Plans showing the arrangements of the Lots referred to will shortly be obtainable at this office and the various District or Branch Land and Survey Offices.

Applications may be lodged at the offices mentioned at any time prior to the dates specified, and any applications so lodged will be deemed to have been lodged on that day.

In the event of two or more applications for the same lot, priority will be determined as prescribed by Section 17 of "The Land Act, 1898," and Section 2 of "The Land Act Amendment Act, 1900."

In the event of any applicant obtaining a lot on which there are improvements not erected or owned by such applicant, he shall pay the fair value of such improvements to Clerk in charge of the District or Branch Land and Survey office at the place mentioned before his application is approved.

Intending applicants are requested to lodge their applications before the date specified, and are reminded that it is unnecessary to employ an agent, as applications may be lodged personally or sent through the post.

Each of the above mentioned lots will be leased on the condition that the purchaser or his transferees shall not at any time obtain or hold a license for the sale of intoxicating liquor on the lot purchased.

R. CECIL CLIFTON,
Under Secretary for Lands.

LAND OPEN FOR SELECTION.

Yandanooka Estate.

Department of Lands and Surveys,

Corr. 9912/12.

Perth, 3rd April, 1914.

IT is hereby notified, for general information, that His Excellency the Governor in Executive Council has been pleased to approve of the Lots within the Yandanooka Estate set out in the Schedule hereunder being made available for selection under Part V. (Section 55 only) of "The Land Act, 1898," and its amendments, as modified by the provisions of "The Agricultural Lands Purchase Act, 1909," on and after SATURDAY, THE 25th DAY OF APRIL, 1914.

With the exception of certain areas delineated and coloured red on the plan of the estate deposited in the Geraldton District Lands and Surveys Office, the conditional purchase leases and transfers pursuant thereto of all the lots thrown open for sale will be granted under "The Transfer of Land Act, 1893," and will contain a reservation to the Midland Railway Company of Western Australia, and its transferees, of all mines of copper, tin, lead, coal, ironstone, or other metals, ores, or minerals, and substances containing minerals and all gems or precious stones, or mineral oil, with the right of entry to search and dig for and carry away the same; and also for the reservation to His Majesty of all gold, silver, and other precious metals.

Plans of the estate, showing the arrangement and description of the lots therein contained, etc., are now obtainable at the Geraldton District Land Office. Applications must be lodged at the Geraldton District Land Office, and may be lodged before the day on which applications are receivable, but will be treated as having been received on that day. If there be more applicants than one the Land Board will determine to whom the land shall be granted. Should any land remain unselected it will be available for selection until otherwise dealt with:—

In the event of any applicant obtaining a lot on which there are improvements not erected or owned by such applicant, he shall pay the fair value of such improvements to the Minister for Lands in the manner provided by Clause 16 of the above Regulations.

Intending applicants are requested to lodge their applications before the date specified, and are reminded that it is unnecessary to employ an agent, as applications may be lodged personally or sent through the post.

*Each of the above-mentioned lots in townsites marked with an asterisk, exclusive of reserves, will be leased on the condition that the purchaser or his transferees shall not at any time obtain or hold a license for the sale of intoxicating liquor on the lot purchased.

R. CECIL CLIFTON,
Under Secretary for Lands.

LAND OPEN FOR SELECTION.

Department of Lands and Surveys,
Perth, 9th April, 1914.

IT is hereby notified, for general information, that His Excellency the Governor in Executive Council has been pleased to approve of the areas scheduled hereunder being made available for selection under "The Land Act, 1898," and its amendments. The selector of a Homestead Farm from any location available under Part VIII. must take the balance thereof under Conditional Purchase, and a selector of a portion of any location available under Part VI. must take the balance of same under Grazing Lease conditions.

The areas which are open under Part V. are open under Section 55 (Residential Conditions), and only under Section 56 (Non-residential Conditions) to those persons already holding their full complement under Section 55 in the immediate vicinity.

The lands marked with an asterisk are available under Part VI.

Applications must be lodged at the Local Land Office for the District in which the land is situated.

Any application may be lodged before the fixed date, but will be treated as having been received on that day; if there are more applicants than one for any lot, the application to be granted will be determined by the Land Board, and should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, after the closing of the date for receiving applications, notice will be given in the *Government Gazette* and at least one newspaper advising the applicants for the blocks of the date, time, and place of the meeting of the Board, to deal with the matter; but it shall not be obligatory on the Department to give any other notice.

If an applicant wishes to appear before the Land Board in person, he may apply to the Head Office or to the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department, which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket, at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue.

Land specified as carrying an Agricultural Bank advance which is situated within 15 miles of a railway or authorised railway is available subject to the special conditions that an expenditure of not less than one-fourth of the amount set out shall be made on prescribed improvements in each of the first four years of the lease; but this shall not release the holder from any covenant in the Agricultural Bank Mortgage requiring the improvements to be made at an earlier date. Such advance is subject to the usual condition governing a loan from the Agricultural Bank, particulars of which may be had on application to the Managing Trustee. Applications for advance must be accompanied by a fee of one per cent.

MUNICIPALITY OF ALBANY.

*Building By-laws.**Preamble.*

P.W. 2040/14.

IN pursuance of the powers in that behalf contained in Section 335 of "The Municipal Corporations Act, 1906," the Municipal Council of Albany doth hereby make the following By-laws:—

Repeal.

1. All By-laws heretofore made by the Municipal Council of Albany, with reference to the matters contained, are hereby repealed.

Interpretation Clause.

2. In the construction of this By-law, unless the context otherwise requires:—

(a.) The several words mentioned in "The Municipal Corporations Act, 1906," shall have the same meaning as is attached to such words by the said Act.

Building.

(b.) The expression "Building" shall mean any building or erection, of whatsoever nature, hereafter erected or wholly or substantially re-erected.

Level of Ground.

(c.) The expression "level of ground" shall mean the level of the ground as determined by the Surveyor.

Foundation.

(d.) The expression "foundation" applied to a wall having footings shall mean the solid ground or artificially formed support on which the footings of the wall rest.

Footings.

(e.) The expression "footings" shall mean the extra spread of wall between the base of the wall and the foundations.

Base.

(f.) The expression "base" applied to a wall having footings shall mean the underside of the course immediately above the footings, or in the case of a wall carried by a bressummer, above such bressummer.

Bressummer.

(g.) The expression "bressummer" shall mean a metallic or trussed or flitched wooden girder which carries a wall.

Ground Storey.

(h.) The expression "ground storey" shall mean the storey of a building to which there is an entrance from the outside on or near the level of the ground, and where there are two such storeys then the lower of the two.

Provided that no storey of which the upper surface of the floor is more than four (4) feet below the level of the adjoining pavement shall be deemed to be the ground storey.

Basement Storey.

(i.) The expression "basement storey" shall mean any storey of a building which is under the ground storey.

First Storey, etc.

(j.) The expression "first storey" shall mean that storey of a building which is next above the ground storey, the successive storeys above the first storey being the second storey, the third storey, and so on to the topmost storey.

Topmost Storey.

(k.) The expression "topmost storey" shall mean the uppermost storey in the building, whether constructed wholly or partly in the roof or not, and whether used or constructed or adapted for human habitation or not.

External Walls.

(l.) The expression "external wall" shall mean the outer wall when under a main roof, or the outside wall of a habitable room, or the outer wall of the main building.

Party Walls.

(m.) The expression "party wall" shall apply to every wall used or built as a separation of any building from any other building, such buildings being occupied by different persons.

Cross Walls.

(n.) The expression "cross wall" shall mean a wall used or constructed to be used in any part of its height as an inner wall of a building for separation of one part from another part of the building, that building being wholly in or being constructed or adapted to be wholly in one occupation.

Party Fence Wall.

(o.) The expression "party fence wall" shall mean a wall used or constructed to be used as a separation of adjoining lands of different owners, and standing on lands of different owners and not being part of a building, but does not include a wall constructed on the land of one owner, the footings of which project into the land of another owner.

Party Arch.

(p.) The expression "party arch" shall mean an arch separating adjoining buildings, storeys, or rooms belonging to different owners, or occupied or constructed or adapted to be occupied by different persons, or separating a building from a public way or a private way leading to premises in other occupation.

Party Structure.

(q.) The expression "party structure" shall mean a party wall or other structure separating two buildings, when occupied as separate tenements, and approached by different staircases or separate entrances from without.

Height of Walls.

(r.) The expression "height," in relation to any wall, shall mean the measurement taken from the level of the base of such wall to the level of the top of the parapet, or where there is no parapet, to the level of the top of the external wall, or, in the case of gabled buildings, to a level half-way between the base and the apex of such gable.

Provided that where pediments are constructed above the top of the parapet or above the top of the wall, as the case may be, the height of the wall for the whole width of the pediment shall be measured from the base of the wall to a level half-way between the base and the top of such pediment.

Floor Area.

- (s.) The expression "floor area" applied to a building shall mean the aggregate superficial areas of so many horizontal sections thereof as there are floors in the said building. The horizontal section of each floor shall be made at the point of its greatest surface dimensions, inclusive of external walls and of such portions of the party walls as belong to the building, and also of all verandah and balcony floors, covered ways, and light courts.

Squares.

- (t.) The expression "square" applied to the measurements of the area of a building shall mean the space of one hundred (100) superficial feet.

Cubical Contents.

- (u.) The expression "cubical contents" applied to the measurement of a building shall mean the space contained within the external surfaces of the walls and ceilings of the top-most storey, or, where there is no such ceiling, the roof and the upper surface of the floor of its lowest storey.

Dwelling Houses.

- (v.) The expression "dwelling house" shall mean a building used or constructed or adapted to be used wholly or principally for human habitation, not being the building the property of or occupied by or under the control and management of His Majesty's Government or any department thereof.

Domestic Buildings.

- (w.) The expression "domestic building" includes a dwelling house, suite of offices, and any other building not being a public building or building of the warehouse class, or a building the property of or occupied by or under the control or management of His Majesty's Government or any department thereof.

Public Buildings.

- (x.) The expression "public building" shall mean and include every building used as a church, chapel, or other place of public worship; also every building used for purposes of public instruction; also every building used as a college, public hall, hospital, theatre, public concert room, public exhibition room, or for any other public purposes, not being a building the property of or occupied by or under the control or management of His Majesty's Government or any department thereof.

Buildings of the Warehouse Class.

- (y.) The expression "building of the warehouse class" shall mean a warehouse, factory, manufactory, brewery or distillery, and any other building exceeding in cubical contents one hundred and fifty thousand (150,000) cubic feet, which is neither a public building nor a domestic building, nor a building the property of or occupied by or under the control or management of His Majesty's Government or any department thereof.

Inhabited Buildings.

- (z.) The expression "inhabited" applied to a room shall mean a room in which some person passes the night, or which is used as a living room, including a room with respect to which there is a probable presumption (until the contrary is shown) that some person passes the night therein, or that it is used as a living room.

Habitable Rooms.

- (aa.) The expression "habitable" applied to a room shall mean a room constructed or adapted to be inhabited.

Building Owner.

- (bb.) The expression "building owner" shall mean such one of the owners of adjoining land as is desirous of building, or such one of the owners of buildings, storeys, or rooms separated from one another by a party wall or party structure as does or is desirous of doing a work affecting that party wall or party structure.

Adjoining Owner.

- (cc.) The expression "adjoining owner" shall mean the owner or one of the owners, and "adjoining occupier" shall mean the occupier or one of the occupiers of land, buildings, storeys, or rooms adjoining those of the building owner.

House.

- (dd.) The expression "house" means any building or structure, whether temporary or otherwise, including tents and vans, and includes a place of worship, school, factory, workroom, shop, hotel, public house, or other premises of a licensed victualler. It is immaterial whether the house is on alienated or Crown land.

APPLICATION FOR BUILDING LICENSE.

Form of Application.

3. Every person intending to erect any building, or alter, or add to any building within the Municipality of Albany, shall, three days before commencing to erect, alter, or add to the same, deposit for a period of three days with the Council, for the Building Committee's approval, a plan, elevation, and sections of such proposed building, addition, or alteration, together with full and complete specifications of the work proposed to be done. A locality plan showing the position of such buildings shall also be deposited with the Council, to remain permanently in its custody. No person shall commence to erect, alter, or add to such building until the Building Committee shall have signified its approval of such plans and specifications by endorsing the same.

Drawings.

(a.) All drawings shall be in ink on drawing or cartridge paper or tracing cloth. The drawings shall consist of complete plans of every storey, elevations of external fronts, and one or more sections transverse or longitudinal, showing height of storeys, depth of foundations, level of ground, construction of walls, floors, roofs, etc., all clearly figured and dimensioned in feet and inches; also a locality plan showing location of proposed site, with cardinal or north point, position of proposed buildings, and any existing buildings on the site or on the allotment, the position of any existing drains, and the position, size, depth of proposed drains. The distance from the boundaries of the allotment of the proposed buildings shall be figured in feet and inches.

Plans to be Coloured.

(b.) Distinctive colouring shall be used on the locality plan for new and old buildings in the brick area.

Plans to be Signed.

(c.) All plans, drawings, and specifications must be signed by the building owner or his duly authorised agent.

Departure from Deposited Plans.

4. No person who shall have obtained a building license in respect of any building shall, in the construction of such building, depart from the plans or specifications which have been approved by the Building Committee without its consent in writing first had and obtained, and such alterations or departures from approved plans and specifications shall be drawn, described, and endorsed on and in the plans and specifications.

SITES AND FOUNDATIONS OF BUILDINGS.

Sites.

5. No person who shall hereafter erect any house or building shall construct the foundations of any such house or building upon any site or portion of any site which shall have been filled in or covered with any material impregnated or mixed with faecal, animal, or vegetable matter, or which shall have been filled up or covered with dust, or slop, or other refuse, or upon which any such matter or refuse shall have been deposited, unless and until such matter or refuse shall have been properly removed by excavation or otherwise from such site. Any holes caused by such excavation shall, if not used for a basement or a cellar, be filled in with hard brick or dry rubbish or concrete, sand, or other material to be approved by the Surveyor.

Foundations.

6. Every person who shall hereafter erect a building shall cause the foundations of the walls of such building to be formed of a bed of good concrete, not less than nine inches thick, and projecting at least four

inches on each side of the lowest course of footings of such walls. If the site be upon a natural bed of gravel or sand, concrete may be omitted from the foundations of the walls.

The concrete shall be composed of clean gravel, broken hard brick, properly burnt ballast or other hard material, well mixed with freshly burnt lime, or cement, in the following proportions:—In the case of lime, not less than one part of lime to four parts of other material; in the case of cement, one part of cement to two parts of sand and four parts of stone.

GENERAL.

Brick and Stone Walls.

7. Every person who shall hereafter erect any building, unless in pursuance of a license granted under these By-laws, in the brick area, shall cause the same to be enclosed with walls constructed of brick, stone, or other hard or incombustible substances, with the footings resting on the solid ground or upon concrete or upon other solid substructure.

Bond.

8. Every person who shall hereafter erect, alter, or add to any building, within the brick area, shall cause every wall erected in the course of such work, which shall be constructed of brick, stone, or other similar substances, to be properly bonded, and solidly put together with mortar or cement, and shall not suffer the external face of any pier, bay between piers, or any other main wall of a building to be carried up otherwise than truly vertical without any overhanging whatsoever.

Return Walls.

9. Every person who shall hereafter erect, alter, or add to any building shall cause every wall of such building erected in the course of such work, and which may be built at an angle with another wall, to be properly bonded therewith.

Footings.

10. Every person who shall hereafter erect, alter, or add to any building shall construct every wall of such building erected in the course of such work (other than a wall carried on a bressummer) so as to rest upon proper footings. He shall cause the projection of the bottom of every wall on each side of the wall to be at least equal to one-half of the thickness of the wall at its base unless an adjoining wall interferes, in which case the projection may be omitted where that wall joins. He shall also cause the diminution of the footing of every wall to be formed in regular off-sets, and he shall cause the height from the bottom of such footing to the base of the wall to be at least equal to two-thirds of the thickness of the wall at its base. Provided that in the case of domestic buildings of one storey, in the event of a wall being thickened four inches or more to carry a wall-plate, the footings need not project in proportion to, or in respect of such thickening.

Height of Storeys.

11. For the purposes of this By-law the measurement of height of storeys and of height and length of walls shall be determined by the following rules:—

(1.) The height of storeys shall be measured as follows:—

Topmost Storey.

(a.) The height of a topmost storey shall be measured from the level of the underside of its floor joists up to the level of the top of the parapet, or, if there is no parapet, up to the level of the under surface of the tie of the roof or other covering, or, if there is no tie, or in the case of gables, then up to the level of half the vertical height of the rafters or other support of the roof.

Pediments.

(b.) Pediments constructed on top of walls or on top of parapets shall be included in the topmost storey, and the measurements of same shall be made in accordance with the rule laid down in subsection (r) of the interpretation clause.

Lower Storeys.

(c.) The height of every storey other than a topmost storey shall be measured from the level of the underside of the floor joists of the storey up to the level of the underside of the floor joists of the storey next above it.

Lengths of Walls.

(2.) Walls shall be deemed to be divided into distinct lengths by return walls. The length of every wall shall be measured from the centre of one return wall to the centre of another, provided that such walls are external, party, or cross walls of the thickness required under this By-law, and are bonded into the walls so deemed to be divided.

Underpinning.

12. Every person who shall cause the underpinning of walls and chimneys shall cause such underpinning to be built with bricks or stone bedded in cement to the full thickness of the old wall or work if underpinned in brick, and one-third thicker if underpinned in stone, and with proper footings, or to an additional thickness, if the increased height of the wall so requires, and shall cause such underpinning to rest on solid ground, or on concrete, or on other solid substructure as a foundation, and shall cause the whole to be executed to the satisfaction of the Surveyor.

Thickening of Walls.

13. Every person who shall thicken a wall shall cause such thickening to be executed with brick or stone work in cement, properly bonded to the old work, to the satisfaction of the Surveyor, provided that in no case shall any person thicken any wall except after notice served on the Surveyor of his intention so to do.

Domestic Buildings.

14. Every person who shall hereafter erect, alter, or add to any domestic buildings shall construct every external wall and every party wall erected in the course of such work in accordance with the following rules, and in every case the thickness prescribed shall be the minimum thickness of which any such wall may be constructed, provided that the several rules shall apply only to the walls built of brick or other suitable stone or other blocks of hard and incombustible substance, the beds or courses being horizontal:—

(a.) Where the wall does not exceed twenty-five feet in height, its thickness shall be as follows:—

If the wall does not exceed thirty feet in length, and does not comprise more than two storeys, it shall be eight and a-half inches thick for its whole height.

If the wall exceeds thirty feet in length, or comprises more than two storeys, it shall be thirteen inches thick below the topmost storey, and eight and a-half inches thick for the rest of its height.

(b.) Where the wall exceeds twenty-five feet but does not exceed forty feet in height, its thickness shall be as follows:—

If the wall does not exceed thirty-five feet in length, it shall be thirteen inches thick below the topmost storey, and eight and a-half inches thick for the rest of its height.

If the wall exceeds thirty-five feet in length, it shall be seventeen and a-half inches thick for the height of one storey, then thirteen inches thick for the rest of its height below the topmost storey, and eight and a-half inches thick for the rest of its height.

(c.) Where the wall exceeds forty feet but does not exceed fifty feet in height, its thickness shall be as follows:—

If the wall does not exceed thirty-five feet in length, it shall be seventeen and a-half inches thick for the height of one storey, then thirteen inches for the rest of its height below the topmost storey, and eight and a-half inches for the rest of its height.

If the wall exceeds thirty-five feet but does not exceed forty-five feet in length, it shall be seventeen and a-half inches thick for the height of two storeys, then thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length it shall be twenty-one and a-half inches thick for the height of one storey, then seventeen and a-half inches thick for the height of the next storey, and then thirteen inches thick for the rest of its height.

(d.) Where the wall exceeds fifty feet but does not exceed sixty feet in height, its thickness shall be as follows:—

If the wall does not exceed forty-five feet in length, it shall be seventeen and a-half

inches thick for the height of two storeys, and thirteen inches thick for the rest of its height.

If the wall exceeds forty-five feet in length, it shall be twenty-one and a-half inches thick for the height of one storey, then seventeen and a-half inches thick for the height of the next two storeys, and then thirteen inches thick for the rest of its height.

15. The external walls of domestic buildings not exceeding two storeys, and the external walls of the two topmost storeys of domestic buildings exceeding two storeys, may be built with a cavity not exceeding two inches wide, provided:—

- (a.) That the collective thickness of the walling on the two sides of the cavity shall not be less than if the wall were built without a cavity.
- (b.) That the walling on each side of such cavity shall have a minimum thickness of four and a-half inches.
- (c.) That the walls on each side of such cavity be tied with galvanised iron or other non-corrosive metal, or by earthenware tie-blocks, in the proportion of at least four ties to every square yard of wall surface.
- (d.) That the walls of all storeys below the cavity walls shall be thickened beyond the thickness specified for similar walls in the preceding clause, if required, in order to seat such cavity walls so that the same shall not overhang.

Public Buildings.

16. If a public building corresponds in form or structure or disposition with a domestic building, then the rules which obtain for domestic buildings shall apply to such public buildings, provided that the thickness of all external and party walls, and the width of their footings, be at least four inches more than is required for similar walls of the domestic buildings; but should such public building correspond in form or structure or disposition with a building of the warehouse class, then the rules which obtain for buildings of the warehouse class shall apply to such public buildings; provided that the thickness of all external and party walls, and the width of their footings, be at least four inches more than is required for similar walls of a building of the warehouse class.

Should, however, such public building not correspond in form and structure to either a domestic building or to a building of the warehouse class, then such building shall be subject as to its walls and other construction to the special approval of the Building Surveyor.

BUILDINGS OF THE WAREHOUSE CLASS.

Thickness of Walls.

17. Every person who shall hereafter erect, alter, or add to any building of the warehouse class shall construct every external wall, party wall, and cross wall erected in the course of such work, in accordance with the following rules, and in every case the thickness prescribed shall be the minimum thickness of which any such wall may be constructed; provided that the several rules shall apply only to walls built of bricks, or of suitable stone, or other hard and incumbustible substance, the beds or courses being horizontal:—

- (a.) Where the wall does not exceed twenty-five feet in height (whatever is its length), it shall be thirteen inches thick at its base.
- (b.) Where the wall exceeds twenty-five feet but does not exceed thirty feet in height, it shall be at its base of the thickness following:—
If the wall does not exceed forty-five feet in length, it shall be thirteen inches thick at its base.
If the wall exceeds forty-five feet in length, it shall be seventeen and a-half inches thick at its base.
- (c.) Where the wall exceeds thirty feet but does not exceed forty feet in height, it shall be at its base of the thickness following:—
If the wall does not exceed thirty-five feet in length, it shall be thirteen inches thick at its base.
If the wall exceeds thirty-five feet but does not exceed forty-five feet in length, it shall be seventeen and a-half inches thick at its base.
If the wall exceeds forty-five feet in length, it shall be twenty-one and a-half inches thick at its base.

- (d.) Where the wall exceeds forty feet but does not exceed fifty feet in height, it shall be at its base of the thickness following:—

If the wall does not exceed thirty feet in length, it shall be seventeen and a-half inches thick at its base.

If the wall exceeds thirty feet but does not exceed forty-five feet in length, it shall be twenty-one and a-half inches thick at its base.

If the wall exceeds forty-five feet in length, it shall be twenty-six inches thick at its base.

- (e.) Where the wall exceeds fifty feet but does not exceed sixty feet in height, it shall be at its base of the thickness following:—

If the wall does not exceed forty-five feet in length, it shall be twenty-one and a-half inches thick at its base.

If the wall exceeds forty-five feet in length, it shall be twenty-six inches thick at its base.

- (f.) Where the wall exceeds sixty feet but does not exceed seventy feet in height, it shall be at its base of the thickness following:—

If the wall does not exceed forty-five feet in length, it shall be twenty-one and a-half inches thick at its base.

If the wall exceeds forty-five feet in length, it shall be increased in thickness from the base up to within sixteen feet from the top of the wall by four and a-half inches (subject to the provision hereinafter contained respecting distribution in piers).

Rubble Stone Walls.

18. Every person who shall hereafter use stone in coursed or random coursed rubble for the construction of any walls in the erection of any building shall cause the thickness of such stone walls to be at least one-third greater than is prescribed for brick, and such walls shall not in any case exceed twenty-five (25) feet in height, nor be less than fourteen (14) inches in thickness.

PARTY WALLS.

Height of Party Walls.

19. Every person who shall hereafter construct a party wall shall cause such wall, if in a public building or a building of the warehouse class, to be carried up to a thickness equal to a thickness of such wall in the topmost storey, and if in any other building to be carried up of a thickness of at least eight and a-half inches.

- (a.) Above the roof, flat, or gutter of the highest building adjoining thereto to such a height as will give a distance in a public building or a building of the warehouse class exceeding thirty feet in height of at least three feet, and in any other building of fifteen inches measured at right angles to the slope of the roof, or fifteen inches above the highest part of any flat or gutter, as the case may be; provided that, in dwellings built semi-detached in pairs, the party wall may be made to finish on the underside of the roof-covering, which shall be bedded in mortar to the top of such party wall.

Party Walls at Turrets.

- (b.) Above any turret, dormer, lantern light, or other erection of combustible material fixed upon the roof or flat of any building within four feet from such party wall, so as to extend at least twelve inches higher and wider on each side than such erection.
- (c.) Above any part of any roof opposite thereto, and within four feet therefrom.

Chases in Party Walls.

20. No person who shall hereafter erect a building shall make in any party wall any chase which shall be wider than fourteen inches, nor more than four and a-half inches deep from the face of such wall, nor shall leave less than eight and a-half inches in thickness at the back or opposite side thereof, or which shall be within a distance of seven feet from any other chase on the same side of the wall or within thirteen inches from an external wall. No person shall make any chase in a wall of less thickness than thirteen inches.

OPEN AND CLOSED AREAS.

Protection of Gratings.

21. In the construction of gratings and frames over areas, no person shall cause or allow the maximum projection of any such gratings or frames, whether they be open frames or filled with slabs of glass or lenses, to exceed eighteen inches, measuring from the general line of the front of the walls at one foot above the ground level, or the maximum length thereof to exceed six feet; provided that:—

Division between Gratings.

- (a.) Where more than one area grating, or such other covering is permitted in the front of one house or building, the division between each shall be not less than nine inches, and shall be formed by a solid piece of hard stone not less than nine inches wide and nine inches deep, such stone to be securely pinned into or rest upon the brickwork not less than six inches at each end; such stone curbs shall be fixed to the level of the footways, the gratings and frames shall be securely let into the kerbs, and be run with lead, and not be permitted to open.

Description of Gratings.

- (b.) Where covered with open iron gratings, the gratings shall be made with frames or borders, the bars of the gratings shall be fixed at right angles with the house, and the space or width between each bar shall not exceed one inch and a-half; each bar shall be not more than three-quarters of an inch on the surface, and not less than one square inch in transverse sectional area.

Description of Light Gratings.

- (c.) The coverings over areas where intended to be closed or filled with glass slabs, shall be formed by iron gratings or frames, the bars shall not be more than three inches apart, and fixed at right angles to each other; each bar shall have at least one square inch of sectional area, and the spaces between the bars shall be filled with glass at least one inch in thickness.

Permissible Covering over Openings.

- (d.) No covering of any material or description shall be permitted over any area openings, excepting those formed by open iron gratings, or by iron frames filled with slabs of glass or lenses as before described; or Yorkshire flagging four inches thick.

CELLAR FLAPS.

Projections of Openings.

22. In the construction of openings to cellars or cellar flaps, no person shall cause or allow the maximum projection of such openings or cellar flaps to exceed eighteen inches, measuring from the front line of the wall of the house at twelve inches above the ground level, or the maximum width of the openings to exceed four feet; such openings shall be surrounded at the footway level by curbs made of hard stone not less than nine inches wide on the face; such flaps shall be securely fastened from the underside, and be made so as to shut on to ledges or rabbeted in the stone curbs, and to open outwards. All cellar flaps shall be made of jarrah wood, or iron, or steel, or iron grating with wooden fillings, or of artificial stone.

Stairs not permitted.

No staircase or steps shall be fixed beneath the cellar flaps, and no openings to basements shall be allowed or used for the purpose of constant access, but only for the purpose of occasionally raising and lowering goods, or removing dust, etc., and such openings shall be closed immediately after such operations are completed.

DESCRIPTION AND QUALITY OF THE SUBSTANCES OF WALLS.

23. Every person who shall hereafter erect a building in the brick area shall cause:—

Materials in Walls.

- (a.) The external and party walls of every such building, except in the case of concrete buildings, to be constructed of bricks or of stone.

Bricks.

- (b.) Bricks shall be at least eight and a-half inches by four and one-quarter inches by two and three-quarter inch of good, hard, sound, well-burnt quality; stone shall be free from vents, cracks, or large sand-holes, and laid on its natural bed.

Stone.

- (c.) Similar materials to be used in the portions of party and cross walls below the surface or level of the ground, and above the road, including the chimney stack. Cut bricks may be used in arches over recesses and openings in, or for facings of, external walls.

Mortar.

- (d.) All brick and stone work to be put together with lime mortar or with cement mortar. Lime mortar to be composed of freshly burnt lime, and clean sharp sand, free from earthy matter, and mixed in the proportion of one part of lime to three parts of sand. Cement mortar to be composed of Portland cement, or other cement of equal quality, and clean sharp sand, free from earthy matter, mixed in the proportion of at least one part of cement to three parts of sand.

Damp Courses.

- (e.) Every wall of such building to have a damp course composed of materials impervious to moisture, extending throughout its whole thickness at the level of the lowest floor above ground level. Every external wall or enclosing wall of all habitable rooms and their appurtenances, and of all cellars and areas which abut against the earth, to be protected by materials impervious to moisture.

Tops of Party Walls.

- (f.) The top of every exposed party wall and parapet wall to be finished with one course of bricks set on edge in cement mortar, or by a coping of any other waterproof or fire-resisting material properly secured.

Concrete Walls.

- (g.) All concrete used in the construction of walls to be composed of Portland cement, or other cement of equal quality, clean, sharp sand, and of clean gravel or broken bricks or stone or furnace clinkers, and clean water, mixed in the following proportions:—One part of cement to two parts of sand, and four parts of the coarse material broken sufficiently small to pass through a two-inch diameter ring. The proportions of the materials to be ascertained by careful measurement, and the first mixing either by machine or hand to be done dry before the water is added. The walls to be carried up regularly, and in parallel frames of equal height, the surface of the concrete to be well rammed, and to be properly cleaned for the next layer of concrete. The thickness of concrete walls to be equal at least to the thickness prescribed for brick walls. Such portions of concrete party walls and chimney stacks as are carried above the roof of buildings to be rendered externally with cement and mortar.

Recesses and Openings in External Walls.

24. No person who shall hereafter erect a building shall make any recess or opening in any external wall of such building, unless:—

- (a.) The back of such recess or opening be at least eight and a-half inches thick, and
(b.) The aggregate area of recesses and openings above the ground storey do not exceed one-half of the whole area of the wall of the storey in which they are made.

Recesses and Openings in Party Walls.

25. No person who shall hereafter erect a building shall make any recess or opening in any party wall of such building, unless:—

- (a.) The back of such recess or opening be at least eight and a-half inches thick, and
(b.) Over every recess so formed an arch of at least two rings of brick-work of the full depth of the recess be turned on every storey except in the case of recesses formed for lifts; but where such recess does not exceed five inches in depth, corbelling in brick or stone may be substituted for the arching, and

- (c.) The aggregate area of all such recesses and openings does not exceed one-half of the whole area of the wall of the storey in which they are made, and
- (d.) Such recesses or openings do not come within thirteen inches of the inner face of the external walls.

United Buildings.

26. No person shall cause any buildings to be united, except where such buildings are wholly in one occupation, or are constructed or adapted to be so.

- (a.) No person shall cause any buildings to be united if, when so united, and considered as one building only, such buildings would not be in conformity with this By-law.

Openings.

- (b.) No person shall make an opening in any party wall, or in two external walls dividing buildings, which buildings, if taken together, would contain more than two hundred and fifty thousand cubic feet, except under the following conditions:—

(1.) Such opening shall not exceed in width seven feet or in height eight feet, and such opening or openings taken together shall not exceed one-half of the length of such party wall, or such external walls on each floor of the building in which they occur.

(2.) Such openings shall have the door jambs and head formed of brick, stone, or iron, and be closed by two wrought iron doors, each one-quarter of an inch thick in the panel, at a distance from each other of the full thickness of the wall, fitted to rebated frames without woodwork of any kind, or by wrought iron sliding doors, or shutters properly constructed, fitted into grooved or rebated iron frames.

(3.) If the thickness of the wall be not less than twenty-four inches, or the doors be placed at a distance from each other of not less than twenty-four inches, such opening may be nine feet six inches in height.

Owners to give Notice.

- (c.) Whenever any buildings which have been united cease to be in one occupation, the owner or owners thereof shall give notice to the Surveyor, and shall cause all openings in any party wall, or in any external walls uniting such building, to be stopped up with brick or stone work not less than thirteen inches in thickness (except in the case of a wall eight and a-half inches thick, in which case eight and a-half inches shall be sufficient), and properly bonded with such wall, and any timber not in conformity with this By-law placed in the wall shall be removed.

BRESSUMMERS.

Space for Expansion.

27. Every person who shall hereafter erect a building shall cause every bressummer in any external, internal, or party wall to be of rolled steel or iron, or trussed or flitched wooden girder of approved strength, and to have a bearing in the direction of its length of at least six inches at each end upon a sufficient pier of brick or stone, or upon an iron storey post fixed on a solid foundation, in addition to its bearing upon any party wall or external wall, and he shall also cause such bressummer to have such other storey posts, iron columns, stanchions, or piers of brick or stone, or corbels, as may be sufficient to carry the superstructure. The ends of such bressummer shall not be placed nearer to each other or the opposite face of the party walls than four inches; provided that:—

- (a.) At each end of every metallic bressummer a space shall be left equal to one-quarter of an inch for every ten feet, and also for any fractional part of ten feet of the length of such bressummer to allow for expansion.

Templates.

- (b.) Every bressummer bearing upon a party wall shall be borne by a template or corbel of stone or iron-tailed through at least half the thickness of the wall, and of the full breadth of the bressummer.

- (c.) Bressummers consisting of more than one joist shall be solidly bolted together with packing pieces filling in the vacant spaces between the webs of the joists, and shall have such additional plates of sufficient strength, calculated in accordance with recognised formula, rivetted on to the top or bottom boom. Bressummers shall in no case have a less factor of safety than three for dead loads, and five for live loads.

TIMBER IN WALLS.

28. Every person who shall hereafter erect, alter, or add to any building shall comply with the following regulations.

Bond Timber.

- (a.) No bond timber or wood plate shall be built into any party wall, and the ends of any wooden beam or joists bearing on such wall shall be at least four and a-half inches from each other, or from the opposite face of the wall.

Corbels or Templates.

- (b.) The end of any timber not permitted to be placed in or to have a bearing upon a party wall may be carried on a corbel or template of stone or iron or vitrified stoneware, tailed into the wall to a distance of at least eight and a-half inches, or otherwise supported to the satisfaction of the Surveyor.

Woodwork set back.

- (c.) All woodwork fixed in any external wall and frames of doors and windows of shops on the ground storey of any building (except loophole frames or bressummer) shall be set back at least four inches from the external face of such wall.

Box Gutters.

- (d.) If any gutter, any part of which is formed of combustible materials, adjoin an external wall, such wall will be carried up so as to form a parapet one foot at the least above the highest part of the gutter, and the thickness of the parapet so carried up shall be at least eight and a-half inches throughout.
- (e.) No fascia or projecting eave constructed of inflammable materials shall be erected at a less distance than two feet six inches from the boundary of an adjoining property.

PROJECTIONS.

29. Every person who shall hereafter erect, alter, or add to any building shall cause:—

Materials.

- (a.) All copings, cornices, stringcourses whatsoever, and corbelled projections of party walls to be of brick, tile, stone, artificial stone, slate, cement, or other fire-proof material.

Projections secured.

- (b.) Every cornice or other projection to be tailed into the wall of the building, and where the projection thereof exceeds the thickness of the wall, to be weighed or tied down. No cornice to project more than two feet six inches over the public way or beyond the face of the external wall.

Plinths.

30. No persons shall cause the plinth of any building to project beyond the surveyed building line except as follows, that is to say:—Plinths not exceeding two feet in height may project two and a-half inches into the streets beyond the surveyed building line. Where streets are constructed on a gradient, the height of the plinth may be varied if approved by the Surveyor.

Cornices of Shop Fronts.

31. No person shall cause the cornice of any shop front, the piers of which have been built upon the surveyed building line, to project beyond such piers and beyond such surveyed building line, except as follows:—In a street or way of a width not greater than thirty-three feet, such projection shall not exceed thirteen inches; in a street or way of a width greater than thirty-three feet, such projection shall not exceed eighteen inches.

Extent of Woodwork in Shop Fronts.

32. No person who shall hereafter erect, alter, or add to any building shall cause any part of the woodwork of any shop front to be fixed higher than twenty-five feet above the pavement of the public footway in front of the shop, or nearer than four and a-half inches to the centre of the party wall, where the adjoining premises are separated by a party wall, or nearer than four and a-half inches to the face of the wall of the adjoining premises, where the adjoining premises have a separate wall, unless a pier or corbel of stone, brick, or other incombustible material at least four and a-half inches wide be placed as high as, and alongside such woodwork, and projecting throughout at the least one inch in front thereof, between such woodwork and the centre of the party wall or the separate wall, as the case may be.

Oriel Windows, Turrets, Balconets.

33. Oriel windows, turrets, and balconets to a building may be erected in a street of a width of not less than forty feet, or where the front wall of such building is at a distance of not less than forty feet from the opposite boundary of the street, provided that no such oriel window, turret, or balconet shall be erected except subject to the following conditions, viz.:—

- (1.) No part of such window, turret, or balconet shall extend more than three feet from the face of the front wall of such building or more than twelve inches over the public way.
- (2.) No part of such window, turret, or balconet shall be less than ten feet above the level of the footway of the street.
- (3.) No part of such window, turret, or balconet (where same overhangs the public way) shall be within a distance of four feet of the centre of the nearest party wall.
- (4.) On no floor shall the total width of any oriel windows, turrets, or balconets, taken together, exceed three-fifths of the length of the wall of the building of that floor.

FACTORY CHIMNEYS.

34. Every person who shall hereafter construct a chimney shaft which may be intended for use in connection with the furnace of a steam engine, brewery, distillery, or manufactory, shall construct such shaft in conformity with the following rules:—

Foundations.

- (a.) The foundation of such shaft shall be made of concrete or other sufficient foundation.

Footings.

- (b.) The footings of such shaft shall spread all round the base thereof by regular offsets to a projection equal to the thickness of the enclosing brickwork at the base of such shaft, and the space enclosed by such footings shall be filled in solid as the work progresses.

Width at Base.

- (c.) The width of the base of such shaft, if square, shall be at least one-tenth of the proposed height thereof, or if such shaft is round, octagonal, or other many and equal sided and angled, then at least one-twelfth of the height thereof.

Chimney Shaft.

- (d.) Every such shaft shall be carried up throughout in brickwork and mortar of the best quality, and if detached shall be tapered gradually from the base to the top, and on all faces or sides of such shaft, at the rate of at least two and a-half inches for every ten feet of height.

Thickness of Brickwork.

- (e.) The brickwork at the top of such shaft, and for twenty feet below the top, shall be at least eight and a-half inches thick, and such thickness shall be increased at least four inches for every additional twenty feet, measured downwards.

Projections.

- (f.) Every cap, cornice, pedestal, string-course, or other variation from plain brickwork in connection with such shaft shall be as additional to the thickness of brickwork required under this By-law, and every such cap shall be constructed and secured to the satisfaction of the Surveyor.

Fire Brick Lining.

- (g.) All fire-brick lining built inside the lower portion of such shaft shall be additional to and independent of the thickness of the brickwork thereof prescribed by the By-law, and shall not be bonded therewith.

HABITABLE ROOMS.

35. Every person concerned in the erection of any building containing a habitable room or rooms shall cause:—

Cubical Capacity.

- (a.) Every such room to have a capacity of not less than eight hundred cubic feet.

Height of Rooms in Roof.

- (b.) Every such room wholly or partly in the roof of such building to be at least eight feet in height from the floor to the ceiling throughout not less than one-half the floor area of such room.

Height of other Rooms.

- (c.) Every such room, not being wholly or partly in the roof, to be in every part at least eight feet six inches in height from the floor to the ceiling.
- (d.) Every such room to have one or more windows opening directly into the external air or into a conservatory with a total superficies clear of the sash frames and free from any obstruction to the light, equal to at least one-twelfth the floor area of such room, and so constructed that a portion equal to at least one twenty-fourth of such floor area can be opened, and that the opening in each case shall extend to at least seven feet above the floor level, provided that such room may be lighted by a lantern light, which shall be hung to open with rods or lines and levers, of which a portion equal to at least one twenty-fourth of the floor area can be opened.

Rooms over Stables.

- (e.) Every room to be constructed over a stable to be separated from the stable by a floor, which shall have in every part not occupied by a joist or girder a layer of concrete or clay pugging of good quality, or of other solid construction three inches in thickness, finished smooth upon the surface and properly supported, and the underside of such floor to be ceiled with lath and plaster of good quality, or of other solid construction; and every staircase, gallery, or structure by which such rooms shall be approached to be separated from the stable which it adjoins by a brick wall not less than eight and a-half inches in thickness.

Ventilation.

- (f.) Every such room, whether used for the purpose of habitation or for the assemblage of people for any purpose whatever, to be well and properly ventilated by the insertion of air-bricks below the floor, and by openings in the sleeper-walls, also by inlet ventilators in the walls, and by outlet ventilators in the ceilings, or at the top of the walls of such room, with sufficient flues and pipes thereto, according to the position and size of such room.

Ventilation under Basement.

- (g.) Every basement room having a wooden floor, other than a floor constructed of solid wood bedded on concrete, to have a sufficient space between the ground and the under side of the floor to admit of ventilation by means of air flues formed in the wall connected with air bricks or otherwise above ground level.

Distance from Boundary.

36. No person shall cause or allow to be constructed in any dwelling any habitable room, unless every window thereof opening into the external air at the side of such dwelling is provided with a clear air space, in the case of a single storeyed dwelling of at least two feet six inches, and in any other case of at least three feet wide, measured square on to the exterior face of the wall in which such window is situate, such air space being in the same ownership as the dwelling.

BACK BUILDINGS.

37. No person shall cause or allow any habitable room to be constructed in any back building when the only window or windows of such room opening into the external air is or are situate in the wall which faces the front building, unless every window of such room be placed not nearer to the opposite wall of the front building than a distance of twelve feet.

CONVERSION OF BUILDINGS.

38. No person shall convert into, or use as a dwelling-house, any building or any part thereof not originally built as and for a dwelling-house within the limits of the municipality, whether built before or after the making of this By-law, without the previous consent of the Council.

SIGN-BOARDS, SIGNS, ETC.

39. No person shall erect, put up, or place any sign-board, sign, awning, blind, overhanging lamp, or other thing, over or near any footway or roadway within the municipality without first having obtained the written consent of the Council therefor. Permission to erect a sign-board shall only be given where there is a verandah to which to affix such signboard, and every person who shall have obtained permission to erect a signboard shall cause the same to be securely fastened to such verandah at a height in the clear of not less than eight feet from the footpath. No signboard shall be fixed to any covering of the verandah roof, or to any roof guttering, nor shall it project beyond the footway into the roadway.

VERANDAHS AND BALCONIES.

40. No person shall erect any verandah or balcony over any public footway within the limits of the Municipality of Albany unless he shall have obtained a license in accordance with Schedule II. or III. and except in accordance with plans approved by the Council, nor shall he cause or allow any portion of any verandah or balcony, now or hereafter to be erected, to be enclosed.

MISCELLANEOUS.*Filling in Cellars.*

41. The owner of any building or premises shall fill up, secure, or remove any cellar-ways or openings which may be in or under any footway, and are used in connection with, or are appurtenant to such building or premises, whenever ordered by the Council so to do.

Removal of Verandahs, etc.

42. The owner of any building or premises shall, when ordered by the Council so to do, at his own expense remove any verandah, balcony, or other obstruction used in connection with, or appurtenant to such building or premises, which shall obstruct the footway or street, or are dangerous, whether such verandah, balcony, or other obstruction shall have been erected before or after the commencement of "The Municipal Corporations Act, 1906."

Painting Posts and Poles in Streets.

43. The owner of any lamp post, telegraph, telephone, electric lighting, or tramway poles shall, when ordered by the Council so to do, at his own expense, paint the same during such hours, and in such manner as the Surveyor shall direct, and shall, at such like expense and when so ordered, remove any such posts or poles as shall be bent, dangerous, unsightly, or not in use.

Dangerous Fences.

44. No person shall erect any dangerous fence, or shall use barbed wire in the construction of any fence abutting on any public place.

Refrigerating Paint.

45. The owner or occupier of any building occupied or used as a workshop, workroom, or office, which shall be partially or wholly constructed of iron, zinc, or tin shall, once in every three years, or oftener, when so ordered by the Council, cause such iron, zinc, or tin to be coated with refrigerating paint.

Dangerous Projections.

46. No person shall cause or allow any iron spike or other projection, broken glass, or barbed wire to be placed or fixed on any premises, abutting upon a street or way.

47. No person shall construct any building, without providing convenient means of access to the roof by manholes or otherwise.

48. Timber-framed gables to any bay window may be constructed in buildings of the domestic class, and in buildings in other classes, if approved and consented to by the Council, and endorsed on the drawings by the Building Surveyor.

49. All sky-lights in verandahs and buildings, and the sloping sides of all lantern lights, shall be protected by galvanised iron wire guards, securely fixed to the inside thereof.

PENALTIES.

50. These By-laws shall apply to every part of the Municipality of Albany, and any person who contravenes or does not comply with any one of the provisions of these By-laws shall be deemed guilty of an offence against the same, and for every such offence shall be liable to a penalty not exceeding £20.

51. The provisions of the foregoing By-laws relating to the erection of brick or stone buildings or structures shall apply only to the erection of brick, stone, or reinforced concrete on any allotment abutting upon Stirling Terrace (both sides), from Parade Street to Osnaburg Street, and abutting upon York Street (both sides) from the foreshore of Princess Royal Harbour to the "Hordern" Monument, in accordance with By-law No. 37, which will remain in force in its entirety.

BAKE-HOUSE FLOORS.

52. The floors of every bake-house shall be constructed of jarrah, concrete, wood-blocks, bricks, asphalt, or other impervious material authorised and approved by the "Building" Committee.

53. Nothing in these By-laws shall be construed to preclude an owner of land in any street within the Municipality, other than the streets hereinbefore mentioned, from erecting a wooden, or wood and iron building, provided such proposed wooden or wood and iron building shall be first approved of by the "Building" Committee, and erected to the Building Surveyor's satisfaction, and provided such wooden or wood and iron building shall be erected at a distance of not less than three feet from the boundary of the land adjoining the land upon which the proposed wooden or wood and iron building is required to be erected, and twenty feet from the street or way on which the land abuts.

54. Provided further that, in the event of any owner erecting or proposing to erect a brick building in any street or way other than those hereinbefore named, the said proposed building shall be erected in accordance with the conditions of these By-laws relating to brick, stone, or reinforced buildings.
