N.B.—The minimum wharfage dues shall be sixpence, and the minimum handling charges shall be 3d. per consignment.

*Notes.*—Cargo transhipped from one vessel to another for conveyance to destination or temporarily shall pay wharfage 1s. per ton. Live stock landed on beach, and not handled by Wharfinger, shall pay wharfage dues only.

*Definition of "Handling Charges."*—Handling charges on inwards cargo shall, except where otherwise specifically provided, include receiving from ship's slings, tallying (which tallying shall be done in conjunction with and in the presence of any tallying which may be done by the ship), and delivering to the tail or side of vehicle, but not loading the vehicle. Inwards cargo shall not, for any purpose whatever, be deemed to be in the custody of the Wharfinger until the sling is released from the ship's crane or hoisting hook, or deposited on the wharf or conveyance provided by the Wharfinger to receive the same.

Outwards cargo shall be deemed to be in the custody of the ship when the ship's crane or hoisting hook is inserted in the sling.

*Inwards Manifests to be supplied and certified to.*

5. The master of every vessel arriving shall deliver at the office of the Wharfinger, prior to commencing to discharge cargo, a true, legible, and complete copy of the manifest of the said vessel, certified to by himself as being true and complete, and shall also furnish, within 48 hours, a certified statement of all alterations (if any) which may be made in such manifest by reason of measurement of goods included therein or otherwise.

*Outward Manifests, etc.*

6. The master of every vessel shall deliver at the office of the Wharfinger, prior to the clearance of the ship in which outward cargo is shipped, a certified copy of manifest giving true, legible, and complete particulars of such goods as will enable the amount of outward wharfage dues payable thereon to be readily computed.

7. No person shall enter on any wharf with goods for shipment without first delivering to the Wharfinger an outward cargo advice note as required by the Department, containing full and true account, with gross measurements or weights of such goods then under his immediate control.

8. All outward cargo must be delivered into the shed, at least not less than four working hours prior to ship's advertised time of sailing.

9. No goods shall be landed or placed on any jetties without the written authority of the Wharfinger or Officer-in-charge. Cargo discharged without such authority having been first obtained shall not be deemed to be in the custody of the Department, nor shall the Department be held responsible for any loss or damage that may accrue to any such cargo from any cause whatever.

10. If it appear that goods are being landed and cannot, in the opinion of the Wharfinger or the Officer-in-charge, be removed in time to prevent a "block," the Wharfinger or Officer-in-charge may give notice, in writing, to the masters or persons in charge of vessels or lighters from which goods are being discharged to stop discharging cargo, and upon such notice being given, no further cargo shall be discharged until such time as the Wharfinger or Officer-in-charge may direct.

*Receipts, etc., for Inward Cargo.*

11. If during the progress of discharge of cargo doubt shall be expressed by the Wharfinger as to the condition of any package or packages, such package or packages shall be placed in a situation apart from other cargo, pending examination, and the Department's tally and receipt for such package or packages shall be that of a doubtful or damaged package, as circumstances or appearances dictate. Such packages shall be opened and examined by the consignee, but only in the presence

of the Wharfinger and ship's agent, as soon as is possible after being landed. The Department will, under no pretence whatsoever, be held responsible for the safe custody or the condition of such package or packages, or of it or their contents.

12. In the event of the ship, by its agent, refusing to accept a receipt as indicated for such cargo, such cargo must immediately be returned on board by the ship, and shall not be again landed until it has been examined by the consignee, who shall take delivery direct from the ship.

*Responsibility of the Department.*

13. No goods for which receipts have not been given by the Department shall be deemed, for any purpose, to be in the custody of the Department as Wharfingers, nor shall the Department be responsible for the safe custody, or for any loss or damage that may accrue to same, in any manner whatsoever.

*Goods to be checked before Delivery.*

14. No person shall remove any goods or luggage from any wharf or shed without first satisfying the Wharfinger or Officer-in-charge of his right to do so; and shall, before removing same, sign for such goods or luggage to the Wharfinger or Officer-in-charge.

*Delay in Delivery of Goods.*

15. The Department will not be responsible for any claim arising from the delay in the delivery of goods from any cause whatsoever.

*Wrong Delivery.*

16. The Department will not be responsible for the wrong or non-delivery of the goods which are erroneously or deficiently marked, or which have numerous old or imperfectly erased marks thereon.

*Goods not to be Removed.*

17. No person shall remove from one vessel to another, or from any part of the wharf to any other part thereof, any goods or luggage without the authority of the Wharfinger first had and obtained.

*Goods not to be Handled in Wet Weather.*

18. No goods shall be landed or shipped in wet weather without the permission, in writing, of the Wharfinger at the request of the master or agent of the discharging or loading vessel; but the giving of such permission shall not throw on the Department any liability for damage to such goods caused by being so landed or shipped or handled in wet weather. The determination of the Wharfinger that the weather is wet shall be conclusive.

*Responsibility in case of Fire, etc.*

19. The Department shall not be responsible for loss or damage to goods while in their custody, by fire, water used in extinguishing fire, or vermin.

*Extra Charges.*

20. The Wharfinger may make extra charges for handling packages over one ton in weight, or of an exceptional shape, or where extra labour is required or unusual risk is involved.

*Cargo Deposited on Wharf.*

21. No ballast, stone, coal, coke, timber, sand, or other goods or material in bulk shall be deposited on any wharf or jetty without special permission, in writing, of the Wharfinger or Officer-in-charge.

*Department not bound to find storage accommodation.*

22. The Department shall not be bound to find storage room for any goods, either in any shed or on any wharf. After notification to the owners, shippers, or consignees of any goods, or to the vessel's agent, that room is not available for the storage of such goods within a shed, or that such goods are, owing to their character, not permitted by some other authority other than the Department to be stored in a shed, the Department shall not be held responsible for any loss or damage that may accrue to the goods, by the elements or otherwise, during the time they remain on the Department's premises.

*Goods to be removed or may be sold.*

23. All goods landed on any wharf shall be removed therefrom or placed in a shed within seven days after being landed. The Wharfinger is empowered to take charge of and store cargo and goods if not removed from any wharf or shed by the consignee within the time, or respective times limited for that purpose, or to cause the same to be conveyed to King's Warehouse or delivered to the consignee at his expense and risk, or to remove the same to any of the premises of the Department or other convenient place, or to keep the same until payment to the Department of the expenses of such removal and of the keeping of the goods, and of all other charges due to the Department thereupon; and, in default of payment, on behalf of the Department to sue for same.

*Storage Rates for Goods.*

24. Should any goods be not removed from any wharf or jetty or sheds thereon within the time specified in these regulations, there shall (subject to as hereinafter mentioned) be payable to the Wharfinger, as and by way of storage rent in respect thereof, the sum of one shilling (1s.) per ton for the first week, and for every subsequent week the sum of threepence (3d.) per ton additional to the amount per ton payable for each immediately preceding week, i.e., one shilling and threepence (1s. 3d.) per ton for the second week, and one shilling and sixpence (1s. 6d.) per ton for the third week, and so on. For the purpose of this regulation a fraction of a ton shall be deemed to be a ton, and a part of a week shall be reckoned as one week. Nothing herein contained shall prevent the Wharfinger from removing or ordering the removal, as provided for in these Regulations, of any such goods at any time after the time hereinbefore appointed for their removal.

*Limit of Storage.*

25. No goods shall be allowed to remain in any shed or upon any wharf for a longer period than four weeks. If any goods so remain without the consent of the Department, the Wharfinger may remove same to King's Warehouse (in the case of goods liable for Customs duty) or to any of the premises of the Department or other convenient place, and retain the same. The charge to be made for such removal only to any premises of the Department shall be two shillings (2s.) per ton, and the charge for storage on such goods after removal shall continue to be at the same rate as applies to goods left in wharf sheds beyond the specified free storage period.

*Claims in respect of Cargo.*

26. No claim will be entertained by the Department in respect of goods landed, or alleged to be landed, unless claim has been received by the Wharfinger, in writing, before the vessel (in case of sailing vessels) leaves the Harbour, or in case of steamers, within four days of the steamer leaving the port, nor in respect of outward goods unless received by the Wharfinger within twenty-four (24) hours after the vessel in which it was intended to ship such goods leaves the port. Each claim must be rendered on the form recognised by the Department, which form will be supplied on application.

*Working Hours.*

27. The working hours of the Port shall be and include the hours from 8 a.m. till 12 noon, and from 1 p.m. till 5 p.m. on week days other than Saturdays, and on Saturdays the hours from 8 a.m. till 1 p.m.

28. The cost over and above the ordinary cost of day work, or all labour and supervision, etc., employed during any hours not being working hours as above defined, or on holidays, shall be paid for by the vessel in addition to the usual charges. The extra cost of lighting shed or berth to enable a vessel to work during any hours not being working hours, or on holidays as aforesaid, shall also be paid by the vessel.

29. A vessel desiring to work any hours not being working hours as defined above, shall give to the Wharfinger or Officer-in-charge two hours' notice, and on holidays twelve hours' notice of her desire to do so.

*Penalties.*

30. When any person or persons, by the foregoing Regulations, or any of them, are required to do or perform any act or thing, and such act or thing remains

undone, the Harbour Master or his representative may cause the same to be performed, and charge the cost and expense against such person or persons, and the amount thereof may be recovered summarily.

31. Every person who does, permits, or suffers any act or thing contrary to any of these Regulations shall, on conviction, for every offence, breach, or neglect, be liable to a penalty not exceeding (except where otherwise provided) the sum of £20 (42 Vict., No. 18).

NOTICE TO MARINERS.—VICTORIA.

(No. 40.)

Caution when approaching Australian Ports.

(The bearings are magnetic, and those concerning the visibility of lights are given from seaward.)

THE following Notice, which has been received from the Naval Board, is published for the information of mariners and others concerned.

J. M. SEMMENS,

For Port Officer.

Melbourne, 23rd March, 1909.

IN connexion with pediodical exercises or manœuvres, or in the event of relations becoming strained between Great Britain and any Naval Power, an Examination Service may come into force at the ports or localities mentioned at the end of this notice.

Masters are warned that before attempting to enter any of these ports they must, in their own interests, strictly obey all instructions given to them by the vessels which will be charged with the duty of examining ships desiring to enter the ports, and allotting positions in which the ships shall anchor. In case of fog they should on no account attempt to enter before receiving permission from the Examination Officer.

The institution of an Examination Service at any port will never be publicly advertised, but at all times when the relations of Great Britain with foreign powers are known to be in a state of tension, especial care should be taken in approaching the ports, by day or by night, to keep a sharp look-out for the Examination steamer, and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun.

*If the entrance to a port is closed three red vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.*

If the Examination Service is in force the Examination steamer will be distinguished at night—

(a.) When the port is closed, by three red vertical lights.

(b.) When the port is open, by three white vertical lights.

The pilots attached to the ports will be acquainted with the regulations to be followed.

## SUBSIDIES ON SHIPMENTS OF LEAD ORES.

SUBJECT to the following conditions, subsidies will be granted to shippers of lead ores at the rates herein stated, for one year from the date hereof, viz.:—

1. Such ores shall be the produce of mines in the State of Western Australia situated north of the Tropic of Capricorn, and shall be shipped from ports in the said State lying north of the said Tropic to any other ports within or without the Commonwealth of Australia.

2. The owner of the ore shall send notice to the Department of Mines, Perth, of his intention to ship ore and claim subsidy thereon, and of the probable quantity to be shipped and date of shipment, at least three weeks before each shipment, and forthwith after shipment shall forward to the said Department a duplicate copy of the bill of lading and a full statement of the gross and net quantity of ore shipped, its assay value for base and precious metals therein contained, and its estimated net value at the port of shipment, together with any other information which may be from time to time called for by the said Department relative to the cost of mining and marketing and value of such ore.

3. The owner shall, before or forthwith after each shipment of ore, forward to the Department of Mines at Perth a fair sample of such ore for assay purposes, of not less than two pounds weight. The sample shall be a fair average sample of the parcel of ore shipped, and shall be taken by the owner in accordance with ore-buyers' practice approved by the State Mining Engineer.

4. No subsidy shall be payable (a.) on any parcel of ore of less weight than five tons, or (b) on any ore the gross value of which, taking the metals contained according to assay at the current prices in London for the week of shipment, exceeds £13 per ton, or (c) on any ore of a gross assay value of less than £6 per ton, unless the Minister is satisfied that such ore is marketable with reasonable expectation of realising enough to cover expenses of shipment, treatment, and sale.

5. The total amount of subsidy payable shall not exceed an average disbursement of £50 per month, and claims will be paid in order of priority of shipment. The Minister shall decide and apportion the amounts pay-

able to various claimants, in the event of the claims exceeding the amount of subsidy available.

6. When the price of lead in London is £13 12s. 6d. a ton, the subsidy payable shall be 5s. per net ton of ore, but shall be decreased at the rate of one shilling and eightpence per ton for every two shillings and sixpence that the price of the metal rises above £13 12s. 6d., until no subsidy is payable. The subsidy shall be increased at the rate of fourpence per ton for every two shillings and sixpence that the price of the metal falls below £13 12s. 6d. per ton, until the maximum subsidy of seven shillings per ton of ore is reached; beyond which amount no subsidy shall be payable.

7. The price of lead on which the subsidy is based shall be the average quotation for soft, foreign lead for the week in which shipment is made, as given in George Smith & Son's weekly reports or other published list of London metal market prices approved by the Minister.

8. Accounts for subsidy shall be rendered in triplicate on Treasury Form No. 10, and shall be endorsed by the claimant with a statutory declaration that all particulars contained therein are true and correct.

9. Copies of all account sales, showing the particulars of sale and all expenses in connection therewith of each parcel of ore, shall be furnished by the owner to the Department of Mines immediately after receipt of same by the said owner, and all payments of subsidy shall be subject to final adjustment in accordance with the figures of net tonnage and assay value on which the parcel is sold, if these are found to make material difference in the amount payable as reckoned from the shipper's statement of weights and value.

10. The Minister or any person deputed by him shall have full power and authority to settle finally any question as to the meaning of the foregoing conditions, and from time to time to make such other conditions, not inconsistent therewith, as may seem to him necessary for fuller explanation thereof in order to carry out the intention of the Government in providing the subsidies.
