PUBLIC SERVICE RECLASSIFICATION.

Third Progress Report.

To His Excellency Sir Francis Alexander Newdegate, Knight Commander of the Most Distinguished Order of St. Michael and St. George, Governor in and over the State of Western Australia and its Dependencies, in the Commonwealth of Australia.

MAY IT PLEASE YOUR EXCELLENCY :

We have the honour to submit the third and final report relating to the reclassification of the offices under the Public Service Act. The previous reports covered the Clerical and General Divisions of the Service, and this one deals almost exclusively with the Administrative and Professional Divisions. An earnest endeavour has been made to group the several sections of Professional officers engaged in the various Departments, and to relatively place them into the classes provided.

We are aware of the fact that many officers who are placed in certain classes are capable and fully qualified to perform higher duties, but the basis of the classification only provides for valuation of the work allocated to each officer. Nevertheless it is certain that the exigencies of the Service will at times require officers in the Professional Division to undertake work of greater importance than that usually performed by them. In such cases it does not necessarily mean that there will be a further reclassification—action in this direction will depend upon whether such higher duty is deemed to be permanent or temporary. These remarks do not apply to officers who may have claims under Public Service Regulation 79.

It is considered that the reclassification of the Service, followed as it is by review on appeal to the Statutory Board, provides at least fair remuneration. With few exceptions there has been a substantial advance on the old rates. For the purpose of this reclassification it has been assumed that all officers are efficient and capable of filling the positions held by them. It is the paramount duty of Permanent Heads to see that all officers are fully fitted for their posts, and if for any reason an officer is not thoroughly capable, a report should promptly be made to the Public Service Commissioner, who will decide the action to be taken.

The demands upon the time of the Commissioners have prevented them from making any systematic endeavour in the direction of reorganisation; nevertheless certain action has already been taken which should result in increased efficiency combined with economy. We deem this to be an opportune time to draw prominent attention to Section 46 of the Public Service Act, which makes the following provision :—

“When it appears to the Minister or Permanent Head of any Department necessary or expedient for the more economic, efficient, or convenient working of such department or any branch thereof, that any particular disposition of officers and re-arrangement of work should be effected, the matter shall be referred to the Commissioner for consideration and action :

“Provided that nothing in this Act contained shall be construed as restricting the ordinary and necessary departmental authority of such Minister or Permanent Head of any department with respect to the direction and control of officers and work.”

We understand that consideration has been given to the question of erecting a new building to accommodate the Geological Department, including the Assay Branch. We consider that, if possible, accommodation for the Chemical and Assay Branch should be provided by means of additions to the building occupied by the Government Analyst. If this were done, control could be exercised by one officer instead of two as at present.

Section 37 of the Public Service Act gives power to “raise or lower the grading of any officer, or the classification of any office.” Thus, when it becomes necessary to rearrange the duties of an officer in the direction of adding to or taking away from his responsibility, the Public Service Commissioner should be promptly advised. In some instances recently the Commissioner has only become aware of such changes having been made through the officers immediately concerned instead of by report from Heads of Departments,

The Commissioners desire to draw attention to several changes and rearrangements which they propose.

Public Works Department.—The Commissioners have decided to create four new positions, namely, Principal Assistants for Railway Construction, Harbours and Rivers (exclusive of North-West Coast), North-West Works, etc., and Roads and Bridges. These officers will be directly responsible to the Engineer-in-Chief for the due carrying out of their respective duties and efficient working of their staffs. With the Engineer for Water Supply, Irrigation and Drainage and these four Assistants having direct responsibility to the Engineer-in-Chief, the need for a professional intermediary in the shape of an Assistant to the Engineer-in-Chief is, in the opinion of the Commissioners, unnecessary, and therefore no provision has been made for this office. An officer with technical knowledge ranking as Engineer-in-Chief's Clerk will be sufficient to deal with all papers for presentation to the Engineer-in-Chief. This arrangement should be made at the earliest moment.

The Government Electrical Engineer.—The Commissioners have further decided, with the concurrence of the Engineer-in-Chief, that the position of Government Electrical Engineer is unnecessary. It is with regret that the Commissioners have been led to this step, but it does not appear to them that there is any justification for its retention. In lieu of this position a new one has been created for an Electrician in charge of Electric Installations, Hot Water Systems, Steam Laundries, Air Gas Plants, and Mechanical Appliances (*see* No. 178). The Government has now under its control a large number of small power lighting and heating plants and steam laundries. It is considered advisable to obtain the services of an officer capable of advising on their economical working and efficient maintenance and generally exercising control over them, in addition to the installation and maintenance of electric lights, fans, etc.

Architectural Branch.—To provide an understudy to the Principal Architect and for the better administration of his Branch, a position of Assistant Principal Architect has been provided, which should be filled as soon as possible.

Water Supply, Irrigation, and Drainage Branch.—Under the Engineer in Charge of this Branch are several sub-branches, namely, Mundaring-Kalgoorlie Water Supply, Mines and Country Water Supplies, Country Towns Water Supplies, and Irrigation and Drainage. Here also a position for a Principal Assistant has been created who can, by dealing with all minor matters, relieve the Engineer of much detail and so permit him the time to give adequate consideration to larger issues.

Lands Department.—It will be noticed that the position of District Surveyor has been omitted as a classified position. This position, and that of Draftsman in Charge of a District Office, is so much a question of policy apart from one of administration, which in the past has led to anomalies in classification, that the Commissioners consider that the value of both positions can be better met by an allowance while an officer is in occupation of one or other. The allowance to be paid in either case shall not cease while the officer is on either annual or long service leave during tenure of position, and shall in any question of superannuation be deemed to form part of his salary.

G. W. SIMPSON,
Public Service Commissioner.

C. A. MUNT,
Assistant Public Service Commissioner.

R. A. ROLLAND,
Assistant Public Service Commissioner
for the Professional Division.

- (4) Under "The Land Act, 1898," by ordinary selectors.

Subject as hereafter provided, this order applies to any land within a Repurchased Estate; but as regards applicants mentioned in subparagraphs (2), (3), and (4), this order shall not so apply until after the expiration of one month from the date when such land was notified in the *Government Gazette* as open to selection.

In the event of an applicant other than a Discharged Soldier under subparagraph (1) obtaining a block within a Repurchased Estate, the term of the lease and conditions of payment will be subject to re-adjustment in accordance with the provisions of "The Agricultural Land Purchase Act, 1909."

The areas marked thus § have been approved as suitable for the settlement of Discharged Soldiers under subparagraph (1), and application may be made for advances thereon under the provisions of "The Discharged Soldiers' Settlement Act, 1918."

The areas marked thus * are open under Part VI.

Applications must be lodged at the Local Land Office for the district in which the land is situated, and should be lodged on or before the date specified.

All applications lodged on or before such date will be treated as having been received on the closing day, and if there are more applicants than one of the class entitled to preference for any block the application to be granted will be determined by the Land Board. Should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, the applicants for the blocks will be duly notified of the date, time, and place of the meeting of the Board, and there shall be an interval of at least three days between the closing date and the sitting of the Board.

If an applicant wishes to appear before the Land Board in person he may apply to the Head Office or to the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department, which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket, at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue.

The selector of a Homestead Farm from any location available under Part VIII. must take the balance thereof, if any, under Conditional Purchase.

The prices quoted hereunder (exclusive of the value of improvements, if any, and survey fees, and land acquired by the Crown under "The Agricultural Lands Purchase Act, 1909," or otherwise for settlement) are reduced by one-half to Discharged Soldiers only.
