NOTES ON THE CLIMATE FOR THE MONTH OF FEBRUARY, 1907.

This month was hotter than usual throughout the State South of the tropics. In Perth the present summer has so far been by far the hottest since the Observatory was founded, but on the Goldfields it was unusually cool during the earlier portion, and, in fact, up to about the middle of February. Then ensued a period of particularly unpleasant weather, during which thunderstorms were frequent, and the atmosphere was very sultry.

The prevailing characteristic of the present summer has been a succession of small "lows" coming down the Indian Ocean a short distance away from the coast line. In some cases they have been traced all the way from Wyndham to Cape Leeuwin. These have been preceded by high temperatures and followed by gradual cool changes, and have occurred about once a week with some regularity.

It is probable that the unusual severity of the summer in West coastal districts and its unusual mildness on the Goldfields are both due to the same cause, viz., that the track of the "lows" has been so persistently to the West of the coast line, very few having come across the land. The great heat sometimes experienced in Eastern districts is usually associated with a "low" which travels from the North-West coast across the interior towards the Bight.

Rainfall has been somewhat irregular, and mostly connected with thunderstorms, but on the whole normal.

Pressure has been generally very slightly below the average for previous years.

NAVIGATION ACT, 1904.

THE annexed report and finding of the Chief Harbour Master, under the provisions of "The Navigation Act, 1904," relative to the preliminary inquiry held by him into the circumstances attending the total loss by foundering of the s.s. "Water Lily," whilst on a voyage from Hamelin to Bunbury, in tow of the s.t. "Vigilant," on the 1st instant, has been approved by the Hon. the Minister.

G. J. SINCLAIR,
Secretary.

[COPY.]

From the Chief Harbour Master to the Under Secretary.

I beg to report, for the information of the Hon. the Minister, having held a preliminary inquiry into the circumstances attending the total loss by foundering of the s.s. "Water Lily," on the morning of the 1st instant, while in tow of the Steam Tug "Vigilant," from Hamelin to Bunbury.

The "Water Lily" was a screw steamer, 52 tons gross and 31 tons net register, and owned and registered in the name of the M. C. Davies' Karri and Jarrah Timber Company.

After taking the evidence of the two men in charge of the "Water Lily" (Donald Beaton, senior hand, and John Paddon, A.B.) and Charles Coalstad, Master of the tug "Vigilant," and who holds a Master's Board of Trade Certificate, No. 1290 O.C., issued at Melbourne, I find that both the above vessels are owned by Millar's Karri and Jarrah Company, and that the Master of the tug had instructions to tow the "Water Lily" to Fremantle, *via* Bunbury, and on the evening of the 31st ult. he himself passed his tow-line on board the "Water Lily" and made it fast to a solid mooring bit that was amidship, and shortly afterwards started with his tow.

The weather, on leaving, was calm, and remained so till about midnight, when the wind freshened from the Southward.

At about 1 a.m. one of the men on board the "Water Lily" went through the vessel and found everything in order.

At 2·30 a.m. the "Vigilant" altered her course to N.N.E., thus leaving the wind and sea abeam and causing both vessels to labour.

All seems to have gone well till about 4 or 5 a.m. (the men not being certain as to the hour), when the attention of the men on board the "Water Lily" was called to the noise of water washing in the hold, and on looking down the skylight they saw the water was up to the cylinders. An attempt was then made to pump the vessel, but as she was fitted with a small hand pump only, it was found to be of no avail, owing to the great inrush of water.

The "Vigilant" was hailed at about 6 a.m., and on learning the tow was in trouble, the Master sent his boat and had the men transferred to his vessel.

With a view of getting into smooth and shallow water, the Master of the Tug then proceeded with his tow, but had not been going long before he discovered the case was hopeless, as the vessel began to disappear quickly stern first.

From the evidence adduced, I find that the vessel was in apparent good order when she left Hamelin, and remained so till the course was altered, when, owing to the extra labour caused by the wind and sea being abeam, she must have opened out considerably in some part or parts below water line.

Everything possible seems to have been done under the circumstances, and in my opinion no blame can be attached to the men in charge of either vessel.

(Signed) C. J. IRVINE,
Chief Harbour Master.

"GOVERNMENT GAZETTE."

The Treasury,
Perth, 8th March, 1907.

IT is hereby notified, for general information, that His Excellency the Governor, with the advice of the Executive Council, has approved of the following Regulations for the control and management of the printing and publication of the *Government Gazette*.

L. S. ELIOT,
Under Treasurer.

REGULATIONS TO BE STRICTLY OBSERVED WITH A VIEW TO EFFECTING ECONOMY IN THE PRINTING AND PUBLICATION OF THE "GOVERNMENT GAZETTE."

1. The *Government Gazette* will be published once a week—on Friday, unless otherwise interfered with by Public Holidays or other unforeseen circumstances, when the alteration will be duly notified.

2. Supplements to the *Gazette* will only be published when approved by a Minister, except such as are required by statutory obligation or to meet the special requirements of the Colonial Treasurer.

3. Notices for insertion in the *Gazette* must be sent to the Government Printing Office in reasonable time—none later than 10 o'clock of the day preceding the day of publication, and when possible, several days before that time.

4. Proofs of Departmental Notices will be supplied, but must be returned not later than 3 p.m. of the day preceding the day of publication, and duly certified for issue by a responsible officer.

5. Notices or proofs delayed beyond the time mentioned will be held over for insertion in the following issue.

6. Wherever possible, in order to economise space without altering the sense, Notices shall be grouped, or tabulated with one date and signature.

7. Notices should bear the date of the *Gazette* in which they are first to be inserted, unless there are special reasons for giving any Notice a different date.

8. Every Notice forwarded for publication in the *Gazette* must show the number of insertions required, and the responsibility of indicating the requirements of the law in that respect will rest with the Department from which it issues. Unless so notified, only one insertion will be made.

9. When any Notice is marked for more than one insertion it must be stated whether such Notice should be published in full in each issue or in the first issue only. If only one insertion in full is necessary, abbreviated notice should be furnished for subsequent insertions. Nothing in this Regulation will affect the Government Printer's right to repeat a notice when required for "make-up" purposes.

10 Care must be exercised in the preparation of Departmental Notices for the *Gazette*, to save as far as possible corrections, alterations, and additions when in type. The Notices should be legibly written on one side of the paper only. Signatures and proper names must be written very plainly in the text. All documents illegibly written will be returned unpublished.

11. Demands for copies of Notices which appear in the *Gazette* should be sent in with the MS. or the returned proofs. Such demands should be as limited as possible, and not made unless necessary.

12. Private advertisements forwarded for publication in the *Gazette* must be written on one side of the paper only, and must be legible (signatures and proper names in particular), otherwise they will be returned unpublished. Such Notices must be paid for prior to insertion.
