R. CECIL CLIFTON,
Under Secretary for Lands.

LAND OPEN FOR SELECTION.

Department of Lands and Surveys.

IT is hereby notified, for general information, that the lands described hereunder will be available for selection on the days as hereinafter shown, under Parts V. and VIII. of the Land Act and its amendments, and the Regulations framed thereunder.

The lands marked with an asterisk are also available under Part VI.

Applications must be lodged with the Government Land Agent for the District in which the land is situated.

Any application may be lodged before the fixed date but will be treated as having been received on that day; if there are more applicants than one for any lot the application to be granted will be determined by the Land Board, and should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, after the closing of the date for receiving applications, notice will be given in the *Government Gazette* and at least one

newspaper advising the applicants for the blocks of the date, time, and place of the meeting of the Board, to deal with the matter; but it shall not be obligatory on the Department to give any other notice.

If an applicant wishes to appear before the Land Board in person, he may apply to the Head Office for a certificate to the Railway Department, which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue.

Land specified as carrying an Agricultural Bank advance is available subject to the special condition that an expenditure of not less than one-fourth of the amount set out shall be made on prescribed improvements in each of the first four years of the lease; but this shall not release the holder from any covenant in the Agricultural Bank Mortgage requiring the improvements to be made at an earlier date. Such advance is subject to the usual conditions governing a loan from the Agricultural Bank, particulars of which may be had on application to the Managing Trustee. Applications for advance must be accompanied by a fee of one per cent.

The areas which are open under Part V. are open under Section 55 (Residential Conditions) and only under Section 56 (Non-residential Conditions) to those persons already holding their full complement under Section 55 in the immediate vicinity.

OPEN TUESDAY, 21st NOVEMBER, 1911.

Starving Stock and Food for Starving Stock.

1. *Starving Stock.*—Where the natural feed or water has failed in any stock district through drought, and it is necessary for the preservation of the stock that they should be removed, they will be carried at the ordinary mileage rates on the outward journey, and free on the return journey when they are returned to their original pastures. To obtain this concession, it is necessary that a certificate from the Stock Inspector of the District in which the sender's holding is situated, and a statutory declaration from the owner of the stock, that the natural feed or water has failed on his holding, and that it is necessary to remove the stock, be handed in to the Department when the stock is consigned. On the return journey a statutory declaration that the stock are being returned to their original pastures must be handed to the Department by the owner. Within one month of their arrival at destination station, a certificate from the Stock Inspector of the District must be produced by the owner, and if this certificate is not produced, the owner will be liable to pay full ordinary rates for such return journey.

If a greater number of trucks are used on the return journey than on the forward journey, or if the stock are carried a greater distance on the return than on the forward journey, the ordinary mileage rates will be charged for the additional trucks or for the extra distance carried.

2. *Food for Starving Stock.*—In *bona fide* cases in which hay, straw, chaff, green fodder, ensilage, mangel-wurzel, molasses, maize, turnips, and all classes of food have been used solely for the purpose of keeping starving grazing stock alive, through mileage rates upon main and branch lines will be charged, and a rebate of 25 per cent. off such rates will be allowed, subject to the following conditions:—

The rebate will be made after the expiration of one month from the date of application, conditionally upon the production of a statutory declaration to the satisfaction of the Commissioner from the pastoralists or other settlers affected that the natural feed has failed through the drought, and that the food carried by rail has been used within the State solely for feeding grazing stock that would otherwise have perished through starvation. No rebate will be given on consignments to stations within a radius of 100 miles of Fremantle.

In those cases where the full rate is levied in the first instance, no reduction on such charges will be allowed unless application for the concession is made, and the necessary certificates tendered within three calendar months from the date of trucking.

To operate from 10th November, 1911.

All work done on Christmas Day and Good Friday shall be paid for at the rate of double time, and any hairdresser employed on either of the said days shall be paid for at least one hour's overtime.

5. *Termination of Employment.*—One week's notice by either party shall terminate the employment except in the case of incompetence or misconduct on the part of the worker.

6. *Apprentices.*—(i.) No person shall, after the date of this award, be engaged by any master hairdresser as an apprentice, or to learn the trade of hairdressing, except under and in the manner prescribed by this award.

Any person now learning the trade of hairdressing with a master hairdresser may at any time, and shall within one year from the date hereof, be duly apprenticed, and in such case the term already served by him with any master hairdresser shall be deemed part of the four years hereinafter prescribed as the term of apprenticeship. At the expiration of one year from this date every person not so apprenticed in the manner herein prescribed shall, if employed by a master hairdresser in the business of hairdressing, be deemed to be, and be paid the wage of a hairdresser.

(ii.) The period of apprenticeship shall be four years. A probationary period of three months previous to being bound shall be lawful, and such probationary period shall be deemed portion of the term of apprenticeship.

(iii.) The number of apprentices that may be taken by any one employer shall not exceed the proportion of one apprentice to every three fully paid hairdressers or fraction of three in his employ.

(iv.) Should any employer from unforeseen circumstances be unable to carry out his obligations to the apprentice, he shall be allowed to transfer the apprentice to complete his term with another employer, but it shall be incumbent upon such former employer to notify the Clerk of the Court of Arbitration of the date of such transfer and when such apprenticeship commenced.

(v.) In the absence of indentures apprentices shall be bound for the term and on the conditions herein provided, and subject to the following provisions:—

(*a.*) Any employer taking an apprentice shall, within thirty days thereafter, give notice thereof to the Clerk of the Court of Arbitration in the form hereinafter provided (Form 1 in Appendix hereto), and shall be deemed to undertake the duty which he agrees to perform as a duty enforceable under this award, and shall, subject to the provisions of subclause (xii.) hereof, pay the apprentice the rate of wages herein provided.

(*b.*) At the end of the period of apprenticeship the employer shall give the apprentice a certificate (Form 6 in Appendix hereto) to show that he has served his apprenticeship. Should the employer at any time before the termination of the apprenticeship desire to dispense with the services of the apprentice he may, with the consent of the apprentice, transfer him to another employer carrying on business within a reasonable distance of the original employer's place of business willing to continue to teach the apprentice and to pay the wages prescribed by this award according to the total length of time served, and generally to perform the obligations of the original employer. He shall also give to the apprentice a certificate of the time served and of the rate of wages paid, and shall give notice to the Clerk of the Cort of Arbitration of such transfer in the form hereinafter provided (Form 2 in Appendix hereto). It shall not be obligatory upon any employer to find any apprentice another employer if he shall so misconduct himself as to entitle the employer to discharge him, but he shall nevertheless give him a certificate for the time actually served.

(*c.*) An employer shall be deemed to fail in his duty to his apprentice if he neglects to keep him constantly at work, but slackness of work may form a proper ground for transferring him to a master willing to undertake the responsibility of teaching him.

(*d.*) When an apprentice is discharged for cause the employer shall send notice in writing of the discharge and the cause thereof to the said Clerk of the Court of Arbitration (Form 3 in Appendix hereto).

(vi.) The minimum weekly wage payable to an apprentice shall be:—

During the first year's service—10s. per week.

During the second year's service—£1 per week.

During the third year's service—£1 10s. per week.

During the fourth year's service—£2 per week.

(vii.) Every apprentice shall be bound to submit to examination by the Board of Examiners hereinafter constituted, at the expiration of each period of one year of his service. Notice of his intention to submit himself to examination shall be given by the apprentice to the Clerk of the Court of Arbitration at least fourteen days before the termination of each yearly period, and may be given in the Form numbered 4 of the Appendix hereto. Every such notice shall be accompanied by a fee of 2s. 6d.

(viii.) Upon the receipt of such notice the Clerk of the Court of Arbitration shall furnish the apprentice with an examination certificate in the Form 5 in the Appendix hereto.

(ix.) The Clerk of the Court shall notify the Board of Examiners of the names and addresses of all candidates desirous of submitting themselves to examination.

The examination shall be held at the place where the apprentice is employed, and it shall be the duty of each employer to provide such necessary material and machinery as may be required, and in all ways to facilitate the conduct of the examination.

(x.) The examination shall be held during the month of November in each year, on a date to be fixed by the Board of Examiners.

The Board of Examiners will consist of two persons skilled in the trade, one of whom shall be nominated by the union, and the other by a majority of the employers carrying on business within the area to which this award applies, or, failing such nominations, such person or persons as may be appointed for that purpose by the Court.

In the event of a disagreement between the members of the Board the matter in dispute shall be referred to a third person agreed to by them or nominated by the Court or the President thereof at the request of either member.

The Board of Examiners will examine the work of and inquire into the diligence of each apprentice, and as to the opportunity provided by the employer to each apprentice to learn.

(xi.) The Board shall report to the Court in writing as to the result of each examination.

Every apprentice shall be bound to produce to the Board of Examiners his examination certificate hereinbefore referred to, and the same shall be kept by the examiners and returned to the apprentice, with the necessary endorsement at the conclusion of the examination.

(xii.) It shall be lawful for the employer to withhold from any apprentice who fails to satisfy the examiners, the increase in wages accruing to the apprentice until the then next increase is due under the provisions of subclause (vi.) hereof.

(xiii.) If the Board of Examiners reports to the Court that any employer has not provided sufficient opportunity for the apprentice to learn, the employer shall be deemed *prima facie* guilty of a breach of this award under Section 88 of the Act, and may be summoned before the Court. Upon any such proceeding the report of the examiners may be received in evidence.

(xiv.) Such fees may be paid by the Clerk to the examiners as the Court shall allow.

7. *Record Book.*—Each master hairdresser shall keep at his hairdressing saloon, or at each of such saloons if more than one, a book containing a record of—

(*a.*) The names of all workers employed by him, and to whom this award applies;

(*b.*) The wages paid to each such worker; and

(*c.*) The hours worked by each such worker.

On the first working day of each week the said book shall be entered up by the employer so as to show the aforesaid particulars for the week then immediately preceding.

The said book may be inspected on any week day except Saturday at any time during ordinary business hours by the secretary for the time being of the workers' or employers' union, and also by any person thereunto authorised by the President of the Court of Arbitration.

8. *Area.*—This award shall operate over the area comprised within a radius of fourteen miles from the General Post Office in the City of Perth.

IN WITNESS WHEREOF this award has been signed by the President of the Court, and the seal of the Court has been hereto affixed this thirty-first day of October, One thousand nine hundred and eleven.

THE SCHEDULE HEREINBEFORE REFERRED TO.

1. *Definitions.*—In this award, unless the context otherwise indicates, and without limiting the ordinary meaning of the term,—

(ix.) The Clerk of the Court will notify the Board of Examiners of the names and addresses of all candidates desirous of submitting themselves for examination. The examination will be held at the place where the apprentice is employed, and it shall be the duty of each employer to provide such necessary material and machinery as may be required, and in all ways to facilitate the conduct of the examination.

(x.) The first examination will be held in the month of December, 1912, and subsequent examinations in the month of December of each year. The Board of Examiners will consist of the secretary of the workers' union, or such other person as may be nominated by the union in his stead, and a person skilled in the trade to be nominated by the employers carrying on business within the area to which this award applies; or, failing such nominations, such persons as may be appointed for that purpose by the Court. FREMANTLE HARBOUR TRUST.

Colonial Secretary's Office,
2343/11. Perth, 10th November, 1911.

HIS Excellency the Governor in Council has been pleased to approve of the following amendment to Regulation No. 118, made by the Commissioners of the Fremantle Harbour Trust on the 10th October, 1911.

F. D. NORTH,
Under Secretary.

FREMANTLE HARBOUR TRUST.

Amendment to Regulation No. 118.

The amendment, entitled "Wheat for Export," and dated 15th November, 1910, of No. 118 of the Regulations made by the Fremantle Harbour Trust Commissioners on the 6th day of September, 1907, is hereby repealed, and the following amendment of Regulation No. 118, aforesaid, enacted in lieu thereof:—

REGULATION No. 118.

Wheat for Export.

Regulation No. 118 is hereby amended by adding thereto the following:—

Wheat in bags brought to the Port of Fremantle for export will be handled by the Commissioners on the following terms:—

1. *Weighing, Marking, etc.*—All weighing which is required to be done on the premises of the Trust will be carried out by the Trust, as requested from time to time, and will be of truck loads, by truck weighbridges. The loaded trucks (whether the wheat is stacked in the North Quay Grainshed or worked direct from the trucks into the vessels' holds), after having the sheets removed and before the doors are lowered, will be weighed for their "gross" weight, and after the accepted bags have been removed from the trucks and the doors locked up again, the trucks will be again weighed on the same weighbridge (they not having been moved in the meantime) for their "tare" weight.

In the absence of instructions to the contrary, all trucks will be weighed.

Wheat can be worked direct from the trucks into ship's holds from either side of the grain shed; in cases where it is so dealt with, trucks standing on the land side, the shed conveyors will be used, and the weighing will be the same as though the bags were stacked, *i.e.*, the truck will be weighed and tared without moving from the weighbridge. When trucks are put alongside the ship for the wheat to be taken on board by means of portable elevators, cranes or ship's gear, the weighing will still be in truck loads, but the trucks may not be tared on the same weighbridge, as it may not be convenient to work the empties back over the same bridge that the fulls were weighed upon, though this will be done wherever possible.

Where requested, the Trust will supply a list or note of the weights arrived at, as stated above, for record purposes only, but this list or note of weights will in no sense constitute a receipt for weights, nor be deemed as qualifying or embodying any condition of any receipt.

All weighbridges will be tested each morning and adjusted where necessary, and the weigh clerks have instructions that this should be done in the presence of the merchants' representatives, who should, therefore, make a point of seeing this done, to prevent disputes afterwards. The work cannot be delayed, however, waiting for merchants' representatives to be present.

2. *Receipts.*—The Trust will give receipts, at the Trust's main office, Cliff Street, Fremantle, once daily, for all bags received for storage purposes only, on a special "Fremantle Harbour Trust Wheat Receipt" form only.

Where requested, the Trust will similarly give receipts for rejected bags on a "Fremantle Harbour Trust Rejected Wheat Receipt" form only, but this will be only in special cases where the rejected bags are allowed to remain on the premises of the Trust.

No receipts will be given for bags loaded direct from truck to ship, at any place, whether the bags are passed over the conveyors at the grain shed or worked into the ship from the railway lines alongside the ship, at any berth in the Port.

3. *Rejected Wheat.*—As regards bags rejected at ship, or shed, or other spot where handling is done, these shall not be allowed to remain on the premises of the Trust, but shall be either left in the trucks during the course of handling out the accepted bags, or placed back in the trucks before the trucks are removed.

If, however, it is particularly requested by the shipper that these rejected bags shall remain on the premises of the Trust, they will be allowed to so remain for a period of 48 hours after being unloaded, at the termination of which period they will be loaded into railway trucks and sent to the railway yards at North Fremantle, consigned to the merchants on whose account they were originally discharged, and at the entire risk and expense of the said merchants.

4. *Open Air Stacks.*—Should it become necessary to form open air stacks, the Trust will not cover the bags so stacked in the open air, but will, if requested, place over such stacks such covers as the merchants see fit to provide, but without responsibility on the part of the Trust, and the charge for such services shall be the actual labour cost of the men employed to do the work.

For dunnage, the Trust will, where requested, permit the use, free of rent, of any material which they may have on hand suitable for dunnage, but the merchant must pay all cost of collecting, laying, and returning such material. This special provision shall not throw upon the Trust any onus to supply any dunnage whatever, nor any responsibility in regard to such dunnage as may be supplied.

5. *Wheat received from Coastal Ports by Water.*—Where wheat is brought to the port by water for export, and has to be landed before shipment, the same conditions and charges as are herein set out for wheat brought down by land will apply.

Where such wheat is transhipped to the export vessel overside direct vessel to vessel, and not landed, the Trust will not handle it.

6. *Responsibility.*—In no circumstances will the Trust Commissioners accept responsibility for weight, condition, value, or character of the bags or contents, nor will they accept responsibility for loss or damage to bags or contents, while on their premises, by reason of the ravages of vermin, or from dirt, or fire, or the character or natural deterioration of bags or contents, in the case of shed stored bags, or for loss or damage to bags or contents from vermin, dirt, fire, robbery, character or natural deterioration of bags, or weather, in the case of open air stored bags.

In regard to all rejected bags, as these will be allowed to remain on the premises of the Trust for a limited time, and then only in specially arranged cases (as already set out herein above), for the convenience of merchants, the Trust Commissioners will accept no responsibility regarding them for shortage or loss, or damage, of any sort, from any cause whatsoever.

In regard to wheat worked direct from railway truck to ship, the Trust Commissioners will accept no responsibility for loss or damage from any cause whatsoever. The Trust will require a record of the bags so worked to be supplied by the merchants daily, such record to be in agreement as to the number of bags, with the receipt obtained by the merchant from the ship.

The Trust Commissioners will accept no responsibility whatever for any demurrage charges made by the Railway Department or shipowners in respect of any delay in the work from any cause whatsoever.

Insect pests, etc.—Should any wheat on the premises of the Commissioners be discovered to be affected with weevil or other insect pests, or to have deteriorated or become in such a condition as in the opinion of the Commissioners or the Wharf Manager to involve risk of deterimentally affecting other stacks of grain or any other cargo in the hands of the Commissioners, or any of

the premises or property of the Commissioners, the Commissioners may order its removal off their premises, or to some other position on ther premises as may be decided by them. In the event of such removal not having been effected to the satisfaction of the Commissioners in the time and in the manner stipulated in each case, the Commissioners may remove such grain at the entire risk and expense of the owner. The cost of such removal and keeping and storing shall be paid by the owner of the grain from which such loss or damage arose.

Shortage in Wagons.—The Trust Commissioners will not accept any responsibility for any number of bags beyond the number for which they have given receipts. Should, however, any surplus bags be found in the stacks, these will become the property of the merchant in whose stacks they are found, up to the total of the shortages notified during the course of the work. All charges upon them must, however, be first paid.

7. *Handling Charges.*—The handling charges on wheat for shipment will be as follows:—

I.—*Where wheat is handled at or places other than at North Quay Grain Shed*:

(a) Full service, *i.e.*, receiving and delivering, including stacking, where required, Trust giving a receipt for number of bags only, per bag, 1½d.

2. Bogie wagons, per wagon, 1s. 6d.

(These charges include a note of weights, where requested, but not a receipt for weight.)

On rejected wheat or wheat delivered locally and not stripped:

(e) For each service performed, such as—
1. Handling from railway wagons to stack, and *vice versa*, each way, per bag, 1d.
2. Loading up and stowing railway wagons (but not including crane or elevator hire), per bag, 1d.
3. Turning over, or sorting, or re-stacking, per bag, 1d.
4. Handling in railway wagons, where bags not taken out of same, per bag, ½d.

(f.) Weighing and (or) marking, same as (f) above, per bag, ¼d.

8. *Work in Overtime Hours.*—Where the performance of any service causes the work to be done in, or to extend into hours other than the regular working hours of the port, the particular charge laid down for such service will in every instance be increased by the additional amount payable to the men as overtime rates of pay. The Trust reserves to itself the right, at all times, to continue the work beyond the regular working hours of the port, if same be necessary in the opinion of the Wharf Manager, whether from any shortness of labour, or from any other reasons whatsoever, and in such cases the additional charges referred to in this paragraph will become due and payable.

All wagons commenced will be finished within each day, no carry over or part wagons to another day being permitted, unless otherwise decided by the Wharf Manager.

9. *Storage Charges on Wheat.*—The storage charges on wheat shipped will be as follows:—

(a.) For shed storage, but not to involve responsibility for damage to bags or contents by vermin, dirt, fire, character of bags, or natural deterioration, per week, per bag, one-sixth of a penny.

(b.) For open air storage space, but not to involve responsibility for damage to bags or contents by vermin, dirt, fire, robbery, character of bags, or natural deterioration or weather, per week, per bag, one-twelfth of a penny.

10. *Storage Charges on Wheat not Shipped.*—In all cases of wheat stored on the premises of the Trust, whether in a shed or the open air, ostensibly for shipment, but eventually not shipped, but taken away by merchants for other purposes, the storage charges will be the same, as set out in Fremantle Harbour Trust Regulation No. 163, for ordinary general cargo.

11. *Lay Days, etc.*—The scale of berthing dues and lay days in operation in the port for vessels working general cargo will not apply to vessels loading wheat, which will be dealt with on the following basis, viz.: ½d. per ton, per day of 24 hours, for each ton of the nett register of the vessel, for the first six days that she occupies a loading berth, and ¼d. per ton, per day, on the nett register for each day of 24 hours subsequent to the first six days that she occupies a loading berth. Sundays and port holidays will not be included where no work done. These charges will be calculated from the time of taking up the loading berth till departure therefrom, and will be computed in quarter days, *i.e.*, six hours to each quarter day. This scale of charges will also apply to vessels loading part cargoes of wheat, where such part cargoes are in excess of one-fourth of the nett registered tonnage of the vessel.

To vessels loading less than one-fourth of their nett register, the scale of berthing dues in force for general cargo ships, as laid down in Regulation No. 105, will apply.

The provisions of this special scale of lay days for wheat ships shall in no way affect the control of such, or of any vessels in the port, vested in the Harbour Master by the Fremantle Harbour Trust Act, or Regulations made thereunder.

12. *Use of Elevators and Conveyors loading ships.*—In all cases where the gantry loaders on the North Quay are available for use at a ship, and also where one or more of the portable elevators are available for use at a ship, at either the North Quay or any other berth, the ship must use such as are available, and, in the opinion

of the Wharf Manager, applicable to her loading, and the Harbour Trust charges to be paid by the shipowner for the use of such appliances will be for continuous work between the hours of 8 a.m. to 5 p.m., Monday to Friday, and 8 a.m. to 1 p.m. Saturday, in loading vessels, for each gantry loader, crane, or conveyor, per hour, or portion of an hour, 5s.

The cost over and above the ordinary cost of day work of all labour and supervision employed by the Trust, in connection with the working of these appliances, or any of them, during hours other than the ordinary working hours of the port, shall also be paid to the Trust by the shipowner, in addition to the hire rates already stated herein above.

Continuous work shall be deemed to be the continuous time during which these appliances or any of them are retained at a ship, and not the time during which they are actually working.

The ship that is first ready to use these appliances, or any of them, shall be deemed to have priority of claim to same, and in the event of any such appliances being, in the opinion of the Wharf Manager, available for use, and not used by a ship, the same rates will become chargeable against the ship, as though the said appliances had been used by her.

These charges will include the use of shoots in the vessels' holds, where such are available and, in the opinion of the Wharf Manager, applicable to the ship being loaded, and the Trust will rig these shoots and will keep them rigged and adjusted, and the charge to the shipowner for such rigging service will be at the rate of 10s. per hatch worked per day.

Where it is necessary in the opinion of the Wharf Manager, or required by the exigencies of the work to rig or adjust shoots or other gear on board ships, in hours other than the ordinary working hours of the port, the charge laid down herein for the use of these shoots or other gear shall be increased by the additional amount payable to the men engaged on the work as overtime rates of pay.

Adopted and passed by the Fremantle Harbour Trust Commissioners at a meeting of the said Commissioners held this 10th day of October, 1911.

The Common Seal of the Fremantle Harbour Trust was at the same time affixed and impressed by order and in the presence of

E. ALLNUTT,
[L.S.] Acting Chairman.
