#### LAND OPEN FOR SELECTION

Department of Lands and Surveys,  
Perth, 31st December, 1914.

IT is hereby notified, for general information, that His Excellency the Governor in Executive Council has been pleased to approve of the areas scheduled hereunder being made available for selection under "The Land Act, 1898," and its amendments. The selector of a Homestead Farm from any location available under Part VIII. must take the balance thereof under Conditional Purchase, and a selector of a portion of any location available under Part VI. must take the balance of same under Grazing Lease Conditions.

The areas which are open under Part V. are open under Section 55 (Residential Conditions), and only under Section 56 (Non-residential Conditions) to those persons already holding their full complement under Section 55 in the immediate vicinity.

The lands marked with an asterisk are available under Part VI.

Applications must be lodged at the Local Land Office for the district in which the land is situated.

Any application may be lodged before the fixed date, but will be treated as having been received on that day; if there are more applicants than one for any lot, the application to be granted will be determined by the Land Board, and should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, after the closing of the date for receiving applications, notice will be given in the *Government Gazette* and at least one newspaper advising the applicants for the blocks of the date, time, and place of the meeting of the Board, to deal with the matter; but it shall not be obligatory on the Department to give any other notice.

If an applicant wishes to appear before the Land Board in person, he may apply to the Head Office or to the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department, which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket, at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue.

Land specified as carrying an Agricultural Bank advance which is situated within 15 miles of a railway or authorised railway is available subject to the special conditions that an expenditure of not less than one-fourth of the amount set out shall be made on prescribed improvements in each of the first four years of the lease; but this shall not release the holder from any covenant in the Agricultural Bank Mortgage requiring the improvements to be made at an earlier date. Such advance is subject to the usual condition governing a loan from the Agricultural Bank, particulars of which may be had on application to the Managing Trustee. Applications for advance must be accompanied by a fee of one per cent.

## ADVANCES ON ORES.

Department of Mines,  
Perth, 19th December, 1914.

IT is hereby notified, for public information, that in order to aid the development of Mining in the State, the Government, when requested to do so, will, until further notice, undertake the shipment to market and sale there of metalliferous ores and concentrates on behalf of the owners thereof, and will make cash advances thereon, on the following terms and conditions. viz.:—

1. The ores and concentrates shall be such as contain lead, tin, or copper as their principal metallic constituent, but the Minister for Mines from time to time may direct that any other ores, minerals, or metalliferous products of marketable value may be accepted and dealt with similarly.

2. All such ores, concentrates, minerals, and products shall be the produce of mines and mining operations in the State of Western Australia, and hereinafter shall be deemed to be included in the words "ore" or "ores."

3. All ores shall be delivered, at the cost of the owner thereof, at the sampling floor of the Mines Department, in the J. Shed, North Wharf, Fremantle, or at such other place as may be directed from time to time by the Minister, and shall be packed suitably for long distance shipment in boxes, cases, or new strong ore-bags of good quality, marked with distinctive legible and indelible letters and marks plainly and readily visible. Unless otherwise allowed by the State Mining Engineer on account of the nature of the material, all large lumps of ore before being bagged or packed shall be broken into pieces small enough to pass easily through a circular metal ring of three inches internal diameter. To facilitate correct sampling, the whole of the ore in each parcel for shipment shall be thoroughly mixed before being packed or bagged, so as to have approximate uniformity in the values of the contents of each bag or case. If it be found, when sampling, that any parcel of ore has not been broken and mixed as aforesaid, the owner may be charged with the whole cost of so breaking and mixing it and rebagging it at the Sampling Floor, in addition to the usual sampling charges.

4. The person appointed as Sampler shall sample each lot of ore, in accordance with instructions from time to time given to him by the State Mining Engineer, and shall thereupon forward the samples to the Geological Survey Laboratory in Perth for assay. The owner of the ore or his representative may watch the sampling, but shall not interfere therewith in any way, nor touch anything in connection therewith, nor approach nearer than is allowed by the Sampler. If he so desire he will be supplied with a portion of the final sample.\*

5. For the purpose of making advances, the net weight of the ore as determined by the State Mining Engineer, and the assay value as determined at the Geological Survey Laboratory, shall be deemed to be correct, and shall not be subject to appeal to any umpire.

6. No ore will be shipped for sale until the results of assay have been obtained, unless the Sampler is fully satisfied that the value thereof is amply sufficient to cover all forwarding and selling expenses. Any ore which is considered by the State Mining Engineer, after receipt of the Laboratory report, to be unsuitable for sale, by reason of absence of sufficient values or presence of deleterious constituents, shall not be accepted, and shall be removed by the owner at his own expense.

7. A charge of 2s. per ton will be made for sampling and 10s. 6d. for each sample assayed.

8. The Government will forward accepted lots of ore to such market as from time to time shall be ap-

proved by the Minister for Mines, and will dispose of them there as he may think to the best advantage at such times as he shall think fit to do so.

9. Any owner wishing to have his ore sent to any particular market specified by him instead of that selected by the Minister may have it so forwarded by the Government at his own risk, but the amount of advances thereon may be reduced at the discretion of the State Mining Engineer, and the proceeds of sale must pass through the hands of the Government for deduction of advances and expenses.

10. Any owner having his ore sampled at the Government Sampling Floor, but who ships it for sale otherwise than through the Government, shall pay a sampling charge of 5s. per ton of ore and arrange for his own assays.

11. If in any case the net proceeds of sale of any parcel of ore are not sufficient to pay the expenses upon it incurred by the Government, in addition to repayment of the advances with interest thereon, the balance shall be a debt due by the owner to the Government, recoverable at law. No person shall have any claim against the Government for loss or damage to his ore in transit unless negligence can be proved on the part of some agent of the Government, and no person shall have any claim on the grounds that his ore has not been sold to the best advantage.

12. Advances will be made in accordance with the following procedure, viz.:—

(a.) Such allowances for moisture, tare of bags or cases, and loss of material in transport, as may be fixed by the State Mining Engineer, shall be deducted from the gross weight of each parcel as ascertained by the Sampler, and the net weight so arrived at shall be the weight on which advances will be made.

(b.) The saleable constituents of the ore will be valued for advances at the following rates, or such other rates as may be fixed from time to time by the Minister, viz.:—

Lead, at £13 per ton of metallic lead shown by the assay.

Tin, at £130 per ton of metallic tin shown by the assay.

Copper, at £56 10s. per ton of metallic copper shown by the assay less 1.3 units.

Gold, at £4 per oz. fine shown by the assay.

Silver, at 2s. per oz. fine shown by the assay.

If the valuable constituents of the ores are other than the above-named, they will be valued, as occasion may arise, by the State Mining Engineer at rates not less than the minimum average prices for such commodities on the London market in any year since the beginning of A.D. 1900, and not more than the general average prices of the same for the whole period since the same date.

(c.) The advances will be at the rate of 90 per cent. of the values of the parcels calculated as in (b) above, less such sums as will be sufficient to cover all expenses incurred by the Government in receiving, storing, sampling and assaying, shipping, insuring and selling the ores, according to estimates of such expenses to be made from time to time by the State Mining Engineer from the best information available to him.

(d.) The ores having been sold, any balances remaining after payment of all expenses actually incurred by the Government on account thereof, together with repayment of advances and interest due, will be paid over to the owners of the ores.

(e.) The interest on the advances and on any moneys expended by the Government in payment of freight and other expenses of dealing with the ores shall be at the rate of six per cent. per annum, and shall be calculated from day to day from the date on which each sum was expended by the Government to the date of the final payment of the balance.

The notice in the *Government Gazette* of 29th November, 1912, relating to "Advances on Shipments of Copper Ores from the Roebourne District" is hereby withdrawn and cancelled.

P. COLLIER,  
Minister for Mines.

\* It should be remembered, however, that this sampling is merely for the purpose of determining the amount of advances which may be made and as a guide to the Government in negotiating for the ore. The actual sale of ore is not made upon it, but on a later and quite independent sampling made at the place at which the ore is finally sold, at which also the weight of the parcel and the deductions for moisture and tare are finally determined. Any purchase tentatively based upon the Government weighing and sampling at the port of shipment is subject to adjustment in accordance with the weights and assays finally agreed upon by the buyer's and seller's agents at the place of actual sale.

## COMMONWEALTH OF AUSTRALIA.

*Notification of Vacancies.*

S 3620/14.

The Treasury,  
Perth, 29th December, 1914.

APPLICATIONS are invited by the Commonwealth Public Service Commissioner from persons qualified for appointment to the following positions.

Applicants outside the Public Service are eligible for appointment to the Administrative and Professional Divisions, but are not eligible for appointment to Clerical or General Division vacancies unless they were in the service of a State on 1st January, 1901, or have retired from the service of the Commonwealth or of a State.

Applicants who are officers of the Public Service of a State should state the date of their appointment to the service, present position, and salary.

Applicants from outside the service should state their qualifications for the office they seek. Copies only of diplomas, references, testimonials, or certificates should be forwarded. If the originals are required they will be asked for.

Date and year of birth should be stated, and applications must be in applicants' hand-writing.

Applications should be addressed to the "Commonwealth Public Service Inspector" of the State in which the vacancy exists, and in the case of officers of the Commonwealth Service be forwarded through the chief officer of the department to which the applicant belongs.

Minimum and maximum salaries where shown indicate the limits of the class or grade in which the position is classified. Subject to the provisions of the Public Service Act, appointments may be made at any salary within those limits. Successful appointees must comply with the life assurance provisions of the Public Service Act and Regulations.
