INDUSTRIAL ARBITRATION ACT, 1912-1925.

Department of Labour,
Perth, 30th May, 1928.

HIS Excellency the Governor in Executive Council has been pleased to approve of the following Regulations made by the Court of Arbitration under "The Industrial Arbitration Act, 1912-1925."

(Sgd.) C. A. MUNT,
Under Secretary for Labour.

Building Trade Apprentices.

1. All Regulations dealing with Building Trade Apprentices made heretofore are hereby cancelled as from the first day of June, 1928, from which date the following Regulations shall be deemed to take effect in lieu thereof:—

2. The term "Building Trade," as used in Section 125 of the Act, shall mean the following trades, callings, or avocations, namely:—

- (a) Bricklaying (including tuck pointing).
- (b) Stonemasonry (including all forms of stone-cutting and fixing and monumental masonry).
- (c) Plastering (including modelling but excluding cement and plaster-sheet making and the making of cement tubs, baths and cisterns).

3. (i) In the event of more than one nomination being received for the Apprenticeship Board from the Industrial Unions of Employers or Workers, the following provisions shall apply:—

- (a) A ballot shall be taken by the Registrar, who shall act as Returning Officer.
- (b) Ballot papers shall be prepared by the Registrar and initialled by him—one such paper shall be supplied to each Industrial Union in such time as to give the Union a reasonable opportunity to vote.
- (c) Each Union shall be entitled to one vote for every duly registered apprentice in the particular trade or calling to which the Union relates. Such votes may be distributed amongst the persons nominated or may all be given to one.
- (d) The ballot paper with the voting recorded shall be returned to the Registrar sealed with the seal of the Union and signed by the President and Secretary within the appointed time.
- (e) At the expiration of the time appointed the Registrar shall count the votes recorded in the ballot papers and report the result to the Court. The person who has received the greatest number of votes shall be deemed to be the nominated member.

(ii) The members nominated shall be entitled to retain their membership for three years but shall be eligible for re-nomination. It shall be the duty of the Registrar to call for nominations as and when same are required.

(iii) A member may resign at any time by sending a notification to that effect to the Registrar. A member who absents himself without the leave of the Chairman from three consecutive meetings of the Board shall be deemed to have vacated his position.

(iv) The presence of the Chairman, and at least one other member, shall be sufficient to constitute a meeting of the Board. The decision of the majority of the members present at a meeting, or if the members present are equally divided in opinion, then the decision of the Chairman shall be the decision of the Board.

4. No person between the ages of fourteen and eighteen years shall be employed in the above-mentioned trades, except as a junior worker when the Award or Industrial Agreement provides for such, or an apprentice, including an apprentice on probation.

5. (i) Any person desirous of becoming an apprentice shall notify the Registrar, who shall keep a register of such persons.

(ii) Every employer desirous of obtaining an apprentice shall take as an apprentice only a person whose name is so registered.

6. Every apprentice shall be employed on probation for a period of three months to determine his fitness or otherwise for apprenticeship, and shall work only for such hours per day and for such remuneration as may be prescribed. In the event of his becoming an apprentice, such probationary period shall be counted as part of the term of apprenticeship. No apprenticeship agreement shall be entered into by the Board until the termination of the probationary period, but in the mean-

time all conditions as to terms and conditions of employment shall apply as if the apprentice were a duly registered apprentice.

7. When an apprentice cannot be usefully employed because of a strike, the employer shall be relieved of his obligations under the apprenticeship agreement during the period of the strike.

8. Subject to Regulation 10 time lost by the apprentice through sickness or any other cause whatsoever may, with the consent of the Board, on the application of any party, be added to the original term in the apprenticeship agreement.

9. The employer shall pay the apprentice for all time lost through sickness or the holidays prescribed by any Award or Industrial Agreement for the time being in force: Provided—

(a) payment for such sickness shall not exceed a total of one month in each year;

(b) where the time lost through sickness exceeds four consecutive working days, the employer may demand from the apprentice the production of a medical certificate, and a further certificate or certificates may be required if any time is lost through sickness within seven days from the date of resumption of duty, the cost, if any, of such certificate or certificates not exceeding 5s. to be borne by the employer.

(c) An apprentice shall not be entitled to receive any wages from his employer for any time lost through the result of an accident not arising out of or in the course of his employment, or for any accident or sickness arising out of his own wilful default.

10. The employer shall pay the apprentice, in respect of time lost through compulsory military or naval training the amount by which the wages prescribed by the industrial award for the trade, calling, craft, occupation, or industry exceeds the amount received by the apprentice from the Department of Defence: Provided that this clause shall not apply to military or naval training imposed through failure to attend compulsory parades.

All time lost by reason of compulsory military or naval training other than the additional training mentioned in the above proviso shall count as part of the apprenticeship.

11. When an apprentice is absent from work for any cause other than sickness or in pursuance of the provisions of these Regulations, the employer shall be entitled to deduct from the wages of the apprentice an amount proportionate to the time so lost.

12. An apprentice shall be entitled to such holidays as are provided for in the Award or Industrial Agreement covering the occupation in which he is engaged.

13. (a) Where in any case it is reported to the Board that any employer or group of employers has not in his or their employ the number of apprentices in proportion to the journeymen employed equal to the proportion allowed or required, the Board may make such investigation and order as it may deem necessary to ensure that each employer or group of employers shall employ and train a specified minimum number of apprentices.

(b) Where in any case the Board is of opinion that the number of apprentices being trained is insufficient to meet the requirements of the industry in the matter of skilled artisans, the Board may make such investigation and order as it may be deemed necessary to permit or require any employer to employ such further number of apprentices as may be directed. Notice of such order shall be given to the parties.

(c) With a view to determining whether the number of apprentices being trained is sufficient to meet the future requirements of the industry in the matter of skilled artisans, the Chairman of the Board may require any employer to furnish him with any specified information relating to the said industry or relating to the employees engaged therein.

14. An apprentice may be suspended for misconduct by the employer, but in any such case the employer shall forthwith make an application for cancellation of his agreement, and in the event of the Board refusing same, the wages of the apprentice, or such portion thereof as the Board may order, shall be paid as from the date of such suspension, and, in the event of the application for cancellation being granted, such order may take effect from the date when the apprentice was suspended.

15. (a) Every apprentice shall attend a Government Technical School, vocational classes, or classes of instruction, for instruction in such subjects as are provided for his trade. Provided, however, that attendance shall not be compulsory when the apprentice is resident outside a radius of 12 miles from the place where instruction is given. Provided also that if technical instruction is not available in the locality in which the apprentice is employed and is available by correspondence, at reasonable cost to be approved by the Board, the Board may prescribe such correspondence course as the technical instruction to be taken by the apprentice and paid for by the employer.

(b) The fees for the classes attended by the apprentice shall be paid by the employer.

(c) The period during which apprentices are to attend such technical school or classes shall be four hours in each week the classes are held if instruction is available.

(d) Every apprentice shall be bound to submit himself to examination at the places and times as directed by the Board.

(e) Every apprentice shall, prior to submitting himself to examination, produce to the examiners a certificate that he has made at least 70 per centum of attendances at the technical school or other place of instruction unless he is exempted from such attendance for good cause.

(f) The Board shall notify the examiners of the names and addresses of the apprentices required to submit themselves to examination.

(g) The employer shall provide such necessary material and machinery as may be required by the examiners, and shall in all ways facilitate the conduct of the examination.

(h) The Board of Examiners shall consist of persons skilled in the industry. It shall comprise equal numbers of representatives nominated by the employers and workers in the particular trade. Failing such nomination or nominations, the Board may appoint such person or persons as it may deem fit. In the event of a disagreement between the examiners the matter in dispute shall be referred to a third person agreed to by them or nominated by the Board or the Chairman of the Board at the request of any of the examiners, and the decision of such person shall be final and conclusive.

In the case of apprentices attending the Technical School, the examiners shall have regard to the results obtained by the apprentices at the periodical examinations conducted by that institution.

(i) It shall be the duty of the examiners to examine the work, require the production of the certificate of attendance, inquire into the diligence of each apprentice, and as to the opportunities provided by the employer for each apprentice to learn, and to submit a report to the Board in writing as to the result of the examination within one month from the date of holding the examination, but this period may be extended by the Board.

(j) Such examination shall, where possible, include theory and practice, as applied to the trade, industry, craft, occupation or calling to which the apprentice is indentured.

(k) The Chairman of the Board shall, after each examination, issue a certificate to each apprentice indicating his degree of proficiency, taking into consideration the term of apprenticeship served. A duplicate of such certificate shall be lodged by each apprentice with his employer and the Secretary of the Union, each of whom shall keep the same in safe custody, and produce the same for inspection by the Industrial Inspector whenever demanded by the latter to do so. When the final examination has been passed, the certificate shall also be signed by the examiners.

(l) Where in any case it is shown to the satisfaction of the Board that any apprentice, by reason of his engagement on country work or other good cause, cannot conveniently attend a technical school or other prescribed classes, such of these regulations as relate to attendance at a technical school or other prescribed classes, and to examinations, shall not apply to such apprentice, but he shall be subject to such conditions as the Board may direct.

(m) Whenever it is possible so to do, the examiners, before entering upon the examination following the issue of these regulations, shall draw up a syllabus showing what, in their opinion, is the stage of proficiency which an apprentice should attain at each of the examina-

tions prescribed. The syllabus shall be subject to review by the Board at any time, and shall be kept as a record by the Clerk of the Board, and a copy handed to the examiners before each examination. The said syllabus may be subject to alteration from time to time by the examiners, who shall forthwith notify the Board thereof.

16. When an apprentice attends a technical school, vocational classes, or other class or classes of instruction during his ordinary working hours, where such is prescribed, the time so occupied shall be regarded as part of the term of his apprenticeship, and the employer shall not be entitled to make any deduction from the wages of the apprentice for such time.

17. If the examiners, or the industrial union or employer concerned, make representations to the Board that the facilities provided by the technical school or other place of vocational training for the teaching of apprentices, are inadequate, the Board may make such investigations and such report to the Minister controlling such technical school, or such other place, as it deems necessary.

18. (a) The term of apprenticeship may be extended by the Board on the failure of an apprentice to pass any of the examinations, and for such purpose it shall be the duty of the examiners to make any necessary recommendation to the Board. Any extension of the term of apprenticeship shall be subject to all the conditions and stipulations in the original agreement, except as to rates of wages, which shall be such amount as the Board may determine.

(b) Upon the failure of an apprentice to pass two consecutive examinations it shall be the duty of the examiners to report same to the Board with a recommendation as to the cancellation of the apprenticeship agreement, or such other remedial measures (*i.e.*, increased time for technical instruction) as they may deem advisable. The Board, after notice to all parties concerned, may cancel the agreement or make such other order in the circumstances as it may deem necessary.

19. Upon the completion of the period of training prescribed for apprenticeship, each apprentice shall be required to pass the final examination test to the satisfaction of the examiners, and upon passing this test shall be provided with a certificate to that effect.

20. Subject to the provisions of any Award of the Court and of Clause 13 (b) hereof, the maximum number of apprentices allowed to any employer shall be in the proportion of one apprentice to every three or fraction of three journeymen employed, provided that the fraction of three shall not be less than one.
