57. The minimum sum payable as rate in every Water District shall be One pound per annum.

58. Rates shall become due and payable half-yearly in advance, on the first day of January and the first day of July. Provided that, in all cases where a water rate is made after the first day of January or the first day of July in any year the notice of the order for the making and levying of such rate, published in the *Government Gazette* and a newspaper, as provided by Section 70 of the said

Act, shall specify the minimum sum payable as rate as aforesaid, and the date or dates when the rate shall be due and payable, and such rate shall be and become due and payable in accordance with the terms of such notice.

59. Within Coolgardie, Kalgoorlie, and Boulder Water Districts every rate-paying consumer will be entitled to a supply of water at the rate of 8s. per thousand gallons in return for the amount of rates paid by him. Provided that such water shall be taken during the period for which the rate is struck, and that the maximum quantity to be taken in consideration of the rate during any one half of a year shall not exceed one-half of the quantity to which the consumer is entitled in respect of an annual rate. Any consumer taking water in excess of the quantity to which he is entitled in respect of a rate will be charged 7s. per thousand gallons for the excess. Provided that in domestic services where the assessment is not less than £32 per annum, and the Minister is satisfied that the excess is being utilised for a household garden, for the quantity supplied beyond the rate a special "household garden" rate of 5s. 3d. per 1,000 will be charged. Further, that in domestic services where the assessment is less than £32 per annum a minimum quantity of 3,000 gallons per half-year must be paid for at the normal rate of 8s. before the special "household garden" rate of 5s. 3d. per 1,000 will be quoted. The special household garden conditions will not be allowed in any half-year unless a written application for same be received at the local office of the water supply within one month from commencement of the half-year.

60. Within the Kanowna Water District every rate-paying consumer shall be entitled to a supply of water at the rate of 10s. per thousand gallons in return for the amount of rates paid by him. Provided that such water shall be taken during the period for which the rate is struck, and that the maximum quantity to be taken in consideration of the rate during any one half of a year shall not exceed one-half of the quantity to which the consumer is entitled in respect of an annual rate. Any consumer in Kanowna Water District taking water in excess of the quantity to which he is entitled in respect of a rate will be charged 9s. per thousand gallons for the excess. Provided that, in domestic services where the assessment is not less than £40 per annum, and the Minister is satisfied that the excess is being utilised for a household garden, for the quantity supplied in excess of that covered by the rate a special "household garden" rate of 6s. 6d. per thousand gallons will be charged. Further, that in domestic services where the assessment is less than £40 per annum a minimum quantity of 3,000 gallons per half-year must be paid for at the normal rate of 10s. per 1,000 gallons before the special household garden rate of 6s. 6d. per 1,000 gallons will be quoted. The special household garden conditions will not be allowed in any half-year unless a written application for same be received at the local office of the water supply within one month from commencement of the half-year.

61. Within that portion of the Western District extending for one mile on either side of the pipe track between the Helena Weir and a point on the pipe track one mile Westerly from Chidlow's Well Railway Station, the water rate shall be at the rate of 1s. in the pound per annum upon the annual value of all rateable property, and every rate-paying consumer therein will be entitled to a supply of water at the rate of 3s. 6d. per thousand gallons in return for the amount of rates paid by him. Provided that such water shall be taken during the period for which the rate is struck, and that the maximum quantity to be taken in consideration of the rate during any one half of a year shall not exceed one-half of the quantity to which the consumer is entitled in respect of an annual rate. Any consumer taking water in excess of the quantity to which he is entitled in respect of a rate will be charged 3s. per thousand gallons for the excess.

Every half-year shall end on the 30th June or 31st December in every year.

62. In each of the water districts supplies will be granted by the Minister for market-gardening purposes on special low terms to be agreed upon in each case. Applications for such services must be made on the prescribed forms.

63. Where water is supplied by measure to the owner or occupier of land not rated under the Act, payment for the same shall be made at such times and in such manner as may be agreed upon between the Minister and the consumer.

64. Any person or persons requiring a water service to town or suburban premises in respect of which, for the time being, a water rate may not be made, may be supplied on payment of a minimum charge, which shall be fixed by the Minister in each case. The minimum charge shall then take the place of a water rate, and the general provisions of these By-laws, as applying to rate-paying consumers, shall apply to minimum-charge paying consumers.

65. Application for services shall be made on the printed form procurable at the Local Water Supply Office, and shall be lodged not less than three days before the service is required.

66. Applications will not be entertained unless full information, as indicated on the printed form, is supplied, and the full amount of rates due on the premises to which a service is required is paid.

67. The Minister may, by notice to a consumer, from time to time restrict the quantity of water that may be supplied to him in any one week.

68. The Minister may, from time to time, when necessary for the purpose of tapping or repairing the main, or otherwise, cut off the supply of water from any part or parts of the water area.

69. It shall be at the discretion of the Local Officer as to whether or not a meter shall be affixed to any service, and such officer will also determine the size and class of meter in each case.

70. Meters will be supplied by the Water Supply Administration, and rent for same shall be payable half-yearly in advance, on the following scale :—

Size of Meter.	Annual Rent.
$\frac{1}{4}$ in.	10s.

1 in.	25s.
$1\frac{1}{2}$ in.	50s.
2 in.	70s.
3 in.	95s.
4 in.	130s.

71. The quantity registered by the meter at any date between ten days before the end of the half-year and ten days after the end of the half-year may be taken by the Minister as the reading of the meter at the end of such half-year.

72. During the time any meter is undergoing repairs, or should it cease to properly register the consumption of water, the Minister may, at his option, estimate the quantity of water consumed by taking an average of the quantity used during the previous month or quarter, or during the corresponding period of the previous year, and shall charge for the consumption so ascertained.

73. If the consumer shall at any time be dissatisfied with any particular reading of a meter, and shall be desirous of having same tested, he shall give written notice thereof to the Local Officer within seven days of such reading, and thereupon the said meter shall be tested by passing through it a predetermined quantity of water; and if, upon such testing, it shall appear to the satisfaction of the Local Officer that the said meter registered above five per cent. more than was actually passed through it at such testing, then the said Minister for Works will bear

the expense of and incidental to such testing, and will also adjust the charge to the said consumer; but if the said meter, upon such testing, shall not register above five per cent. more than the quantity that shall actually have passed through it, then the said consumer shall pay to the said Minister for Works all the expenses of and incidental to such testing; provided that the amount representing the expense of each and every test shall be fixed by the Minister for Works, and shall in no case exceed the sum of Forty shillings: Provided also, that the said consumer shall not be at liberty to avail himself of the right to test the registration of the said meter for any period other than one month next preceding the date of reading in respect of which he shall have given notice as aforesaid.

74. In every case in which the supply of water shall have been cut off by reason of non-payment of rates or other charges, or by reason of a defective service, a re-connection fee of Five shillings shall be charged, and shall be payable by the consumer on demand.

75. No person to whom water is supplied by the Minister shall, without written permission, sell or supply water to any person who may not reside on the premises of which he is the occupier.

76. The occupier of any premises to which the water has been laid on, or, in the event of there being no occupier, the owner, shall cause proper means to be taken, by locks or otherwise, subject to the approval of the Local Officer, to prevent the use of the water from the main by persons not connected with the premises supplied.

77. The owner or occupier of any allotment of land within the water area who shall erect or make, or cause to be erected or made, any building or addition to an existing building on such land shall, within one calendar month thereafter, give notice in writing thereof to the Minister.

78. Officers or workmen employed by the Water Supply Administration shall not solicit or receive from the public any fee, gratuity, or reward.

79. Any person committing a breach of or failing to observe any one of the foregoing By-laws shall be liable to a penalty not exceeding £20.

Water may be cut off from unoccupied premises, etc.

34. The Board may turn or cut off the water supply—

(a.) If the land to which water is supplied is unoccupied; or

(b.) When any rates or moneys due for water supplied, or agreed to be supplied, or any rent or charges for any meter or other fittings remain unpaid for seven days after they become due; or

(c.) If the occupier refuses to permit a meter to be attached to any pipe on his land; or

(d.) If the occupier commits or permits any breach of any of the provisions of this Act or the by-laws thereunder.

Turning or cutting off the water shall be a cumulative remedy for enforcing payment of water rates or other moneys due, and shall not relieve the owner or occupier from liability in respect thereof.

Supply of water not compulsory.

37. It shall not be compulsory on the Board to supply or to continue to supply water to any person; and the Board shall not be liable to any penalty or damages for not supplying or continuing to supply water.

Duty to keep fittings in repair.

40. Every person supplied with water under this Act shall keep the service or communication pipe and all prescribed fittings within or attached to his land in good repair, so as to effectually prevent the water from running to waste.

Fittings not to be connected or disconnected without notice.

41. No person shall—

- (a.) Connect a meter, pipe, or other fitting through which water is, or is intended to be supplied; or
- b.) Disconnect a meter, pipe, or other fitting from any other meter, pipe, or other fitting through which water is, or is intended to be supplied,

Power to enter and examine whether water is wasted, etc.

42. (1.) Any officer of the Board may, at all reasonable times, enter upon any land to which water is supplied under this Act, and may examine and ascertain—

- (a.) What quantity of water has been consumed there;
- (b.) Whether there has been or is any waste, misuse, fouling, or contamination of the water;
- (c.) Whether all fittings, with the materials and mode of arrangement thereof, used or intended to be used, are in accordance with the by-laws, and in proper order and repair.

(2.) When a fitting is not in accordance with the by-laws, or is out of proper order and repair—

- (a.) The officer of the Board may repair or remove it, and if necessary substitute others in its stead, or may alter the mode of arrangement as the case requires; and
- (b.) Any expense incurred by the Board in that behalf shall, on demand, be repaid by the owner or occupier of the land, and if not repaid on demand may be recovered by the Board in the same manner in which water rates may be recovered.

Protection of Fittings.

43. (1.) No person shall remove, alter, repair, renew, or uncover any pipe or other fitting which is the property of the Board until the prescribed notice has been given to the Board, and the authority of the Board, in writing, obtained.

(2.) No such pipe or fitting shall be subject or liable to be seized or taken in execution by process of law, or under distress for rent.

Power to enter on land and fix fittings.

44. (1.) Any person authorised by the Board may at all reasonable times enter upon any land to which water is or is intended to be supplied under this Act, and may place and fix thereon and attach thereto, wherever the Board think proper, such fittings as the Board may think expedient, and may there do all other acts and execute all other works which the Board may think fit.

(2.) Any person so authorised may at all reasonable times enter upon such lands and examine, remove, repair, alter, or replace all or any of such fittings.

Penalty for using unauthorised fittings.

45. If any person supplied with water by the Board does any of the following things for the purpose of taking water in a manner not authorised by this Act, that is to say:—

- (1.) Uses in, places upon, or attaches to the land, or permits to be so used, placed, or fitted, any fitting, instrument, or thing not authorised by the Board; or
- (2.) Alters, misuses, injures, or removes any authorised fitting, except for the purpose of necessary repair;

he shall forfeit and pay to the Board a sum not exceeding Fifty pounds, and shall, in addition, be liable to pay to the Board any damages sustained by the Board in respect of any injury done to their property, and the value of any water wasted misused, or unduly consumed.

Penalty for not repairing fittings.

46. If any person supplied with water by the Board causes or suffers any pipe, receptacle, fitting, or other apparatus used in connection with water supplied to him by the Board to be out of repair without repairing it within a reasonable time, or to be so used or contrived that the water supplied to him by the Board is, or is likely to be wasted, misused, unduly consumed, or contaminated, or so as to allow the return of foul air or any noisome or impure matter into a pipe belonging to the Board, or connected with any such pipe, he shall forfeit and pay to the Board a sum not exceeding Ten pounds.

Penalty for destroying valves, etc.

47. If any person, not being authorised by the Board,—

- (3.) Does any other wilful act, or wilfully permits to be done any act whereby such water is wasted;

he shall forfeit and pay to the Board a sum not exceeding Fifty pounds, and shall, in addition, be liable to pay to the Board any damage sustained in respect thereof, as well for the value of the water wasted as in repairing the fittings or other parts of the works; and the amount of such damage shall be ascertained, determined, and recovered in the same manner as such forfeited sum.

Penalty for taking, etc., water in contravention of this Act.

48. If any person uses or consumes, or permits to be used or consumed, any water belonging to the Board, contrary to the provisions of this Act and the by-laws thereunder, he shall forfeit and pay to the Board a sum not exceeding Fifty pounds.

Fraudulent taking of Water.

49. Any person who fraudulently takes, or procures to be taken, any water belonging to the Board from a reservoir main or pipe belonging to the Board, or from any pipe leading to or from any such reservoir main or pipe, is guilty of a misdemeanour, and liable to imprisonment, with or without hard labour, for any term not exceeding two years.

Other consequences of contravening this Act or the By-laws.

50. If any person supplied with water by the Board—

- (1.) Does, or causes or permits to be done, anything in contravention of the provisions of this Act or of the by-laws; or
- (2.) Omits to do, or prevents being done, anything which under any of those provisions ought to be done for the prevention of the waste, misuse, undue consumption of the water of the Board;

the Board may (without prejudice to any other remedy against him) cut off any of the pipes by or through which water is supplied by the Board to him or for his use, and may discontinue the supply of water to him so long as the cause of injury remains or is not remedied; but such cutting off shall not affect or take away his liability to payment of rates.

Recovery of Rates by distress.

75. (1.) If any person liable to pay money due for rates or for water supplied by measure under the provisions of this Act fails to pay the same for the space of fourteen days after demand thereof made, in writing, by the secretary or any authorised collector, the chairman may issue his warrant for levying the amount with costs, by distress and sale of the goods and chattels found on the land in respect of which the money is due, in accordance with the law for the time being relating to distress for rent.

(2.) A warrant of distress may be in the form or to the effect of the Fifth Schedule.

(3.) The chairman may include in any one warrant any number of persons liable to pay rates.

(4.) The fees prescribed in the Sixth Schedule shall be payable on every distress.

Recovery by action or complaint.

77. Instead of proceeding by distress and sale, or in case no sufficient distress can be found on the premises, the Board may, fourteen days after demand thereof, in writing, by the secretary or any authorised collector, and notwithstanding any change of occupation or ownership, recover any money due for rates or for water supplied by measure from the occupier or owner for the time being of the land in respect of which the money is due, by complaint before two Justices, or by action in any Court of competent jurisdiction.

Recovery of Rates paid by Owner from Occupier.

81. (1.) When the owner of any land has paid any money due for rates or water supplied, which, as between the owner and occupier, should have been paid by the occupier, the owner may recover the sum so paid on demand from the occupier as arrears of rent could be recovered from the occupier by the owner.

Recovery of Rates paid by Occupier from Owner.

(2.) When the occupier of land has paid any money due for rates or water supplied, which, as between such occupier and the owner, should have been paid by the owner, the occupier may deduct the amount paid from any rent due or to become due to the owner, or may recover the amount from the owner in any Court of competent jurisdiction.

Apportionment of Rates between successive Owners or Occupiers.

82. When an occupier or owner ceases to be the occupier or owner of the land in respect of which a rate is made, before the end of the period in respect of which such rate was made, such occupier or owner shall, as between himself and the succeeding occupier or owner, be liable to pay a portion only of the rate payable for the whole of such period proportionate to the time during which he continued to be the occupier or owner.

Any person who is the occupier or owner of the land during the remainder of the period shall, as between himself and the preceding occupier or owner, be liable to pay a portion of such rate in proportion to the time during which he is such occupier or owner.

But any rate made in respect of such property, and any money due for water supplied, shall continue in force, and may be recovered by the Board from the owner or occupier for the time being, without regard to any change in the occupation or ownership.

When name of owner or occupier unknown.

(3.) When a notice or demand under this Act is required to be given or made to any owner or occupier whose name or address is unknown to the Board, it shall not be necessary to name such owner or occupier, and such notice or demand may be served by placing it on some conspicuous part of the land of such owner or occupier, and by publishing it three times at intervals of not less than a week between any two publications in a newspaper usually circulating in the district.

NOTES FOR DECEMBER.

The weather in the South-Western districts was chiefly noticeable for two things—the somewhat unusual heat about the middle culminating in the hottest day ever experienced in Perth (20th) since the Observatory records commenced (in 1896), and the delightful spell of cool weather which followed and lasted well into the new year. The dwellers on the goldfields were not so fortunate, for there the heat lasted till December 30th, when a cool change occurred. The heat from which they suffered was connected with a large shallow barometric depression extending right across to the other States, or more probably a series of two or three shallow “lows” travelling across from our North-West coast to South Australia and Victoria, and causing one of the most severe heat-waves ever experienced in the Eastern States. A decided change occurred on our goldfields on the 30th, when monsoonal rains passed across from about Geraldton to Esperance, with great diminution of temperature.

On the whole the pressure throughout the State has been almost identical with the means of previous years, but the temperature has been generally in excess, being especially noticeable on the goldfields.

The highest reading for the month was 112.5, at Marble Bar, and the lowest 37.2, at Eyre. The lowest average night minimum (48.2) is recorded at Bridgetown, and the lowest average day maximum at Breaksea (67.0). At the latter place the highest temperature recorded during the month was only 79.0, and at the Leeuwin it was even less, viz., 76.0.

The rainfall was in excess of the average in the track of the above-mentioned monsoonal rains, viz., from Geraldton through the Southern Coolgardie Goldfields to Esperance. Elsewhere it was about normal, but very patchy in the tropics.

RAINFALL FOR NOVEMBER, 1904 (COMPLETED AS FAR AS POSSIBLE), AND FOR DECEMBER, 1904
(PRINCIPALLY FROM TELEGRAPHIC REPORTS).
