LAND OPEN FOR SELECTION.

Department of Lands and Surveys,
Perth, 1st August, 1913.

IT is hereby notified, for general information, that His Excellency the Governor in Executive Council has been pleased to approve of the areas scheduled hereunder being made available for selection under "The Land Act, 1898," and its amendments. The selector of a Homestead Farm from any location available under Part VIII. must take the balance thereof under Conditional Purchase, and a selector of a portion of any location available under Part VI., must take the balance of same under Grazing Lease conditions.

The areas which are open under Part V. are open under Section 55 (Residential Conditions), and only under Section 56 (Non-residential Conditions) to those persons already holding their full complement under Section 55 in the immediate vicinity.

The lands marked with an asterisk are available under Part VI.

Applications must be lodged at the Local Land Office for the District in which the land is situated.

Any application may be lodged before the fixed date, but will be treated as having been received on that day; if there are more applicants than one for any lot, the application to be granted will be determined by the Land Board, and should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary after the closing of the date for receiving applications, notice will be given in the *Government Gazette* and at least one newspaper, advising the applicants for the blocks of the date, time, and place of the meeting of the Board, to deal with the matter; but it shall not be obligatory on the Department to give any other notice.

If an applicant wishes to appear before the Land Board in person, he may apply to the Head Office or to the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department, which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket, at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue.

Land specified as carrying an Agricultural Bank advance which is situated within 15 miles of a railway or authorised railway, is available subject to the special conditions that an expenditure of not less than one-fourth of the amount set out shall be made on prescribed improvements in each of the first four years of the lease; but this shall not release the holder from any covenant in the Agricultural Bank Mortgage requiring the improvements to be made at an earlier date. Such advance is subject to the usual condition governing a loan from the Agricultural Bank, particulars of which may be had on application to the Managing Trustee. Applications for advance must be accompanied by a fee of one per cent.

THE HEALTH ACT, 1911.

UNDER the provisions of "The Health Act, 1911," and with the approval of the Hon. Minister, the following reports, in regard to Patent or Proprietary Medicines known as:—

Bile Beans, Zam Buk, Zam Buk Pills, Rexona Ointment, Laxo-Tonic Pills, are published.

JAMES W. HOPE,
Commissioner of Public Health.

31st July, 1913.

The Deputy Commissioner for Public Health.

In accordance with your letter of the 8th February I beg to report that I have examined the sample of Bile Beans submitted by you, with the result that I have found the following constituents therein:—Aloin, Liquorice, Powdered Cardamoms, Wheat Starch, Oil of Peppermint.

Incidentally, the absence of the following substances was definitely proved:—Aloes (as distinct from the active principle aloin), Rhubarb, Cascara, Alkaloids in general, Aspirin, Phenazone, Phenacetin, Acetanilid, Podophyllin, Sulphate of iron.

The composition, as described above, agrees practically with that which is given in "More Secret Remedies" as issued by the British Medical Association. In that publication, however, it is stated that there is some indication of the presence of Colocynth. This I have been unable to prove, and I am not prepared to say whether Colocynth is present or not, its distinctive test being almost entirely obscured by the presence of liquorice.

It is interesting to note that in the report of the Royal Commission on Secret Foods and Drugs, New South Wales, these pills are said to consist of aloes, liquorice, cascara, rhubarb, and oil of peppermint. If this report is correct it would seem to indicate that the formula for these pills has been changed, as I have proved definitely the absence of both rhubarb and cascara.

As a further confirmation of the accuracy of the above analysis, I have made up a pill of approximately the same composition, though, owing to the difficulty of making a quantitative analysis, the proportions may not be exactly right. I forward some of these pills (uncoated) with some of the original Bile Beans, and on cutting and tasting these I think you will agree that they are similar to all intents and purposes.

(Sgd.) E. A. MANN,
Government Analyst.

24th February, 1913.

*From the Government Analyst to the Commissioner of
Public Health.
Patent Medicines.*

I beg to furnish the following report on "Rexona" Ointment and "Laxo-Tonic Pills" submitted for analysis by the Hon. Minister:—

Their composition is as follows:—

Rexona Ointment.—Soft Paraffin (Vaseline) with a small proportion of Hard Paraffin—Eucalyptus Oil—Resin (colophony) coloured green.

Laxo-Tonic Pills.—Aloes (saccharine), Liquorice, Cardamoms, a little Oil of Peppermint, and Wheat Starch.

These two medicines are prepared by the same Company, are cross-advertised in the literature attached to each, and are apparently calculated (according to the advertisements) to furnish in combination a complete system of internal and external treatment for an extensive catalogue of ills.

There are several statements in the circulars attached to the boxes of Ointment which are not borne out by the analysis, e.g., that it "Contains to the full all the healing soothing, painkilling, remedial agents which modern science has rendered available."

This audacious claim stands self-condemned. Other claims with regard to its curative powers for specific diseases will, I think, be found equally fallacious if examined by a medical man.

It is simply the Eucalyptus Ointment of the Pharmacopoeas which could be very cheaply obtained from any chemist.

Perhaps, the most remarkable fact which I have to point out with regard to the Laxo-Tonic Pills is that they have the same composition as "Bile Beans," on which I recently furnished you a report. As "Bile Beans" are associated with the extensively advertised "Zambuk Ointment" a sample of this was also tested, when it was found to contain the same ingredients as

"Rexona Ointment," the only difference being slightly larger proportions of Hard Paraffin and Resin and coloured a greenish brown instead of a bright green. The extraordinary fact is, therefore, disclosed that "Rexona" and "Laxo-Tonic Pills" are, respectively, of precisely the same composition as "Zambuk Ointment" and "Bile Beans."

These, therefore, form two of these linked pairs of nostrums which are so commonly met with amongst the numerous patent medicines on the market—mutually recommended by the advertisements attached to each and relying upon each other for the cures which they cannot themselves effect.

Whether there is any proprietary interest connecting these two combinations of patent medicines I am unable to say, but if so they are making use of a fictitious competition to attract public favour, and if not there are one or two important conclusions to be drawn which completely dispose of some of the objections raised by Patent Medicine interests to the new Regulations in this State.

1. There is no proprietary right based upon original discovery or scientific research, since they are simply Pharmacopoeia preparations which any chemist is acquainted with and has a right to make up. The only originality displayed is the invention of the names under which they are sold.

2. There is no secrecy about their formula nor any objection to be raised against lodging that formula lest it be divulged. It is already obviously known and being made use of under a second patent name. It has been publicly and without contradiction stated that "Zambuk" is manufactured for the Proprietors by a firm of Soap Manufacturers in Sydney (the degree of pharmaceutical skill needful is not, therefore, very high), and it seems absurd to urge that there will be any greater risk of divulgence of formula than already exists if it has to be lodged with the Department.

It is interesting to note the methods of advertising employed in connection with these articles. The "Rexona" advertising matter directly recommends the use of Laxo-Tonic Pills, and that attached to the latter urges the use of "Rexona." In the case of "Zambuk" and "Bile Beans," a different method is employed. There is no direct reference made in this case, but inside the "Bile Beans" advertisement is a *separate sheet* recommending the virtues of "Zambuk" and, as if to encourage the belief that there is no connection between them, one is said to be made by the "Zambuk Company" and the other by the "Bile Beans Manufacturing Co." It is worthy of note, however, that both these Companies have the same address in Sydney. The "Zambuk" literature contains again *separate sheets* recommending "Zambuk Pills" and "Zambuk Soap," made by the "Zambuk Manufacturing Company" (note the difference of name) again of the same address—and I have obtained also a sample of these pills and analysed them. They consist of aloes with a hot principal like capsicum made into a hard pill by admixture with over 50 per cent. of sulphate of lime. The presence of this large proportion of sulphate of lime (plaster of paris) must be considered as constituting an impudent fraud (if not worse) and furnishes an ample reason for not wishing to disclose the formula.

The wrappers of "Zambuk Pills" again proclaim the remedial value of "Zambuk Balm," which is the name applied to the "Zambuk Ointment" mentioned above.

There is, therefore, the following interesting connection between these preparations:—

"Rexona"

alias Zambuk (or Zambuk Balm).

alias Unguentum Eucalypti (B.P.)

alias Eucalyptus Ointment.

Associated with Laxo-Tonic Pills *alias* "Bile Beans."

"Zambuk"

alias Rexona.

alias Unguentum Eucalypti (B.P.)

alias Eucalyptus Ointment.

Associated with Bile Beans *alias* Laxo-Tonic Pills and Zambuk Pills.

I do not think the above facts call for any further comment—they speak for themselves. I attach specimens of the advertising literature referred to.

(Signed) E. A. MANN,
Government Analyst.

19th April, 1913.

N.B.—The medical comments on the patent medicines referred to in the above reports will be published in the next issue of the *Government Gazette*.
