H. C. TRETHOWAN,

FREMANTLE HARBOUR TRUST.—AMENDMENT OF REGULATIONS.

Regulations Nos. 51, 52, and 53, made by the Fremantle Harbour Trust Commissioners, are hereby amended by repealing each of the three Regulations mentioned and enacting the three new regulations as follow, viz.:—

PART II.—SECTION I.

Regulations to be used within the Port of Fremantle.

To come into force on the opening of the Cantonment Hill Station.

Signals.

No. 51.

The Signal Station for the Port is situated on the crest of Cantonment Hill: Latitude 32° 2' 50" South, and Longitude 115° 44' 55" East.

Signals to be made at Cantonment Hill Signal Staff.
—The following will be the system of signalling the movements of vessels from the staff of the Cantonment Hill Signal Station:—

(a) Day Signals.

1. A black ball at South Yard Arm denotes a steamer in sight from South to West of Rottnest Island.
2. A black ball at North Yard Arm denotes a steamer in sight from North to West of Rottnest Island.
3. A black square at South Yard Arm denotes a full-rigged ship in sight from South to West of Rottnest Island.
4. A black square at North Yard Arm denotes a full-rigged ship in sight from North to West of Rottnest Island.
5. A black cross at South Yard Arm denotes a barque in sight from South to West of Rottnest Island.
6. A black cross at North Yard Arm denotes a barque in sight from North to West of Rottnest Island.
7. A black triangle at South Yard Arm denotes a brigantine, schooner, or other fore and aft rigged sailing vessel in sight from South to West of Rottnest Island.
8. A black triangle at North Yard Arm denotes a brigantine, schooner, or other fore and aft rigged sailing vessel in sight from North to West of Rottnest Island.
9. A white flag at South Yard Arm denotes a sailing vessel in sight from South to West of Rottnest Island, rig not yet made out.
10. A white flag at North Yard Arm denotes a sailing vessel in sight from North to West of Rottnest Island, rig not yet made out.
11. When the line to which any vessel which has been sighted is determined, the house or rendezvous flag will be hoisted immediately under the symbol to which it applies.

The rendezvous flags are:—

- Sighted from African Ports: International Code Flag "B";
- Sighted from Eastern Australian Ports: Code "F";
- Sighted from Mauritius: Code "K";
- Sighted from European Continental Ports: Code "M";
- Sighted from United Kingdom: Code "N";
- Sighted from Straits Settlement, East Indies, China or Japan: Code "R";
- Sighted from India or Ceylon: Code "T";
- Sighted from American Ports: Code "V";
- 12. When the vessel being signalled has rounded Rottnest Island, or has been boarded by a pilot (where a pilot is taken), a blue pennant or the pilot flag respectively will be hoisted under the house or rendezvous flag. The pilot flag will be a square flag, the upper half of which is white and the lower half red.
- 13. When the vessel being signalled is coming into the Inner Harbour (either direct from sea, or after having anchored in Gage Roads), the berth she is to occupy will be denoted by flags hoisted under the house or rendezvous flag (in place of the blue pennant or pilot flag, as the case may be), as follows, viz.:—
 - Shed "A"—A white flag, with the letter "A" in red.
 - Shed "B"—A white flag, with the letter "B" in red, and so on for each shed berth on Victoria Quay.
 - River buoys—A white flag with the letters "B1," "B2" or "B3," in red, according as is the buoy to which she will be moored.
 - North Wharf—A white flag, with the letter "N" in red, followed by numerals "1" to "0" indicating the berth.
 - Owen Anchorage Jetty—A white flag, with the letter "O" in red.
- 14. The rig symbol, house or rendezvous flag, and berth signal will remain hoisted till the vessel is berthed, when all will be hauled down.
- 15. Should the vessel require to be boarded by the Quarantine Officer, a yellow flag will be hoisted under the house or rendezvous signal and kept flying there until pratique is granted when berth signal will be hoisted, and all kept flying till vessel berthed.
- 16. Should the vessel being signalled anchor in Gage Roads, the house or rendezvous flag under the symbol denoting the rig will be lowered half-way down, and maintained in that position while the vessel so remains at anchor; the house or rendezvous flag and berth signal being hoisted up to symbol again upon the vessel weighing and standing in for the Inner Harbour; all remaining so hoisted till the vessel berthed.

17. Should the vessel so anchored be ordered into quarantine, the code flag "L" will be hoisted under the house or rendezvous flag. Should she be working explosives in the "Powder Ground" a red flag will be hoisted under the house or rendezvous flag.

18. A large white flag at mast-head with the letter "F" in red upon it denotes an outbreak of fire, and is a signal for the Harbour Trust Fire Brigade to assemble.

(b) Night Signals.

NOTE: When any of these lights are shown on the Yard Arm a white light will be also shown at the mast-head so as to enable the North or South Yard Arm to be distinguished.

1. A red light at South or North Yard Arm denotes a mail steamer in sight from South to West or North to West of Rottnest Island respectively.
2. A white light at South or North Yard Arm denotes an Interstate or coastal steamer in sight from the directions respectively described in No. 1.
3. A green light at South or North Yard Arm denotes a steamer in sight from the directions respectively described in No. 1, character not made out.
4. Should the steamer sighted, as described in No. 3, prove to be other than a mail or Interstate or coastal steamer, the green light will remain.
5. A white light under any of the lights indicated in Nos. 1 to 4 above denotes that the steamer indicated has rounded Rottnest Island where no pilot is taken or has been boarded by a pilot. These signals will be kept burning till the vessel berths.
6. Sailing vessels will not be signalled at night.
7. A red light at mast-head denotes an outbreak of fire, and is the signal for the Harbour Trust Fire Brigade to assemble.

Inner Harbour.

No. 52.

Berthing Signals.—The wharf berth to be taken by any vessel coming into the Inner Harbour will be indicated by a red flag shown at West end of the berth by daylight and a red light by night, in addition to the berthing signals made at Cantonment Hill Signal Staff.

No. 53.

Safety Signals.—In order to avoid any risk of danger from incoming and outgoing vessels meeting in the Entrance Channel or Inner Harbour, the following signals will be displayed in daylight and at night, respectively, from the mast-head of the signal staff at the Cantonment Hill Signal Station, viz.:—

The balls hereinafter mentioned will be hoisted up to a bracket 10 feet below the mast-head and pointing North.

The vertical green lights referred to will start 6 feet below the mast-head and are 6 feet apart.

When these vertical green lights are used all other lights on mast or yard will be put out and a red light shown from the North-West corner of the Signal Station building. Except that the "fire" signal provided for in Regulation No. 51 may be shown with any other lights.

1. Two black balls shown one beneath the other and 6 feet apart in daylight, and two green lights one beneath the other and 12 feet apart at night, will indicate to an incoming vessel that movements are taking place in the Inner Harbour and Entrance Channel, and that the incoming vessel must wait in Gage Roads clear of the mouth of the channel until the balls are lowered, or lights put out.

2. One black ball shown by day or one green light by night 6 feet from mast-head will indicate that a vessel is entering the Entrance Channel, and this must be taken as a warning to any vessel about to move in the Inner Harbour that she is to remain in her berth until the incoming vessel has entered the harbour and passed clear of the vessel about to move, so as not to involve risk of danger, or till the signals are lowered or put out respectively.

3. Three black balls in daylight or three green lights shown one below the other 6 feet apart at night, will indicate to all vessels desiring to pass into or out of the Inner Harbour, that the said Inner Harbour and Entrance Channel is closed against all movements of vessels.

4. International Code Flag "A" will be the signal for a vessel to come into the Inner Harbour.

5. An enlarged Code Flag "Z" flown by itself from the mast-head will indicate that the berth of the incoming vessel has been suddenly altered, and the pilot or ex-

empty master, as the case may be, must carefully watch the Signal Station for his berthing signals. During night time this information will be given by Morse code signal from the Signal Station mast-head.

6. The flying of Code Flag "I" by itself from the mast-head will indicate that the medical officer has left the Inner Harbour to board the incoming vessel for examination purposes.

7. The master or other person in charge of any small craft, whether self-propelled or being towed, and in the event of the latter also the person in charge of the vessel towing, shall take special precautions, while navigating the Inner Harbour and Entrance Channel, to prevent collisions with shipping entering or leaving the harbour. Persons in charge of such small craft must make certain before entering the Entrance Channel that no vessels are in or approaching the channel, and if there should be any vessel in or approaching the channel the small craft must wait out of the channel till such vessel has passed clear. If, however, they should meet a vessel in the channel, the small craft shall keep as far as possible to that side of the channel which lies on their own starboard hand, taking care at the same time not to foul the mark beacons placed at the sides of the channel.

Made, adopted, and passed by the Fremantle Harbour Trust Commissioners at a meeting of the said Commissioners held this 22nd day of February, 1929.

The Common Seal of the Fremantle Harbour Trust was at the same time affixed and impressed hereto by order and in the presence of the Commissioners by—

Acting Chairman.

Commissioner.

4. Plans shall be in ink, on tracing linen or strong paper, and specifications shall be in typewriting, or in ink manuscript clearly written and on strong paper.

To man all vessels belonging to or chartered by the State Shipping Service as soon as required to do so by the State Shipping Service; to abandon all and every form of job control; not to interfere with the free selection and engagement of crews or individual members of crews, but to assist in every way the officers of such vessels or officials of the State Shipping Service in obtaining without delay a sufficient number of suitable men for selection for engagement; not to take, directly or indirectly, nor in any way to countenance incite, encourage, or aid any member or members of the Union to take any action which would prevent or hinder the proper manning of such vessels, or delay or impede the due sailing or progress of the voyage of any such vessels.

In the event of suitable members of the Union not being available for vacancies in the complement of any such vessel, not to oppose such measures affecting the manning of the vessel as may be necessary to secure its continued running: Provided that members of the Union who offer for engagement are not unreasonably rejected; not to take nor to countenance directly or indirectly, nor to incite, aid, or encourage any taking of direct action to settle disputes or grievances or on any other account.

Not to declare black or otherwise to boycott any such vessels or any cargo carried thereon, or goods which have been received by the State Shipping Service for

carriage thereon, but to submit all disputes or grievances for settlement and determination as hereinafter provided.

To assist the State Shipping Service generally in securing the peaceful continuity of the shipping services and the prompt departure of all vessels at the times fixed for their respective sailings, and to take effective measure with that object.

(2) Both parties hereto undertake to submit all disputes arising upon any matter in this Agreement, as soon as possible after such dispute arises, to a Conciliation Board consisting of a representative of the State Shipping Service and a representative of the Union.

(g) A seaman shall, outside his hours of labour, and without payment for the overtime, attend when required any medical inspection, boat drill, or fire drill, and do any work that is required of him for the safety of the ship.

Provided that, if any seaman while off duty in his home port is called upon to attend boat drill or fire drill while any vessel is moored at any wharf, pier, or landing place, he shall be paid overtime for the time taken in getting to and attending such boat drill or fire drill.

(k) On days of arrival in port the Chief Officer and the Chief Engineer who intends to call on members to complete their eight hours' work for that day shall make such call not later than 30 minutes after the ship is moored, and between the hours of 7 a.m. and 5 p.m.

(l) In case of an employee having completed twenty-four consecutive hours' time on duty, he shall be given eight consecutive hours off duty for the purpose of rest. An employee shall, for the purpose of this clause, be deemed to be on consecutive duty unless he is allowed to be off duty for at least four consecutive hours by the clock.

Working off Articles.

(4.) When a member of the Union is required to work by a ship off articles and/or work on board before signing articles and/or required temporarily as a substitute, whilst the vessel is in port to do work ordinarily performed by members of the crew, he shall be paid:—

(1) If employed as a greaser, 22s. 6d. per day.

(2) If employed as a deckhand, 20s. per day, but without the right to meals and accommodation.

Any overtime worked to be paid for at time and a half for the first four hours and double time thereafter.

Double time to be paid for all work done on Sundays and port holidays.

Living on Shore.

(5.) When a seaman is required by the ship to sleep and/or take his meals ashore in his home port whilst on articles, he shall be paid daily 6s. 6d. per day or 1s. 6d. for each meal and 2s. for a bed; if at any other port, the sum of 9s. per day, or 2s. for each meal and 3s. for a bed.

(6.) Where a ship is placed in commission for any definite period less than two weeks, the employees shall receive for the time they are employed in such circumstances, including their return to the home port, 25 per cent. in addition to the rates fixed by Clause (1). Provided that, when the members are being returned to their homes as passengers on days which are holidays, Subclauses (c), (d), (f), and (g) of Clause (8) and

Clause (10), which are being agreed to because, where necessary, members are at work continuously, shall not apply.

(7.) (a) The hours of any seaman when on articles acting as nightwatchman in port shall be from 8 p.m. to 6 a.m.

(b) For acting as nightwatchman when on articles for the night or part of the night, he shall be paid for his duties as such at the rate of 2s. an hour extra to his day's pay.

(c) Where the services of the nightwatchman when on articles are called upon to assist in shifting ship, he shall be paid an extra sum of 1s. 6d. per shift.

(d) Where a member of the Union is employed as a substitute at the home port of the vessel as a night-watchman, the hours of duty as nightwatchman at the home port of the vessel shall be from 5 p.m. to 7 a.m. for which he shall be paid at the rate of 30s. per night, any portion of a night to be paid for on a pro rata basis.

On Sundays and Port holidays he shall be paid at the rate of 2s. 6d. per hour.

(e) The duties of watchmen shall include attending to moorings, gangways, and lights, watching crews' quarters and ship's equipment, and generally to prevent unauthorised persons from coming on board and interfering with any of the ship's or crews' property, and to make any form of report required. (f) A sufficient supply of food and tea, coffee, or cocoa shall be provided for his requirements during the night.

Sundays and Holidays.

(8.) (a) On Sundays and on the holidays named in Subclause (h) when "in port" the seamen shall, unless for overtime payment, be free from labour, except in washing of decks between 7 a.m. and 8 a.m.

Provided that, if a seaman is required to come on board in the home port to do the work in question on Sunday, he shall be paid an extra half a day's pay.

(a) 1. Subject to the provisions of Subclause (c) of Clause (3), so far as this clause is concerned, on Sundays and holidays a vessel shall be deemed to be in port up to the time of actual departure, notwithstanding watches have been set under the authority of this Agreement prior to departure.

(b) On Sundays and on the holidays at sea named in Subclause (j) the seamen (except for overtime payment) shall be free from labour, except such as may be necessary for the navigation, safety, and cleaning of the ship; washing decks and cleaning forecabin to be performed between the hours of 5 a.m. and 8 a.m.

This subclause shall not apply to crews' attendants whose hours of labour at sea (on the grounds that their work is necessary) shall, on Sundays and on the holidays referred to in Subclause (j) of Clause (8), be eight hours between the hours of 6.30 a.m. and 8 p.m.

(c) Should a vessel be at sea on King's Birthday or Foundation Day, the day observed at the next port of call shall be taken as intended. Should a vessel be in a port on King's Birthday or Foundation Day, but the day is not observed on that day, the day observed at the next port of call shall be taken as intended. If the day observed as a holiday at the next port of call will be past before the vessel arrives, the 3rd June and the 26th January respectively will be the holidays to be observed.

(d) 1. If a ship arrives at or departs from a port later than 8 a.m. on any of the holidays named in Subclause (h) of this clause, such seamen shall be entitled to a day off ashore at the home port within one month thereafter, or to an extra day's pay.

2. If a ship is wholly at sea on any of the holidays named in Subclause (j) of this clause, such seamen shall be entitled to a day off shore at the home port within one month thereafter, or to an extra day's sea pay.

(e) When an extra day's sea pay is payable under this clause, no payment shall be made under Clause (8) f.

(f) When a ship departs from any of the main ports on a Sunday or holiday, each seaman shall be entitled to an extra day's sea pay. Provided that, if a ship departs from more than one "main port" on one Sunday only, one extra day's pay shall be payable. Should the ship be timed to sail prior to a Sunday or holiday and

the actual sailing be delayed into the Sunday or holiday owing to any action of the crew, then this clause shall not operate.

(g) When a seaman is employed on an excursion on a Sunday or a holiday, each member of the crew shall be entitled to an extra day's sea pay for the extra duty in addition to any payment he is entitled to for a holiday or Sunday on which he is not employed on an excursion.

(h) The seaman shall be entitled to the following holidays in port: New Year's Day, Good Friday, Easter Monday, King's Birthday, Eight Hours' Day, Christmas Day, Boxing Day, Foundation Day (26th January), Seamen's Union Picnic Day (to be on the same day as Waterside Workers' Picnic Day), and Anzac Day.

(i) But if a different day answer the description of King's Birthday, Eight Hours' Day, or Foundation Day, in different States or in different districts, the first of such days on which the vessel is in port shall be taken as intended.

(j) The holidays when at sea are: Christmas Day, Boxing Day, New Year's Day, Good Friday, Easter Monday, Foundation Day (26th January), and King's Birthday (3rd June). The days are to be observed at sea as Sundays.

Annual Leave of Absence.

(9.) (a) Every seaman shall be allowed leave of absence for fourteen consecutive days for each year of continuous service.

(b) Leave of Absence to accrue *pro rata* for each completed month of continuous service; fractions of days due shall, if under one half, be allowed as one half-day; if over one half, to be allowed as a full day.

(c) If a port holiday, as per Clause (8) h, occurs during the period of annual leave, such holiday shall not count as a day of annual leave.

(d) Annual leave accrued shall be considered due for past service and shall not be reduced on discharge or dismissal of any seaman for any cause.

(e) The time of absence shall begin and end at the home port of the seaman.

(f) The leave of absence may be postponed in whole or in part and the unused leave accumulated, but so that it be not postponed without the consent of the seaman beyond the second year, unless the vessel be absent from Australia for the second year as well as the first.

(g) If a seaman's services have ended under one set of articles but continue without any material break, or if a seaman is discharged just prior to a public holiday or holidays, or before the Christmas and New Year or Easter Holidays, and re-engaged within one week after such holidays, the service shall be deemed to be continuous within the meaning of this clause.

(h) During absence on annual leave a seaman shall be paid a sustenance allowance at the rate of £1 per week.

(i) Forty-eight hours' notice of intention to give the holidays to the employees shall be given to the employees whenever practicable. If it is impracticable in the opinion of the Master to give the 48 hours' notice, as much notice as can reasonably be given must be given to the employees.

Weekly Time Off.

(10.) (a) Each seaman shall be entitled to be absent from his ship in his home port for four consecutive hours for each week he has been employed, unless the seaman shall ask and the Master agree to the four hours being allowed off at any other port. This time is to be given either for the first half of the working day of from 7 a.m. to 5 p.m., or for the latter half, and if not given shall be paid for on the basis of half a day's pay at overtime rates for every four hours not allowed off, or may be allowed to accumulate, and then be given in whole days or part days at the home port.

(b) The employer has the right to offer payment as provided above in lieu of granting leave.

(c) Provided that, if the employee prevents the accumulated leave being given by determining the employment, the employer shall only pay the half-days not allowed at sea pay rates.

(d) If any, days off due not given at the termination of articles by effluxion of time, these days not given shall be paid for at overtime rates.

Overtime.

(11.) (a) Except as otherwise provided for, all labour over the hours of labour, a seaman shall be entitled to overtime at the rate of 3s. per hour.

(b) The overtime shall start to count as and from the time the man out of his ordinary working hours is ordered to attend, and does attend, until released, including any time he is waiting or standing by after the time he was ordered to attend and was not released.

(c) A seaman shall be allowed a minimum of one hour's pay when called out for work outside his ordinary hours of labour.

Shifting Ship.

(12.) (a) Where men who would not otherwise be on board are ordered to be on board at any stated time between 5 p.m. and 7 a.m. for the purpose of shifting ship, such shift shall be deemed to commence 15 minutes prior to the time ordered, but such allowance of 15 minutes shall only apply to the first shift ordered for the night.

(b) Each shift shall be treated as occupying at least one hour (including the 15 minutes prior to the time ordered, if the first shift for the night), and any clearing of decks shall be reckoned as additional overtime work.

Provided that, if a ship is completely shifted more than once in the same hour, including the 15 minutes prior to the time ordered, the work shall be paid for as one shift only.

(c) These clauses do not apply to a donkeyman as far as he performs the functions of a donkeyman in aiding the shift.

(d) Where a ship is shifted between 5 p.m. and 6 p.m., it shall be deemed a shift under this clause; provided that the meal hour between 5 p.m. and 6 p.m. shall not be used for shifting ship unless the Master cannot reasonably avoid shifting ship during that hour.

(e) Should a ship be shifted while men are working overtime between 6 p.m. and 7 a.m., it shall not be deemed a shift.

(f) Where a seaman is ordered to shift a ship at a stated time, and is in attendance at such time, and his services are not required, he shall be paid a minimum of one hour's overtime.

Working Cargo.

(13.) (a) Seamen engaged in handling cargo and/or coal in port or at sea between the hours of 7 a.m. and 5 p.m. shall be entitled to such additional payment as will represent the difference between a day's sea pay plus the victualling allowance, which for the purpose of this clause is fixed at 2s. 9d. a day, and the minimum rate of pay to wharf labourers employed in the port in which the work is done, or the nearest Australian port when this work is done at sea.

(c) No cargo gear, derricks, or hatches shall be rigged up between dark and daylight prior to the arrival of a ship at an anchorage or a port, except for the purpose of preparing to deliver mails and passengers' luggage.

(d) When seamen are engaged in handling cargo between the hours of 5 p.m. and 7 a.m. and on Sundays and holidays defined in Clause (8) of the Agreement at any port or anchorage or at sea, where the seamen are called upon by the Master to work cargo on board the vessel, such seamen shall be paid a flat overtime rate without any deduction from wages, as follows: Mondays to Saturdays between 5 p.m. and 7 a.m. 4s. 6d. per hour; Sundays and holidays as per Clause (8) h and i, from midnight to midnight, 5s. 9d. per hour.

The Master shall decide the hours of commencement of work at any port or anchorage, and shall regulate at his discretion the number of gangs to be employed and the disposition of the men in accordance with the amount of work to be done.

(e) Any hours worked and paid for under Clause (d) shall not be taken into consideration in calculating any overtime payable in excess of eight hours in any one day, nor shall they be included as portion of the twenty-four consecutive hours on duty under Clause (3) m of the Agreement; providing that, if an employee with the inclusion of these hours is engaged for twenty-eight consecutive hours' duty without a break of four consecutive hours by the clock, then the terms of Clause (3) m of the Agreement to apply.

The calendar year shall be divided into quarters and the first days of January, April, July, and October shall be quarter days. The average number of fully paid workers employed by an employer on all working days of the six months immediately preceding any quarter day shall, for the purpose of this subclause, be taken as and be deemed to be the number of fully paid workers employed on such quarter day, and the number of junior workers who may be taken on or continued in employment by an employer at any time shall be based upon the number of fully paid workers so deemed to be employed by such employer on the then preceding

COAL MINES REGULATION ACT, 1902-1926.

Department of Mines.

1177/28. Perth, 5th March, 1929.

IN accordance with Section 72 of "The Coal Mines Regulation Act, 1902-1926," and pursuant to "The Coal Mines Regulation Act Amendment Act, 1928," His Excellency the Lieut.-Governor in Executive Council has been pleased to make the following additional regulations as Part V. of the regulations published in the *Government Gazette* on the 18th day of March, 1927.

S. W. MUNSIE,
Minister for Mines.

Part V.—Appointment of Workmen's Inspector of Mines.

52. Workmen's Inspectors may be appointed for either full-time or part-time employment, and for such mines or groups of mines as the Minister may from time to time direct by notice in the *Government Gazette*.

53. The powers of every Workmen's Inspector as provided under Section 9, Subsection (2) of "The Coal Mines Regulation Act Amendment Act, 1928," shall apply to all the mines or groups of mines specified by the Minister under Regulation 52, and subject always to the control of the Departmental Inspector, and it shall be the Workmen's Inspector's duty from time to time to inspect and exercise his powers in all the mines therein which employ men underground as wages men, contractors, or tributors, together with any other mines as may be from time to time directed by the Departmental Inspector.

54. The rates of payment for Workmen's Inspectors shall be as approved from time to time by the Minister. No district or other allowance shall be paid to Workmen's Inspectors beyond travelling allowance and expenses for conveyance when necessary and approved by the Departmental Inspector.

55. Every Workmen's Inspector shall be under the control and direction of the Departmental Inspector of the mineral field for which the said Workmen's Inspector has been appointed, and shall make all his reports to the Departmental Inspector. He shall also forward a copy of all his reports to the Industrial Unions having members concerned.

56. The Minister may from time to time direct that an election of Workmen's Inspectors be held in each of such mineral field, on such dates and at such times and places as he may appoint, and for the carrying out of such election the following conditions shall be observed, viz.:—

- (a) The Departmental Inspector of Mines, or a deputy appointed by him, shall act as Returning Officer at such election, and shall be empowered to make all necessary arrangements.
- (b) Every candidate for appointment shall be nominated in writing by not less than six persons who are actually employed in mines in the mineral field in question at the date of sign-

ing such nomination, and shall forward his nomination paper so as to reach the office of the Departmental Inspector of Mines on or before the date fixed by the Minister for receipt of such nominations, accompanied with an application from himself for employment in the desired position, any testimonials or other evidence which he may desire to submit in support thereof, and a statutory declaration, signed by himself, under "The Evidence Act, 1906," declaring his name in full, occupation, place of abode, age, place and date of birth, nationality, the nature and extent of his mining experience, and that he is in good health and physically fit for the work of the position.

- (c) All nominations received shall be transmitted forthwith to the Minister, who may require further information about any candidate, and proof of any of the facts contained in the declaration accompanying his application, including a medical certificate of health and physical fitness, and a statutory declaration from not less than two respectable persons that they are well acquainted with the candidate and know him to be of sober habits and good character. The Minister may disapprove of any candidate at his discretion, and the nomination of such candidate shall thereupon become void.

- (d) If only one nomination is received for each position vacant and is approved by the Minister the candidate so nominated and approved may be appointed by the Minister without further election or the Minister may call for fresh nominations.

- (e) If more nominations than one for each position vacant are received and approved by the Minister, he shall fix the dates, times, and places at which elections shall be held for each such position, and the Departmental Inspector, as Returning Officer, shall thereupon cause the names and addresses of the duly nominated and approved candidates to be posted up at two or more conspicuous places within each mineral field for which a Workmen's Inspector is to be appointed, and to be advertised not less than twice in a newspaper circulating in such mineral field, and such notices and advertisements shall state the dates, times, and places at which votes may be cast for election of such Workmen's Inspector.

- (f) The Returning Officer shall arrange for voting papers to be given out and ballot boxes to be provided to receive them when duly marked, at such of the principal mines in each mineral field for which a Workmen's Inspector is to be appointed, and/or at such other convenient places as the Minister may direct, and every person voting shall appear personally at one of such places to cast his vote.

- (g) No person shall be entitled to vote who is not employed in a mine in the mineral field for which the election is held, or who, being out of employment at the time of the election, was not last employed in a mine in the said mineral field within a month of the date of the election, but any person who may be out of employment through illness or other cause, and who would be debarred from voting under this clause, may apply to the Departmental Inspector of Mines to be allowed to vote, and may be permitted to vote if the said Departmental Inspector is satisfied that such person has been previously last employed in a mine in the said mineral field, and is not still so employed for good and sufficient reasons beyond his own personal control.

- (h) Before receiving his voting paper from the Returning Officer or his deputy, each voter shall satisfy such officer or deputy by a certificate from the office of the mine at which he is employed, or by personal identification by an officer of the said mine, or by such other evidence as may seem to the Returning Officer to be sufficient that he is entitled to vote at the election. In any case in which the Returning Officer or his deputy is not fully satisfied, he may require the voter to make a statutory declaration showing the grounds on which he claims to be entitled to vote,

- (i) No person shall vote more than once at the same election, and the Returning Officer or his deputy may require any voter, before a voting paper is given to him, to make a statutory declaration that he has not voted previously at the same election.
- (j) No person shall be eligible to vote who is not a natural born or naturalised British subject. The Returning Officer or his deputy may require any person claiming a voting paper to make a statutory declaration that he is a natural born or naturalised British subject.
- (k) Each candidate may scrutinise all evidence submitted to the Returning Officer or his deputy in support of claims to vote, and may have the assistance of one scrutineer appointed by himself at each voting place in doing so and in scrutinising the subsequent counting of the votes.
57. The method of marking the voting papers shall be on the optional preferential system, as follows:—
- (a) In the case of the election of one Workmen's Inspector, the voter shall mark his vote on the voting paper by placing the numeral 1 opposite the name of the candidate for whom he votes as his first preference, and he may, if he so desires, give contingent votes for the remaining candidates, or any of them, by placing numerals 2, 3, 4 and so on opposite their names.
- (b) In the case of the election of two Workmen's Inspectors the voter shall mark his vote on the voting paper by placing numerals 1 and 2 opposite the names of the candidates for whom he votes as his first and second preferences, and he may, if he so desires, give contingent votes for the remaining candidates, or any of them, by placing numerals 3, 4, 5 and so on opposite their names.

The counting of votes shall be on the preferential system as employed in election for the State Parliament, so far as it is applicable, provided that a voting paper shall not be informal if it be marked in accordance with paragraphs (a) and (b) of this clause.

The Minister may authorise alterations in detail as may be deemed necessary by him.

58. When the votes have been counted the Departmental Inspector shall publicly announce the result and post it in writing in a conspicuous place, and shall report it forthwith to the Minister.

59. Any person voting who is not entitled to vote, or voting more than once at the same election, shall be guilty of a breach of the Regulations, and shall be liable to a penalty of not more than Ten pounds for each offence.

60. Returning Officers, Deputy Returning Officers, Presiding Officers, and Poll Clerks appointed to attend at contested elections of Workmen's Inspectors of Mines will be allowed the following fees:—

	£	s.	d.
Returning Officers	4	4	0
Deputy Returning Officers	1	14	6
