NOTICE TO MARINERS.—VICTORIA.

(No. 40.)

Caution when approaching Australian Ports.

(The bearings are magnetic, and those concerning the visibility of lights are given from seaward.)

THE following Notice, which has been received from the Naval Board, is published for the information of mariners and others concerned.

J. M. SEMMENS,
For Port Officer.

Melbourne, 23rd March, 1909.

IN connexion with pediodical exercises or manœuvres, or in the event of relations becoming strained between Great Britain and any Naval Power, an Examination Service may come into force at the ports or localities mentioned at the end of this notice.

Masters are warned that before attempting to enter any of these ports they must, in their own interests, strictly obey all instructions given to them by the vessels which will be charged with the duty of examining ships desiring to enter the ports, and allotting positions in which the ships shall anchor. In case of fog they should on no account attempt to enter before receiving permission from the Examination Officer.

The institution of an Examination Service at any port will never be publicly advertised, but at all times when the relations of Great Britain with foreign powers are known to be in a state of tension, especial care should be taken in approaching the ports, by day or by night, to keep a sharp look-out for the Examination steamer, and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun.

If the entrance to a port is closed three red vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.

If the Examination Service is in force the Examination steamer will be distinguished at night—

(a.) When the port is closed, by three red vertical lights.

(b.) When the port is open, by three white vertical lights.

The pilots attached to the ports will be acquainted with the regulations to be followed.

5509/99.

SUBSIDIES ON SHIPMENTS OF LEAD ORES.

SUBJECT to the following conditions, subsidies will be granted to shippers of lead ores at the rates herein stated, for one year from the date hereof, viz.:—

1. Such ore shall be the produce of mines in the State of Western Australia situated north of the Tropic of Capricorn, and shall be shipped from ports in the said State lying north of the said Tropic to any other ports within or without the Commonwealth of Australia.

2. The owner of the ore shall send notice to the Department of Mines, Perth, of his intention to ship ore and claim subsidy thereon, and of the probable quantity to be shipped and date of shipment, at least three weeks before each shipment, and forthwith after shipment shall forward to the said Department a duplicate copy of the bill of lading and a full statement of the gross and net quantity of ore shipped, its assay value for base and precious metals therein contained, and its estimated net value at the port of shipment, together with any other information which may be from time to time called for by the said Department relative to the cost of mining and marketing and value of such ore.

3. The owner shall, before or forthwith after each shipment of ore, forward to the Department of Mines at Perth a fair sample of such ore for assay purposes, of not less than two pounds weight. The sample shall be a fair average sample of the parcel of ore shipped,

and shall be taken by the owner in accordance with ore-buyers' practice approved by the State Mining Engineer.

4. No subsidy shall be payable (a) on any parcel of ore of less weight than five tons, or (b) on any ore the gross value of which, taking the metals contained according to assay at the current prices in London for the week of shipment, exceeds £13 per ton, or (c) on any ore of a gross assay value of less than £6 per ton, unless the Minister is satisfied that such ore is marketable with reasonable expectation of realising enough to cover expenses of shipment, treatment, and sale.

5. The total amount of subsidy payable shall not exceed an average disbursement of £50 per month, and claims will be paid in order or priority of shipment. The Minister shall decide and apportion the amounts payable to various claimants in the event of the claims exceeding the amount of subsidy available.

6. When the price of lead in London is £13 12s. 6d. a ton, the subsidy payable shall be 5s. per net ton of ore, but shall be decreased at the rate of one shilling and eightpence per ton for every two shillings and sixpence that the price of the metal rises above £13 12s. 6d., until no subsidy is payable. The subsidy shall be increased at the rate of fourpence per ton for every two shillings and sixpence that the price of the metal falls below £13 12s. 6d. per ton until the maximum subsidy of seven shillings per ton of ore is reached; beyond which amount no subsidy shall be payable.

7. The price of lead on which the subsidy is based shall be the average quotation for soft, foreign lead for the week in which shipment is made, as given in George Smith & Son's weekly reports or other published list of London metal market prices approved by the Minister.

8. Accounts for subsidy shall be rendered in triplicate on Treasury Form No. 10, and shall be endorsed by the claimant with a statutory declaration that all particulars contained therein are true and correct.

9. Copies of all account sales, showing the particulars of sale and all expenses in connection therewith of each parcel of ore, shall be furnished by the owner to the Department of Mines immediately after receipt of same by the said owner, and all payments of subsidy shall be subject to final adjustments in accordance with the figures of net tonnage and assay value on which the parcel is sold, if these are found to make material difference in the amount payable as reckoned from the shipper's statement of weights and value.

10. The Minister or any person deputed by him shall have full power and authority to settle finally any question as to the meaning of the foregoing conditions, and from time to time to make such other conditions, not inconsistent therewith, as may seem to him necessary for fuller explanation thereof in order to carry out the intention of the Government in providing the subsidies.

THE NAVIGATION ACT, 1904.

THE following Report and Finding of the Chief Harbour Master into the circumstances attending the stranding of the s.s. "Koombana," in Sharks Bay, on the morning of the 15th March, 1909, has been approved by the Hon. the Acting Colonial Secretary.

G. J. SINCLAIR,
Secretary.

*"Koombana" s.s., Stranding of, in Sharks Bay.
Preliminary Inquiry into.*

The Under Secretary.

I beg to state, for the information and approval of the Hon. the Minister, having held a preliminary inquiry into the circumstances attending the stranding of the s.s. "Koombana," in Sharks Bay, on the morning of the 15th March, 1909.

The "Koombana" is a single-screw steamer, 3668 tons gross, and 2182 tons net register, official number 122723; owned and registered by the Adelaide Steamship Company of Adelaide.

After taking the evidence of the Master, Captain John Rees, who holds a Board of Trade Foreign-going Certificate, No. 444, issued at Adelaide; Henry John Clark, the Chief Officer, who holds a Board of Trade Master's Foreign-going Certificate, No. 480, issued at Sydney; William Joly Shimmins, Second Engineer, holding a Board of Trade Chief Engineer's Certificate, No. 36619, issued at Dublin; and Morris Griffiths, Quartermaster, I have to report:—

1. The s.s. "Koombana" sailed from Fremantle on the 12th March, for Derby *via* ports, and rounded Cape Levillain at 3 a.m., March 15th, and steered the usual course for Heirisson Flat Buoy (the outer or Westerly mark for the entrance to the Channel leading to Denham) painted red.

2. At 7.10 a.m., when nearing the channel, the Westernmost black buoy marking the North side of the Channel was sighted, but the morning being hazy, together with the rising sun, gave the buoy a red appearance, which led the Master, also the Chief Officer who was present on the bridge, to conclude the ship had made her course good from off Cape Levillain and that the buoy in sight was the red one marking the North end of Heirisson Flats, and a course was shaped for the Channel accordingly, the result being that the ship grounded on a small isolated patch of sand, having a least depth of 14 feet over it, the ship's draught being approximately 16 feet 10 inches.

3. Some twenty minutes before sighting the buoy a leadsman was placed in the chains, and the lead was kept going till the buoy was sighted. The engines were also stopped immediately prior to picking up the buoy, and when the buoy was sighted the engines were ordered full speed, and the vessel took the ground about ten minutes after the order was given.

4. Every endeavour was made, with the appliances to hand, to refloat the vessel, but without success, until the s.s. "Winfield" rendered assistance. The bottom being soft sand and the water smooth, the vessel sustained no damage.

My finding is:—

(a.) The s.s. "Koombana," whilst on a Coasting trip from Fremantle to Derby *via* Ports, grounded in the vicinity of the entrance to the channel leading to Denham.

(b.) That the grounding was caused by the Master mistaking the Mark buoy in North side in the channel for the outer or Westerly buoy.

(c.) Under the circumstances owing to the haze preventing the Master from verifying his position by bearings from the headlands, and the fact that the lead would give little warning of the approach to shoal waters, more care should have been exercised when approaching Bar Flats, and the speed of the ship reduced to "slow" until the vessel's position had been definitely ascertained.

(d.) Considering the past good record of the Master and the fact that the vessel did not sustain any injury, I recommend that no further action be taken.

C. J. IRVINE,
Chief Harbour Master.

MISSING FRIENDS.

G. W. BAWDEN, medium build, age about 33 years, height 5ft. 7in. or 8in., dark hair, dark moustache and short dark beard, oval face, sunburnt complexion, broad forehead. (Information to the Criminal Investigation Branch, Perth.—B2/13609.)

MICHAEL DWYER, a native of Ireland (no description), who settled in Australia about the year 1860. His brother "Patrick," an officer in the 88th Connaught Rangers, was stationed in India, where he subsequently died, leaving a wife and four children, three girls and a boy. In 1875 Michael Dwyer visited India, returning to Australia without seeing his relations. His brother's wife about that time became a nun at Agra (the provisional headquarters of the Nuns of Jesus and Mary in India in those years), and has since died; her three daughters are now nuns of the same sisterhood. (Information to the Criminal Investigation Branch, Perth.—B2/13611.)

JOHN BAKER, age about 57 years, a miner (no further description), who kept the Cannington Hotel, Cannington, about 12 years ago, subsequently sold out and left for England with his wife, and they are supposed to have returned to this State. (Information to the Criminal Investigation Branch, Perth.—B2/13609.)
