REGULATIONS.

1. No cattle shall leave the East Kimberley Quarantine Area except at the Port of Wyndham.

3. Vessels engaged in the shipment of cattle from the East Kimberley Quarantine Area to the spot opposite to Reserve 6320, Owen's Anchorage, shall be thoroughly disinfected with steam immediately after the landing of the cattle.
4. All stock carried from any other port of Western Australia than the Port of Wyndham, in vessels which at any time after these Regulations shall come into force shall have been employed during the then next preceding three months in the East Kimberley cattle trade shall be liable to be treated under the Regulations applicable to cattle shipped from the East Kimberley Quarantine Area.
5. All imported stock carried in vessels which at any time after these Regulations shall come into force shall have been employed during the next preceding three months in the East Kimberley cattle trade shall be liable to be treated under the Regulations applicable to cattle shipped from the East Kimberley Quarantine Area, in lieu of the declaration and certificate required under Sections 12 and 13 under "The Stock Diseases Act, 1895."
6. Cattle may only be removed from Quarantine Area Owen's Anchorage, Reserve 6320, on written application being made for permission in the form of Schedule A, and a permit being duly issued in the form of Schedule B, and then only to the Central Goldfields Quarantine Area on the Eastern Goldfields, or to a slaughter yard situated within some other proclaimed Quarantine Area on the Eastern Goldfields registered and numbered as a place wherein the slaughtering of tick-infested cattle is permitted.
7. Cattle travelling on a permit in the form of Schedule B shall go direct by rail to a place within the Central Goldfields Quarantine Area, or in the case of cattle travelling to some other quarantine area, to the point nearest their destina-

tion, and, if necessary, thence by road, following the most direct route to the place of slaughter, there to be confined till slaughtered; provided always that such cattle may, in any case of urgency, be released from a slaughter yard on the authority of the Minister or an officer duly appointed to issue Release Permits for tick-infested cattle, such cattle to be released and depastured on such area as may be specified in the Release Permit, which, in every instance, shall be a Quarantine Area set apart and proclaimed as a Quarantine Area for depasturing tick-infested cattle. The hides or skins shall remain on the salting-floor until an Inspector of Stock has certified, in writing, that the above requirements have been complied with.

15. Every person committing a breach of any of these Regulations shall be liable to a penalty not exceeding £500.

The master of any vessel who has paid light dues at any one port in Western Australia, and who may desire to visit other ports in the State for the purpose of loading or unloading thereat, may obtain from the Chief Harbour Master a certificate to that effect, and such certificate shall free him from payment of light dues at any other port in Western Australia for a period of three (3) months from the date thereof; and in the event of such vessel leaving the State and returning within the period of two (2) months and not loading or discharging more than one-quarter ($\frac{1}{4}$) of her net registered tonnage, such certificate shall free the said vessel from payment of light dues as above.

Vessels calling for supplies.—All vessels calling for supplies or coal (but not broaching or shipping cargo or landing or embarking passengers) shall be charged a fixed sum of five pounds (£5).

Coasting Vessels.—Owners of coasting vessels may compound the payment of tonnage and light dues exigible in any port of this State, excepting the Port of Fremantle (on entering which port such vessel shall be free from payment of light dues only) by one annual payment of tenpence (10d.) per ton on their net registered tonnage. The owners of any vessel compounding as provided for in this Regulation may obtain from the Chief Harbour Master a certificate to the effect that the vessel therein named is free from payment of all light dues throughout the State and from tonnage dues throughout the State, excepting the Port of Fremantle, up to the 31st day of December next ensuing and no longer.

Applicants prior to the 30th June in any year will be required to pay full rates; those subsequent to that date will only be required to pay one half ($\frac{1}{2}$) the amount. Owners of coasting vessels not compounding their dues as aforesaid will be required to pay light dues as laid down for foreign-going vessels, i.e., twopence (2d.) per ton in and out of any one port each three months, and tonnage dues at the rate of one penny (1d.) per ton on all cargo landed or shipped at any port in the State other than the Port of Fremantle.

Interstate steamers extending their trips to Bunbury or Geraldton, and returning to the Port of Fremantle, shall pay one-third ($\frac{1}{3}$) penny per ton on their net registered tonnage extra per trip.

Interstate steamers.—Interstate steamers shall not pay the regular scale of light dues as laid down for foreign-going vessels, but in lieu thereof shall pay one penny per ton on their net registered tonnage per entry into the port when coming direct to Fremantle and leaving direct for other States.

Ocean-going mail steamers.—All mail steamers, recognised as such by the Government of Western Australia, whether such mail steamers be British or foreign, trading between the Australasian Colonies and Europe or America, shall pay a fixed sum of Ten pounds (£10) per entry into the port.

THE MINING DEVELOPMENT ACT, 1902.

REGULATIONS UNDER WHICH STONE WILL BE CRUSHED AND TAILINGS TREATED AT THE STATE BATTERIES AFTER 1ST JULY, 1903.

Department of Mines,
Perth, 13th August, 1903.

HIS Excellency the Governor in Executive Council, under the powers conferred upon him by Section 29 of "The Mining Development Act, 1902," has been pleased to make the following Regulations under which Stone will be crushed and Tailings treated at the State Batteries after 1st July, 1903.

H. GREGORY,
Minister for Mines.

1. All stone accepted for treatment at the State batteries shall be estimated at 21 cubic feet per ton, except where weighing machines are provided, when stone must pass over same to ascertain weight.

2. The manager of the battery may refuse any stone considered too poor to pay crushing charges, unless a deposit is paid in advance.

3. The charge for crushing, as determined from time to time by the Hon. the Minister for Mines, shall be posted up at each battery and strictly adhered to while in force.

4. A minimum charge will be made for all parcels of less tonnage than will return £5 on the rate charged per ton.

5. Payment for crushing shall be made to the manager on completion of treatment, or sufficient gold will be retained to pay for the amount due.

6. Where no cyanide plant has been erected at a battery, any person desirous of claiming tailings, the proceeds of his crushing, shall remove them from the battery site immediately the crushing is completed, otherwise they will be treated as abandoned tailings.

7. Where a cyanide plant has been erected at a battery, tailings resulting from stone crushed at that battery will be treated, but the manager may, in his discretion, refuse to treat any tailings should he consider them unsuitable for treatment by cyanide.

8. The number of tons of tailings suitable for cyanide treatment by the ordinary leaching vat plant installed at the battery shall be determined by the manager, whose decision shall be final; provided that in no case shall such tonnage exceed eighty per cent. of the number of tons milled. Where a slimes plant is working in conjunction with the ordinary vat system, the combined tonnage of sand and slimes shall not exceed 90 per cent. of the tons milled.

9. The manager shall take samples of the tailings as they pass through the battery, or from the pit into which the tailings may be deposited. The tailings collected shall be thoroughly mixed and divided into three samples, one for assay by the manager, one for the owner, and one sealed and kept by the manager for reference. The assay of the manager's sample will be available on application within fourteen days from the completion of any crushing, and should the owner dispute such assay, he shall within six weeks of the completion of the crushing notify the manager to that effect, in writing, and shall at the same time forward a certificate from a competent assayer. On receipt of such certificate the results of the two assays will be averaged, provided that the difference between them does not exceed six grains; but should the difference in the assay exceed six grains, and should the owner still refuse to accept the manager's assay, the manager shall forward the sealed sample previously referred to, to the Government assayer, Perth, and the result of the assay as furnished by him shall be considered as final. The cost of such assay (fifteen shillings) shall be borne by the party whose assay differs most widely from the referee assay.

10. A clean-up will be made about every two months, when the Department will make a *pro rata* distribution, based upon the original assay value of the tailings, the estimated extraction therefrom, and the actual extraction. After the deduction of ten shillings per ton for cost of treatment, the owners of tailings treated will receive the amount due to them within 14 days after the value of the bullion has been ascertained.

11. All tailings assaying less than 3dwts. 3grs. per ton shall become the property of the Government.

12. A charge of ten shillings per ton for treatment shall be the first charge on all tailings treated, and the gold contents of tailings will be paid for at the rate of Four pounds per ounce.

13. All tailings collected for treatment by the owner will be treated at the rate of 27 cubic feet per ton.

14. The Department reserves the right to suspend operations from any cause whatsoever, and will accept no responsibility for delays in treatment.

15. At every battery there will be kept a book in which shall be recorded the number of tons in each parcel lodged for treatment, the name, locality and number of the lease or holding from which it was obtained, and the name of the person for whom the stone is to be crushed.

A copy of the foregoing rules shall be inserted in the said book, and every person sending stone for treatment shall sign opposite the entry relating to the stone lodged by him, and such signature shall be sufficient evidence that he is cognisant of the foregoing rules, and agrees to be bound by them.

- (a.) The sender must satisfy the Director that he is a *bonâ fide* prospector, or acting on behalf of such, and that the sample forwarded is one genuinely complying with the following conditions under which free assays will be made.

- (c.) The exact locality where the sample was found must be disclosed.
- (d.) The sample must be of sufficient promise to warrant an assay being made at the expense of the State.
- (e.) Free assays will not be made of samples showing free gold, or of tailings or other metallurgical products, or of unripe samples.
- (f.) Samples to be assayed for gold should weigh about 1 or 2lbs. Other samples should be as large as circumstances will permit, up to 2lbs.
- (g.) Each sample must be properly marked, and securely fastened in a separate bag, along with the name and address of the sender.
