The Regulations made by the Fremantle Harbour Trust Commissioners and dated the 6th day of September, 1907, are hereby amended by adding the following regulation, viz.:—

In order to avoid any risk of danger from incoming and outgoing vessels meeting in the Entrance Channel or Inner Harbour, the following Signals will be displayed in daylight from the mast head of the signal staff at the Arthur Head Signal Station, viz.:—

2. One blue flag will indicate that a vessel is entering the Entrance Channel, and this must be taken as a warning to any vessel about to move in the Inner Harbour that she is to remain in her berth until the incoming vessel has entered the harbour and passed clear of the vessel about to move, so as not to involve any risk of danger.

LAND OPEN FOR SELECTION.

Department of Lands and Surveys,

It is hereby notified, for general information, that the lands described hereunder will be available for selection on the days as hereinafter shown, under Parts V. and VIII. of the Land Act and its amendments, and the Regulations framed thereunder.

The lands marked with an asterisk are also available under Part VI.

Applications must be lodged at the Local Land Office for the District in which the land is situated

Any application may be lodged before the fixed date, but will be treated as having been received on that day; if there are more applicants than one for any lot the application to be granted will be determined by the Land Board, and should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, after the closing of the date for receiving applications, notice will be given in the *Government Gazette* and at least one newspaper advising the applicants for the blocks of the date, time, and place of the meeting of the Board, to deal with the matter; but it shall not be obligatory on the Department to give any other notice.

If an applicant wishes to appear before the Land Board in person, he may apply to the Head Office or the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department, which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue

Land specified as carrying an Agricultural Bank advance is available subject to the special condition that an expenditure of not less than one-fourth of the amount set out shall be made on prescribed improvements in each of the first four years of the lease; but this shall not release the holder from any covenant in the Agricultural Bank Mortgage requiring the improvements to be made at an earlier date. Such advance is subject to the usual conditions governing a loan from the Agricultural Bank, particulars of which may be had on application to the Managing Trustee. Applications for advance must be accompanied by a fee of one per cent.

The areas which are open under Part V. are open under Section 55 (Residential Conditions), and only under Section 56 (Non-residential Conditions) to those persons already holding their full complement under Section 55 in the immediate vicinity.

THE MINING DEVELOPMENT ACT, 1902.

Regulations for the purchase of Auriferous Copper Ores at the State Smelting Works, Phillips River Gold-field.

Department of Mines,
3648/13. Perth, 25th February, 1914.

HIS Excellency the Governor in Executive Council, under the powers conferred by Section 29 of "The Mining Development Act, 1902," has been pleased to make the following Regulations for the purchase of Auriferous Copper Ores at the State Smelting Works, Phillips River Goldfield, to come into force as from the 1st day of January, 1914.

PHILIP COLLIER,
Minister for Mines.

Western Australia.

THE MINING DEVELOPMENT ACT, 1902.

Regulations for the Purchase of Auriferous Copper Ores at the State Smelting Works, Phillips River Gold-field.

1. All ores shall be delivered free of charge at the Works, on such place as may be directed from time to time by the Ore-buyer. The Ore-buyer shall be the person appointed as such by the Minister.

2. The Ore-buyer shall be the sole judge as to whether any parcel of ore shall be accepted for purchase or not, and may order the removal of any ore which he thinks unsuitable; whereupon the owner of the ore shall remove it forthwith from the Works.

3. As soon as practicable after receipt of a parcel of ore it shall be weighed at the Works, and the weight so determined shall be taken to be the true gross weight thereof. The percentage of moisture present will be determined by assay, and deducted from the gross weight, and the net weight so obtained shall be the weight upon which the ore is purchased. The ton used shall be the standard ton of 2,240lbs.

4. The vendor, or his representative, may be present during the weighing and sampling of parcels of ore, but shall take no part in the handling thereof, nor interfere in any way with the weighing or sampling, nor approach the ore being sampled nearer than is allowed by the Ore-buyer.

5. After weighing, the ore shall be sampled according to such method as the Ore-buyer shall decide, and three samples shall be drawn—one for assay at the Works; one for the vendor, and the third as an umpire sample. The umpire sample shall be sealed in the presence of the vendor or his representative, and retained at the Works until required for umpire assay.

6. In the event of the vendor not agreeing with the assay of the Works, the umpire sample shall be sent to the Government Assayer, in Perth, whose analysis shall be accepted as final by both parties. The cost of the umpire assay shall be borne by the party whose assay differs most from the umpire's result. The Government Assayer shall be such officer of the Geological Survey of Western Australia or of the Government Analyst's Department as shall be appointed from time to time by the Minister to carry out such duty.

7. No charge will be made for sampling and assay of any accepted parcel of ore exceeding five tons (5 tons) net weight, but any smaller parcel shall be charged with a fee of One guinea (£1 ls.), except in the case of a *bona fide* first trial parcel from a new working.

8. All parcels of ore which, after sampling, are found unsuitable for purchase by the Works shall be charged with a fee for sampling and assay of One guinea (£1 ls.) for each five tons or fraction of five tons net weight contained therein.

9. Assays for copper shall be made by such wet process as the Ore-buyer shall determine, and assays for gold and silver by fire methods, or by any combination of wet and fire methods that may appear to him most suitable.

10. After agreement of assays, deductions shall be made from the agreed assay values, in order to arrive at the amounts of the metals for which payment will be made.:

B.

No copper under 1 per cent. to be paid for. Deductions for fractions of 1 per cent. in assays exceeding 1 per cent. to be taken from the next higher figure shown on the table, *e.g.*:-

Assay being 0.97 per cent., no copper would be paid for.

Assay being 6.00 per cent., deduction 1.02 would be made and 4.98 per cent. paid for.

Assay being 8.27 per cent., deduction 1.19 would be made as for 8.4, and 7.08 per cent. paid for.

Gold.—No gold to be paid for if assay return is less than 1dwt. per ton. Five per cent. to be deducted from all gold assays returning 1dwt. or more per ton.

Silver.—No silver to be paid for if assay return is less than 2 ounces per ton. Ten per cent. to be deducted from all silver assays returning two ounces or more per ton.

11. A charge will be made to cover the costs of receiving, sampling, and smelting the ore to matte, of thirty shillings per ton of ore (net weight); and for the further expenses of transporting the matte to Hopton for shipment, shipping it to market, and realising the values therein there shall be an additional charge per ton of ore (net weight) of three shillings and sixpence per unit of copper in the agreed assay value for copper less the schedule deduction aforesaid, and four per cent. of the agreed assay value in gold and silver less schedule deductions. The Ore-buyer may at his discretion allow a reduction in the smelting charge on ores containing an excess of oxide of iron over silica, which he may consider to be of value as flux for the smelting operations of sixpence (6d.) for each unit per cent. by which the amount of metallic iron (Fe) present in the ore exceeds the percentage of silica (SiO_2). The Ore-buyer may likewise make an extra charge on any parcel of ore in which the silica (SiO_2) exceeds 60 per cent., of ninepence for each unit of silica (SiO_2) in excess of sixty.

12. A charge will be made of two shillings per ton of ore accepted at the Works for purchase for smelting treatment, and shall be payable to the owners of the Smelting Works by way of rental for their use thereof.

13. Payment will be made for the copper, gold, and silver in the ore, less the above-mentioned deductions and charges at the following rates:—

Copper.—For all ore received, prior to the commencement of a smelting campaign, at the average price of standard copper in London during the fourth week after such commencement as stated in the telegraphed market reports of the *West Australian* newspaper, or other daily or weekly journal from time to time selected by the State Mining Engineer; and for all ore received during the first four weeks of a smelting campaign at the average price during the eighth week after such commencement; and similarly for all ore received during successive periods of four weeks at the average price of the fourth week after the end of each period, provided that the smelting work is carried on continuously. But final settlement for ore received too late for inclusion in any smelting campaign may be deferred until the fourth week after the commencement of the next campaign, and made on the price of copper for such fourth week.

Gold.—At 80s. per ounce fine.

Silver.—At 2s. per ounce fine.

14. Forthwith after agreement of assays, advances will be made up to such proportion of the net value of the ore as shall be determined from time to time by the State Mining Engineer, but not exceeding seventy-five per cent., taking the price of copper at the price of standard copper in London during the week in which the sampling was performed, such price being ascertained as in the foregoing Regulation 13. and fixed by the State Mining Engineer. Interest will be charged on the advances at the rate of six per cent. per annum from the date of payment of the advance to the date of final settlement of the balance.

15. All accounts against the State for payments due on account of ore sold to the Works shall be rendered on the usual forms of accounts against His Majesty's Government, and shall be certified as correct by the Ore-buyer before being paid.
