SUBSIDIES ON SHIPMENTS OF LEAD ORES.

SUBJECT to the following conditions, subsidies will be granted to shippers of lead ores at the rates herein stated, for one year from the date hereof, viz.:—

1. Such ore shall be the produce of mines in the State of Western Australia situated north of the Tropic of Capricorn, and shall be shipped from ports in the said State lying north of the said Tropic to any other ports within or without the Commonwealth of Australia.

2. The owner of the ore shall send notice to the Department of Mines, Perth, of his intention to ship ore and claim subsidy thereon, and of the probable quantity to be shipped and date of shipment, at least three weeks before each shipment, and forthwith after shipment shall forward to the said Department a duplicate copy of the bill of lading and a full statement of the gross and net quantity of ore shipped, its assay value for base and precious metals therein contained, and its estimated net value at the port of shipment, together with any other information which may be from time to time called for by the said Department relative to the cost of mining and marketing and value of such ore.

3. The owner shall, before or forthwith after each shipment of ore, forward to the Department of Mines at Perth a fair sample of such ore for assay purposes, of not less than two pounds weight. The sample shall be a fair average sample of the parcel of ore shipped, and shall be taken by the owner in accordance with ore-buyers' practice approved by the State Mining Engineer.

4. No subsidy shall be payable (a) on any parcel of ore of less weight than five tons, or (b) on any ore the gross value of which, taking the metals contained according to assay at the current prices in London for the week of shipment, exceeds £13 per ton, or (c) on any ore of a gross assay value of less than £6 per ton, unless the Minister is satisfied that such ore is marketable with reasonable expectation of realising enough to cover expenses of shipment, treatment, and sale.

5. The total amount of subsidy payable shall not exceed an average disbursement of £50 per month, and claims will be paid in order or priority of shipment. The Minister shall decide and apportion the amounts pay-

able to various claimants in the event of the claims exceeding the amount of subsidy available.

6. When the price of lead in London is £13 12s. 6d. a ton, the subsidy payable shall be 5s. per net ton of ore, but shall be decreased at the rate of one shilling and eightpence per ton for every two shillings and sixpence that the price of the metal rises above £13 12s. 6d., until no subsidy is payable. The subsidy shall be increased at the rate of fourpence per ton for every two shillings and sixpence that the price of the metal falls below £13 12s. 6d. per ton until the maximum subsidy of seven shillings per ton of ore is reached; beyond which amount no subsidy shall be payable.

7. The price of lead on which the subsidy is based shall be the average quotation for soft, foreign lead for the week in which shipment is made, as given in George Smith & Son's weekly reports or other published list of London metal market prices approved by the Minister.

8. Accounts for subsidy shall be rendered in triplicate on Treasury Form No. 10, and shall be endorsed by the claimant with a statutory declaration that all particulars contained therein are true and correct.

9. Copies of all account sales, showing the particulars of sale and all expenses in connection therewith of each parcel of ore, shall be furnished by the owner to the Department of Mines immediately after receipt of same by the said owner, and all payments of subsidy shall be subject to final adjustments in accordance with the figures of net tonnage and assay value on which the parcel is sold, if these are found to make material difference in the amount payable as reckoned from the shipper's statement of weights and value.

10. The Minister or any person deputed by him shall have full power and authority to settle finally any question as to the meaning of the foregoing conditions, and from time to time to make such other conditions, not in consistent therewith, as may seem to him necessary for fuller explanation thereof in order to carry out the intention of the Government in providing the subsidies.
