NOTICE TO MARINERS.

Western Australia—North-West Coast.

MARINERS and others are hereby notified that owing to the Middle Ground in Hare Channel, Cambridge Gulf (Wyndham), having shifted in a Westerly direction, two port hand buoys have been placed in this locality. The one near Pender Point bears 193deg. from Pender Point and 48deg. from Laffan Point, and the other near Laffan Point bears 206deg. from Pender Point and 100deg. from Laffan Point. Both buoys are steel, painted black, and fixed in 27ft. of water.

A new plan of the soundings recently taken in Hare Channel is being prepared for publication.

Masters of vessels approaching Wyndham when rounding Pender Point should steer for Laffan Point, keeping beacons slightly open to the Southward, and passing Pender Point buoy leaving the buoy on the ship's own port hand. When Hare Channel beacons come into line, steer down Hare Channel with these slightly open to the Westward, passing the Laffan Point buoy leaving the buoy on the ship's own port hand, when the depth of water should be not less than 27ft. L.W.O.S.T.

Owing to the Middle Ground Bank extending across Hare Channel beacons to the extent of 200 yards to the Northward and 600 yards to the Southward of Laffan Point buoy, the Western edge of Hare Channel is now about 1,200ft. to the Westward of the line of Hare Channel beacons. When Laffan Point buoy is left 600 yards astern, Mariners may then gradually get the Hare Channel beacons in line or slightly open to the Eastward.
