\* Averages for three years only.

The weather in the South-West has been on the whole very pleasant, though a few warm days were experienced. The rainfall in this district was about an average, but very little fell in the neighbourhood of Perth until the evening of the 29th, when a thunderstorm, accompanied by heavy rain, passed over Rottneest, Perth, and Guildford, extending, however, only a few miles North or South.

The atmospheric pressure over the whole State was considerably below normal, and the temperature inland over the goldfields and all North of Geraldton was rather below the average for previous years. During the month the maximum did not reach 100 deg. at any station South of Laverton. The tropical rains have commenced in the East Kimberley District, but over the rest of the tropics and Gascoyne none fell, and on the Goldfields the fall was below the average.
