LAND OPEN FOR SELECTION.

Department of Lands and Surveys,
Perth, 22nd August, 1913.

IT is hereby notified, for general information, that His Excellency the Governor in Executive Council has been pleased to approve of the areas scheduled hereunder being made available for selection under "The Land Act, 1898," and its amendments. The selector of a Homestead Farm from any location available under Part VIII. must take the balance thereof under Conditional Purchase, and a selector of a portion of any location available under Part VI. must take the balance of same under Grazing Lease conditions.

The areas which are open under Part V. are open under Section 55 (Residential Conditions), and only under Section 56 (Non-residential Conditions) to those persons already holding their full complement under Section 55 in the immediate vicinity.

The lands marked with an asterisk are available under Part VI.

Applications must be lodged at the Local Land Office for the District in which the land is situated.

Any application may be lodged before the fixed date, but will be treated as having been received on that day; if there are more applicants than one for any lot, the application to be granted will be determined by the Land Board, and should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, after the closing of the date for receiving applications, notice will be given in the *Government Gazette* and at least one newspaper advising the applicants for the blocks of the date, time, and place of the meeting of the Board, to deal with the matter; but it shall not be obligatory on the Department to give any other notice.

If an applicant wishes to appear before the Land Board in person, he may apply to the Head Office or to the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department, which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket, at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue.

Land specified as carrying an Agricultural Bank advance which is situated within 15 miles of a railway or authorised railway is available subject to the special conditions that an expenditure of not less than one-fourth of the amount set out shall be made on prescribed improvements in each of the first four years of the lease; but this shall not release the holder from any covenant in the Agricultural Bank Mortgage requiring the improvements to be made at an earlier date. Such advance is subject to the usual condition governing a loan from the Agricultural Bank, particulars of which may be had on application to the Managing Trustee. Applications for advance must be accompanied by a fee of one per cent.

Division 4.—By-laws for General Purposes.

27. Within the Wagin Water Area the water rate shall be at a rate not exceeding two shillings in the pound per annum upon the net annual value of all rateable land, provided that a minimum rate of Twenty shillings per annum shall be payable by the owners or occupier of any land (except unoccupied land on which no building is erected) the annual rate of which would not exceed Twenty shillings per annum, and a minimum rate of Ten shillings per annum shall be payable by the owner of any occupied land on which no building is erected, the annual rate of which would not exceed Ten shillings.

28. Water rates shall become due and payable half-yearly, in advance, on each first day of November and 1st May: Provided that in all cases where a water rate is made after the first day of November in any year, the notice of the order for the making and levying of such rate, published in the *Government Gazette* and a newspaper, as provided by Section 94 of the said Act, shall specify the minimum sum payable as rate as aforesaid, and the date or dates when the rate shall be due and payable, and such rate shall be and become due and payable in accordance with the terms of such notice.

29. Every ratepayer will be entitled to consume on each separately assessed property for which he is rated that quantity of water which, if calculated at a price not exceeding Two shillings per thousand gallons, would amount to the equivalent of the water rate paid on such property, provided that such water be taken during the period for which the rate is struck.

30. Every ratepaying consumer taking water in excess of the quantity to which he is entitled in respect of the rate will be charged for the excess at a price not exceeding Two shillings per thousand gallons.

31. It shall be at the discretion of the Board to supply water to any individual consumer, whether rated or not, at such price or prices as may be mutually agreed upon.

32. Where the lands or premises for which a supply is required are rated, the Board shall be required to lay a service pipe from the water main to the nearest street boundary of such lands or premises; but the said Board shall not be required to lay a service pipe to any other lands or premises.

33. The minimum charge for water supplied by measure within the water area shall be as follows:—

(a.) Minimum annual charge for water supplied by measure to private consumers shall be Twenty shillings exclusive of rent of meter.

(b.) Minimum charge for water supplied by measure for other than domestic purposes to Government departments shall be One shilling and sixpence (1s. 6d.) per 1,000 gallons.

34. In lodging and boarding houses where no meters are fixed, the Board may charge at the rate of Five shillings per annum, payable in advance, for each lodger or boarder up to five, but if more than five lodgers are taken the supply of water must be obtained by meter in the usual way.

35. The Board may agree with any consumer using water for all or any of the purposes hereinafter mentioned to pay the same at the following rates, namely:—

Horses, 5s. each per annum.

Vehicles: two-wheeled vehicle 7s. 6d., four-wheeled vehicles 15s. each per annum.

Cows, 5s. each per annum.

The Board may permit water to be supplied for building purposes on the following terms:—

Water for building ordinary dwelling with brick and plaster, Five shillings per room.

Water for building ordinary dwelling with lath and plaster only, Two shillings and sixpence per room.

Brick chimneys in wooden houses, Two shillings and sixpence each.

Water supplied for building other than ordinary dwellings, such as hotels, halls, warehouses, stores, etc., will be charged for by arrangement.

Plans and specifications to be submitted in all cases.

All fees to be paid in advance.

Applications for water under this By-law must be made on the prescribed form.

The Board reserves the right to cancel the agreement and terminate the supply on 48 hours' notice, and shall in such case return, on a written demand, a proportionate amount of the charges paid for the then current year. All agreements hereunder shall terminate on the 30th November next following the date hereof, but may be renewed by the Board as required.

36. Except when the supply is paid for by meter, the supply of water will be through separate service pipes of the following diameters, according to the assessed annual value of the premises, as follows:—

For premises assessed at or under £26 per annum, ½in. pipe.

More than £26 and not more than £52 per annum, ¾in. pipe.

More than £52, by special agreement in each case.

37. No part of a private service shall be laid, fixed, or used (temporarily or otherwise), or be permitted to be laid, fixed, or used (temporarily or otherwise), or be permitted to remain, laid, fixed, or used (temporarily or otherwise), except in accordance with the provisions of the last preceding By-law, unless by special permission of the Board.

38. Where water is supplied by measure to the owner or occupier of land, whether rated under the Act or otherwise, payment for the same shall be made at such times and in such manner as may be agreed upon between the Board and the consumer.

39. Any person or persons requiring a water service to town or suburban premises in respect of which, for the time being, a water rate may not be made, may be supplied on payment of a minimum charge, which shall be fixed by the Board in each case. The minimum charge shall then take the place of a water rate, and the general provisions of these By-laws, as applying to rate-paying consumers, shall apply to minimum charge paying consumers.

40. Application for services shall be made on the printed form procurable at the Board's Office, and shall be lodged not less than one week before the service is required.

41. Applications will not be entertained unless full information, as indicated on the printed form, is supplied, and the full amount of rates due on the premises to which a service is required is paid.

42. The Board may, by notice to a consumer, from time to time restrict the quantity of water that may be supplied to him on any one week.

43. The Board may, from time to time, when necessary for the purpose of tapping or repairing the main, or otherwise, cut off the supply of water from any part or parts of the Water Area.

44. It shall be at the discretion of the Board as to whether or not a meter shall be affixed to any service, and such officer will also determine the size and class of meter in each case.

45. Meters will be supplied by the Board, and will be put in on demand by special arrangement and agreement with the Board as to rental or purchase.

46. The quantity registered by a meter at any time between ten days before and ten days after any stated date may be taken as the reading of the meter at such stated date.

47. During the time any meter is undergoing repairs, or should it cease to properly register the consumption of water, the Board may, at its option, estimate the quantity of water consumed by taking an average of the quantity used during the previous month or quarter, or during the corresponding period of the previous year, and shall charge for the consumption so ascertained.

48. If the consumer shall at any time be dissatisfied with any particular reading of a meter, and shall be desirous of having same tested, he shall give written notice thereof to the Board within seven days of such reading, and thereupon the said meter shall be tested by passing through it a predetermined quantity of water; and if, upon such testing, it shall appear to the satisfaction of the Board that the said meter registered above five per cent. more than was actually passed through it at such testing, then the said Board will bear the expense of and incidental to such testing, and will also adjust the charge to the said consumer, but if the said meter, upon such testing, shall not register above five per cent. more than the quantity that shall actually have passed through it, then the said consumer shall pay to the said Board all the expenses of and incidental to such testing; provided that the amount representing the expense of each and every test shall be fixed by the Board, and shall in no case exceed the sum for Forty shillings: Provided, also that the said consumer shall not be at liberty to avail himself of the right to test the registration of the said meter for any period other than one month next preceding the date of reading in respect of which he shall have given notice as aforesaid: Provided further that for testing meters of sizes $\frac{3}{4}$ in. and under a uniform fee of 10s. shall be charged.

49. No person shall break or in any way interfere with the seal fixed on a meter through which water is supplied by the Board, or turn or attempt to turn any screw, bolt, or nut on or attached to such meter, or use any tool or appliance on any such meter, or introduce or attempt to introduce any body or substance into such meter, or in any way interfere with any portion of such meter or of any pipes or fittings attached thereto.

50. No licensed plumber or other person shall, under any circumstances, disconnect the flange from a meter, or shall, after a meter has once been fixed on a service, and water has been turned on, disconnect or interfere with any piping within twelve feet of such meter. Such work shall be done by the servants of the Board only.

51. Any person supplied with water through a meter belonging to the Board shall pay the cost of making good all damages to such meter whilst on his land and in his charge, and shall deliver such meter up in good order on ceasing to hire same. Any repairs required shall be done by the officers of the Board, and the expense incurred by the Board in so doing shall, on demand, be paid by the owner or occupier of the land, and if not paid on demand, shall be recoverable in the same manner as water rates.

52. Any person supplied by the Board with water through a meter shall, on finding that meter is damaged or not registering, immediately give notice of the fact to the Board.

53. No person knowing that a meter is damaged or does not register properly shall draw water through such meter from a service pipe which is supplied with water by the Board.

54. In every case in which the supply of water shall have been cut off by reason of non-payment of rates or other charges, or by reason of a defective service, or by request of the occupier or owner, or when, in the opinion of the Board or its officer necessary to prevent waste of water, or for other reason, a fee of five shillings shall be charged for reconnection, and shall be payable by the owner or occupier for the time being on demand. The service shall not be restored until such fee shall have been paid.

55. The owner or occupier for the time being of any premises must, at his own risk and expense, lay down his private service in accordance with the By-laws for the time being.

56. All pipes must be of lead or galvanised wrought iron, and where lead pipes are used they must be of equal thickness throughout, and of at least the respective weights following, viz.:—

$\frac{1}{2}$ inch	5lbs. per yard
$\frac{3}{4}$ inch	6lbs. per yard
$\frac{1}{2}$ inch	9lbs. per yard
1 inch	12lbs. per yard
$1\frac{1}{4}$ inch	16lbs. per yard
$1\frac{1}{2}$ inch	20lbs. per yard

Where wrought iron tubes are used they must be of the kind known as wrought iron steam tubes.

57. Every urinal shall be supplied only through a cistern or service box, fitted with approved waste-preventing apparatus. No service pipe shall be suffered to communicate directly with any urinal.

58. No part of any service shall communicate directly with the water in any steam boiler or other apparatus used for the generation of steam, but the feed water shall be supplied in such manner that none of the water in the boiler, or such other apparatus, can return into the main or service pipe.

59. No boiler or other apparatus shall be used or connected in which the feed water is supplied below the water level.

60. Any consumer's pipe, cock, cistern, or other fitting laid, fixed or used otherwise than in accordance with these By-laws and with the provisions of the Act, or which shall, in the opinion of the Board, be or become of bad or defective quality, or shall conduce to the waste, misuse, or contamination of the water, shall, upon the Board giving notice in writing, be discontinued and disused; and the Board may require the same to be removed, replaced, or repaired, and may, if it think fit, stop the supply of water to the said consumer until such pipe, cock, cistern, or other fitting shall have been removed, replaced, or repaired to the satisfaction of the Board by a plumber licensed by the Board to execute water supply plumbing work within the water area.

61. Any person who (1) not being entitled to a supply of water for other than domestic purposes, uses for other than domestic purposes any water supplied to him by the Board, or (2) being entitled to a supply of water for any other than domestic purposes, uses for any purpose other than those for which he is entitled to use the same any water supplied to him by the Board, shall, upon conviction, be liable to a penalty not exceeding Twenty pounds without prejudice to the right of the Board to recover from him the value of the water misused.

62. The location of all service pipes and fittings shall be subject to the approval of the Board.

63. No person to whom water is supplied by the Board shall, without written permission, sell or supply water to any person who may not reside on the premises of which he is the occupier.

64. The occupier of any premises to which the water has been laid on, or, in the event of there being no occupier, the owner, shall cause proper means to be taken by locks or otherwise, subject to the approval of the Board, to prevent the use of the water from the main by persons not connected with the premises supplied.

65. The owner or occupier of any allotment of land within the Water Area who shall erect or make, or cause to be erected or made, any building or addition to an existing building on such land shall, within one calendar month thereafter, give notice in writing thereof to the Board.

66. Officers or workmen employed by the Board shall not solicit or receive from the public any fee, gratuity, or reward.

Division 5.—Penalties.

67. Any person contravening any of these By-laws, whether by act or omission, shall be liable on summary conviction to a penalty not exceeding Twenty pounds.
