GOD SAVE THE KING!!!

REGULATIONS FOR THE NAVIGATION OF THE SWAN RIVER BETWEEN THE FREMANTLE RAILWAY BRIDGE AND PERTH CAUSEWAY.

1. The following Regulations shall be enforced and observed on the Swan River within the prescribed limits, namely, between the Railway Bridge, at Fremantle, and the Causeway Bridge, at Perth Water.

2. The Harbour Master or his deputy, or other officer acting for such Harbour Master, shall have entire control over the Swan River, within the said limits and over the navigation thereof, and shall have power to remove any boat or vessel from any berth or anchorage, and to alter the berth or anchorage of any boat or vessel whenever he may deem it necessary.

3. In every case where, by these Regulations, any act is forbidden or required to be done in relation to any boat or vessel, the duty of performing such act, or of seeing that such act is not done or committed, shall rest upon the master and the owner of such boat or vessel, unless where otherwise expressly directed to the contrary.

4. No boat or vessel shall be anchored in or near the middle of any fairway or channel; and any boat or vessel detained in the fairway or channel shall lie close on one side of such fairway or channel, nor shall any cable chain, hawser or rope be placed across any such fairway or channel without permission from the Harbour Master.

5. The master and the owner of any boat or vessel compelled by unavoidable circumstances to let go any anchor in any fairway or channel shall as soon as possible lift the same and place it in such a situation as not to interrupt or interfere with the free passage of other boats or vessels.

6. In the following Regulations "Steam vessel" means any vessel propelled otherwise than by sails or oars.

Lights when under way. Masthead lights for steamers.

7. Every vessel when navigating the said waters shall carry lights from sunset to sunrise as follows, that is to say:—On the starboard side, a green light so constructed as to throw an uniform and unbroken light over an arc of the horizon of ten points of the compass, so fixed as to throw the light from ahead to two points abaft the beam on the starboard side, and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least one mile; on the port side, a red light so constructed as to throw an uniform and unbroken light over an arc of the horizon of ten points of the compass, so fixed as to throw the light from right ahead to two points abaft the beam on the port side, and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles. The said green and red side lights shall be fitted with inboard screens projecting forward from the light, so as to prevent these lights from being seen across the bow, and every steam vessel shall, in addition to the lights above required, carry, from sunset to sunrise, when under way and when navigating the said waters, and at a height above the hull of such steam-vessel of not less than 10 feet, a bright white light so constructed as to show an uniform and unbroken light over an arc of the horizon of 20 points of the compass, so fixed as to throw the light 10 points on each side of the vessel, viz.—from right ahead to two points abaft the beam on either side, and of such a character to be visible on a night with a clear atmosphere at a distance of at least two miles. Launches may carry the white light at any convenient height above the hull, and shall not be obliged to carry the side lights above mentioned, but in lieu thereof shall carry a combined lantern showing a green light and a red light from right ahead to two points abaft the beam on their respective sides. Such lantern shall be carried not less than three feet below the white light.

8. A steam-vessel when towing another vessel shall, in addition to her side lights, carry two bright white lights in a vertical line one over the other, not less than three feet apart, so as to distinguish her from other steam vessels. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light which other steam vessels are required to carry.

Sailing Vessels to carry lights if towed.

9. A sailing vessel under way, or being towed, shall carry the same lights as are provided by Article 7 for a steam vessel under way, with the exception of the white light, which she shall never carry.

Anchor light.

10. A vessel, whether a steam vessel, sailing vessel, or lighter, when at anchor, shall carry, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light in a globular lantern of not less than eight inches in diameter, and so constructed as to show a clear uniform and unbroken light visible all round the horizon at a distance of at least one mile.

Boat lights.

11. Open boats, sailing yachts, and lighters of less than 28 tons net registered tonnage, when under way, shall not be obliged to carry the coloured side lights; but every such boat and vessel shall in lieu thereof have ready at hand a lantern with a green glass on one side, and a red glass on the other side, and on approaching to or being approached by another vessel, such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side nor the red light on the starboard side.

Anchor lights for boats.

12. Every yacht, fishing vessel, launch, and every open boat, when at anchor between sunset and sunrise in an unauthorised anchorage, shall exhibit a white light visible all round the horizon at a distance of at least one mile.

Stern light.

13. A vessel which is being overtaken by another shall show from her stern to such last-mentioned vessel a white light or a flare-up light.

Steering and sailing rules.

14. When two sailing vessels are approaching one another so as to involve risk of collision, one of them shall keep out of the way of the other, as follows:—

- (a.) A vessel which is running free shall keep out of the way of a vessel which is close-hauled.
- (b.) A vessel which is close-hauled on the port tack shall keep out of the way of a vessel which is close-hauled on the starboard tack.
- (c.) When both are running free with the wind on different sides, the vessel which has the wind on the port side shall keep out of the way of the other.
- (d.) When both are running free with the wind on the same side, the vessel which is to windward shall keep out of the way of the vessel which is to leeward.
- (e.) A vessel which has the wind aft shall keep out of the way of the other vessel.

15. If two vessels under steam are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This section only applies to cases where steam vessels are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two vessels, which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are when each of the two vessels is end on, or nearly end on, to the other; in other words, to cases in which by day each vessel sees the masts of the other in line, or nearly in a line with her own, and by night to cases in which each vessel is in such a position as to see both the side-lights of the other.

It does not apply, by day, to cases in which a vessel sees another ahead crossing her own course; or, by night, to cases where the red light of one vessel is opposed to the red light of the other, or where the green light of one vessel is opposed to the green light of the other, or where a red light without a green light or a green light without a red light is seen ahead, or where both green and red lights are seen anywhere but ahead.

16. If two vessels under steam are crossing, so as to involve risk of collision, the vessel which has the other on her own starboard side shall keep out of the way of the other.

17. If two vessels, one of which is a sailing vessel and the other a steam vessel, are proceeding in such directions as to involve risk of collision, the steam vessel shall keep out of the way of the sailing vessel.

18. Every steam vessel when approaching another vessel so as to involve risk of collision shall slacken her speed and stop and reverse her engines if necessary.

19. In taking any course authorised or required by these Regulations, a steam vessel under way may indicate that course to any other vessel which she has in sight by the following signals on her steam whistle or horn, viz. :—

One short blast to mean "I am directing my course to starboard."

Two short blasts to mean "I am directing my course to port."

Three short blasts to mean "I am going full speed astern."

The use of these signals is optional, but if they are used the course of the vessel must be in accordance with the signal made.

20. Notwithstanding anything contained in any preceding Regulation, every vessel, whether a sailing vessel or a steam vessel, overtaking any other shall keep out of the way of the overtaken vessel.

21. In narrow channels every steam vessel shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such vessel.

22. Where by the above Rules one of two vessels is to keep out of the way, the other shall keep her course.

23. In obeying and construing these Rules due regard shall be had to all dangers of navigation and to any special circumstances which may render a departure from the above Rules necessary in order to avoid immediate danger.

24. No vessel or any obstruction shall be fastened to or near any public steps or landing place for passengers in such a manner as to impede free access to such public steps or landing places.

25. For the purpose of seeing that all or any of these Regulations are properly carried out, the Water Police, in uniform, shall have access to any vessel at any hour of the day or night, and shall be allowed and authorised to ask any reasonable question of the master of the vessel, or of any officer thereof, and any information required shall in all cases be furnished.

26. No vessel shall be beached or grounded without permission being first had and obtained from the Harbour Master, and any such vessel which shall take the ground or be stranded as aforesaid from accident or stress of weather, or any other cause, shall be removed by the owner when called upon to do so by the Harbour Master.

27. The Harbour Master may, whenever it appears necessary to such Harbour Master, appoint the place of moorage or anchorage of all coasting vessels, cargo and other boats, and from time to time, when necessary, may direct the removal of any such coasting vessel, cargo or other boat, therefrom to some other place of moorage or anchorage. (34 Vict., No. 22.)

28. Any person who shall moor or anchor, or shall wilfully or by culpable negligence ground, sink, or set adrift in any of the fair channels or passages of any navigable river or water within the territory of Western Australia any substance or article liable to obstruct the passage of boats or crafts by coming in contact with them, shall, on conviction thereof, forfeit any sum not exceeding Twenty pounds. (17 Vict., No. 4.)

29. If the owner, or some person on behalf of the owner of any vessel sunk, stranded, or run on shore in any harbour, port, roadstead, channel, or navigable river within the said territory, shall not weigh, raise, or otherwise remove such vessel within ten days next after the same shall have been so sunk, stranded, or run on shore, the Harbour Master of such harbour, port, or roadstead in which such vessel shall lie may take and use all necessary ways and means for clearing such harbour, port, roadstead, channel, or river of such vessel. (17 Vict., No. 4.)

30. The Harbour Master may remove any wreck or any other substance which impedes, or tends to impede, the navigation of the Swan River, or access thereto, or which shall be a nuisance or inconvenience in or to any harbour; and the expense of such removal shall be repaid by the owner of such wreck or other substance to such Harbour Master, or, in default of payment thereof on demand, the said Harbour Master may recover the same as a penalty. (37 Vict., No. 14, Section 5.)

31. Every person other than the Harbour Master who shall wilfully let go, cut, break, or destroy the moorings or fastenings of any vessel lying in a harbour or dock at or near a wharf shall for every such offence be liable to a penalty not exceeding Five pounds, in addition to any liability he may incur by proceedings at the suit of or for the benefit of any person damaged thereby. (37 Vict., No. 14.)

32. Any person who shall wilfully injure or remove any buoy, beacon, or sea-mark used for the convenience of navigation or security of shipping shall be liable to a penalty of Fifty pounds. (18 Vict., No. 15, Section 15.)

33. Any person who shall, without permission from the Harbour Master, make fast any vessel or any other article to any such buoy, beacon, or sea-mark as aforesaid shall be liable to a penalty of Ten pounds. (18 Vict., No. 15, Section 16.)

34. No person shall improperly interfere with any life-saving gear, life-buoy, or other apparatus placed within the port for the purpose of saving life from drowning.

35. If any person throw, or cause to be thrown out of any vessel into the navigable part of any river, creek, or water, below high-water mark, any sand ballast, stone, or rubbish, or who shall remove or take away from any bank of the same above high-water mark, not being private property, any sand ballast or stone, without having first obtained the consent of the Harbour Master of the port, shall on conviction for every such offence forfeit any sum not less than Ten shillings nor more than Five pounds. (17 Vict., No. 4.)

36. On the occasion of any boat race or regatta, or on any occasion when crowds assemble, no vessel shall pass on the river so as to obstruct, impede, or interfere with the boat race or regatta, or to endanger the safety of persons assembling on the river, or to prevent the maintenance of order thereon.

37. No steam vessel shall be permitted to pass through any bridge with more than one laden lighter or barge in tow at a time.

38. If any master of any vessel shall fail to observe the Port Rules and Regulations, he shall, for every such offence, forfeit any sum not exceeding Twenty pounds (£20); Provided that no master of any vessel shall be liable to a fine for any breach of such Rules and Regulations unless a copy thereof shall have been previously delivered to him or left on board his vessel. (18 Vict., No. 15.)

39. Wherever applicable in these Regulations, a vessel holding a license issued by the Fremantle Harbour Trust Commissioners, acting as the Fremantle Boat Licensing Board, under "The Boat Licensing Act, 1878," and the Regulations of the Commissioners thereunder, shall be amenable to these Regulations, as well as those under which the license is issued.

40. The Port Regulations as proclaimed on the 2nd November, 1904, shall apply to the Swan River within the said territory in so far as they are applicable.

SIR,
Colonial Secretary's Office,
Singapore, 6th December, 1904.

In view of the large and increasing number of men arriving in this Colony from Australia in search of work, it is feared that the conditions of labour prevailing in the Straits Settlements are not fully understood in places where white labour is generally available, and I am directed by His Excellency the Governor of the Straits Settlements to inquire whether your Government would be so good as to publish, for general information, a notice explaining that this Colony is not a suitable place in which to seek employment, the work for clerks, artisans, and other labourers being monopolised by Eurasians and Asiatics, except in the case of men who have been brought out from England on special arrangements.

I have, etc.,

Acting Colonial Secretary,

GOLDFIELDS WATER SUPPLY ACT, 1902.

WATER BY-LAWS OF SOUTHERN CROSS MUNICIPAL COUNCIL.

HIS Excellency the Governor in Executive Council has been pleased to approve of the following By-laws made under the provisions of the above Act by the Southern Cross Municipal Council, acting in pursuance of the powers conferred by Section 39 of the said Act.

By order of the Minister for Works,
T. S. McNULTY,
Secretary Goldfields Water Supply.

3rd January, 1905.

THE GOLDFIELDS WATER SUPPLY ACT, 1902.
DISTRICT OF THE MUNICIPALITY OF SOUTHERN CROSS.

BY-LAWS made by the Local Authority, being the Council of the Municipality of Southern Cross (hereinafter called the "Local Authority"), relative to the supply of water, and for other purposes authorised under and in pursuance of Section 105 of "The Goldfields Water Supply Act, 1902," 2 Ed. VII., No. 33.

1. The interpretation of terms specified in Section 2 of "The Goldfields Water Supply Act, 1902" shall apply to the same terms or any of them wherever used in these By-laws, and to that extent be deemed to be incorporated in these By-laws.

2. The charge or price for the supply of water within the boundaries of the Municipality of Southern Cross shall be at the option of the Local Authority, by both or either of the following methods, namely :—

- (a.) By rate declared, made, or levied under the above Act.
- (b.) By supplying by measure.

3. In the case of a rate being declared, made, or levied as afore-said, the same shall not exceed in any year the amount fixed by said Act on the annual rateable value of the land rated. In the case of supplying water by measure, the charge for same shall be twenty-one shillings for any quantity up to three thousand five hundred gallons, whether consumed or not, and at the rate of six shillings for every thousand gallons thereafter, provided that in the case of any ratepayer taking water in excess, or allowing water to be taken in excess of the quantity represented by the amount of the rate paid or payable on a property rated under the said Act, such ratepayer will be charged, and will pay on demand to the Local Authority, a sum at the rate of six shillings for every thousand gallons of such excess water.

4. The minimum sum payable as rates shall be One pound per annum.

5. All rates declared, made, or levied by the Local Authority under the said Act shall be for the period ending on the 31st day of October after the declaring of such rate and each financial year shall end on such date. Rates shall become due and payable in equal moieties in advance on the first day of January, and the first day of July in each year. Provided that in all cases where a water rate is made after the first day of January or the first day of July in any year, the notice of the order for

the making and levying of such rate published in the *Government Gazette* and a newspaper, as provided by Section 70 of the said Act, shall specify the minimum sum payable as rate as aforesaid, and the date or dates when the rates shall be due and payable, and such rate shall be and become due and payable in accordance with the terms of such notice.

6. Every ratepayer shall be entitled to a supply of water at the rate of six shillings per thousand gallons in return for the amount of water rate paid by him. Provided that such supply of water shall be taken by such ratepayer during the period for which the water rate paid by him is struck; and further, that such ratepayer shall not be entitled to take in any one-half year a greater quantity of water than one-half of the yearly supply to which he is entitled by virtue of the annual water rate paid by him.

7. In the case of water supplied by measure, the person applying for such supply shall state the estimated quantity of water which will be consumed monthly on the premises to be served for the period up to the end of the financial year of the Local Authority during which he desires a supply, and will pay the rate or charge hereinbefore fixed for water supplied by measure in such proportions and manner and on such dates as the Local Authority may from time to time decide. The applicant shall not, unless with the consent of the Local Authority, consume, nor allow to be consumed, during each month the supply of water continues more than the monthly quantity of water estimated to be consumed as aforesaid. And if such quantity be exceeded at any time or times, the applicant will be charged, and will pay on demand to the Local Authority, a sum at the rate of six shillings for every thousand gallons of water supplied in excess of the said estimated quantity.

8. The applicant for all water supplied by measure shall be liable for all water registered or recorded by the meter as consumed on the premises served, whether consumed by such applicant or not, until the end of the year for which such estimate as aforesaid shall be made, and thereafter until one month's notice, in writing, be received by the Local Authority from such applicant of his desire to discontinue the supply, and until the expiration of such notice.

9. The Local Authority may, by notice to a consumer by its Secretary or other authorised officer, from time to time limit the quantity of water to be supplied to such consumer in any one week, or for any further period.

10. During the time any meter is being repaired, or should any such meter cease to properly register the consumption of water, the Local Authority may, at its option, in place of taking the quantity recorded or registered, estimate the quantity of water consumed by taking an average of the quantity used during the previous month or quarter, or during the corresponding period of the previous year, and shall charge for the consumption so ascertained, and the owner, occupier, or other person liable shall pay for the quantity so ascertained, at the rates and in the manner herein provided.

11. Applications for services shall be made on the printed forms procurable at the office of the Local Authority, and shall be lodged at the said office not less than three days before the service is required.

12. Applications will not be entertained unless full information, as indicated on the form of application, is supplied, and the full amount of rates due in respect of the premises to which a service is required, is paid.

13. The Local Authority may fix meters to any service wherever they or their officers think proper, but it shall be at the discretion of the Local Authority as to whether or not a meter shall be affixed to any service, and the size and class of meter in each case shall be determined by the Local Authority.

14. Meters will be supplied by the Local Authority, and rent for the same shall be payable by the owner, occupier, or other person liable, in advance, in equal moieties on the said first days of January and July, and on the following scale:—

Size of Meter.	Annual Rent.
	s. d.
$\frac{1}{4}$ inch	10 0
$\frac{3}{8}$ inch	12 6
$\frac{1}{2}$ inch	15 0
$\frac{3}{4}$ inch	20 0
1 inch	25 0

Larger sizes by arrangement.

15. If the consumer shall at any time be dissatisfied with any particular reading of a meter, and shall be desirous of having same tested, he shall give written notice thereof to the Local Authority within seven days of such reading, and thereupon the said meter shall be tested by passing through it a predetermined quantity of water and if, upon such testing, it shall appear to the satisfaction of the Local Authority or its officer that the said meter registered above five per cent. more than was actually passed through it at such testing, then the said Local Authority will bear the expense of and incidental to such testing, and will also adjust the charge to the said consumer; but if the said meter, upon such testing, shall not register above five per cent. more than the quantity that shall actually have passed through it, then the said consumer shall pay to the Local Authority all the expenses of and incidental to such testing, provided that the amount representing the expense of each and every test shall be fixed by the Local Authority, and shall in no case exceed the sum of forty shillings. Provided also, that the said consumer shall not be at liberty to avail himself of the right to test the registration of the said meter for any period other than one month next preceding the date of reading in respect of which he shall have given notice as aforesaid, and shall deposit with the Local Authority the sum of £2, to be repaid to the consumer in the event of the Local Authority being liable for the expenses under this By-law, otherwise to be retained by the Local Authority towards payment of expenses.

16. In the case of rated land, the occupier, or in the event of there being at any time no occupier, then the owner of any premises to which the water has been laid on, and in the case of water supplied by measure, the applicant for such supply, and, failing him, the occupier for the time being, and, failing him, the owner of the premises supplied, shall at all times keep the meters, pipes, and fittings used for, or in connection with water, in proper repair. Such meters, pipes, and fittings shall be of such pattern, design, and capacity or dimension as the Local Authority may from time to time determine. No person shall interfere with or remove or alter, or allow to be interfered with or altered, any meter, pipe, or fittings used in connection with the supply of water, without the previous consent, in writing, of the Local Authority.

17. The Local Authority, by such officers or persons as they may think necessary to employ for the purpose, may enter upon any premises to which water is supplied for the purpose of effecting repairs to such meters, pipes, and fittings, as mentioned in the last preceding By-law, and the costs and expenses of and incidental to such repairs shall be recoverable from such occupier, owner, or applicant in the same way as the water rates or charges authorised by these By-laws, or any of them, may be recovered.

18. Any officer of the Local Authority may, at all reasonable times, enter upon any land to which water is supplied under this Act, and may examine and ascertain what quantity of water has been consumed there, or whether there has been or is any waste, misuse, fouling, or contamination of the water, or whether all fittings, with the materials and mode of arrangement thereof, used or intended to be used, are in accordance with the By-laws, and in proper order and repair. When a fitting is not in accordance with the By-laws, or is out of proper order and repair, the officer of the Local Authority may repair or remove it, and, if necessary, substitute others in its stead, or may alter the mode of arrangement, as the case requires, and any expense incurred by the Local Authority in that behalf shall, on demand, be repaid by the applicant or owner or occupier of the land, and if not repaid on demand, may be recovered by the Local Authority in the same manner in which water rates or charges may be recovered.

19. No person shall employ, or permit to be employed, for the purpose of effecting or performing any work in connection with meters, pipes, and fittings, any person other than persons duly licensed by the Local Authority. A list of plumbers and persons so licensed may be seen at the office of the Local Authority.

20. In every case in which the supply of water shall have been cut off by reason of non-payment of rates or other charges, or otherwise, a re-connection fee of five shillings shall be charged, and such fee shall be payable by the occupier or applicant, and, failing him, the owner of the premises, on demand, before such re-connection be made.

21. No person to whom water is supplied by the Local Authority shall, without written permission, sell or supply water to any person other than persons who may actually reside on the premises, of which such person is the occupier, and shall not cause or permit any waste, misuse, undue consumption, fouling or contamination of the water or water supply.

22. The occupier of any premises to which the water has been laid on, or, in the event of there being no occupier, the owner of such premises, shall cause proper means to be taken by locks or otherwise, subject to the approval of the Local Authority, to prevent the use of the water from the main by persons not connected with the premises supplied.

23. The owner or occupier of any land within the said District who shall erect, or cause to be erected or made, any building, or addition to any existing building on such land shall, within one calendar month thereafter, give notice, in writing, to the Local Authority.

24. The Local Authority may from time to time, when necessary, for the purpose of tapping or repairing the main or otherwise, cut off the supply of water from any part or parts of the District.

25. THE GOLDFIELDS WATER SUPPLY ACT, 1902.

DISTRICT OF THE MUNICIPALITY OF SOUTHERN CROSS.

By-laws for the Licensing of Plumbers made by the Local Authority, being the Council of the Municipality of Southern Cross (hereinafter called the "Local Authority"), under and in pursuance of Section 105 of "The Goldfields Water Supply Act, 1902," 2 Ed. VII., No. 33.

1. In these By-laws the terms used are to be interpreted by the meanings given by Section 2 of the said Act.
2. No person shall affix, alter, or repair, any service pipe or fitting to be used in connection with any main or other pipe belonging to, or under the control of the Local Authority within the District of the Municipality of Southern Cross, or interfere in any way therewith, unless licensed as a plumber under these By-laws, or under By-law made under the said Act; but this By-law shall not prevent the employment by a licensed plumber of competent assistants working under his immediate and personal direction.
3. An application for a license shall be in writing, signed by the applicant and addressed to the Local Authority.
4. The applicant shall satisfy the Local Authority that he is a competent plumber, and may be required to submit to an examination in the theory and practice of plumbing work.
5. Every license to be granted by the Local Authority, and the granting and cancellation of any license, shall be in the absolute discretion of the Local Authority.
6. Every license shall be an annual license, expiring on the thirty-first day of October next following the granting thereof, and may be in the Form "A" in the Schedule hereto.
7. A fee of ten shillings shall be payable for every license, except when a license is granted on or after the first day of May in any year, in which case the fee shall be five shillings.
8. Every applicant shall, before receiving a license, deposit with the Local Authority the sum of Five pounds, to be held by the Local Authority during the currency of the license as security for the proper performance of all work undertaken by the Licensee.
9. The Local Authority may deduct from such deposit the expense of making good any bad work of the licensed plumber or his workmen, and as often as any expense is so deducted, the licensed plumber shall make good the deposit to the sum of Five pounds, and in default his license shall be cancelled.
10. Every licensed plumber shall within forty-eight hours of any change in his address, as stated in his license, give notice in writing thereof to the Local Authority.
11. The mains shall be tapped only by the workmen of the Local Authority.
12. No licensed plumber shall interfere with any pipe or fitting belonging to, or under the control of, the Local Authority within the District, without the permission, in writing, of an officer appointed by the Local Authority under these By-laws first obtained.
13. No ground shall be opened, nor shall any work be undertaken by a licensed plumber for the purpose of laying and fixing a new service or fittings, or in the extension or alteration of an existing service or fittings, until notice shall have been given by such licensed plumber to the Local Authority or an officer appointed by the Local Authority under these By-laws. Such notice shall be in writing in the Form B in the Schedule hereto, and shall describe the nature and extent of the proposed work, and shall be given forty-eight hours at least before the work is intended to be commenced, unless the said officer expressly accepts shorter notice.

14. On the completion or extension of any service the applicant shall report the work to the Local Authority or said officer as ready for inspection.
15. In no case shall the ground be filled in, or water be turned on to any land until the work executed by the licensed plumber has been examined and passed by the Local Authority or said officer, and a certificate in writing has been given by the Local Authority or such officer to that effect.
16. If any person shall commit a breach of any of the foregoing By-laws, the Local Authority may, at its option, cancel the license issued to such person, and, in addition, such person shall, upon conviction, be liable to a penalty not exceeding Twenty pounds, and shall also be liable to pay all expenses incurred by the Local Authority in consequence of such breach.
