7. Notices should bear the date of the "Gazette" in which they are first to be inserted, unless there are special reasons for giving any Notice a different date.

8. Every Notice forwarded for publication in the "Gazette" must show the number of insertions required, and the responsibility of indicating the requirements of the law in that respect will rest with the Department from which it issues. Unless so notified, only one insertion will be made.

9. When any Notice is marked for more than one insertion it must be stated whether such Notice should be published in full in each issue or in the first issue only. If only one insertion in full is necessary, abbreviated notice should be furnished for subsequent insertions. Nothing in this Regulation will affect the Government Printer's right to repeat a notice when required for "make-up" purposes.

10. Care must be exercised in the preparation of Departmental Notices for the "Gazette," to save as far as possible corrections, alterations, and additions when in type. The Notices should be legibly written on one side of the paper only. Signatures and proper names must be written very plainly in the text. All documents illegibly written will be returned unpublished.

11. Demands for copies of Notices which appear in the "Gazette" should be sent in with the MS. or the returned proofs. Such demands should be as limited as possible, and not made unless necessary.

12. Private advertisements forwarded for publication in the "Gazette" must be written on one side of the paper only, and must be legible (signatures and proper names in particular), otherwise they will be returned unpublished. Such Notices must be paid for prior to insertion.
