3. Vessels engaged in the shipment of cattle from the East Kimberley Quarantine Area to the spot opposite to Reserve 6320, Owen's Anchorage, shall be thoroughly disinfected with steam immediately after the landing of the cattle.
4. All stock carried from any other port of Western Australia than the Port of Wyndham, in vessels which at any time after these Regulations shall come into force shall have been employed during the then next preceding three months in the East Kimberley cattle trade shall be liable to be treated under the Regulations applicable to cattle shipped from the East Kimberley Quarantine Area.
5. 6. Cattle may only be removed from Quarantine Area Owen's Anchorage, Reserve 6320, on written application being made for permission in the form of Schedule A, and a permit being duly issued in the form of Schedule B, and then only to the Central Goldfields Quarantine Area on the Eastern Goldfields, or to a slaughter yard situated within some other proclaimed Quarantine Area on the Eastern Goldfields registered and numbered as a place wherein the slaughtering of tick-infested cattle is permitted.
7. Cattle travelling on a permit in the form of Schedule B shall go direct by rail to a place within the Central Goldfields Quarantine Area, or in the case of cattle travelling to some other quarantine area, to the point nearest their destination, and, if necessary, thence by road, following the most direct route to the place of slaughter, there to be confined till slaughtered; provided always that such cattle may, in any case of urgency, be released from a slaughter yard on the authority of the Minister or an officer duly appointed to issue Release Permits for tick-infested cattle, such cattle to be released and depastured on such area as may be specified in the Release Permit, which, in every instance, shall be a Quarantine Area set apart and proclaimed as a Quarantine Area for depasturing tick-infested cattle. If, in a consignment of tick-infested cattle arriving at Reserve 6320, there should be a number of store cattle deemed unfit for slaughter because of poverty, such cattle may be dipped at the request and expense of the owner in the dip already constructed at Owen's Anchorage, and may, if the owner then desires, be trucked at his expense by rail direct to the Hine's Hill Grazing Depôt set apart on the Eastern Railway, where such dipped cattle shall be held at the expense of the owner, and at his risk under the absolute control of the Minister or his officer for a period of at least twenty-one days, or such longer time as the Minister or his officer duly authorised may determine. The request to dip and remove the cattle from Reserve 6320 to the Hine's Hill Grazing Depôt shall be made in the form of Schedule I, and the permit shall be in the form of Schedule J.

(b.) 15. Every person committing a breach of any of these Regulations shall be liable to a penalty not exceeding £500.

2. Any person desiring to inter any dead body in the Cemetery shall make an application in the form contained in Schedule B. Upon such application being approved by the Trustees, and upon payment of the prescribed fees, the Secretary shall issue to the person so applying an order for funeral in the form of Schedule C.

3. All applications for interment shall be made at the office of the Secretary at least five hours prior to the time fixed for burial. 4. All graves shall be dug by and at the expense of the relatives of the deceased person.

5. Before any interment shall be allowed the "order for burial" shall be handed to and retained by the Secretary.

6. Every coffin shall have the name of the deceased indelibly inscribed in legible characters on the lid. No coffin not complying with this By-law shall be admitted to be interred in the Cemetery.

7. Every grave shall be at least six feet deep, and no interment shall be allowed in any grave with a less depth than four feet six inches from the top of the coffin to the natural surface of the surrounding ground.

8. In the case of an application for interment in any private grave or vault to which the deceased had no claim during life, the written and verified consent of the grantee shall be handed in with the application.

9. No burial shall be allowed to take place in the Cemetery, nor shall any coffin be allowed to enter therein unless a certificate from a District Registrar of Deaths, or a Coroner's order for burial, is handed to the Secretary, at the latest, upon the funeral arriving at the Cemetery; such Registrar's certificate of death will be retained, but the Coroner's order shall be returned to the person delivering the same.

or vault, and in such case submitting plans and specifications of the proposed work. Such application shall also state the names of any deceased person or persons, if any, whose remains it is proposed to inter therein.

16. Upon being satisfied of the matters aforesaid and of the suitability of the said work, plans, and specifications, the Trustees may give permission for the work to proceed, and if no work is to be done may issue a grant in the Form E in the Schedule.

17. Upon the completion of the work mentioned in the preceding By-law to the satisfaction of the Trustees, they may issue a grant in the Form E in the Schedule.

19. Every coffin placed in any such brick grave or vault shall be bricked in, cemented, and covered with a slab of stone.

THE MINING DEVELOPMENT ACT, 1902.

REGULATIONS UNDER WHICH STONE WILL BE
CRUSHED AND TAILINGS TREATED AT THE STATE
BATTERIES AFTER 1ST JULY, 1903.

Department of Mines,

Perth, 13th August, 1903.

4138
1003

HIS Excellency the Governor in Executive Council, under the powers conferred upon him by Section 29 of "The Mining Development Act, 1902," has been pleased to make the following Regulations under which Stone will be crushed and Tailings treated at the State Batteries after 1st July, 1903.

H. GREGORY,
Minister for Mines.

1. All stone accepted for treatment at the State batteries shall be estimated at 21 cubic feet per ton, except where weighing machines are provided, when stone must pass over same to ascertain weight.

2. The manager of the battery may refuse any stone considered too poor to pay crushing charges, unless a deposit is paid in advance.

3. The charge for crushing, as determined from time to time by the Hon. the Minister for Mines, shall be posted up at each battery and strictly adhered to while in force.

4. A minimum charge will be made for all parcels of less tonnage than will return £5 on the rate charged per ton.

5. Payment for crushing shall be made to the manager on completion of treatment, or sufficient gold will be retained to pay for the amount due.

6. Where no cyanide plant has been erected at a battery, any person desirous of claiming tailings, the proceeds of his crushing, shall remove them from the battery site immediately the crushing is completed, otherwise they will be treated as abandoned tailings.

7. Where a cyanide plant has been erected at a battery, tailings resulting from stone crushed at that battery will be treated, but the manager may, in his discretion, refuse to treat any tailings should he consider them unsuitable for treatment by cyanide.

8. The number of tons of tailings suitable for cyanide treatment by the ordinary leaching vat plant installed at the battery shall be determined by the manager, whose decision shall be final; provided that in no case shall such tonnage exceed eighty per cent. of the number of tons milled. Where a slimes plant is working in conjunction with the ordinary vat system, the combined tonnage of sand and slimes shall not exceed 90 per cent. of the tons milled.

9. The manager shall take samples of the tailings as they pass through the battery, or from the pit into which the tailings may be deposited. The tailings collected shall be thoroughly mixed and divided into three samples, one for assay by the manager, one for the owner, and one sealed and kept by the manager for reference. The assay of the manager's sample will be available on application within fourteen days from the completion of any crushing, and should the owner dispute such assay, he shall within six weeks of the completion of the crushing notify the manager to that effect, in writing, and shall at the same time forward a certificate from a competent assayer. On receipt of such certificate the results of the two assays will be averaged, provided that the difference between them does not exceed six grains; but should the difference in the assay exceed six grains, and should the owner still refuse to accept the manager's assay, the manager shall forward the sealed sample previously referred to, to the Government assayer, Perth, and the result of the assay as furnished by him shall be considered as final. The cost of such assay (fifteen shillings) shall be borne by the party whose assay differs most widely from the referee assay.

10. A clean-up will be made about every two months, when the Department will make a *pro rata* distribution, based upon the original assay value of the tailings, the estimated extraction therefrom, and the actual extraction. After the deduction of ten shillings per ton for cost of treatment, the owners of tailings treated will receive the amount due to them within 14 days after the value of the bullion has been ascertained.

11. All tailings assaying less than 3dwts. 3grs. per ton shall become the property of the Government.

12. A charge of ten shillings per ton for treatment shall be the first charge on all tailings treated, and the gold contents of tailings will be paid for at the rate of Four pounds per ounce.

13. All tailings collected for treatment by the owner will be treated at the rate of 27 cubic feet per ton.

14. The Department reserves the right to suspend operations from any cause whatsoever, and will accept no responsibility for delays in treatment.

15. At every battery there will be kept a book in which shall be recorded the number of tons in each parcel lodged for treatment, the name, locality and number of the lease or holding from which it was obtained, and the name of the person for whom the stone is to be crushed.

A copy of the foregoing rules shall be inserted in the said book, and every person sending stone for treatment shall sign opposite the entry relating to the stone lodged by him, and such signature shall be sufficient evidence that he is cognisant of the foregoing rules, and agrees to be bound by them.

- (b.) The sample must have been obtained from land within the State not held under lease for mining purposes.
- (c.) The exact locality where the sample was found must be disclosed.

- (e.) Free assays will not be made of samples showing free gold, or of tailings or other metallurgical products, or of umpire samples.
- (f.) Samples to be assayed for gold should weigh about 1 or 2lbs. Other samples should be as large as circumstances will permit, up to 2lbs.
