Handling charges as per rates shown for other cargo according to the service rendered in each case.

N.B.—The minimum wharfage shall be 6d., and the minimum handling charge shall be 3d. per consignment.

Note.—(1.) Transshipment cargo worked overside from a ship direct to another ship free of wharfage charges.

(2.) Cargo landed on wharves or jetties from a ship in distress, or for convenience of a ship and reshipped by same ship, 10d. per ton wharfage. (This rate includes three days' storage in Wharf Shed.) Handling charges will be made according as the said cargo is dealt with, on the same scale as other cargo.

(3.) Transshipment cargo is cargo appearing as such upon a ship's manifest, or declared in writing to the Trust before being landed as intended for transshipment into a ship, but does not include cargo landed for land transport to another port.

(4.) No wharfage dues will be charged in respect of ballast, in the shape of stone, sand, shingle, or such like material, transhipped overside vessel to ship.

(5.) The Trust will not supply labour to handle cargo transhipped overside ship to ship.

(6.) Cargo is allowed 48 hours' free storage in wharf sheds, except transshipment cargo, which is allowed 72 hours.

(7.) Grain (as defined above), flour, agricultural and horticultural produce (including fruit), and coal, any of which being the product of the State of Western Australia, when brought to the Port of Fremantle for the purpose of transshipment for export beyond the State shall be free of transshipping dues, but must pay handling charges incurred.

(8.) Goods which have already paid a full inwards wharfage at another Port in the State of Western Australia shall on prime entry be exempt from the payment of wharfage dues at Fremantle on production of satisfactory proof of such payment.

(9.) Wharfage dues on bulk kerosene and other like oils will be 2s. 9d. per ton of 250 gallons. Handling charges will be subject to arrangements according as the oils are dealt with.

(10.) Wool, landed for reclassing, scouring, marking, dumping, etc., and reshipped, will be regarded as transshipment cargo on a certificate from the shipper that it was the same wool as originally landed.

(11.) Motor cars, which have once paid a full inwards wharfage rate at Fremantle, and which are being shipped from the Port for the owner's private use, or which are again landed at the Port for the owner's private use, shall only be charged one-half the schedule rate of wharfage. To obtain this concession, the owner or his agent must give such proof as shall satisfy the Secretary of the Trust that he is entitled to such concession.

(12.) For the purpose of computing charges on specified rates see Regulation No. 43a.

(13.) Harbour Improvement Rate.—Attention is drawn to Regulation No. 173a, which provides for a Harbour Improvement Rate on goods discharged in the Port of Fremantle additional to wharfage dues and handling charges. This Harbour Improvement Rate is not levied on transshipment cargo, nor on coal discharged in the Port of Fremantle for bunkering in the port only.

4th. By repealing Regulation No. 118, and making the following new Regulation in lieu thereof; to come into force on the 1st day of August, 1914, viz.:—

No. 118.

Outwards Cargo.

All goods shipped over wharves or out of lighters to ports within the State shall be free of wharfage dues.

Goods wholly manufactured within the State, also grain, flour, agricultural and horticultural produce, and coal (the product of the State) shall be free of wharfage dues on shipment to any port.

Where the Commissioners perform the necessary labour services, receiving and delivering the goods indicated in the two immediately preceding paragraphs, such services shall be charged for at the same rates as inwards cargo of similar character and for like service.

All other goods shipped outwards shall pay wharfage dues and handling charges at the same rates as inwards cargo of similar character, with the following exceptions:—

Timber.—Wharfage, 1s. 6d. per ton of 40 cubic feet, handling charges 1s. per ton for railway sleepers, and 2s. per ton for paving and other blocks, and 1s. 6d. per ton for all other classes of timber, in respect of each of the following services:—

- (a.) Unloading and stacking prior to shipping.
- (b.) Handling from stack to ship's slings.
- (c.) Handling in railway wagons at ship's slings.
- (d.) Any other distinct labour service rendered.

Scrap Metal.—Wharfage (same as inwards rates); handling charges, if loose 2s. 6d. and if crated, cased, or bagged 1s. 2d. per ton for handling out of trucks or other vehicles into ship's slings.

Frozen Mutton or Lamb.—Wharfage, free; handling charges, as on inwards cargo of like nature.

Fruit in Cases.—Wharfage, free; handling charges:—

- (a.) Where delivered to ship's slings through shed, 2s. per ton.
- (b.) Where worked direct from railway wagons into ship's slings, 1s. 6d. per ton.

Sandalwood.—Wharfage (same as inwards rates); handling charges, if loose 3s., and if crated, cased, bagged, or bundled 2s. per ton weight for each service incurred.

Firewood.—On rough timber exported as firewood.—Wharfage, 1s. per ton weight; handling charges, same as paving blocks.

Wool shipped, not being treated as transshipment cargo, per ton of 5 bales or 10 pockets, bundles, or bags.—Wharfage, 3s.; handling charges as on inwards cargo of like nature.

The minimum wharfage due shall be 6d., and the minimum handling charge shall be 3d. per consignment.

Wheat for Export.—Wheat in bags brought to the Port of Fremantle for export will be handled by the Commissioners on the following terms:—

1. *Weighing, Marking, etc.*—All weighing which is required to be done on the premises of the Trust will be carried out by the Trust, as requested from time to time, and will be of truck loads, by truck weighbridges. The loaded trucks (whether the wheat is stacked in the North Quay Grainshed or worked direct from the trucks into the vessels' holds), after having the sheets removed and before the doors are lowered, will be weighed for their "gross" weight, and after the accepted bags have been removed from the trucks and the doors locked up again, the trucks will be again weighed on the same weighbridge (they not having been moved in the meantime) for their "tare" weight.

In the absence of instruction to the contrary, all trucks will be weighed.

Wheat can be worked direct from the trucks into ship's holds from either side of the grain shed; in cases where it is so dealt with, trucks standing on the land side, the shed conveyors will be used, and the weighing will be the same as though the bags were stacked, *i.e.*, the truck will be weighed and tared without moving from the weighbridge. When trucks are put alongside the ship for the wheat to be taken on board by means of portable elevators, cranes, or ship's gear, the weighing will still be in truck loads, but the trucks may not be tared on the same weighbridge, as it may not be convenient to work the empties back over the same bridge that the fulls were weighed upon, though this will be done wherever possible.

Where requested, the Trust will supply a list or note of the weights arrived at, as stated above, for record purposes only, but this list or note of weights will in no sense constitute a receipt for weights, nor be deemed as qualifying or embodying any condition of any receipt.

All weighbridges will be tested each morning and adjusted where necessary, and the weigh clerks have instructions that this should be done in the presence of the merchants' representatives, who should, therefore, make a point of seeing this done, to prevent disputes afterwards. The work cannot be delayed, however, waiting for merchants' representatives to be present.

2. *Receipts.*—The Trust will give receipts, at the Trust's main office, Cliff Street, Fremantle, once daily, for all bags received for storage purposes only, on a special "Fremantle Harbour Trust Wheat Receipt" form only.

Where requested, the Trust will similarly give receipts for rejected bags on a "Fremantle Harbour Trust Rejected Wheat Receipt" form only, but this will be only in special cases where the rejected bags are allowed to remain on the premises of the Trust.

No receipts will be given for bags loaded direct from truck to ship, at any place, whether the bags are passed over the conveyors at the grain shed or worked into the ship from the railway lines alongside the ship, at any berth in the Port.

3. *Rejected Wheat.*—As regards bags rejected at ship, or shed, or other spot where handling is done, these shall not be allowed to remain on the premises of the Trust, but shall be either left in the trucks during the course of handling out the accepted bags, or placed back in the trucks before the trucks are removed.

If, however, it is particularly requested by the shipper that these rejected bags shall remain on the premises of the Trust, they will be allowed to so remain for a period of 48 hours after being unloaded, at the termination of which period they will be loaded into railway trucks and sent to the railway yards at North Fremantle, consigned to the merchants on whose account they were originally discharged, and at the entire risk and expense of the said merchants.

4. *Open Air Stacks.*—Should it become necessary to form open air stacks, the Trust will not cover the bags so stacked in the open air, but will, if requested, place over such stacks such covers as the merchants see fit to provide, but without responsibility on the part of the Trust, and the charge for such services shall be the actual labour cost of the men employed to do the work.

For dunnage, the Trust will, where requested, permit the use, free of rent, of any material which they may have on hand suitable for dunnage, but the merchant must pay all cost of collecting, laying, and returning such material. This special provision shall not throw upon the Trust any onus to supply any dunnage whatever, nor any responsibility in regard to such dunnage as may be supplied.

5. *Wheat received from Coastal Ports by Water.*—Where wheat is brought to the port by water for export, and has to be landed before shipment, the same conditions and charges as are herein set out for wheat brought down by land will apply.

Where such wheat is transhipped to the export vessel overside direct vessel to vessel, and not landed, the Trust will not handle it.

6. *Responsibility.*—In no circumstances will the Trust Commissioners accept responsibility for weight, condition, value, or character of the bags or contents, nor will they accept responsibility for loss or damage to bags or contents, while on their premises, by reason of the ravages of vermin, or from dirt, or fire, or the character of natural deterioration of bags or contents, in the case of shed stored bags, or for loss or damage to bags or contents from vermin, dirt, fire, robbery, character or natural deterioration of bags, or weather, in the case of open air stored bags.

In regard to all rejected bags, as these will be allowed to remain on the premises of the Trust for a limited time, and then only in specially arranged cases (as already set out herein above), for the convenience of merchants, the Trust Commissioners will accept no responsibility regarding them for shortage or loss, or damage, of any sort, from any cause whatsoever.

In regard to wheat worked direct from railway truck to ship, the Trust Commissioners will accept no responsibility for loss or damage from any cause whatsoever. The Trust will require a record of the bags so worked

to be supplied by the merchants daily, such record to be in agreement as to the number of bags, with the receipt obtained by the merchant from the ship.

The Trust Commissioners will accept no responsibility whatever for any demurrage charges made by the Railway Department or shipowners in respect of any delay in the work from any cause whatsoever.

Insect Pests, etc.—Should any wheat on the premises of the Commissioners be discovered to be affected with weevil or other insect pests, or to have deteriorated or become in such a condition as in the opinion of the Commissioners or the Wharf Manager to involve risk of detrimentally affecting other stacks of grain or any other cargo in the hands of the Commissioners, or any of the premises or property of the Commissioners, the Commissioners may order its removal off their premises, or to some other position on their premises as may be decided by them. In the event of such removal not having been effected to the satisfaction of the Commissioners in the time and in the manner stipulated in each case, the Commissioners may remove such grain at the entire risk and expense of the owner. The cost of such removal and keeping and storing shall be paid by the owner of the grain from which such loss or damage arose.

Shortage in Wagons.—The Trust Commissioners will not accept any responsibility for any number of bags beyond the number for which they have given receipts. Should, however, any surplus bags be found in the stacks, these will become the property of the merchant in whose stacks they are found, up to the total of the shortages notified during the course of the work. All charges upon them must, however, be first paid.

7. *Handling Charges.*—The handling charges on wheat for shipment will be as follows:—

I.—Where wheat is handled at places other than at North Quay Grain Shed:

- (a.) Full service, *i.e.*, receiving and delivering, including stacking, where required, Trust giving a receipt for number of bags only, per bag, 2d.
- (b.) For each, or any additional or special handling service required, such as turning over, or sorting bags for such purposes as re-sampling, reweighing, or otherwise; or re-stacking, trucking, etc., as requested, or as necessary, per bag, 1d.
- (c.) Slinging, or working bags on to elevators at railway wagons at ship's side where ship loading from wagons and bags not stacked, per bag, 1d.
- (d.) Conveying bags from one berth to any other berth, or from one position to any other position where railway wagons not used for the purpose, all on South, or all on North side of harbour, per bag, 1½d. If the service herein described does not involve the transferring of bags beyond an adjoining berth, the special charge for the service shall be 1d. per bag.
- (e.) Loading up and stowing in railway wagons for transfer from one position to another position on the wharves (but not including crane or elevator hire), per bag, 1¼d.
- (f.) Weighing and (or) marking of weights on bags, including a list of weights, but not a receipt for weight, and not including handling to and from scale, for each time such service is performed, per bag, ¼d.

On rejected wheat or wheat delivered locally and not shipped:

- (g.) For each service performed such as—
 1. Handling from railway wagons to stacks, and *vice versa*, each way, per bag, 1¼d.
 2. Loading up and stowing railway wagons or other vehicles (but not including crane or elevator hire), per bag, 1½d.
 3. Turning over, or sorting, or re-stacking, per bag, 1¼d.
 4. Handling in railway wagons, where bags not taken out of same, per bag, ¾d.
- (h.) Weighing and (or) marking, same as (f) above, per bag, ¼d.
- (i.) Conveying from berth to berth or shed to shed, for each such service, as in (d) and (e) above.

Note.—In all cases of conveying wheat (either for export or rejected or otherwise) from one berth, shed, or position to some other position, the methods to be

pursued shall be in the entire discretion of the Wharf Manager.

II.—Where wheat is handled at the North Quay Grain Shed:

- (a.) Full service, *i.e.*, receiving and delivering, including stacking, where required, Trust giving a receipt for number of bags only, per bag, 1½d.
- (b.) Or each or any additional or special handling service required, such as turning over or sorting bags for such purposes as re-sampling, re-weighing, or otherwise; or re-stacking, trucking, etc., as requested or as necessary, per bag, 1d.
- (c.) Slinging, or working bags on to elevators at railway wagons, where ship loading from wagons, and bags not stacked, per bag, ¾d.
- (d.) *Weighing.*—Weighbridge weights, including tare of wagons:
 1. Four wheeled wagons, per wagon, 1s.
 2. Bogie wagons, per wagon, 1s. 6d.

(These charges include a note of weights, where requested, but not a receipt for weight.)

On rejected wheat or wheat delivered locally, and not shipped:

- (e.) For each service performed, such as—
 1. Handling from railway wagons to stack, and *vice versa*, each way, per bag, 1¼d.
 2. Loading up and stowing railway wagons (but not including crane or elevator hire), per bag, 1½d.
 3. Turning over, or sorting, or re-stacking, per bag, 1¼d.
 4. Handling in railway wagons, where bags not taken out of same, per bag, ¾d.
- (f.) Weighing and (or) marking, same as (f) above, per bag, ¼d.

8. *Work in Overtime Hours.*—Where the performance of any service causes the work to be done in, or to extend into hours other than the regular working hours of the port, the particular charge laid down for such service will in every instance be increased by the additional amount payable to the men as overtime rates of pay. The Trust reserves to itself the right, at all times, to continue the work beyond the regular working hours of the port, if same be necessary in the opinion of the Wharf Manager, whether from any shortness of labour, or from any other reasons whatsoever, and in such cases the additional charges referred to in this paragraph will become due and payable.

All wagons commenced will be finished within each day, no carry over or part wagons to another day being permitted, unless otherwise decided by the Wharf Manager.

9. *Storage Charges on Wheat.*—The storage charges on wheat shipped will be as follows:—

- (a.) For shed storage, but not to involve responsibility for damage to bags or contents by vermin, dirt, fire, character of bags, or natural deterioration, per week, per bag, one-sixth of a penny.
- (b.) For open air storage space, but not to involve responsibility for damage to bags or contents by vermin, dirt, fire, robbery, character of bags, or natural deterioration or weather, per week, per bag, one-twelfth of a penny.

10. *Storage Charges on Wheat not Shipped.*—In all cases of wheat stored on the premises of the Trust, whether in a shed or the open air, ostensibly for shipment, but eventually not shipped, but taken away by merchants for other purposes, the storage charges will be the same as set out in Fremantle Harbour Trust Regulation No. 163, for ordinary general cargo.

11. *Lay Days, etc.*—The scale of berthing dues and lay days in operation in the port for vessels working general cargo will not apply to vessels loading wheat, which will be dealt with on the following basis, *viz.*: ½d. per ton, per day of 24 hours, for each ton of the nett register of the vessel, for the first six days that she occupies a loading berth, and ¼d. per ton, per day, on the nett register for each day of 24 hours subsequent to the first six days that she occupies a loading berth. Sundays and port holidays will not be included where no work done. These charges will be calculated from the time of taking up the loading berth till departure therefrom, and will be computed in quarter days, *i.e.*, six hours to each quarter day. This scale of charges will also apply to vessels loading part cargoes of wheat

where such part cargoes are in excess of one-fourth of the nett registered tonnage of the vessel.

To vessels loading less than one-fourth of their nett register, the scale of berthing dues in force for general cargo ships, as laid down in Regulation No. 105, will apply.

The provision of this special scale of lay days for wheat ships shall in no way affect the control of such or of any vessels in the port, vested in the Harbour Master by the Fremantle Harbour Trust Act, or Regulations made thereunder.

12. *Use of Elevators and Conveyors loading Ships.*—In all cases where the gantry loaders on the North Quay are available for use at a ship, and also where one or more of the portable elevators are available for use at a ship, at either the North Quay or any other berth, the ship must use such as are available, and, in the opinion of the Wharf Manager, applicable to her loading, and the Harbour Trust charges to be paid by the shipowner for the use of such appliances will be for continuous work between the hours of 8 a.m. to 5 p.m., Monday to Friday, and 8 a.m. to 12 noon, Saturday, in loading vessels, for each gantry loader, crane, or conveyor, per hour, or portion of an hour, 5s.

The cost over and above the ordinary cost of day work of all labour and supervision employed by the Trust, in connection with the working of these appliances, or any of them, during hours other than the ordinary working hours of the port, shall also be paid to the Trust by the shipowner, in addition to the hire rates already stated herein above.

Continuous work shall be deemed to be the continuous time during which these appliances or any of them are retained at a ship, and not the time during which they are actually working.

The ship that is first ready to use these appliances, or any of them, shall be deemed to have priority of claim to same, and in the event of any such appliances being, in the opinion of the Wharf Manager, available for use, and not used by a ship, the same rates will become chargeable against the ship, as though the said appliances had been used by her.

These charges will include the use of shoots in the vessels' holds, where such are available and, in the opinion of the Wharf Manager, applicable to the ship being loaded, and the Trust will rig these shoots and will keep them rigged and adjusted, and the charge to the shipowner for such rigging service will be at the rate of 12s. per hatch worked per day.

Where it is necessary in the opinion of the Wharf Manager, or required by the exigencies of the work to rig or adjust shoots or other gear on board ships, in hours other than the ordinary working hours of the port, the charge laid down herein for the use of these shoots or other gear shall be increased by the additional amount payable to the men engaged on the work as overtime rates of pay.

5th. By repealing, as from 1st August, 1914, Regulation No. 121a relative to a charge for sheeting and securing cargo on railway wagons.

6th. By repealing Regulation No. 187, and making the following new Regulation in lieu thereof; to come into force on the first day of August, 1914, viz.:—

No. 187.

Scale of Charges for hire of Cranes, including Driver and power.

1. Continuous work between the hours 8 a.m. to 5 p.m., Monday to Friday, and 8 a.m. to noon, Saturday:—

- (a.) In loading or unloading vessels, to include all lifts up to computed 3 tons weight, per hour or portion of an hour, 5s. 3d.
- (b.) In handling goods on wharves or into or out of vehicles, to include all lifts up to 1½ tons weight, per hour or portion of an hour, 5s. 3d.

2. Scale for casual or special lifts:—

- (a.) For lifts computed to weigh not exceeding 1½ tons, per lift, 2s. 6d.
- Over 1½ tons and not exceeding 2 tons, per lift, 5s.
- Over 2 tons and not exceeding 2½ tons, per lift, 7s. 6d.
- Over 2½ tons and not exceeding 3 tons, per lift, 10s.

- (b.) For lifts computed to weigh more than 3 tons and up to 10 tons, fraction of tons over one-quarter ton to be taken as one ton, per ton, 5s.

LAND OPEN FOR SELECTION.

Department of Lands and Surveys,
Perth, 24th July, 1914.

IT is hereby notified, for general information, that His Excellency the Governor in Executive Council has been pleased to approve of the areas scheduled hereunder being made available for selection under "The Land Act, 1898," and its amendments. The selector of a Homestead Farm from any location available under Part VIII. must take the balance thereof under Conditional Purchase, and a selector of a portion of any location available under Part VI. must take the balance of same under Grazing Lease conditions.

The areas which are open under Part V. are open under Section 55 (Residential Conditions), and only under Section 56 (Non-residential Conditions) to those persons already holding their full complement under Section 55 in the immediate vicinity.

The lands marked with an asterisk are available under Part VI.

Applications must be lodged at the Local Land Office for the District in which the land is situated.

Any application may be lodged before the fixed date, but will be treated as having been received on that day; if there are more applicants than one for any lot, the application to be granted will be determined by the Land Board, and should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, after the closing of the date for receiving applications, notice will be given in the *Government Gazette* and at least one newspaper advising the applicants for the blocks of the date, time, and place of the meeting of the Board, to deal with the matter; but it shall not be obligatory on the Department to give any other notice.

If an applicant wishes to appear before the Land Board in person, he may apply to the Head Office or to the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department, which, on presentation at the nearest Railway Station will entitle him to a Return Ticket, at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue.

Land specified as carrying an Agricultural Bank advance which is situated within 15 miles of a railway or authorised railway is available subject to the special conditions that an expenditure of not less than one-fourth of the amount set out shall be made on prescribed improvements in each of the first four years of the lease, but this shall not release the holder from any covenant in the Agricultural Bank Mortgage requiring the improvements to be made at an earlier date. Such advance is subject to the usual condition governing a loan from the Agricultural Bank, particulars of which may be

had on application to the Managing Trustee. Applications for advance must be accompanied by a fee of one per cent.
