closed or filled with glass slabs, shall be formed by iron gratings or frames; the bars shall be not more than three inches apart, and fixed at right angles to each other; each bar shall have at least one square inch of sectional area, and the spaces between the bars shall be filled with glass at least one inch in thickness.

Permissible coverings over Openings.

- (d.) No covering of any material or description shall be permitted over any area openings, excepting those formed by open iron gratings, or by iron frames filled with slabs of glass or lense as before described, or Yorkshire flagging four inches thick.

CELLAR FLAPS.

Projections of Openings.

22. In the construction of openings to cellars or cellar flaps, no person shall cause or allow the maximum projection of such openings or cellar flaps to exceed eighteen inches, measuring from the front line of the wall of the house at twelve inches above the ground level, or the maximum width of the openings to exceed four feet; such openings shall be surrounded at the footway level by curbs made of hard stone not less than nine inches wide on the face; such flaps shall be securely fastened from the underside, and be made so as to shut on to ledges or rabbated in the stone curbs, and to open outwards. All cellar flaps shall be made of jarrah wood, or iron or steel, or iron grating with wooden fillings, or of artificial stone.

Stairs not permitted.

No staircase or steps shall be fixed beneath the cellar flaps, and no openings to basements shall be allowed or used for the purpose of constant access, but only for the purpose of occasionally raising and lowering goods, or removing dust, etc., and such openings shall be closed immediately after such operations are completed.

COAL PLATES.

23. Every person who shall construct coal plates shall cause the same to be circular, and not more than twelve inches in diameter, and to be securely let into rabbats let flush into the footpath; such coal plates shall be made of iron not less than three-quarters of an inch thick, and deeply chequered on the surface; or, if necessary, for the purpose of giving light to the cellar, of iron frames; the space or width between the bars shall be not more than one and a half inches at any point, and shall be filled with glass lenses.

DESCRIPTION AND QUALITY OF THE SUBSTANCES OF WALLS.

24. Every person who shall hereafter erect a building shall cause—

Materials in Walls.

- (a.) The external and party walls of every such building, except in the case of concrete buildings, to be constructed of bricks or of stone.

Bricks.

- (b.) Bricks shall be at least eight and a half inches by four and one quarter inches by two and three-quarter inches of good, hard, sound, well-burnt quality; stone shall be free from vents, cracks, or large sand holes, and laid on its natural bed.

Stone.

- (c.) Similar material to be used in the portions of party and cross walls below the surface or level of the ground, and above the road, including the chimney stack. Cut bricks may be used in arches over recesses and openings in or for facings of external walls.

Mortar.

- (d.) All brick and stone work to be put together with lime mortar or with cement mortar. Lime mortar to be composed of freshly-burnt lime and clean sharp sand, free from earthy matter, and mixed in the proportion of one part of lime to three parts of sand. Cement mortar to be composed of Portland cement, or other cement of equal quality, and clean sharp sand, free from earthy matter, mixed in the proportion of at least one part of cement to three parts of sand.

Damp Courses.

- (e.) Every wall of such building to have a damp course composed of materials impervious to moisture, extending throughout its whole thickness at the level of the lowest floor above ground level. Every external wall or enclosing wall of all habitable rooms and their appurtenances, and of all cellars and areas which abut against the earth, to be protected by materials impervious to moisture.

Tops of Party Walls.

- (f.) The top of every exposed party wall and parapet wall to be finished with one course of bricks set on edge in cement mortar, or by a coping of any other water-proof or fire-resisting material properly secured.

Concrete Walls.

- (g.) All concrete used in the construction of walls to be composed of Portland cement, or other cement of equal quality, clean sharp sand, and of clean gravel or broken bricks or stone or furnace clinkers, and clean water, mixed in the following proportions:—One part of cement to two parts of sand, and four parts of the coarse material broken sufficiently small to pass through a two-inch diameter ring. The proportions of the materials to be ascertained by careful measurement, and the first mixing either by machine or hand to be done dry before the water is added. The walls to be carried up regularly, and in parallel frames of equal height, the surface of the concrete to be well rammed, and to be properly cleaned for the next layer of concrete. The thickness of concrete walls to be equal at least to the thickness prescribed for brick walls. Such portions of concrete party walls and chimney stacks as are carried above the roofs of buildings to be rendered externally with cement and mortar.

RECESSES AND OPENINGS IN EXTERNAL WALLS.

25. No person who shall hereafter erect a building shall make any recess or opening in any external wall of such building, unless—

- (a.) The back of such recess or opening be at the least eight and a half inches thick; and
- (b.) The aggregate area of recesses and openings above the ground storey do not exceed one-half of the whole area of the wall of the storey in which they are made.

RECESSES AND OPENINGS IN PARTY WALLS.

26. No person who shall hereafter erect a building shall make any recess or opening in any party wall of such building, unless—

- (a.) The back of such recess or opening be at the least eight and a half inches thick; and

- (b.) Over every recess so formed an arch of at least two rings of brickwork of the full depth of the recess be turned on every storey, except in the case of recesses formed for lifts; but where such recess does not exceed five inches in depth corbelling in brick or stone may be substituted for the arching; and
- (c.) The aggregate area of all such recesses and openings does not exceed one-half of the whole area of the wall of the storey in which they are made; and
- (d.) Such recesses or openings do not come within thirteen inches of the inner face of the external walls.

UNITED BUILDINGS.

27. No person shall cause any buildings to be united, except where such buildings are wholly in one occupation, or are constructed or adapted to be so.

- (a.) No person shall cause any buildings to be united if, when so united, and considered as one building only, such buildings would not be in conformity with this By-law.

Openings.

- (b.) No person shall make an opening in any party wall, or in two external walls dividing buildings, which buildings, if taken together, would contain more than two hundred and fifty thousand cubic feet, except under the following conditions:—
 - (1.) Such opening shall not exceed in width seven feet, or in height eight feet, and such opening or openings taken together shall not exceed one half of the length of such party wall, or such external walls on each floor of the building in which they occur.
 - (2.) Such openings shall have the door jambs and head formed of brick, stone, or iron, and be closed by two wrought iron doors, each one-quarter of an inch thick in the panel, at a distance from each other of the full thickness of the wall, fitted to rebated frames without woodwork of any kind, or by wrought iron sliding doors, or shutters properly constructed, fitted into grooved or rebated iron frames.
 - (3.) If the thickness of the wall be not less than twenty-four inches, or the doors be placed at a distance from each other of not less than twenty-four inches, such opening may be nine feet six inches in height.

Owners to give notice.

- (c.) Whenever any buildings which have been united cease to be in one occupation, the owner or owners thereof shall give notice to the Surveyor, and shall cause all openings in any party wall, or in any external walls uniting such buildings, to be stopped up with brick or stone work not less than thirteen inches in thickness (except in the case of a wall eight and a half inches thick, in which case eight and a half inches shall be sufficient), and properly bonded with such wall, and any timber not in conformity with this By-law placed in the wall shall be removed.

BRESSUMMERS.

28. Every person who shall hereafter erect a building shall cause every bressummer in any external, internal, or party wall to be of rolled steel or iron, or trussed or flitched wooden girder of approved strength, and to have a bearing in the direction of its length of at least six inches at each end upon a sufficient pier of brick or stone, or upon an iron storey post fixed on a solid foundation, in addition to its bearing upon any party wall or external wall: and he shall also cause such bressummer to have such other storey posts, iron columns, stanchions, or piers of brick or stone, or corbels, as may be sufficient to carry the superstructure. The ends of such bressummers shall not be placed nearer to each other or the opposite face of the party walls than four inches; provided that—

Space for expansion.

- (a.) At each end of every metallic bressummer a space shall be left equal to one-quarter of an inch for every ten feet, and also for any fractional part of ten feet of the length of such bressummer, to allow for expansion.

Templets.

- (b.) Every bressummer bearing upon a party wall shall be borne by a templet or corbel of stone or iron, tailed through at least half the thickness of the wall, and of the full breadth of the bressummer.
- (c.) Bressummers consisting of more than one joist shall be solidly bolted together with packing pieces filling in the vacant spaces between the webs of the joists, and shall have such additional plates of sufficient strength, calculated in accordance with recognised formula, rivetted on to the top or bottom boom. Bressummers shall in no case have a less factor of safety than three for dead loads and five for live loads.

TIMBER IN WALLS.

Bond Timber.

29. Every person who shall hereafter erect, alter, or add to any building shall comply with the following regulations:—

- (a.) No bond timber or wood plate shall be built into any party wall, and the ends of any wooden beam or joists bearing on such wall shall be at least four and a half inches from each other, or from the opposite face of the wall.

Corbels or Templets.

- (b.) The end of any timber not permitted to be placed in or to have a bearing upon a party wall may be carried on a corbel or templet of stone or iron, or vitrified stoneware, tailed into the wall to a distance of at least eight and a half inches, or otherwise supported to the satisfaction of the Surveyor.

Woodwork set back.

- (c.) All woodwork fixed in any external wall and frames of doors and windows of shops on the ground storey of any building (except loophole frames or bressummer) shall be set back at the least four inches from the external face of such wall.

Box Gutters.

- (d.) If any gutter, any part of which is formed of combustible materials, adjoin an external wall, such wall shall be carried up so as to form a parapet one foot at the least above the highest part of the gutter, and the thickness of the parapet so carried up shall be at least eight and a half inches throughout.
- (e.) No fascia or projecting eave constructed of inflammable materials shall be erected at a less distance than two feet six inches from the boundary of an adjoining property.

PROJECTIONS.

- 30. Every person who shall hereafter erect, alter, or add to any building shall cause—

Materials.

- (a.) All copings, cornices, stringcourses whatsoever, and corbelled projections of party walls to be of brick, tile, stone, artificial stone, slate, cement, or other fire-proof material.

Projections secured.

- (b.) Every cornice or other projection to be tailed into the wall of the building, and where the projection thereof exceeds the thickness of the wall, to be weighed or tied down. No cornice to project more than two feet six inches over the public way or beyond the face of the external wall.

Plinths.

31. No person shall cause the plinth of any building to project beyond the surveyed building line except as follows, that is to say:—Plinths, not exceeding two feet in height, may project two and a half inches into the streets beyond the surveyed building line. Where streets are constructed on a gradient, the height of the plinth may be varied if approved by the Surveyor.

Cornices of Shop Fronts.

32. No person shall cause the cornice of any shop front, the piers of which have been built upon the surveyed building line, to project beyond such piers and beyond such surveyed building line, except as follows:—In a street or way of a width not greater than thirty-three feet, such projection shall not exceed thirteen inches; in a street or way of a width greater than thirty-three feet, such projection shall not exceed eighteen inches.

Extent of Woodwork in Shop Fronts.

33. No person who shall hereafter erect, alter, or add to any building shall cause any part of the woodwork of any shop front to be fixed higher than twenty-five feet above the pavement of the public footpath in front of the shop, or nearer than four and a half inches to the centre of the party wall, where the adjoining premises are separated by a party wall, or nearer than four and a half inches to the face of the wall of the adjoining premises, where the adjoining premises have a separate wall, unless a pier or corbel of stone, brick, or other incombustible material, at least four and a half inches wide, be placed as high as, and alongside such woodwork, and projecting throughout at the least one inch in front thereof, between such woodwork and the centre of the party wall or the separate wall, as the case may be.

Bay Windows.

34. Bay windows to any dwelling-house may be erected on the land of the owner of such house, provided that no such bay windows shall be erected except subject to the following conditions, viz:—

- (1.) Such windows shall not exceed three storeys in height above the level of the footway.
- (2.) Shall be in no part nearer to the centre of the nearest party wall than the extreme amount of their projection from the main wall of the building to which they are attached.
- (3.) Shall not, taken together, exceed in width three-fifths of the frontage of the building towards the street to which such bays face.

Oriel Windows, Turrets, Balconies.

35. Oriel windows, turrets, and balconies to a building may be erected in a street of a width of not less than forty feet, or where the front wall of such building is at a distance of not less than forty feet from the opposite boundary of the street, provided that no such oriel window, turret, or balconet shall be erected except subject to the following conditions, viz:—

- (1.) No part of such window, turret, or balconet shall extend more than three feet from the face of the front wall of such building, or more than twelve inches over the public way.
- (2.) No part of such window, turret, or balconet shall be less than ten feet above the level of the footway of the street.

- (3.) No part of such window, turret, or balconet (where same overhangs the public way) shall be within a distance of four feet of the centre of the nearest party wall.
- (4.) On no floor shall the total width of any oriel windows, turrets, or balconets, taken together, exceed three-fifths of the length of the wall of the building of that floor.

Drainage of Projections.

36. Every person who shall hereafter erect, alter, or add to a building shall cause the roof, flat, or gutter of such building, and every shop-front, bay window, oriel window, turret, balconet, or other similar projection erected in the course of such work, to be so arranged and constructed and so supplied with gutters and pipes as to prevent the water therefrom from dropping upon or running over any public way.

No other Projections allowed.

37. Except in so far as is permitted by this By-law in the case of shop-fronts and projecting windows, and with the exception of water pipes and their appurtenances, copings, string-courses, cornices, fascias, window dressings, and other like architectural decorations, no person shall cause or allow any projection from any building to extend beyond the surveyed building line in any street.

Projections not to overlap.

38. No person shall cause or allow any cornice, string course, or other projection on any building to be constructed in such manner as to overlap or project in front of any adjoining property, unless with the consent of the owner of the adjoining property expressed in writing, and deposited in the hands of the Building Surveyor.

CHIMNEYS.

Foundations and Supports.

39. Every person who shall hereafter erect, alter, or add to any building shall cause every chimney of such building erected in the course of such work to be built on solid foundations and with footings similar to the footings of the wall against which such chimney is built, unless it is carried upon iron girders, with direct bearings upon any party wall, external or cross walls, to the satisfaction of the Surveyor; provided, nevertheless, that in cases in which it is impracticable to comply with the above provisions, such person may cause any chimney of such building to be built on corbels of brick, stone, or other incombustible materials, if the work so corbelled out does not project from the wall more than the thickness of the wall measured immediately below such corbel.

Soot Doors.

40. All chimneys and flues shall have proper soot doors of not less than forty square inches, which shall be at least fifteen inches distant from any woodwork, and no person shall hereafter construct any chimney flue so as to incline at a less angle than forty-five degrees to horizon, or without providing proper soot doors.

41. Every person who shall hereafter erect, alter, or add to any building shall cause—

Chimney Arches and Bars.

- (a.) An arch of brick or stone to be built over the opening of every chimney constructed in the course of such work to support the breast thereof, and shall support all such arches, except semi-circular ones upon wrought iron bars of sufficient strength, to be built eight and a half inches into the chimney jambs.

Flues.

- (b.) All flues in such building, constructed in the course of such work, which may be intended for use in connection with any oven, furnace, cockle, steam boiler, or close fire, constructed for any purpose of trade or business, or which may be intended for use in connection with any range or cooking apparatus of such building, when occupied as a hotel or eating house, to be surrounded with brickwork at least eight and a half inches thick from the floor on which such oven, furnace, cockle, steam boiler, or close fire may be constructed or placed to a point eighteen inches clear of the outside of the roof.

Flues to be Pargeted.

- (c.) The inside of every flue, constructed in the course of such work, to be pargeted, or lined with fire-resisting glazed piping or stoneware.

Outside Flues to be marked.

- (d.) The position and course of every flue which is being constructed in a party wall, if the construction of the building or of the flues and fireplaces on both sides of such party wall be not carried on contemporaneously, to be distinguished in some durable manner by outline marks on the outside of the work as it is carried up.

Chimney Jambs.

- (e.) The jambs of every fireplace opening constructed in the course of such work to be at least eight and a half inches thick.

Chimney Breasts.

- (f.) The breast of every chimney and the brickwork surrounding every smoke flue constructed in the course of such work, except where otherwise provided in this By-law, to be at least four and a half inches thick.

Back of Fireplaces.

- (g.) The back of every fireplace opening constructed in the course of such work in a party wall to be at least eight and a half inches thick from the hearth to the height of twelve inches above the mantel.

Flues in Cross Walls.

- (h.) The upper side of every flue constructed in a cross wall, and carried from the fireplace to an external wall, to be at least eight and a half inches thick.

Thickness of Walls of Flues.

- (i.) Every chimney shaft or smoke flue constructed in the course of such work, not otherwise provided for in this By-law, to be carried up in brickwork at least four inches thick throughout, to a height of not less than three feet above the roof, flat, or gutter adjoining thereto, measured at the highest point in the line of junction with such roof, flat, or gutter.

Top of Stack.

- (j.) The highest six courses of every chimney stack or shaft constructed in the course of such work to be built in cement mortar.

Outer Hearths.

- (k.) An outer hearth to be constructed before every fireplace opening, which hearth shall consist of a slab of stone or other incombustible material at least fourteen inches wide, and six inches longer on each side than the width of such opening. Except on the lowest floor, such slab shall be laid on iron bearers or brick trimmer arches, supported by the floor joists, but on the lowest floor may be bedded on a solid built-up foundation.

Inner Hearths.

- (l.) The inner hearth of every chimney erected in the course of such work to be constructed wholly of brick, stone, or other incombustible material, and such hearth, except on the lowest floor, or unless inset in the brickwork of a chimney breast, to be supported by corbelling of brick or stone, or by slate or stone slabs, or by iron girders or other incombustible material; provided that on the lowest floor such hearth shall be bedded on a solid built-up foundation. In no case shall the least thickness of such inner hearth be less than six inches.

42. No person who shall hereafter erect, alter, or add to any building shall cause or allow—

Height of Chimneys.

- (a.) The brickwork or stonework of any chimney shaft erected in the course of such work, other than a chimney shaft of the furnace of any steam engine, brewery, distillery, or manufactory, to be built higher above the roof, flat, or gutter adjoining thereto than a height equal to six times the least width of such chimney shaft, taken at the level of the highest point in the line of junction, unless such chimney shaft shall be built with or bonded to another chimney shaft not in the same line with the first-mentioned chimney shaft, or shall be otherwise rendered secure.

Flues against Party Walls.

- (b.) Any flue to be built in or against any party wall, unless it be surrounded with new brickwork at least four inches thick, properly bonded into the old work.

43. No person shall cause or allow—

Cutting into Chimneys.

- (a.) Any chimney shaft, jamb, breast, or flue, to be cut into, except for the purpose of repair, or for some one or more of the following purposes:—
- (1.) For letting in or removing or altering flues, pipes, or funnels, for the conveyance of hot air, smoke, or steam, or for letting in, removing or altering smoke jacks.
 - (2.) For forming openings for soot doors, in which case such openings shall be fitted with a close iron door and frame.
 - (3.) For making openings for the insertion of ventilating valves, provided that such openings shall not be made nearer than twelve inches to any timber or combustible substance.

Timber near Chimneys.

- (b.) Any timber or woodwork to be placed—
- (1.) In any wall or chimney breast nearer than four and a half inches to the inside of any flue or chimney opening;
 - (2.) Under the chimney opening within six inches from the upper surface of the hearth thereof.

Wooden Plugs.

44. No person shall drive any wooden plug into any wall nearer than four and a half inches to the inside of any flue or chimney opening, nor shall any iron holdfasts or other iron fastenings be placed nearer than two inches thereto.

FACTORY CHIMNEYS.

45. Every person who shall hereafter construct a chimney shaft which may be intended for use in connection with the furnace of a steam engine, brewery, distillery, or manufactory, shall construct such shaft in conformity with following rules:—

Foundations.

- (a.) The foundation of such shaft shall be made of concrete or other sufficient foundation.

Footings.

- (b.) The footings of such shaft shall spread all round the base thereof by regular offsets to a projection equal to the thickness of the enclosing brickwork at the base of such shaft, and the space enclosed, by such footings shall be filled in solid as the work progresses.

Width at Base.

- (c.) The width of the base of such shaft, if square, shall be at least one-tenth of the proposed height thereof, or if such shaft is round, octagonal, or other many and equal sided and angled, then at least one-twelfth of the height thereof.

Chimney Shaft.

- (d.) Every such shaft shall be carried up throughout in brickwork and mortar of the best quality, and if detached shall be tapered gradually from the base to the top, and on all faces or sides of such shaft, at the rate of at least two and a half inches for every ten feet of height.

Thickness of Brickwork.

- (e.) The brickwork at the top of such shaft, and for twenty feet below the top, shall be at least eight and a half inches thick, and such thickness shall be increased at least four inches for every additional twenty feet, measured downwards.

Projections.

- (f.) Every cap, cornice, pedestal, string-course, or other variation from plain brickwork in connection with such shaft shall be as additional to the thickness of brickwork required under this By-law, and every such cap shall be constructed and secured to the satisfaction of the Surveyor.

Firebrick lining.

- (g.) All fire-brick lining built inside the lower portion of such shaft shall be additional to, and independent of, the thickness of the brickwork thereof prescribed by this By-law, and shall not be bonded therewith.

GENERAL RESTRICTIONS RELATING TO STEAM BOILERS, ETC.

46. No person shall cause or allow—

Floors.

- (a.) The floor under any oven, copper, steam boiler, or stove, which is not heated by gas, or the floor around the same for a space of eighteen inches, to be constructed of materials of a combustible or heat-conducting nature, or less than six inches thick.

Smoke Pipes.

- (b.) Any pipe for conveying smoke or other products of combustion, heated air, steam, or hot water, to be fixed against any building on the face adjoining to any street or public way.
- (c.) Any pipe for conveying smoke or other products of combustion to be fixed nearer than six inches to any combustible materials.

Steam Pipes.

- (d.) Any pipe for conveying heated air or steam to be fixed nearer than six inches to any combustible materials.

Hot Water Pipes.

- (e.) Any pipes for conveying hot water to be fixed nearer than three inches to any combustible materials, provided that the restrictions imposed by this clause and by sub-clause (d.), with respect to the distance at which pipes for conveying steam and hot water shall be fixed from any combustible materials, shall not apply in the case of pipes provided with a free blow-off.

Floors over Furnaces.

- (f.) The floor over any room or enclosed space in which a furnace is fixed, or any floor within eighteen inches from the crown of an oven, to be constructed of combustible materials.

STAIRCASES.

47. Every person who shall hereafter construct or adapt any building for occupation in separate tenements by more than two families, shall cause the principal staircase of such building, which may be used by several families in common, to be ventilated upon every storey above the ground storey by means of windows or skylights, opening directly into the external air, or to be otherwise adequately ventilated.

48. Every person concerned in the erection of any dwelling house, not subject to the provisions of the last preceding clause, shall cause the principal staircase in such dwelling-house to be ventilated by means of a window or skylight opening directly into the external air.

49. Every person concerned in the erection of a building of more than 150,000 cubic feet, which is constructed or adapted to be used as a dwelling-house for separate families, shall cause the floors of the lobbies, corridors, passages, landings, and also the stairs, to be of fire-resisting materials, and, when over three storeys exclusive of basement, to be carried by supports of fire-resisting materials.

HABITABLE ROOMS.

50. Every person concerned in the erection of any building containing a habitable room or rooms shall cause—

Cubical capacity.

- (a.) Every such room to have a capacity of not less than eight hundred cubic feet.

Height of Rooms in Roof.

- (b.) Every such room, wholly or partly in the roof of such building, to be at least eight feet from the floor to the ceiling throughout not less than one-half the floor area of such room.

Height of other Rooms.

- (c.) Every such room, not being wholly or partly in the roof, to be in every part at least eight feet six inches in height from the floor to the ceiling.
- (d.) Every such room to have one or more windows opening directly into the external air or into a conservatory, with a total superficies clear of the sash frames and free from any obstruction to the light, equal to at least one-twelfth the floor area of such room, and so constructed that a portion equal at least one twenty-fourth of such floor area can be opened, and that the opening in each case shall extend to at least seven feet above the floor level, provided that such room may be lighted by a lantern light, which shall be hung to open with rods or lines and levers of which a portion equal to at least one twenty-fourth of the floor area can be opened.

Rooms over Stables.

- (e.) Every such room constructed over a stable to be separated from the stable by a floor, which shall have in every part not occupied by a joist or girder a layer of concrete or clay pugging of good quality, or of other solid construction three inches in thickness, finished smooth upon the upper surface and properly supported, and the underside of such floor to be ceiled with lath and plaster of good quality, or of other solid construction; and every staircase, gallery, or structure by which such rooms shall be approached to be separated from the stable which it adjoins by a brick wall not less than eight and a half inches in thickness.

Ventilation.

- (f.) Every such room, whether used for the purpose of habitation or for the assemblage of people for any purpose whatever, to be well and properly ventilated by the insertion of air bricks below the floor, and by openings in the sleeper walls, also by inlet ventilators in the walls, and by outlet ventilators in the ceilings, or at the top of the walls of such room, with sufficient flues and pipes thereto, according to the position and size of such room.

Ventilation under Basement.

- (g.) Every basement room having a wooden floor other than a floor constructed of solid wood bedded on concrete to have a sufficient space between the ground and the underside of the floor to admit of ventilation by means of air flues formed in the wall connected with air bricks or otherwise above ground level.

Distance from Boundary.

51. No person shall cause or allow to be constructed in any dwelling any habitable room, unless every window thereof opening directly into the external air at the side of such dwelling is provided with a clear air space, in the case of a single-storied dwelling of at least two feet and six inches, and in any other case of at least three feet wide, measured square on to the exterior face of the wall in which such window is situate, such air space being in the same ownership as the dwelling.

LIGHT COURTS.

52. No person shall cause or allow—

Light Courts inside Buildings.

- (a.) A habitable room, not having a window directly opening into the external air, otherwise than into a court enclosed on every side, to be constructed in any building, unless the width of such court, measured from such window to the opposite wall, shall be equal to half the height measured from the sill of such window to the eaves or top of the parapet of the opposite wall; provided that a court of which the greater dimension does not exceed twice the lesser dimension shall be held to comply with this clause if a court of the same area, but square in shape, would comply therewith.

Light Courts outside Buildings.

- (b.) No person shall cause or allow to be constructed in any building, other than a dwelling-house, any habitable room, unless every window of such room opening directly into an external light court at the side of such building is provided with a clear air space of at least four feet, measured square on to the external face of the wall in which such window is situate, such air space being in the same ownership as the said building.

Ventilation of Light Courts.

Every light court, wholly or in part open on the top, to be enclosed on every side, and constructed and used for admitting light and air to a domestic building, to be constructed unless adequate provision shall have been made for the ventilation of such court by means of a communication capable of admitting fresh air to the lower end of such court.

Access to Light Courts.

- (d.) Any light court, enclosed on every side, to be constructed in any building, unless means of access is given to such court by a doorway leading out from the ground storey of such building.

Drainage of Light Courts.

- (e.) Any light court, enclosed on every side, to be constructed, unless adequate provision for the proper drainage of such court shall first have been made.

BACK BUILDINGS.

53. No person shall cause or allow any habitable room to be constructed in any back building when the only window or windows of such room opening into the external air is or are situate in the wall which faces the front building, unless every window of such room be placed not nearer to the opposite wall of the front building than a distance of twelve feet.

CONVERSION OF BUILDINGS.

54. No person shall convert into, or use as a dwelling-house, any building or any part thereof not originally built as and for a dwelling-house within the limits of the municipality, whether built before or after the making of this By-law, without the previous consent of the Council.

SIGNBOARDS, SIGNS, ETC.

55. No person shall erect, put up, or place any signboard, sign, awning, blind, overhanging lamp, or other thing, over or near any footway or roadway within the municipality without first having obtained the written consent of the Council therefor. Permission to erect a signboard shall only be given where there is a verandah to which to affix such signboard, and every person who shall have obtained permission to erect a signboard shall cause the same to be securely fastened to such verandah at a height in the clear of not less than eight feet from the foot-path. No signboard shall be affixed to any covering of the verandah roof, or to any roof guttering, nor shall it project beyond the footway into the roadway.

VERANDAHS AND BALCONIES.

56. No person shall erect any verandah or balcony over any public footway within the limits of the City of Perth, unless he shall have obtained a license in accordance with Schedule IV. or V., and except in accordance with plans approved by the Council, nor shall he cause or allow any portion of any verandah or balcony, now or hereafter to be erected, to be enclosed.

*MISCELLANEOUS.**Filling into Cellars.*

57. The owner of any building or premises shall fill up, secure, or remove any cellar-ways or openings which may be in or under any footway, and are used in connection with, or are appurtenant to such building or premises, whenever ordered by the Council so to do.

Removal of Verandahs, etc.

58. The owner of any building or premises shall, when ordered by the Council so to do, at his own expense remove any verandah, balcony, or other obstruction used in connection with, or appurtenant to such building or premises, which shall obstruct the footway or street, or are dangerous, whether such verandah, balcony, or other obstruction shall have been erected before or after the commencement of "The Municipal Institutions Act, 1900."

Posts and Poles in Streets.

59. The owner of any lamp-post, telegraph, telephone, electric lighting, or tramway poles shall, when ordered by the Council so to do, at his own expense, paint the same during such hours, and in such manner as the Surveyor shall direct, and shall, at such like expense and when so ordered, remove any of such posts or poles as shall be bent, dangerous, unsightly, or not in use.

Dangerous Fences.

60. No person shall erect any dangerous fence, or shall use barbed wire in the construction of any fence abutting on any public place.

Refrigerating Paint.

61. The owner and occupier of any building occupied or used as a workshop, workroom, or office, which shall be partially or wholly constructed of iron, zinc, or tin shall, once in every three years, or oftener, when so ordered by the Council, cause such iron, zinc, or tin, to be coated with refrigerating paint.

Dangerous Projections.

62. No person shall cause or allow any iron spike or other projection, broken glass, or barbed wire to be placed or fixed on any premises abutting upon a street or way.

63. No person shall construct any building without providing convenient means of access to the roof, by manholes or otherwise.

64. Timber-framed gables to any bay window may be constructed in buildings of the domestic class, and in buildings of other classes, if approved and consented to by the Council, and endorsed on the drawings by the building surveyor.

65. All sky-lights in verandahs and buildings, and the sloping sides of all lantern lights, shall be protected by galvanised-iron wire guards, securely fixed to the inside thereof.

PENALTIES.

66. This By-law shall apply to every part of the Municipality of the City of Perth, and any person who contravenes or does not comply with any one of the provisions of this By-law, shall be deemed guilty of an offence against this By-law, and for every such offence shall be liable to a penalty not exceeding £20.

FIRE-RESISTING MATERIALS.

The following materials shall for the purposes of this By-law be deemed to be fire-resisting materials:—

- Brickwork, constructed of good bricks, well burnt, hard and sound, properly bonded, and solidly put together, with:
 - Good mortar, composed of fresh burnt lime, and sharp clean sand; or
 - Good neat cement; or
 - Good cement, mixed with sharp clean sand.
- Granite or other stone suitable for building purposes by reason of its solidity and durability.
- Iron, steel, and copper.
- Jarrah and other hard timber when used for beams, posts, or in combination with iron, the timber and iron, if in beams, being protected by plastering, or other incombustible or non-conducting external coating.

In the case of doors—jarrah or other hard timber not less than two inches thick.

In the case of stairs—jarrah or other hard timber with treads, strings, and risers not less than two inches thick.
- Slates, tiles, brick, and terra cotta when used for coverings or corbels.
- Flagstones when used for floors over arches, but not exposed on the underside and not supported at the ends only.
- Concrete composed of broken stone, chippings of ballast, and lime, cement, or calcined gypsum when used for filling in between joists or floors.
- Any materials from time to time approved by the Council as fire-resisting.

SCHEDULE III.

I, City Building Surveyor, of Perth, under the powers invested in me by "The Building Act, 1884," 48th Victoria No. 15, Section 16, hereby give you notice, that the building situated in Street and numbered No. , of which you are the owner, is in a dangerous condition, and you are hereby required within days from the receipt of this notice to remove said building to my satisfaction.

And further take notice that in default of your doing so, you will be liable to a penalty of Twenty pounds (£20) and to pay the costs of the removal of said building by the City Council.

Dated this day 190 .
City Building Surveyor.

SPECIFICATION AND CONDITIONS.

- Any person wishing to erect a verandah must, previous to commencing such erection, obtain from the City Building Surveyor a License, in the form above set forth, and he will be required to deposit with the Surveyor a plan, elevation, section, and specification, showing in detail the construction of such verandah and the manner in which it is proposed to secure same to the building to which it is attached.
- The blocks supporting the columns are to be sound sawn jarrah, 2 feet in length, and 8 in. by 8 in. in section, placed with their outer face close to the inside line of kerbing, the blocks to be plumb, and the earth well rammed down around them.

3. The columns are to be best wrought or cast metal, or jarrah if approved by the Council, ornamental in design, sound, clean, and free from defects; the shafts of metal columns to be not less than 4 inches in diameter, nor less than $\frac{3}{4}$ th of an inch thick in any part; the columns to be of approved design, and securely fixed to blocks and superstructure. Jarrah posts to be not less than 5in. square and chamfered, or 6in. in diameter if round.
4. The frieze, fringe, and brackets are to be sound, clean, ornamental cast iron, securely fixed to frieze rails.
5. Eaves plates may be of wood, 9in. by 2in., wrought; pitching plates may also be of wood, 4in. by 2in., bolted into the walls; returns to be of similar construction.
6. There must be at least 8 feet clear headway under all parts of the superstructure.
7. Roof to be 24 gauge galvanised corrugated iron, and lapped and rivetted at edges, one rivet to each foot in length of lap, the whole to be watertight.
8. Eaves gutters to be of moulded wrought iron, area of cross-section to be not less than 12 square inches, and to be securely fixed to the eaves plates, discharging into columns; the bases of columns to be perforated so as to discharge freely to street channel.
9. The whole to be painted with three coats anti-corrosion paint.
10. The whole to be constructed and completed, and continuously maintained in good order and repair to the satisfaction of the City Surveyor.
11. The owner to comply with all Municipal Regulations now or hereafter applying to such erections.
12. The owner to pay to the City Council half cost of kerbing and tarpaving of footway, and whole cost of tarpaving any door approaches.
13. If at any time the City Council considers it necessary in the interests of the public that the verandah should be removed then the holder of the Verandah License shall, upon receipt of a notice to that effect, under the hand of the Mayor or Town Clerk, remove the structure within the period stated therein, and in the event of the holder of the License failing or refusing to remove the said structure, the Council shall be at liberty to remove it at the Licensee's risk and expense.

THE AGRICULTURAL LANDS PURCHASE
ACT, 1896.

Department of Lands and Surveys,
Perth, 8th April, 1903.

Perth, 8th April, 1903.

HIS Excellency the Governor in Executive Council has been pleased to repeal the Regulations made under "The Agricultural Lands Purchase Act, 1896," on the 2nd day of June, 1898, and to make the following Regulations under the said Act.

HERBT. FARMER,
Acting Under Secretary for Lands.

REGULATIONS.

1. Whenever land is proclaimed open to selection under Section 11 of "The Agricultural Lands Purchase Act, 1896," applications may be made for any allotment thereof at such place and between such dates as may be fixed by the proclamation.

2. Every application shall be in the Form A in the Schedule, and shall be deemed to have been received on the last day of the period during which applications may be made.

3. Every applicant shall make a statutory declaration in the Form B in the Schedule, with such alterations as the Minister may approve. Such declaration shall be made before a Justice of the Peace, the Under Secretary for Lands, or an agent duly appointed by the Minister for Lands.

4. The application and declaration must be enclosed in a sealed envelope, endorsed "Application for land in theEstate," and delivered or sent by post to the officer appointed to receive the same.

5. A deposit at the rate of £7 12s. 10d. for each One hundred pounds of the selling price of the allotment, as fixed by the Governor, shall be made with the application.

6. Applications will be opened and considered on the day next following the last day appointed for the receipt thereof, or as soon thereafter as practicable.

7. The Minister may reject the application of any person who, in the opinion of the Minister, is not qualified to be an applicant, or is disqualified, or is not a *bonâ fide* intending settler on the allotment applied for.

8. Should there be only one application for any allotment, the Minister may in his discretion approve or reject the application, and notice thereof shall be posted to the applicant.

9. Should any such application be refused, the allotment applied for shall be again proclaimed open to selection, or submitted to auction, as the Minister may direct.

10. If there are two or more applications for the same allotment, the Minister may direct the allotment to be submitted to auction for competition between the applicants only, or to public auction, at such time and place as he may determine.

11. At any such auction the reserve shall be the selling price of the allotment fixed by the Governor, and the highest bidder at a price equal to or exceeding the reserve shall, if qualified to be an applicant, be deemed the successful applicant.

12. The highest bidder at any such auction shall immediately pay to the person acting as auctioneer a deposit at the rate of £7 12s. 10d. for each One hundred pounds of the amount of his bid, but credit will be given to an applicant for the amount paid with his application (if any)

13. If the highest bidder at a public auction was not an applicant for the allotment, he shall forthwith sign the prescribed form of application, and make the prescribed declaration, and his application shall thereupon be approved.

14. The deposit paid by every applicant whose application is not approved will be returned to him.

15. On the approval of an application, a lease shall, as soon as practicable, be granted to the applicant in the Form C in the Schedule, or to the effect thereof, for the term of twenty years, commencing on the first day of the quarter next preceding the date of the approval of the application.

16. The price of the allotment as fixed by the Governor, or, in the case of a submission to auction, as ascertained by the highest bid, shall be payable as an annual rent extending over the term of the lease, and as prescribed by the Agricultural Lands Purchase Acts, and section 136 of "The Land Act, 1898."

17. The deposit paid with the application, or to the auctioneer, as the case may be, shall be applied in payment of the rent payable for the first year of the term granted by the lease.

18. At the expiration of the said term of Twenty years, and upon payment of all rent reserved by the lease, and upon the Minister for Lands being satisfied that all the conditions thereof on the lessee's part to be observed and performed have been duly complied with, and upon payment of the prescribed fees for a Crown Grant and the registration thereof, the lessee, his executors, administrators, or assigns, shall be entitled to a Crown Grant for rural land in fee simple, in the form prescribed in the Land Act in force for the time being, of the said land or so much thereof as may for the time being be comprised in the lease.

..... Area.

Lot No.

EDWARD THE SEVENTH, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Emperor of India, Defender of the Faith. To all to whom these Presents shall come, Greeting: Know Ye that We of our especial Grace, and in consideration of the rent hereinafter reserved, and on the part of (hereinafter called the Lessee, which term includes the Executors, Administrators, and Assigns of the Lessee), to be paid, and of the conditions on the part of the Lessee, to be observed and performed, and in exercise of the powers in this behalf in Us vested by "The Agricultural Lands Purchase Act, 1896" (hereinafter referred to as the "principal Act"), and the amendments thereof, Do by these presents Demise unto the Lessee, ALL THAT piece or parcel of land situate in the Area, in the District of the State of Western Australia, containing more or less, as the same is delineated on the plan hereon coloured green, together with all appurtenances thereunto belonging: To HOLD the said land hereby demised (subject as hereinafter mentioned) unto the Lessee, for the term of Twenty years, to be computed from the first day of 190; YIELDING AND PAYING during the said term the yearly rent of unto Us, Our Heirs and Successors, without deduction: such rent to be paid by equal payments half-yearly, in advance, on or before the first day of March and the first day of September in every year to Our Minister for Lands for Our said State.

PROVIDED ALWAYS, and it is hereby agreed and declared, that this demise is made subject to the provisions of and to the conditions prescribed by the principal Act and "The Land Act, 1898," so far as the same apply to land held under the principal Act and the amendments thereof, and the regulations thereunder, respectively, which at any time during the continuance of this demise may be in force for the time being.

And subject also to the further conditions following, that is to say:— That the lessee shall, within six months from the date of this lease, take, in his own person, possession of the said land, and shall reside upon it, and make it his usual home, without any other habitual residence, during at least six months in each year for the first five years of the term hereby granted.

That the lessee shall not transfer, sublet, or part with possession of the land or any part thereof within two years of the approval of the application for the lease, nor at any time thereafter without the consent, in writing, of Our Minister for Lands first obtained, which consent shall not be given unless and until it is proved to the satisfaction of Our Minister for Lands that the lessee has in all respects observed the terms and conditions of this lease.

And that the lessee shall not at any time during the continuance of this lease hold, except as a trustee or mortgagee, any area or areas of land within the State exceeding in the aggregate one thousand acres, either solely or jointly or in common with any other person or persons, or any legal or equitable estate or interest therein.

And it is further agreed and declared that if the lessee shall at any time during the said term make default in payment of the rent hereby reserved or any part thereof, or shall fail or neglect to comply with, perform, and fulfil all or any of the conditions or provisions of these presents or of the said Acts or Regulations, or any amendment thereof respectively, and which at any time during the continuance of this demise may be in force for the time being and on the part of the lessee to be observed or performed, it shall thereupon be lawful for Us, Our Heirs and Successors, into and upon the said land, or any part thereof, in the name of the whole, to re-enter, and the same to have again, re-possess, and enjoy, together with all improvements thereon, without making any compensation to the Lessee.

AND it is further agreed and declared that at the expiration of the said term of Twenty years, and upon payment of all rent hereby reserved, and upon the due performance of all conditions prescribed by these presents and by the said Acts and the Regulations thereunder and on the part of the Lessee to be observed and performed, and upon payment of the prescribed fees for a Crown Grant and registration thereof, and upon furnishing to the satisfaction of Our Minister for Lands for Our said State proof that all the said conditions have been duly complied with, the Lessee shall be entitled to a Crown Grant for rural land in fee simple of so much of the land hereby demised, in the form prescribed in the Land Act for Our said State in force for the time being, excepting, however, therefrom such parts or portions thereof as may at any time, after the commencement of this Lease have been reserved, set apart, resumed, or dedicated for the purposes of roads, railways, or any other of the purposes of a public nature contained or mentioned in Grants by the Crown in use at any time between the date of these Presents and the issue of the said Crown Grant. Provided always, that the acquisition by the Lessee of a Grant in fee simple of the said land may, at the option of the Lessee, be accelerated in the manner prescribed by the principal Act.

PROVIDED ALSO, and it is hereby declared, that the power reserved to Us by the said form of Crown Grant, whereby it is made lawful for Us, our Heirs and Successors, or for any person or persons acting in that behalf by Our or their authority, to resume and enter upon possession of any part of the said land hereby demised, which it may at any time by Us, Our Heirs and Successors, be deemed necessary to resume for making any roads, tramways, railways, railway stations, bridges, canals, towing paths, harbour or river improvement works, drainage or irrigation works, or quarries, and generally for any other works or purposes of public use, utility, or convenience, and for the purpose of exercising the power to search for minerals hereinafter reserved, and such lands so resumed to hold to Us, Our Heirs and Successors, as of Our or their former estate, without making to the said Lessee any compensation in respect thereof, so nevertheless that the land so to be resumed shall not exceed one-twentieth part in the whole of the lands aforesaid, and that no such resumption be made of the part of any lands upon which any buildings may have been erected, or which may be in use as gardens or otherwise for the more convenient occupation of any such buildings, without compensation: And the proviso also contained in the said form of Grant, that it shall be lawful at all times for Us, Our Heirs and Successors, or for any person or persons acting in that behalf by Our or their authority, to cut and take away any such indigenous timber, and to carry away, search, and dig for any stones or other material which may be required for making or keeping in repair any roads, tramways, railways, railway stations, bridges, canals, towing paths, harbour works, breakwaters, river improvements, drainage or irrigation works, and generally for any other works or purposes of public use, utility, or convenience, without making to the said Lessee any compensation in respect thereof, shall be deemed respectively to be in operation as from the date of the commencement of this Lease, and shall be binding on the Lessee as reservations out of this Demise: And we do hereby save and reserve to Us, Our Heirs and Successors, all mines of gold, silver, copper, tin, or other metals, ore and mineral, or other substances containing metals, and all gems or precious stones, and coal or mineral oil in and under the said land, with full liberty at all times to search and dig for and carry away the same, and for that purpose to enter upon the said land or any part thereof.

PLAN HEREIN REFERRED TO.

In witness whereof we have caused Our said Minister for Lands to affix his seal and set his hand, this day of 190
..... By order of the Minister for Lands.

THE LICENSED SURVEYORS ACT, 1895.

RULES FOR THE CONDUCT OF EXAMINATIONS AND ISSUE OF CERTIFICATES AND LICENSES UNDER "THE LICENSED SURVEYORS ACT, 1895" (59 VICT., No. 14).

THE Land Surveyors' Licensing Board, appointed under the above Act, has, with the approval of His Excellency the Governor, made the following Rules for the conduct of Examinations and issue of Certificates and Licenses under the said Act; and cancelled the Rules gazetted on 13th February, 1903:—

1. Examination of candidates for certificates or licenses as surveyors will be held in Perth in the month of September of each year, and at such other times as may be deemed advisable.

2. A candidate shall forward to the Secretary of the Board:—

(a.) Notice of his intention to present himself for examination, with documentary evidence of having complied with the preliminary conditions specified hereunder, all of which must reach the Secretary at least ten days before the date fixed for the examination, due notice of which will be given in the *Government Gazette*.

(b.) An examination fee of £3 3s., which must be paid on or before the date of examination.

PRELIMINARY CONDITIONS.

3. A candidate shall satisfy the Board that he will be of the full age of 20 years at the time of examination, but no license to practise as a surveyor will be issued until the candidate shall have attained the age of 21 years.

4. A candidate shall produce satisfactory evidence as to character.

5. (a.) A candidate shall have served under articles, or other similar agreement, with some qualified surveyor or surveyors, for a period of four years, three of which must have been in the field; and shall produce satisfactory evidence of having received such education as will qualify him for the proper exercise of his profession.

(b.) Or he shall have passed, at any University recognised by an Australasian University, the matriculation examination, including English, geography, arithmetic, geometry, algebra, and physics, or such other examination as shall, in the opinion of the Board, be equivalent thereto; and shall have been professionally employed with some qualified surveyor or surveyors for not less than three years, two of which must have been in the field.

(c.) Or shall have taken a degree in Civil Engineering at any University recognised by an Australasian University, and have been professionally employed in the field for a period of two years with a qualified surveyor or surveyors.

6. In addition to evidence of service, a candidate shall produce in the following form, or to like effect, a certificate from a qualified surveyor or surveyors, with whom he has served, that he is competent to undertake surveys.

Form of certificate for presentation to the Board of Examiners.

I, A.B., a qualified land surveyor, hereby certify that C.D. has been professionally and continuously employed with me as _____, in the practice of land surveying, for the period of _____, viz., from _____ to _____ (or has served under articles, or other similar agreement, for a period of four

years, three of which have been in the field), and that he is fully competent to undertake surveys.

[Here describe the survey work on which C.D. was engaged.]

(Signed) A.B.

(Date.)

NOTE.—For this purpose a "qualified surveyor" shall mean any person entitled to practise as a land surveyor in any part of the British Empire, or the United States of America, where the standard of examination is, in the opinion of the Board, equivalent to that prescribed by these Rules.

7. A candidate shall produce his original field notes and plan plotted by him therefrom, of the survey of an area of not less than 40 acres, one of the boundaries of which shall be a watercourse or other natural feature or an irregular road, and of an area having buildings thereon in illustration of a town survey.

The field notes, plan, and survey must be certified by the candidate to be entirely his own work.

8. Each candidate presenting himself for examination shall provide himself with a book of logarithms, 40-20 scale, a parallel ruler, protractor, and necessary appliances for plan-drawing, except paper.

9. If the foregoing preliminary conditions are complied with to the satisfaction of the Board, and a further fee of £2 2s. paid for the issue of a certificate of competency and license, the candidate will be admitted to examination. Such fee will be returned if the candidate is unsuccessful in passing the examination.

SUBJECTS OF EXAMINATION.

10. A candidate shall undergo an examination which shall embrace the following subjects:—

Mathematics.

(a.) Trigonometry, plane and spherical; geometry and algebra. These subjects will be treated as far as they are applicable to surveying.

Computation.

(b.) Reduction of traverses, computation connected with triangulation and the setting out of roads and curves; adjustment of discrepancies in surveys, computation of areas, including such as have irregular and curved boundaries.

Principles and practices of surveying.

(c.) Details of field practice, including the keeping of field notes, topographical, trigonometrical, subdivisional, and other surveys, setting out of areas, redetermination of boundaries, laying out of roads, setting out curves, plotting from field notes and from co-ordinates, stadia surveying, barometric and other measurement of heights, surveying under the Transfer of Land Act, writing descriptions of boundaries. (Candidates may be required to make actual surveys.)

Levelling, etc.

(d.) Levelling, grading; measurement of earthworks. (Including practical tests.)

Use of instruments.

(e.) Principles of construction, adjustment, and use of the following instruments:—Theodolite, plane-table, sextant, telemeter, level, compass, clinometer, barometer, thermometer, tachometer, and steel band.

Field astronomy, geodesy, etc.

(f.) Determination of time, latitude, and azimuth; reduction of star places; elementary geodesy, including spherical excess and convergence of meridians; declination of the magnetic needle. (With practical tests.)

Drawing.

(g.) General plan-drawing, compilation of plans, drawing of sections and contours, projection of maps and charts.

Miscellaneous.

(h.) Physics and geology (elementary); names and descriptions of Australasian timbers of economic value (*viva voce*).

11. Candidates producing satisfactory evidence of having matriculated, or of having passed the senior examination at a University, or the senior Civil Service examination of New Zealand, may be exempted from working out papers in elementary geometry, trigonometry, and algebra, and will be credited with 66 per centum of the maximum marks allotted those papers.

Candidates producing evidence of having taken a degree in Civil Engineering at any University recognised by an Australasian University may be further exempted from working out papers in physics and geology.

CERTIFICATE OF COMPETENCY.

12. Every candidate passing the foregoing examination to the satisfaction of the Board shall, upon payment of the prescribed fees, receive from the Board a certificate of competency.

13. Any surveyor licensed in Western Australia prior to September, 1895, or any surveyor licensed prior to September, 1895, in any other of the Australasian States or Colonies, who, by reason of his absence from that State or Colony, is prevented from obtaining the Certificate of Competency from the Board of that State or Colony, may make application to this Board, and, on his satisfying the Board that he is competent, either without examination or on such examination as the Board may require, shall be entitled to a Certificate of Competency. Such application shall be accompanied by the prescribed fee.

LICENSES TO SURVEY.

14. The Board may, upon payment of the prescribed fees, issue a license to any person to whom it has issued a certificate of competency, or who holds a certificate of competency issued by any reciprocating Board of Examiners for land surveyors in Australasia, subsequent to September, 1895, and who is still entitled to practise as a land surveyor in the country where he obtained his certificate.

15. Any surveyor who is licensed to survey in any other of the Australasian States or Colonies applying to the Board for a license to practise in Western Australia may, on production of a letter of recommendation, dated within the preceding twelve months, from the Board of the State in which he is licensed, together with satisfactory evidence as to identity and to character, be entitled to a license to survey in Western Australia. Such application shall be accompanied by the prescribed fee.

16. In the event of failure of any candidate to pass the full examination, the Board may, at its discretion, remit one-half the fees at any subsequent examination of such candidate.

17. The Board may grant a letter of recommendation to any surveyor licensed in Western Australia, and desiring to be registered in another Colony, either without examination or on such *viva voce* examination as, in the opinion of the Board, may be necessary.

1900

To the registered Shareholders in the holdings mentioned hereunder, and situate within the boundaries of North-East Coolgardie Goldfield, which are liable to be forfeited or determined.

TAKE NOTICE that it is my intention, on Saturday, the 6th day of June, 1903, to issue out of the Warden's Court at Kanowna an order authorising the resumption of possession for and on behalf of His Majesty, in accordance with Regulation 107 of the Regulations under the Goldfields Acts, of all that piece of land in the holdings mentioned hereunder, registered in the Registers in my office, and described as hereunder, being in extent each one rood, and of which you are registered as the holders as set out opposite your respective names.

The order may issue in your absence, but should you desire to object to such issue you must, within twenty-one days from the publication of this notice, lodge at my office an objection in the form of Schedule 11 under the Goldfields Regulations, containing the grounds of such objection, and on the date above-mentioned I shall proceed to hear and determine the same in accordance with the evidence then submitted to me.

Given under my hand this 7th day of May, A.D. 1903.
[L.S.]

P. TROY, Warden, Kanowna,
North-East Coolgardie Goldfield.

DEPARTMENT OF MINES.

WESTERN AUSTRALIA.

FREE ASSAYS AT THE SCHOOL OF MINES,
COOLGARDIE.

WITH the object of encouraging *bona fide* prospectors, free assays for gold, silver, copper, etc., and determinations of mineral samples and rocks will be made at the School of Mines, Coolgardie, under the following circumstances:—

- The sender must satisfy the Director that he is a *bona fide* prospector, or acting on behalf of such, and that the sample forwarded is one genuinely complying with the following conditions under which free assays will be made.
- The sample must have been obtained from land within the State not held under lease for mining purposes.
- The exact locality where the sample was found must be disclosed.
- The sample must be of sufficient promise to warrant an assay being made at the expense of the State.
- Free assays will not be made of samples showing free gold, or of tailings or other metallurgical products, or of umpire samples.
- Samples to be assayed for gold should weigh about 1 or 2lbs. Other samples should be as large as circumstances will permit, up to 2lbs.
- Each sample must be properly marked, and securely fastened in a separate bag, along with the name and address of the sender.
- The parcel must be forwarded, prepaid, to

F. B. ALLEN,
Director School of Mines,
Coolgardie,

and be accompanied by a letter containing instructions and stating the locality where the samples were obtained.

Duplicate samples should be kept by the sender.

The Department reserves to itself the right of refusing to make any particular assay, and also the right of publishing at any time the results of an assay made at the public expense.

WESTERN AUSTRALIAN GOVERNMENT

Under the heading of "Funeral Trains" add the following:—

Collie Cemetery.

Special trains will be run between Collie and the Cemetery, mileage 134 miles 66 chains, as desired, on payment of £5 5s., including conveyance of corpse in the brake-van.

Passengers will be charged the ordinary fares as to West Collie.

Application for the train to run must be made by the Secretary of the Collie Cemetery Board to the District Superintendent, Bunbury, at least six hours before it is required.

Corpses will not be received for conveyance unless a medical certificate be produced, setting forth that death was not caused by any infectious or contagious disease.

To operate from the 1st May, 1903.

8/5/1903.

MENZIES REFRESHMENT ROOMS.

TENDERS for the leasing of the above Rooms, on a monthly tenancy, will be received at the Office of the Commissioner of Railways, Perth, up to noon on Thursday, 21st May, 1903.

They are to be sealed up and addressed to "The Commissioner of Railways," and marked on the outside "Tender for Menzies Refreshment Rooms." A deposit of £5 must accompany each tender.

No license for the sale of liquor will in any circumstances be allowed until the lease has been satisfactorily carried on for at least three months, and no license at all will necessarily be allowed, nor will the lease give or imply any right to any license.

Full particulars and Conditions of Lease, Form of Tender, etc., may be obtained on application to the Commissioner of Railways, Perth, Central Railway Station.

The highest or any tender will not necessarily be accepted.
