NOTES ON THE CLIMATE FOR THE MONTH OF SEPTEMBER, 1906.

The principal climatological feature of the month was the unseasonably low temperature. With the exception of Wyndham, in the far North, the mean temperature at every station was below the average for previous years. At Perth the day temperature was the lowest on record, and at both Cue and Coolgardie, representing the Murchison and Yilgarn Fields, it was the lowest with the single exception of September, 1905.

Pressure was also subnormal, every station recording less than the average for previous years, the deficit in Southern portions being about one-tenth of an inch.

The weather was rather more rainy than usual in South-West districts, but elsewhere mostly fine. There was the usual succession of highs and lows, but special mention may be made of a disturbance which approached the West coast from the Indian Ocean on the 5th, and travelled overland to the Southern Ocean between Esperance and Eyre. It passed just South of Perth and was responsible for moderate to heavy rain in South-West districts, and cloudy, unsettled weather throughout the Southern half of the State.

THE CLIMATE OF WESTERN AUSTRALIA DURING SEPTEMBER, 1906—continued.

On the whole the rainfall was about an inch in excess of the average in South-West coastal districts, diminishing to about normal on the Eastern boundary of the South-West division. Elsewhere it was generally very light, except in the East Kimberley district, where 431 points were recorded at Turkey Creek and 195 at Hall's Creek. This is the earliest heavy rain on record in that district.

Frost was occasionally reported from inland portions of the South-West district, but it was never severe. The following table shows the mean and absolute lowest readings of a minimum thermometer placed on the ground's surface at a few typical stations:—

Any member not in attendance at the voting upon any question, whether of adjournment or otherwise, when a call of the Council is made, shall be liable to a penalty of £1, unless reasonable cause for such absence be shown to the satisfaction of the Council.

Call of the Council.

24. The order for calling over the Council on a future day shall be set down as the first Order of the Day for the day so appointed, after the reports of the committees have been read, unless the call shall be made for a fixed time, in which case the call shall be made at such time or as soon after as the Mayor may appoint.

30. Any member desirous of proposing a motion or amendment, or of discussing any matter under consideration, must rise in his place uncovered, and address the Mayor or other presiding Chairman; and no member when speaking shall be interrupted, unless called to order, in which case he shall sit down, and the member calling to order shall, in the first place, name the Standing Order on the strength of which he rises, and, if found to be correct by the Mayor or other presiding Chairman, shall be heard in preference to any other speaker, and the question of order shall be disposed of before the subject is resumed or any other subject entered upon.

Motions or amendments to be in writing.

31. Any member desirous of proposing a motion or amendment shall state the nature of such motion or amendment before addressing the Council thereon, and, for the purposes of record, shall put it in writing and sign and deliver to the Town Clerk, who shall add thereto the name of the seconder; and the Mayor or other presiding Chairman shall read the same to the Council before being discussed, and no motion or amendment shall be withdrawn without the leave of the Council.

Division of complicated question.

32. The Council may order a complicated question to be divided.

Speaking twice.

33. No member shall speak twice on the same question, except by way of explanation or in reply upon any original motion of which he may have been the mover, or as the mover of the amendment last carried; nevertheless, any members who may have been misrepresented or misunderstood shall be allowed to explain immediately before the mover rises to reply, but not after; and after the reply, the amendment or the original motion, as the case may be, shall immediately be put to vote.

Amendments.

34. Whenever an amendment is moved upon an original proposition, no second amendment shall be taken into consideration until the first amendment has been disposed of. If the first amendment is carried, it shall displace the original question and become itself the question, whereupon only one further amendment may be moved. If the first amendment be negatived, then a second amendment shall be submitted to the Council for discussion at one time.

35. On an amendment being moved, no member of the Council, who has spoken to the original question shall speak again (except in explanation, or, as the mover of the original question in reply) until the amendment has been put, and has become the amended proposition before the Council.

36. Any member moving or seconding a motion or amendment in the terms, "I move," etc., or "I second," etc., as the case may be, shall be held to have spoken on that question.

Committees' reports.—Members signing reports of committees as proposer or seconder may address Council on such reports.

37. Any member who may have signed the proposition paper, either as proposer or seconder, to enable the reports of the committees of the Council to be put to the vote for adoption or otherwise by the Council, shall not be held to have spoken thereon by such act, but may address the Council on matters contained in such report.

Digression, imputation of motives, etc.

44. No member shall digress from the subject-matter under discussion, or impute improper motives to any other member, and all personal reflections upon any member shall be considered highly disorderly. Any member may require the Town Clerk to take down any particular word or words used by a member immediately upon the same being used, provided that every such demand be made at the time when such word or words are used, and not after any other member has spoken.

Offensive expressions—Members not explaining or retracting.

45. Any member who shall use any expression capable of being applied offensively to any other member shall, if required by the Council, withdraw such expression, and make a satisfactory apology to the Council; and any member having used objectionable words, and not retracting the same and offering suitable apologies for the use thereof to the satisfaction of the Council, shall be censured and fined not less than £10, and any member called to order shall forthwith sit down unless permitted to explain.

47. Any member who shall wilfully disobey any call to order or who shall wilfully or vexatiously interrupt the orderly conduct of the business of the Council shall be deemed to be guilty of disorderly conduct, and, on the passing of a motion censuring such councillor, he shall be fined not less than £1 nor more than £10.

Member not paying fine ceases to act as Councillor.

48. Should any member upon whom a fine has been inflicted neglect or refuse to pay the fine so imposed before the rising of the Council or committee then sitting, such member shall cease to have any status or position at any meeting of the Council or committees, neither shall he be allowed to sit at the committee table, or take any act or part in any of the proceedings of the Council or committee, unless and until the said fine, with all costs, charges, and expenses connected therewith, are fully paid and discharged.

Member obstructing business may be removed from the Council.

49. Any member of the Council who shall wilfully and without just cause obstruct or impede the transaction of business at any meeting of the said Council, or of any committee appointed by the said Council, shall, if it be resolved by three-fourths of the members present at such meeting that such member has wilfully and without just cause obstructed or impeded the transaction of business thereat, be deemed to have failed duly and faithfully to fulfil the duties of his office according to the best of his judgment and ability, and thereupon it shall be lawful for the Mayor to summon a special meeting of the whole Council, and give notice to the said member to show cause at such meeting why he should not be removed from his office; and unless cause sufficient be shown to such meeting, such member may be removed by a resolution of the members attending such meeting; and after such removal such member shall cease to be a member of the said Council, and his office shall be deemed to have become and shall be vacant.

To whom fine, charges, etc., are to be paid.

50. Any fine inflicted on any member of the Council for any breach of this By-law, together with all other costs, charges, and expenses incidental thereto, shall forthwith be paid to the Treasurer in aid of the Corporation fund.

52. If any objection be taken to the ruling of the Mayor, such objection must be taken at once.

Motions as to the Mayor's ruling to be seconded.

53. Objection having been taken to the ruling of the Mayor, the Councillor so objecting may forthwith move that the ruling on the point then raised is not in accordance with the Standing Orders, specifying the number of such Standing Order or Orders. Should the motion not be seconded, then the business shall be proceeded with at the point where it was interrupted; but if the motion be seconded, it shall be put to the vote, and the result of the vote, whether in support of the ruling or otherwise, shall guide the Council.

Councillors not to converse aloud.

54. No member shall converse aloud, except to call to order, or make any noise or disturbance whilst any member is speaking, or any matter is being considered; and in case of such noise or disturbance being persisted in after the Mayor has called to order, the Mayor shall call upon the member making such disturbance by name, and every such member will incur the displeasure and censure of the Council.

Interruption not allowed.

The Council shall vote by a show of hands, and the Mayor or other presiding Chairman shall, in taking the vote on any motion or amendment, put the question first in the affirmative and then in the negative; and he may do so as often as it is necessary to enable him to form and declare his opinion, from the show of hands, as to which party has the majority; and every member present shall be required to vote thereon.

Member not in his seat.

60. No member when absent from his seat shall be permitted to vote on any question when being put to the vote by the Mayor or other presiding Chairman.

Members may pair off.

61. Two members of the Council who intend to vote on opposite sides on any matter before the Council may pair off, provided that a note signed by such members having so paired off, shall be lodged with the Town Clerk and recorded by him.

No discussion shall be allowed on any motion for adjournment of the Council; but if, on the question being put, the motion be negatived, the subject then under consideration, or the next on the notice paper, shall be discussed, or any other that may be allowed precedence, before any subsequent motion for adjournment shall be entertained.

Withdrawal of motion, etc., no discussion.

69. No discussion shall be allowed on a motion for leave to be given to withdraw a motion or amendment then before the Council.

Restrictions on further motions of adjournment.

70. Should a motion for adjournment of the Council be negatived, no motion for such adjournment shall be again entertained until one or more members at least have addressed the Chair.

BY-LAW No. 60.

TO REGULATE BUILDINGS, ETC., WITHIN THE MUNICIPALITY.

Interpretation Clause.

1. The several words mentioned in Section 2 of "The Building Act, 1884," shall, where used in this By-law, have the same construction as is provided for by such section.

Notice of intention to build.

2. Every person intending to commence to build, take down, alter, add to, or repair any building, or to do any act whereby any public street may be obstructed or rendered dangerous or inconvenient to persons passing over or near thereto, shall give three clear days' notice in writing to the Town Surveyor of his intention so to do, and shall deposit drawings and specifications of the proposed work.

Such notice shall be delivered at the office of the Town Surveyor, and shall contain particulars of the date and nature of the intended building, work, or other act.

The Town Surveyor shall, provided the license fee and deposit as hereinafter provided has been paid to the Town Clerk, thereupon grant a license in the Form "A" of the Schedule annexed hereto, and also give such directions as he shall think fit for the erection of hoardings or fences, and platforms and handrails, for the protection of passengers; and such direction shall be complied with to the satisfaction of the Town Surveyor before the commencement of such building, work, or act.

Every breach of this section of this By-law shall subject the person guilty of such breach to a fine or penalty of not exceeding £5, and a further penalty of not exceeding £1 for each day the same continues; such fines or penalties to be recoverable in a summary manner before justices of the peace.

Notice of intention to use area in public street, etc., for the deposit of materials.

3. Every person wishing to deposit any stone, bricks, lime, rubbish, timber, iron, or other materials on any public street, or to make any excavation on any land abutting on or adjoining or contiguous to any public street, shall first make application for and obtain from the Town Clerk a license so to do.

Such license shall be given in the Form "A" in the Schedule hereto.

Having paid the fees and the deposit stated in the said form, he may then occupy the site, subject to the conditions stated in such license.

Any infringement of this section of this By-law shall subject the person guilty of such infringement to a fine of £5 for every day such infringement continues, such fine to be recoverable in a summary way before justices of the peace.

Hoardings to be kept in repair.

4. Every person who shall be required to erect any hoarding, fence, platform, or handrail under the last two preceding clauses or sections, shall keep the same in good and sufficient repair to the satisfaction of the Town Surveyor so long as it shall, in his opinion, be necessary for the public safety; and every such person shall, immediately upon receipt of notice from the Town Surveyor that such hoarding, fence, platform, or handrail is

out of repair, and requiring him to repair the same forthwith, perform such repairing to the satisfaction of the Town Surveyor, and shall be liable to a penalty of £1 for every day the same shall continue in disrepair after the receipt by him of such notice.

Hoardings, etc., to be lighted.

5. Every person erecting such hoarding, fence, platform, or handrail, or obstruction of any kind in any public street, or any excavation as aforesaid, shall cause the same to be well and sufficiently lighted between the hours of sunset and sunrise, or in accordance with the directions and to the satisfaction of the Town Surveyor, and shall be liable to a penalty of £1 for every night or part of a night on which the same is not lighted.

Power to Town Surveyor to enforce.

6. It shall be lawful for the Town Surveyor, without reference to the Council, to take immediate steps to enforce any of the preceding regulations of this By-law, and he may cause any such hoarding or other obstruction that has been erected without his license, or which has been erected or continued in breach of the conditions of any such license, to be removed, or any such excavations to be filled in, or injuries to the public street repaired, at the cost and expense of the person erecting or making the same; and such costs and expenses shall be recoverable from the person so making the same, as well as the penalties hereinbefore imposed, before justices of the peace.

Materials of external walls facing any street.

7. With regard to the component materials of any external walls facing or fronting towards any public street, every such wall must be built of brick or stone or artificial stone, or such brick or stone or artificial stone together laid in, and with mortar and cement in such manner as to produce solid work.

Materials to be used in repair.

8. If any external wall or enclosure be at any time hereafter taken down or otherwise demolished for the height of one storey, or for a space equal to one fourth of the whole surface of such external wall, then every part thereof not built in the manner and of the several materials by these regulations directed for external walls, must be taken down; and the same must be rebuilt in such manner and of such materials and in all respects as by this By-law directed for external walls hereinafter to be built according to the class and rate of the building to which such external wall or enclosure shall belong.

Materials for party walls.

9. Party walls: In reference to the component parts of every party wall, every part of such party wall must be built of sound bricks, stone, or artificial stone, or stone or artificial stone laid in together, and with mortar or cement, and in such manner as to produce solid work; and as to the woodwork which it may be desired to connect with the party walls of any building, the bearing ends of wooden beams, brestsummers, girders, trimming joists, and the ends of partitions, heads, and sills, and the bearing ends of the main timbers of any roof, and wood bricks, may be laid into the substance of a party wall; but no such beams, brestsummers, girders, partitions, head, or sill, nor any part of a roof, being wood, nor any wood bricks, must be laid or placed within two inches of the centre of any party wall; and no other woodwork of any kind must be laid into, placed upon, or be run or driven into any part of the substance of any party wall; but if the ends of the timber be carried in iron shoes or stone corbels, then such iron shoes or stone corbels must be built into the wall at least half the thickness of such wall; and the top of every such party wall must be carried to a height of at least three feet above where the party wall and the roof adjoins, with sound, hard bricks or stone set in good mortar or cement.

Roofs of buildings.

10. With regard to the roof, flat, and gutter of any building and any projection therefrom, and also balconies, verandahs, and shop fronts, they must be so arranged and constructed, and so supplied with gutters and pipes as to prevent the water therefrom dripping on to or running over any public way, and all such rain pipes, eaves, and gutters are to be made of metal.

All iron pipes shall lead, if so required, from the front of the building under the footpath into the street side channel; provided always that the pipe laid across the footway shall be at least six inches below the surface, and be of cast or wrought iron piping of four inches diameter.

Drains to buildings.

11. With regard to the drains of buildings of any class, and of every addition thereto, before the several walls of any such buildings shall have been built to the height of 10 feet from their foundations, the drains thereof must have been properly built and made good; that is to say, if there be within 100 feet from any front of the building a common sewer into which it is lawful and practicable to drain, then into such common sewer, and if there be not in such situation and within such distance any common sewer, then into the best outlet that can be obtained, so as to render, in either case, drains available for the drainage of the lowest floor of such building or addition thereto, and also of its areas, privies, and offices; and every such drain must be laid to a sufficient fall or current, so as that the whole of every such drain within the walls of such building shall be wholly carried over under the lowest floor, independently thereof, and every such drain within the walls thereof of such building must be constructed of sound laid bricks of the best quality, laid wholly in cement mortar, or of best quality of glazed stone-ware drain pipes jointed in cement, and not less than four inches external diameter, so as to render the drain airtight; all drains be laid and built to the approval of the Town Surveyor.

Covering footpaths, etc.

12. In the case of any building being erected abutting on the footpath of a public street, or of any plastering operations being intended to be performed above the first storey of any building, the builder or other person or persons having charge of such building, or the plasterer shall, before proceeding to build further than the first storey of such building so being erected, or with any plastering as aforesaid, give notice thereof, in writing, to the Town Surveyor, who shall thereupon give directions to such builder, person, or plasterer for the covering of such footpath as he shall deem fit: and any builder, person, or plasterer who shall fail to give such notice, or shall proceed with such building or plastering without having complied in all respects with the directions of the Town Surveyor, or without keeping such covering or other erection directed by him in an efficient state of repair to the satisfaction of the Town Surveyor, shall incur a penalty of £5 for each day in which such default shall occur or continue.

Back yards.

13. With regard to back yards or open spaces attached to dwelling houses, every house hereafter built or rebuilt, must have an enclosed back yard or open space (according to Section 5 of "The Building Act Amendment Act of 1887"), exclusive of any building thereon, unless all the rooms of such house can be lighted and ventilated from the street.

Rooms—with regard to height.

14. With regard to rooms in other parts of the buildings, in reference to the height thereof, every room used or intended to be used for the purpose of habitation must be at least the height of nine feet from floor to ceiling.

Ventilation of rooms.

15. Every room used for the purpose of habitation, or for the assemblage of people for any purpose whatever, shall be well and properly ventilated, to the satisfaction of the Town Surveyor, by the insertion of air bricks below the floor, and by openings in the sleeper walls thereof, according to the size of such rooms.

Verandahs.

16. Awnings or verandahs to be erected over footpaths are to be in accordance with drawings and specifications approved of by the Town Surveyor, and accordingly adopted by the Council; the minimum height to be eight feet; the verandah to be painted and kept in repair to the satisfaction of the Town Surveyor, who shall have power to order such repairs to the verandah generally as he may deem necessary. In the event of neglect, or of the Town Surveyor observing the necessity of removal or repair, such must be commenced within seven days of the receipt of notice from the Town Surveyor, and must be completed within fourteen days from such notice, or otherwise the verandahs will be removed as nuisances, the cost of such removal to be borne by the owner or occupier, and to be recoverable from him in a summary manner before Justices of the Peace.

Brestsummers and fireplaces.

17. All brestsummers to be either of iron, jarrah, or salmon gum. Every fireplace constructed of iron shall be lined with brick or stone to a height of three feet from the level of the fire-rest, and not less than four and a-half inches thick, and the hearth of every such fireplace or chimney must be laid and bedded wholly on brick, or stone, or other incombustible substance. Such hearth must consist of a slab or slabs of brick, tile, stone, slate, iron, or other proper and sufficient substance at least 12 inches longer than the opening of the chimney when finished, and at least 18 inches in front of the arch over the same.

Notice to remove dangerous buildings.

18. Where any building shall, in the opinion of the Town Surveyor, be ruinous or dangerous, under the meaning of Clause 16 of "The Building Act, 1884," the Town Surveyor shall give notice to the owner thereof to remove or renovate the same, and every such owner shall forthwith comply with such order, under a penalty of not more than £20 for non-compliance.

Temporary buildings.

19. With regard to the granting of permission for the erection of temporary buildings, special permission may be granted by the Council for a period to be stated, for the erection of temporary buildings, all the walls of which may be of wood or iron.

Power of Town Surveyor to enter and remove.

20. And generally, where anything shall have been done, or omitted to be done in contravention to these regulations, it shall be lawful for the Town Surveyor, at his discretion, to enter upon the premises and remove, or cause to be removed, any building or other thing which has been erected in contravention thereof, or to do or cause to be done any act or thing which should have been done in pursuance thereof, and the costs of so doing shall be borne and paid by such owner or other person, in addition to any penalties to which he may be liable in respect thereof under these regulations.
