## THE SCHEDULE.

## THE INSPECTION OF MACHINERY ACT, 1904.

REGULATIONS RELATING TO THE CONDUCT OF EXAMINATIONS,  
QUALIFICATIONS OF APPLICANTS, AND THE GRANTING  
OF CERTIFICATES TO STEAM ENGINE-DRIVERS.

## GENERAL PROVISIONS.

1. The Board of Examiners appointed under "The Inspection of Machinery Act, 1904" (hereinafter termed the "Board") shall examine or cause to be examined, on the subjects hereinafter specified, applicants for certificates of competency as engine-drivers under Sections 53 and 54 of the said Act. At all meetings of the Board any two members shall be a quorum.

2. The Minister may, in a like manner, appoint any official person employed in the Inspection of Machinery Department to act as Secretary to the Board of Examiners, and such person shall act under the Board's direction.

3. Examinations will be conducted by the Board at such times and places as may from time to time be determined, such examinations to be advertised when practicable in a newspaper or newspapers published or circulated in the locality or districts concerned. Notwithstanding the above, an examination will not be held at any advertised centre, unless there be at least seven candidates.

4. Persons desirous of obtaining a certificate of competency must forward to the Chief Inspector of Machinery, Perth, notice in writing, in the form of the First Schedule annexed hereto, of his intention to present himself for examination; such notice to be lodged on or before the date advertised for closing of applications, and shall clearly state the class of certificate desired, and place of examination.

5. The notice mentioned in Regulation 4 must be accompanied by:—

- (a.) Cash, money order, or postal note to the value of 10s., which shall be paid to Consolidated Revenue, and such fee shall admit of one examination only. If a candidate absents himself from an examination and fails to furnish the Board with a satisfactory explanation of his absence within a reasonable time, his application fee shall be forfeited.

(b.) Testimonials from his employer or two persons of good repute (whose addresses shall be given) and from a certificated engine-driver, as prescribed in Regulations 17, 19, 21, 23, and 25. Such documents must specify clearly and distinctly the class of engines, giving the internal diameter of cylinders, that he has driven or assisted to drive. In a case where a candidate is unable from any sufficient cause to produce testimonials from his employer or his having driven engines, the Board may accept a statutory declaration or other sufficient proof that such candidate has driven or assisted to drive a certain engine or engines at a certain place for twelve months within a period of three years immediately prior to the date of examination, as evidence of his having had the necessary experience to entitle him to be examined. A copy of the testimonials must be forwarded along with the originals; and the latter will be returned to the last known address of the candidate after the examination.

6. Prior to the issue of any certificate, each successful candidate shall be required to furnish the Board with a medical certificate, in the form of Second Schedule hereto, that he is not subject to any physical infirmity likely to interfere with the efficient discharge of his duties as an engine-driver. This certificate will be permanently retained by the Board.

7. If in any case the Board does not deem the evidence of sobriety, experience, ability, and general good conduct produced by the applicant in compliance with these Regulations to be satisfactory, it may refuse to allow such applicant to present himself for examination.

8. If a candidate fail to pass the examination prescribed, he shall not again present himself until a period of not less than three months shall have elapsed from the date of his last examination.

9. Any person who obtains or attempts to obtain any certificate by means of fraud or false pretences or any false document, or who effaces, mutilates, adds to, or erases in any manner, the certificate issued by the Board, shall be liable to disqualification for any period the Board may think fit; and shall not, during such period of disqualification, practise as an engine-driver or present himself for examination. Any certificate obtained by any such means shall be returned to the Board and shall be cancelled.

10. No person under the age of eighteen years, nor any person who has not had practical experience with steam engines, boilers, and pumps, and is not a naturalised British subject, shall be accepted as a candidate for any examination.

11. No application shall be considered, and no certificate shall be issued, unless full payment of the fees as prescribed by these Regulations shall have been made to the Chief Inspector of Machinery at Perth.

12. No applicant for examination shall pay, give, or offer any gratuity or remuneration whatever to any member of the Board, or to any officer of the Department, and any applicant who shall offer to give remuneration shall be regarded as having failed in his examination, and shall be ineligible to present himself for a period of at least six (6) months, and any fees which may have been paid by the applicant shall be forfeited and paid into Consolidated Revenue.

13. Every certificate issued under these Regulations shall bear the impress of the seal of the Board, and shall contain the signature of the grantee.

14. Every holder of a third or second class certificate granted under these Regulations shall, in the event of a higher grade certificate being granted, and prior to its issue, surrender to the Board his former certificate for cancellation.

15. Any person in charge of a steam engine used for mining, factory, or other purposes, shall not, under any pretext whatever, unless relieved by a competent person holding the required certificate, absent himself or cease to have continual supervision of such steam engine. Any person so offending shall be deemed guilty of a breach of these Regulations.

## CERTIFICATES OF COMPETENCY.

16. The certificates of competency to be issued by the Board of Examiners shall be of five classes, viz.:—First, Second, and Third for stationary engine-drivers; Locomotive and Traction; and Traction certificates.

## FIRST CLASS ENGINE-DRIVER'S CERTIFICATE.

17. An unrestricted First Class certificate shall entitle the holder thereof to drive and have charge of any steam engine used for mining, factory, or other purposes; but not to drive a locomotive, traction, or steam engine forming part of the propelling machinery on board of any local ship, vessel, or steamer employed in carrying goods or passengers for reward. An applicant for a First Class certificate must produce to the Board satisfactory evidence—

- (a.) Of his respectability of character.
- (b.) That he can read and write the English language and is conversant with the elementary rules of arithmetic.
- (c.) That he has been the holder of an unrestricted Second Class certificate under "The Inspection of Machinery Act, 1904" or a certificate equivalent thereto in the opinion of the Board, for a period of not less than twelve (12) months, and that he has during six (6) months of that period been actually assisting to drive a winding engine under the supervision of a First Class certificated engine-driver for at least twelve (12) hours per week.
- (d.) As to his winding engine experience and general good conduct, supported by testimonials signed by his employer or the engineer and by a First Class certificated engine-driver under whom the applicant has been practising. The testimonial from the First Class certificated engine-driver shall be signed and declared by the said engine-driver before a Justice of the Peace, or a Commissioner for taking Affidavits, to be true and correct in every particular.
- (e.) That he is at the date of examination not under the age of 21 years and not over the age of fifty years. A candidate over fifty (50) years of age who satisfies the Board that the necessary experience in driving winding engines had been gained prior to attaining the age of fifty years, may, in the discretion of the Board, be considered eligible for examination. Should any doubt exist as to the applicant's age, he will be required to produce a certificate of birth or baptism.

18. The applicant must pass a creditable examination as to the construction of various stationary steam engines, pumps, and boilers in general use; and as to the details of different working parts external and internal; be able to explain how to detect defects, and what action is necessary in the ordinary emergencies which may arise in connection with winding and other engines, pumps and boilers, and be able to work out certain elementary arithmetical questions.

## SECOND CLASS ENGINE-DRIVER'S CERTIFICATE.

19. An unrestricted Second Class certificate shall entitle the holder thereof to drive and have charge of any steam engine used on or in connection with a mine, factory, or other place, but does not entitle him to raise or lower men in any shaft or take charge of any locomotive or traction engine or a steam engine forming part of the propelling machinery on board any local ship, vessel, or steamer employed in carrying goods or passengers for reward. An applicant for a Second Class certificate must produce to the Board satisfactory evidence—

- (a.) Of his respectability of character.
- (b.) That he can read and write the English language and is conversant with the elementary rules of arithmetic.

- (c.) That he has been the holder of an unrestricted Third Class engine-driver's certificate under "The Inspection of Machinery Act, 1904," or a certificate equivalent thereto in the opinion of the Board, for a period of not less than twelve (12) months, and that during six (6) months of that period for at least twelve (12) hours per week he has been actually assisting to drive a steam engine, the area of the cylinder or cylinders of which exceeds that of a cylinder of twelve (12) inches internal diameter. This clause shall not apply to an applicant who has served an apprenticeship of at least five years in an engineer's workshop on the making and repairing of steam engines, boilers, pumps, etc., or if the applicant has not served an apprenticeship as aforesaid he must prove that for not less than five years he has been employed as a journeyman mechanic in an engineering workshop in the making or repairing of engines, boilers, pumps, etc.
- (d.) That he is at the date of examination not under the age of nineteen (19) years, nor over the age of fifty (50) years. An applicant over the age of fifty years, who satisfies the Board that the necessary experience in driving stationary engines had been gained prior to attaining the age of fifty years, may, in the discretion of the Board, be considered eligible for examination. Should any doubt exist as to the applicant's age, he will be required to produce a certificate of birth or baptism.

20. An applicant must pass a creditable examination and be conversant with the working parts of various stationary engines, pumps, and boilers in general use, the different parts and uses of same, including the feeding of boilers, running of engines, and be able to explain how to detect defects, and state what action is necessary in the ordinary emergencies that may arise in the management and maintenance of such engines, pumps, and boilers which a Second Class certificate entitles him to take charge of, and to work out certain elementary arithmetical questions.

#### THIRD CLASS ENGINE-DRIVER'S CERTIFICATE.

21. An unrestricted Third Class certificate shall entitle the holder thereof to drive and have charge of any steam engine used on or in connection with a mine, factory, or other place, the area of the cylinder or cylinders of which does not exceed that of a cylinder twelve inches internal diameter, provided that such engine is not a winding engine, a locomotive, traction engine, or a steam engine forming part of the propelling machinery on board of any local ship, vessel, or steamer employed in carrying goods or passengers for reward. An applicant for a Third Class certificate must produce to the Board satisfactory evidence—

- (a.) Of his respectability of character.
- (b.) That he is able to read and write the English language, and is conversant with the elementary rules of arithmetic.
- (c.) That for a period of not less than twelve (12) months and for not less than twelve (12) hours per week he has been actually employed under a certificated engine-driver assisting to drive a steam engine with a boiler and accessories connected therewith, used for mining, factory, or other purposes.
- (d.) That he is on the date of examination not under the age of eighteen (18) years, nor over the age of fifty (50) years. An applicant over the age of fifty years, who satisfies the Board that the necessary experience in driving stationary engines had been gained prior to attaining the age of fifty years, may, in the discretion of the Board, be considered eligible for examination. Should any doubt exist as to the applicant's age, he will be required to produce a certificate of birth or baptism.

22. An applicant must pass a creditable examination as to the use of the principal parts of stationary steam engines, pumps, and boilers in general use, and be able to describe the various fittings and working parts and their uses; also to state what action is necessary in the ordinary emergencies which may arise in connection with such engines, pumps, and boilers which a Third Class certificate entitles him to take charge of; and other minor matters dealing with the safety and proper working of boilers; and be able to work out certain elementary arithmetical questions.

#### LOCOMOTIVE AND TRACTION ENGINE-DRIVER'S CERTIFICATE.

23. An unrestricted Locomotive and Traction certificate shall entitle the holder thereof to drive and have charge of any locomotive or traction engine propelling itself, or moving from place to place by its own motive power and machinery, and of any stationary steam engine used in connection with a mine, factory, or other place, which it is lawful for the holder of a Second Class certificate to drive. An applicant for a Locomotive and Traction engine-driver's certificate must produce to the Board satisfactory evidence—

- (a.) Of his respectability of character.
- (b.) That he can read and write the English language and is conversant with the elementary rules of arithmetic.
- (c.) That for a period of not less than eighteen (18) months and for not less than six (6) hours per day, he has been actually employed in firing and assisting to drive a locomotive engine. A testimonial signed by the employer and by the locomotive engine-driver with whom he has been firing and assisting to drive, to the above effect, must accompany the application.
- (d.) That he is on the date of examination not under twenty-one years of age, nor over the age of fifty years. An applicant over the age of fifty years who satisfies the Board that the necessary experience in driving locomotive and traction engines had been gained prior to attaining the age of fifty years, may, in the opinion of the Board, be considered eligible for examination. Should any doubt exist as to the applicant's age, he will be required to produce a certificate of birth or baptism.
- (e.) That he is conversant with the rules of the road and the conditions under which traction engines are allowed to travel on public roads and highways, and understands the meaning of all the different lights and signals used on the Government Railways in Western Australia.

24. An applicant must pass a creditable examination as to the details of the different parts of locomotives and traction engines, and of such other stationary engines as are referred to in Regulation 19, to which an unrestricted Locomotive and Traction certificate applies. He must be able to explain the uses of the various cocks, gauges, valves, and connections on boilers, and state how temporary repairs could be effected in case of derangement to engine or boiler. He must understand the effects of impurities in water used in such boilers, and the methods adopted to keep the boiler clean, and to work out certain elementary arithmetical questions.

#### TRACTION ENGINE-DRIVER'S CERTIFICATE.

- (b.) That on the date of application the certificate presented by him is still valid in the State or country in which it was issued.
- (c.) That such certificate has been forwarded to the Chief Inspector of Machinery, Perth, for retention during the currency of Interim or temporary certificate.

29. All applications for Interim certificates mentioned in the next preceding Regulation must be in the form of Third Schedule hereto, and must be accompanied by the prescribed fee and medical certificate, in the form of Second Schedule.

#### COPIES OF ENGINE-DRIVERS' CERTIFICATES.

30. Whenever an engine-driver proves to the satisfaction of the Board that he has, without fault on his part, lost or been deprived of any certificate previously granted to him under the provisions of the "Inspection of Machinery Act, 1904," "Mines Regulation Act, 1895," and its amendments, or "Coal Mines Regulation Act,

1902," and who applies for a copy of the same by filling up the prescribed form (Fourth Schedule hereto), the Board shall, upon payment by the engine-driver of the prescribed fee, cause a copy to be made of the certificate to which the applicant appears to be entitled, which copy shall be suitably endorsed and certified to by the Chairman and Secretary of the Board and delivered to the applicant. Any such copy so made out, endorsed, and certified as aforesaid, shall have the effect of the original certificate, provided that the applicant shall also prove to the satisfaction of the Board that he has made reasonable efforts to recover his lost certificate.

#### RESTRICTED ENGINE-DRIVER'S CERTIFICATE.

31. Notwithstanding anything contained in the preceding Regulations, the Board may restrict the privileges conferred by any certificate as it may deem advisable. Such restriction shall be endorsed on the face of the certificate and may be cancelled by the Board upon production of satisfactory evidence of further experience and payment of the prescribed application fee and fee of 5s. No application for a higher grade certificate will be entertained until such restriction has been cancelled.

#### COMPLAINTS.

32. If an owner or any responsible person under him, or any Inspector appointed under the Acts mentioned in these Regulations, represents at any time in writing to the Board that any certificated engine-driver is by reason of incompetency or gross negligence unfit to discharge his duties, or that he has been convicted of any offence against the "Inspection of Machinery Act, 1904," "Mines Regulation Act, 1895" and its amendments, "Coal Mines Regulation Act, 1902," or any other Act relating to engine-drivers' certificates in force for the time being; or that he has been guilty of misconduct likely to be detrimental to the proper or efficient discharge of his duties; or that he has developed any symptoms of epilepsy or other serious complaint which would render him unfit to efficiently perform his duties as an engine-driver, the Board may call upon the engine-driver to appear before such persons as may be appointed by the Minister (one of whom shall be a Police or Resident Magistrate) to show cause why he should not be suspended, reduced, or disqualified from acting as an engine-driver. The persons appointed as aforesaid to conduct such inquiry may call such evidence as is deemed necessary, and such evidence shall be on oath or affirmation. The Board shall be furnished with depositions taken at such inquiry together with a report thereon by the persons so appointed, and if it appears to the Board that the engine-driver has failed to show good cause why he should not be disqualified, suspended, or reduced, as a certificated engine-driver, the Board may report to the Minister accordingly. The Minister may thereupon, by notice in the *Government Gazette*, alter, suspend, or cancel any certificate granted to such person for such period as the Minister may think fit.

33. With respect to any inquiry held under these Regulations the following provisions shall have effect:—

- (a.) The inquiry shall be held at such time and place as the Board may appoint, and the engine-driver shall have the right to be represented by any engine-driver duly certificated in this State, whom he may select. He shall receive 14 days' notice of the Board's intention to authorise the holding of an inquiry, and if the engine-driver intends to employ a representative he shall give at least seven days' notice of such intention to the Chairman of the Board.
- (b.) Any engine-driver shall, upon receipt of notice of the intention of the Board to hold an inquiry with reference to a complaint which has been lodged against him, deliver into the charge of the Inspector for the District, or to the Chief Inspector of Machinery, or to the Board, his certificate, which shall be returned to him should the complaint or charge not be sustained.
- (c.) The Board shall furnish to the engine-driver, not less than fourteen (14) days before the commencement of the inquiry, a statement of the case upon which the inquiry is instituted.

- (d.) The engine-driver shall, at his own expense, attend such inquiry, and may produce such evidence as he may consider necessary.
- (e.) An engine-driver may, in addition to his disqualification, suspension, or reduction, be required to defray all or part of the expense of an inquiry which may be held under the provisions of this Regulation.

## EXAMINATIONS.

36. The examinations shall be conducted partly by means of written or printed papers, and partly *viva voce*, at the discretion of the Examiners.

37. The examinations shall be essentially of a *practical* character.

38. In the examination papers the possible number of marks obtainable for each answer shall be stated.

39. The following instructions will be rigidly enforced:—

- (a.) Examinations shall commence at 9.30 a.m. on the advertised dates. Candidates shall be in their places five minutes before the time fixed. After this time no candidate will be admitted unless under very exceptional circumstances, and by express permission of the Board. Provided always that no person who has seen the examination paper shall have previously left the room. No candidate shall under any circumstances whatever be permitted to leave before the expiration of one half-hour from the time of the examination paper being given out. No writing paper, blotting paper, books, or manuscript are allowed to be brought into the examination room.
- (b.) Any candidate who arrives at the examination room with books, papers, or manuscripts in his possession, whether referring to the subject of examination or not, must give them up at the door of the examination room before taking his place.
- (c.) Perfect silence shall be maintained, and no communication, by word or otherwise, between candidates will be allowed during the examination. If any candidate wishes to communicate with the examiners he must stand up in his place.
- (d.) Any candidate violating any of these Regulations, or behaving in a disorderly manner in or about the examination room will be required to immediately leave the building; and the Board may subsequently consider the candidate to have failed in his examination.
- (e.) The candidate must write on one side only of the paper and lay each sheet, when finished, face downwards, and must take care that no other candidate shall have any opportunity of copying from it. Candidates will be held responsible if their written papers are exposed in such a manner that they may be copied by their neighbours. If the examiners are convinced that copying or collusion has taken place between two candidates, both candidates shall be liable to be disqualified by the Board.
- (f.) On the first page of each paper a candidate must write the date and place of examination. He must also place on every sheet his name in full. When he has completed his written answers, he is to fasten them together at the left-hand top corner, number them consecutively, and hand them to one of the examiners.
- (g.) In answer to arithmetical questions all workings must be shown, and no credit will be given where this is not done.
- (h.) Warning will be given ten (10) minutes before the time fixed for giving up papers. When the papers are called for, everyone is to cease work immediately.
- (i.) Places will be allotted to the candidates by the examiners. All writing materials and paper fasteners for connecting the written papers will be provided by the Department.

40. Candidates will be allowed to cancel or revise any part of their work during the time allotted for examination.

41. The members of the Board shall have equal jurisdiction as to the questions set, and shall be equally responsible for those set.

3. Every Local Authority shall report to the Board when any breach of the Act or the Regulations has been committed by any midwife, and such report shall state the nature of the breach, and, if proceedings have been taken against the midwife, the amount of the ~~fine~~ <sup>costs</sup> incurred.

4. When any report is received as provided in Regulation (2) hereof, the Board shall cause due inquiry to be made into the case and the result of such inquiry be reported to the Board.

5. If the Board decide that such case has been made out, proceedings for the removal of a name from the Register shall be commenced by the issue of a notice in writing addressed to the accused person by the Clerk on behalf of the Board. Such notice shall specify the nature and particulars of the charge alleged against the accused person, and shall inform her of the day on which the Board intend to deal with the case and decide upon the charge. The notice shall further require the accused person to forward her certificate and register of cases to the Clerk before the hearing of the case, to answer writing the charges brought against her, and to attend before the Board on such day.

6. The notice, accompanied by a copy of these Regulations, shall be sent by registered letter to the last-known address or the enrolled address of the accused person, and shall be so sent as to allow at least fourteen days between the day on which the notice is issued and the day appointed for the hearing of the case by the Board.

7. The case shall be heard at a special meeting of the Board, of which at least seven days' notice shall be sent by the Clerk to each member. The accused person may be represented or assisted by a friend, legal or otherwise. 8. At the hearing of the case the Clerk or other person appointed by the Board for the purpose shall first state to the Board the facts of the case and the charge alleged against the accused person, and shall then submit to the Board the evidence which he has received in support of the charge. The accused person, or her representative, shall be entitled to cross-examine any witness appearing against her on matters relevant to the charge.

9. When the evidence in support of the charge and a statement by or on behalf of the person making the charge are concluded, the accused person, or her representative, shall be invited by the Chairman to address the Board, and to tender evidence in answer to the charge.

10. If the accused person does not attend as required, either personally or by representative, the Board may proceed to hear and decide upon the charges in her absence.

12. If the Board find the charges against the accused person to be proved either in whole or in part, and the offence cannot, in its opinion, be adequately dealt with by censure or caution, the Board may direct the Clerk to remove the name of the accused person from the Register and to cancel her certificate.

13. Notice in writing, by registered letter, of the removal of the name of any Midwife from the Register, and of the cancelling of the certificate setting forth the cause of such removal and cancellation shall be sent by the Clerk to the Midwife whose name has been so removed, and to the Local Authority of the district within which she resides.

#### RESTORATION TO THE REGISTER OF A NAME REMOVED.

14. Application for restoration to the Register shall be made in writing addressed to the Clerk to the Board, and signed by the applicant, stating the grounds on which application is made. 15. The application must be accompanied by a statutory declaration made by the applicant, setting forth the facts of the case and stating that she is the person originally enrolled. The declaration shall be in the Form given in the Schedule. (Form VII.)

Officer of the district in which the applicant is resident, and by the certificates of at least two persons, being Justices of the Peace, Ministers of Religion, or registered Medical Practitioners, who were and are well acquainted with the applicant before and since the removal of her name. These certificates must each of them testify to the applicant's identity and present good character, and they shall be in the Form given in the Schedule. (Form VIII.)

17. The application, when duly supported by the declaration and certificates as hereinbefore provided, shall be considered at a meeting of the Board, made special for the purpose, of which at least seven days' notice shall be sent by the Clerk to each member. The Board may adjourn the consideration to a future date, or require further evidence or explanations from the applicant.

18. After consideration of all the circumstances of the case, as submitted to them in accordance with the provisions of these Regulations, the Board may, if they think fit, direct the Clerk to restore the name of the applicant to the Register.

#### E.—REGULATING, SUPERVISING, AND RESTRICTING WITHIN DUE LIMITS THE PRACTICE OF MIDWIVES.

*Directions to Midwives concerning their Person, Instruments, etc.; their Duties to Patient and Child; and their Obligations with regard to Disinfection, Medical Assistance, and Notification.*

*Note.*—When engaged to attend a labour the midwife should take an opportunity of visiting the patient in her own house to advise as to personal and general arrangements for the confinement.

1. The Midwife must be scrupulously clean in every way, including her person, clothing, appliances, and house; she must keep her nails cut short and clean, and preserve the skin of her hands as far as possible from cracks and abrasions.\*

*Note.*—Unless the cleansing process be thoroughly carried out there will be, even after a healthy confinement, remains of blood, lochia, or liquor amnii on the fingers, and especially under the nails, which will there undergo decomposition, and so become dangerous to the next patient attended.

When attending to her patients she must wear a clean dress of washable material that can be boiled, such as linen, cotton, etc., and over it a clean washable apron or overall.

The sleeves of the dress must be made so that the Midwife can tuck them up well above the elbows.

For list of appliances see Regulation 2.

2. When called to a confinement a Midwife must take with her in a bag or basket furnished with a removable lining which can be disinfected:—

(a.) An appliance for giving vaginal injections, a different appliance for giving enemata, a catheter, a pair of scissors, a clinical thermometer, a nail-brush, and cottonwool.

(b.) An efficient antiseptic or efficient antiseptics for such purposes as

- (1.) Disinfecting the hands.
- (2.) Douching in special cases.
- (3.) Cleansing the infant's eyelids.

3. Before touching the generative organs or their neighbourhood the midwife must on each occasion disinfect her hands and forearms.

4. All instruments and other appliances must be disinfected, preferably by boiling, before being brought into contact with the patient's generative organs.

5. Whenever a midwife has been in attendance, whether as a midwife or as a nurse, upon a patient, or in contact with a person, suffering from puerperal fevers or from any other condition supposed to be infectious, or is herself liable to be a source of infection, she must cease to act as a midwife for a period of fourteen days, and before resuming practice must disinfect herself and all her instruments and other appliances, and must have her clothing thoroughly disinfected, to the satisfaction of the Medical Officer before going to any other maternity patient. (See Regulation 17.)

#### *Duties to Patient.*

6. A midwife in charge of a case of labour must not leave the patient without giving an address by which she can be found without delay; and after the commencement of the Second Stage, she must stay with the woman until the expulsion of the placenta and as long after as may be necessary. In cases where a doctor has been sent for on account of the labour being abnormal or of there being threatened danger (see Regulation 20), she must await his arrival and faithfully carry out his instructions.

7. The midwife must wash the patient's external parts with soap and water, and then swab them with an efficient antiseptic solution on the following occasions:—

- (a.) Before making the first internal examination;
- (b.) After the termination of labour;
- (c.) During the lying-in period, when washing is required;
- (d.) Before passing a catheter.

For this purpose the midwife must on no account use ordinary sponges or flannels, but material which has been boiled or otherwise disinfected before use.

\*8. No more internal examinations should be made than are absolutely necessary.

\* This is a direction to practising midwives, and is not to be taken as relieving a pupil undergoing a course of training from any of the obligations entailed upon her by Regulation C. 1 (1).

9. The midwife in charge must in all cases of labour examine the placenta and membranes before they are destroyed, and must satisfy herself that they are completely removed.

10. The midwife must remove soiled linen, blood, faeces, urine, and the placenta from the neighbourhood of the patient and from the lying-in room as soon as possible after the labour, and in every case before she leaves the patient's house.

11. The midwife shall be responsible for the cleanliness, and shall give all necessary directions for securing the comfort and proper dieting of the mother and child during the lying-in period, which shall be held, for the purpose of these regulations and in a normal case, to mean the time occupied by the labour and a period of ten days thereafter. (See Regulations 20 and 22.)

12. A case of normal labour in these regulations shall mean a labour in which there are none of the conditions specified in Regulation 22 below.

13. The midwife shall take and record the pulse and temperature of the patient at each visit.

#### *Duties to Child.*

14. In the case of a child being born apparently dead the midwife must carry out the methods of resuscitation which have been taught her.

15. As soon as the child's head is born, and if possible before the eyes are opened, its eyelids must be carefully cleansed.

16. On the birth of a child which is in danger of death the midwife shall inform one of the parents of the child's condition.

#### *General.*

17. No midwife shall (except under the circumstances hereinafter mentioned) undertake the duty of laying out a dead.

In no case must a midwife lay out the body of any patient on whom she has not been in attendance at the time of death, or a body upon which a post mortem examination has been made.

A midwife will not transgress this rule, if—

She prepares for burial the body of a lying-in woman a still-born child, or an infant dying within ten days;—

After laying out a dead body for burial she must notify the Medical Officer and undergo adequate cleansing and disinfection.

18. A midwife must note in her Register of Cases each occasion on which she is under the necessity of administering any drug other than a simple aperient, the dose, and the time and cause of its administration.

19. Any midwife whose certificate of registration has been destroyed or lost, may make application for the issue of a new certificate; such application shall be accompanied by a statutory declaration reciting the circumstances in which the destruction or loss of the certificate occurred. For any duplicate certificate granted by the Board under this regulation a fee of five shillings shall be paid by the applicant.

#### *Conditions in which Medical Help must be sent for.*

20. In all cases of abortion, of illness of the patient or child, or of any abnormality occurring during pregnancy, labour, or lying-in, a midwife must explain that the case is one in which the attendance of a registered medical practitioner is required, and must hand to the husband or the nearest relative or friend present the form of sending for medical help (see Regulation 24 (a)), properly filled up and signed by her, in order that this may be immediately forwarded to the medical practitioner.

In a case where a medical practitioner is engaged to attend the patient, should any of the conditions prescribed in Regulation 22 arise in the absence of such medical practitioner, then the midwife shall, in complying with this rule, first send for the practitioner so engaged.

If for any reason the services of a registered medical practitioner be not available, the midwife must, if the case be one of emergency, remain with the patient and do her best for her until the emergency is over.

After having complied with the Regulation as to the summoning of medical assistance, the midwife will not incur

any legal liability by remaining on duty and doing her best for her patient.

21. Where a midwife sends for medical assistance under the provisions of the preceding rule, in the case of a patient who cannot or whose husband cannot afford to pay for such medical assistance, then such midwife shall first send for the District Medical Officer, if such an officer be available, and such officer shall, when sent for in regard to any of the conditions which are specified in the next succeeding rule and marked with an asterisk,\* be entitled to receive from the Board a fee of one guinea at the completion of each such case so attended, together with the sustenance and travelling allowances to which he is entitled.

Provided that in any such case where a District Medical Officer is not available, and any other medical practitioner attends the case, then he shall be entitled to receive the fee of two guineas and the same allowances.

Provided further that if within twelve months from the date of such medical assistance being rendered, the patient or her husband is able to pay the cost, or a part of the cost of such assistance, then all moneys paid to a medical practitioner under this regulation, shall be deemed to be a debt due from the patient or her husband to the Board.

LAND OPEN FOR SELECTION.

Department of Lands and Surveys,  
Perth, 1st March, 1912.

IT is hereby notified, for general information, that His Excellency the Governor in Executive Council has been pleased to approve of the areas scheduled hereunder being made available for selection under "The Land Act, 1898," and its amendments. The selector of a Homestead Farm from any location available under Part VIII. must take the balance thereof under Conditional Purchase, and a selector of a portion of any location available under Part VI. must take the balance of same under Grazing Lease conditions.

The areas which are open under Part V. are open under Section 55 (Residential Conditions), and only under Section 56 (Non-residential Conditions) to those persons already holding their full complement under Section 55 in the immediate vicinity.

The lands marked with an asterisk are available under Part VI.

Applications must be lodged with the Government Land Agent for the District in which the land is situated.

Any application may be lodged before the fixed date, but will be treated as having been received on that day; if there are more applicants than one for any lot, the application to be granted will be determined by the Land Board, and should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, after the closing of the date for receiving applications, notice will be given in the *Government Gazette* and at least one newspaper advising the applicants for the blocks of the date, time, and place of the meeting of the Board, to deal with the matter; but it shall not be obligatory on the Department to give any other notice.

If an applicant wishes to appear before the Land Board in person, he may apply to the Head Office or to the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department, which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket, at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue.

Such advance is subject to the usual condition governing a loan from the Agricultural Bank, particulars of which may be had on application to the Managing Trustee. #### LAND ACT, 1898.

#### Regulations for the Granting of Leases of Town and Suburban Lands.

Department of Lands and Surveys,  
Perth, 1st March, 1912.

Corr. 13907/11

IT is hereby notified that His Excellency the Governor in Executive Council has been pleased to make the following Regulations for the granting of Leases of Town and Suburban Lands under "The Land Act, 1898," in lieu of those published in the *Government Gazette* of 8th December, 1911, which are hereby cancelled.

R. CECIL CLIFTON,  
Under Secretary for Lands.

1. Every lease shall be granted for a term of 99 years, at a yearly rent equal to four pounds per centum of the capital unimproved value of the land as fixed from time to time as hereinafter prescribed: Provided that the minimum rent reserved by any lease shall be ten shillings.

2. The capital unimproved value of each lot shall be fixed by the Minister, and notified in the *Government Gazette* prior to the lot being submitted to auction as hereinafter provided; and on the value so fixed the yearly rent shall be computed for the first ten years of the term of the lease, and thereafter, until a fresh valuation is made.

3. The capital unimproved value shall be the price at which, in the opinion of the Minister, the land in fee simple unencumbered by any mortgage or charge thereon, and if no improvements existed thereon, might be expected to sell at the time when valued.

4. Fresh valuations may be made from time to time during the currency of the lease at intervals of not less than ten years: Provided that if any lessee is dissatisfied with any revaluation he may require the question to be submitted to arbitration under the provisions of "The Arbitration Act, 1895."

5. Each lot will be submitted for sale by auction of a leasehold interest therein for the term and at the rent as aforesaid, and the highest bidder shall be the purchaser, and, subject to these Regulations, a lease will be granted to the purchaser in the prescribed form.

6. Any person may apply to the Minister requesting him to submit to auction the leasehold interest in any lot open for selection.

Every such application shall be in the form or to the effect of the First Schedule hereto, and shall be lodged at the District Land and Survey Office of the District in which the land applied for is situated. The applicant shall deposit with his application, a lease fee of five shillings, and a sum equal to the instalment of rent of the lot applied for, payable in advance, pursuant to Section 136 of "The Land Act, 1898."

Such deposit will be refunded in the event of the application being refused, or the applicant being outbid at the auction.
