GOVERNMENT ASSAYS.

ASSAYS, Analyses, and Determinations of any Western Australian Ore or Rock will be made by the Assayer to the Geological Survey, when not unduly interfering with official work, subject to the following conditions:—

- Each sample must weigh at least 6oz., but not more than 2lbs.
- Each sample must be enclosed in a separate canvas bag or strong paper wrapper, with a slip of paper bearing the name and address of the sender, together with a private mark by which it may be readily identified.

3. The parcel must be forwarded *prepaid* to:—

The Mineralogist and Assayer,  
Geological Survey Office,  
Perth.

4. A letter must be sent at the same time to the same address, stating for what metals the samples are to be assayed, or containing other instructions, as the case may be.

(N.B.—It is always advisable to keep duplicate samples of those submitted.)

5. Before any assay is made the prescribed fee must be paid to the Mineralogist and Assayer, or sufficient reasons, in accordance with Section 7 below, be furnished for having the samples treated free of cost.

6. The following fees will be charged:—

	£	s.	d.
(a.) Determination of a Rock or Mineral ...	0	10	6
(b.) Assay for Lead, Iron, or Manganese, each ...	0	10	6
(c.) Assay for Silver, Copper, or Tin, each ...	0	12	6
(d.) Assay for Gold or Zinc, each ...	0	15	0

	£	s.	d.
(e.) Dry Assay for Lead, Silver, and Gold ...	1	1	0

(g.) Proximate Analysis and Calorific Valuation of Coal ...	1	11	6
(h.) Complete Chemical Analysis of any Mineral or Ore, according to number and nature of determinations, £2 12s. 6d. to ...	5	5	0
(i.) Other determinations, according to time spent, up to ...	2	12	6

A reduction of 20 per cent. on the above amounts will be made in favour of any person submitting in one parcel five or more samples for identical treatment.

7. With the object of encouraging *bona fide* prospecting, free assays will be made under the following circumstances:—

- The sample must have been obtained from land within the State not held under lease for mining purposes.
- The exact locality where the sample was found must be disclosed.
- The sample must be of sufficient promise to warrant an assay being made at the expense of the State.
- Free assays will not be made of samples showing free gold, or of tailings or other metallurgical products, or of umpire samples.

8. The Department reserves to itself the right of refusing to make any particular assay, and also the right of publishing at any time the results of an assay made at the public expense.
